THIRD REPORT OF THE COMMITTEE ESTABLISHED IN PURSUANCE OF
SECURITY COUNCIL RESOLUTION 253 (1968)

Addendum

In accordance with the Committee's statement in section IV, paragraph 18 of its third report to the Security Council (S/9844), the Committee transmits herewith to the Security Council a note dated 9 July 1970 prepared by the Secretariat on Southern Rhodesian trade for 1969, together with statistical data.

Note dated 9 July 1970 prepared by the Secretariat
on Southern Rhodesian trade for 1969 together with
statistical data

Southern Rhodesian exports

1. Southern Rhodesia's merchandise exports in 1969 were stated to amount to \$318 million (compared with \$256 million in 1968), but no information was provided as to the direction and nature of these exports. The seventy-two countries whose import statistics are set out in the annex show that Southern Rhodesian exports to them were distributed as follows (in million US dollars): Zambia 30, Malawi 12, Switzerland 4, Federal Republic of Germany 1, other countries (shown in the annex) 6, making a total of about \$53 million (compared with \$75 million in 1968). In addition to this recorded trade, it has been estimated that South Africa received Southern Rhodesian exports amounting to about \$85 million. It would appear, therefore, that some \$180 million of Southern Rhodesian exports have not been reflected in the corresponding 1969 import figures of world trade. This amount of exports appears to have reached world markets via Southern Rhodesia's neighbouring countries and to have been reflected in world trade as imports of the reporting countries from these neighbouring countries.
2. Evidence of the existence of these indirect exports is shown by a comparison of the imports of twenty-three important reporting countries^{1/} from South Africa and Mozambique with the corresponding exports of these two countries for the period 1965-69. The results are as follows:

^{1/} Market economy countries in Western Europe, Canada, Japan, Australia and New Zealand. The United States has not been included in this investigation because its statistical treatment of some strategic commodities, such as uranium ore, differs from that of South Africa.

3. It will be noted from the data shown above that in 1965 there was a discrepancy of \$64 million representing imports received from South Africa and Mozambique by the twenty-three reporting countries over and above the exports that these two countries declared to have sent. These imports were probably shipments despatched overseas by exporters in South Africa and Mozambique, handling merchandise of the ex-Federation of Rhodesia, which were treated as goods in transit by them but were treated as imports from these two countries by the reporting countries. This explanation is supported by the declared exports of Southern Rhodesia, Zambia and Malawi in 1965 to the twenty-three reporting countries and the reported

/...

corresponding imports which show a discrepancy of similar magnitude. It could normally be expected that trade of this nature would have ceased following the implementation of sanctions. Contrary to this expectation, the amount of this indirect trade has increased significantly. In view of the fact that the imports of the twenty-three reporting countries received from Zambia and Malawi in the years following the implementation of sanctions against Southern Rhodesia exceed the corresponding declared exports of these countries, there appears to be little doubt that the bulk of the indirect trade shown in Table I was, in fact, goods of Southern Rhodesian origin.

4. On the statistical evidence, it is therefore possible to analyse Southern Rhodesian exports in 1965-69 as follows:

Table II

Southern Rhodesian Exports 1965-69

5. In comparing Southern Rhodesian exports to world markets via indirect trade, shown in Table II, with the figures shown in Table I as "discrepancies", the amount

/...

of re-exports should be added to the former because the importing countries identify the sources of supply without any distinction between national exports and re-exports. For the period 1967-69, the indirect trade including re-exports amounted to \$382 million while the discrepancy shown by Table I for the same period amounted to \$467 million. The indirect trade must therefore be assumed to lie between those two figures.

Southern Rhodesian imports

6. Southern Rhodesia's imports in 1969 were stated to amount to \$278 million (compared with \$290 million in 1968). The seventy-one countries whose export statistics are set out in the annex show that imports by them from Southern Rhodesia were distributed as follows (in million US dollars): Australia 4, Malawi 3, United Kingdom 2, Switzerland 2, Federal Republic of Germany 1, other countries shown in the annex 2, making a total of about \$15 million (compared with \$44 million in 1968). In addition to this recorded trade, it has been estimated that South Africa sent to Southern Rhodesia \$155 million worth of goods. It would appear, therefore, that some \$108 million of Southern Rhodesian imports have not been reflected in the corresponding 1969 export figures of world trade. The over-all situation of Southern Rhodesian imports for 1965-69 is as follows:

Table III

7. It is not possible, at the present time, to investigate the true situation concerning the unaccounted portion of the Southern Rhodesian imports for the years following the implementation of sanctions. However, in view of the fact that there has been considerable expansion of the import trade of South Africa, Mozambique and Angola (see Table IV below), it requires to be determined whether part of this expansion was in the form of goods which ultimately reached Southern Rhodesia.

Tobacco

8. The most important Southern Rhodesian export commodity was and probably still is tobacco, exports of which amounted to \$1.32 million in 1965. Normally Southern Rhodesian exports of tobacco accounted for approximately 13 per cent of all world exports of unmanufactured tobacco and over twenty-five per cent of flue-cured tobacco. The recorded imports of the reporting countries amounting to \$2.2 million in 1969 were accounted for by Switzerland (\$1.1 million), Federal Republic of Germany (\$0.7 million), Belgium-Luxembourg (\$0.4 million) and Netherlands (\$0.1 million). The corresponding imported quantity of tobacco was 2.1 thousand metric tons. This amount was a small fraction of the tobacco crop of Southern Rhodesia.

9. It will be noted from the data in the annex to this document that the increases of tobacco imports of the reporting countries from the neighbouring countries of Southern Rhodesia during recent years over the level of the earlier periods are of magnitudes which called for investigation. For this reason an analysis was made,

/...

in terms of quantities, of the imports of the reporting countries from the neighbours of Southern Rhodesia, namely, Mozambique, Malawi, Zambia, Angola and South Africa, compared with corresponding exports of these neighbouring countries by direction. The result of this analysis is shown in Table V below:

Table V

^{a/} Zambia exported in 1965 to Southern Rhodesia 9,318 tons, the bulk of which were destined for countries overseas. This fact is substantiated by the evidence that the reporting countries declared 7,950 metric tons as imports from Zambia while Zambia did not record exports of tobacco to the reporting countries. Beginning 1966 Zambia is sending most of its tobacco to Malawi for export overseas.

^{b/} Approximate estimates made on the basis of less than 12 months information.

10. It will be noted from Table V that the imports for 1966 agreed with the corresponding exports. For 1965 the agreement was also good when account is taken of the fact that the reporting countries received eight thousand tons of tobacco

/...

from Zambia which were not reflected in the export statistics of Zambia (see foot-note a of Table V). However in 1967, 1968 and 1969 the imports of the reporting countries from the neighbours of Southern Rhodesia exceeded the corresponding exports of these neighbours by 10.1, 12.7 and 19.8 thousand tons respectively. These amounts may represent Southern Rhodesian tobacco which was able to reach world markets through false declarations of origin.

11. By incorporating the information given above with other elements relating to Southern Rhodesian tobacco, the over-all situation may be summarized as below:

Table VI

a/ 9.7 thousand tons representing the short fall of the 1965 tobacco crop in meeting current export requirements was probably made good by Zambian tobacco (see foot-note a of Table V)

b/ Excess of Southern Rhodesian official exports of 120.7 thousand tons over the imports of 87 thousand tons is explained by: 20.4 thousand tons as stocks held in bond by importing countries and failures in recording as Southern Rhodesian tobacco on account of multilateral trade pattern; 8 thousand tons of Zambian tobacco as part of Southern Rhodesian exports; 5.5 thousand tons as exports to non-reporting countries.

/...

12. In examining the data given above, it becomes apparent that during the three years 1967-1969, following the initiation of sanctions, slightly more than one third (74 thousand tons) of Southern Rhodesian tobacco crops reached world markets. However a substantial amount of tobacco could have reached world markets in various clandestine ways that cannot be detected statistically. This possibility is revealed by the United Kingdom estimate of 126 thousand tons (or \$77 million US dollars) as being stock held by Southern Rhodesia at the end of 1968. According to the data set out in Table VI, the corresponding stock figure should have been 163 thousand tons representing the tobacco accumulated during the period 1966-1968. If the United Kingdom estimate is correct, it would mean that an average of about 12 thousand tons of tobacco was being shipped out annually from Southern Rhodesia in addition to those recorded and inferred in Table VI above.

Asbestos

13. Another important commodity is asbestos, Southern Rhodesian exports of which amounted to \$30 million in 1965. In 1969, there were no imports from Southern Rhodesia by the reporting countries. In 1968, the recorded imports of the reporting countries amounted to \$1.7 million (compared with \$24 million in the year 1965, and \$3.4 million in 1967). This amount was accounted for by the Federal Republic of Germany (\$1.2 million) and the United States (\$0.5 million). The United States explained its imports as shipments before 16 December 1966, the effective date of resolution 232 (1966). Similar to the case for Southern Rhodesian tobacco, there appear to be strong possibilities that Southern Rhodesia is sending asbestos to world markets via its neighbouring countries, chiefly South Africa. In these circumstances, an analysis was made (in terms of quantities) of the imports of the reporting countries from South Africa together with the corresponding exports of South Africa for the period 1965-1969. The results of the analysis are shown in Table VII below:

Table VII

a/ Estimated on the basis of value data; the official quantity figure of 128.8 thousand metric tons appears to be a printing error.

14. It will be noted from Table VII above that, while the imports for 1965 agreed, by and large, with the corresponding exports, those for 1966 and 1967 exceeded the corresponding exports by twenty and eighty-five thousand tons respectively. For 1968 imports of the reporting countries exceeded South African exports by ninety-two thousand tons and for 1969, by ninety-one thousand tons. In view of the fact that the exports of South Africa are consistent with the amount of asbestos it produced, these excesses of imports may possibly be exports of Southern Rhodesian asbestos via South Africa. By incorporating this information with other elements relating to Southern Rhodesian exports, the over-all situation may be summarized as below:

Chrome Ore

15. The chief importer of Southern Rhodesia's chrome ore has been, traditionally, the United States, to which Southern Rhodesia sent \$5 million worth of chrome ore out of total exports of \$10.7 million in 1965. In 1967, the United States imported \$3.4 million worth of chrome ore which was explained by the authorities as goods shipped from Southern Rhodesia before 16 December 1966, and in 1968 imports of Southern Rhodesian chrome ore appear to have virtually ceased. In these circumstances, the possibility of Southern Rhodesian chrome ore being exported to the neighbouring countries was investigated. For this purpose an analysis was made (in terms of gross quantities) of the imports of the reporting countries from South Africa together with the corresponding exports of South Africa for the period 1964-1969. The results of the analysis are shown in Table IX below:

16. It will be noted that, for 1964, total imports and exports agree well; for 1965 and 1966, the sum of the total imports and exports for the two years also agree well, but imports exceeded exports by 128 thousand tons in 1967 and 12 thousand tons in 1968. These differences raise the possibility that they are of Southern Rhodesian origin. However, the estimate of South African exports for 1969 shows an excess of 20 thousand tons over the corresponding imports claimed by the reporting countries. This phenomenon needs investigation.

17. In table X below production of chrome ore in South Africa is compared with its exports and imports.

Table X
Chrome Ore in South Africa
(thousand metric tons gross)

	<u>Production</u>	<u>Imports</u>	<u>Exports</u>

1967	1,149	75	657
1968	1,153	23	817
1969	1,195	35	1,060

It is known that the demand for chrome ore in South Africa has been expanding continuously in recent years. While domestic production of the ore was expanding during 1964-1967, the rate of increase of production however did not seem to be sufficient to meet the demand for increased exports as well as for the expanding domestic requirements. It was necessary therefore to import more chrome ore from Southern Rhodesia during the period 1965-1967 than previously in order to fulfil the export commitment and domestic demand. It was against this background that South Africa, in 1967, appeared to have cut its exports to satisfy domestic needs. Despite the growing domestic requirements and the stability of production South African exports since 1967 have been substantially increased reaching an annual rate of 1,060 thousand tons in 1969 - a figure which appears close to South Africa's total annual production. It is conceivable, therefore, that substantial amounts of Southern Rhodesian ore may have been taken in since 1967 to supplement the short-fall of domestic requirements. This ore taken in by South Africa however did not appear to be registered as imports in South African trade statistics. As shown in table X above, the amount of ore recorded as imports (implicitly from Southern Rhodesia) decreased to an insignificant amount after 1967, a statistical phenomenon that requires explanation since it is not compatible with the

increasing demand in South Africa combined with the heavy exports. Although data on stocks of chrome ore in South Africa are not available, it is not likely that a sizable accumulated stock could have made recent heavy exports possible if the low level of exports in 1967 can be taken as an indication that chrome ore was in short supply in South Africa.

18. The over-all situation of Southern Rhodesian trade in chrome ore can then be summarized as below:

Table XI

Chrome ore situation in Southern Rhodesia

a/ If the unrecorded imports of South Africa, described in paragraph 17 above, were included, the figure would probably be about 250 thousand tons in 1968 and over 300 thousand tons in 1969.

Copper

19. Southern Rhodesia's copper exports in 1965 amounted to \$18.3 million. Of this amount, \$10.6 million were exports to the Federal Republic of Germany, \$1.8 million to Poland, \$1.5 million to the United Kingdom, \$1.4 million to Italy, \$1 million to West Malaysia, and \$2 million were distributed among other countries. The recorded imports of the reporting countries amounted to \$19 million in 1966, \$11 million in 1967 and \$10 million in 1968. The reporting countries show only \$1,000 worth of copper imports from Southern Rhodesia in

in 1969. Since the adoption of resolution 232 of 16 December 1966, the Federal Republic of Germany appeared to be the sole importer of Southern Rhodesian copper in 1967 and 1968.

20. In terms of quantities, the annual curtailment of Southern Rhodesian copper exports for 1966-1968 was gradual, namely from a level in 1965 of 18.4 thousand metric tons to 13.3 in 1966, 10.0 in 1967, 7.8 in 1968 and almost nil in 1969. In view of the fact that both South Africa and Zambia are heavy exporters of copper and that both, in varying degrees, together with Southern Rhodesia use the transport facilities in Mozambique, it is very difficult to determine the true situation.

21. Other important commodities exported by Southern Rhodesia are meat and meat products, sugar, hides, skins and leather, iron ore and pig iron. Imports of these commodities into the reporting countries from Southern Rhodesia in 1969 amounted to \$2.4 million (compared with \$48 million in the year 1965 and \$5.7 million in the year 1968). Because of the small magnitude of the trade involved in each commodity it is not possible to make a comprehensive analysis for each commodity. The difficulty lies in the fact that South Africa and some of the other neighbours are much more important exporters of most of these same commodities. As in the case of copper, it is possible for Southern Rhodesia to export at least some part of these commodities under false declarations, using its neighbours as the origin of these goods. In these circumstances, the inflation of the imports recorded by importing countries in comparison with the corresponding exports of Southern Rhodesia's neighbours would probably not be marked enough to draw any meaningful conclusion. In addition to the possibility described above, South Africa is understood, based on the statistical information relating to its over-all "imports from Africa," to be taking significant amounts of these commodities as imports. These imports are estimated to be at the level of \$2 million worth of meat and meat products annually for 1967-1969, \$1 million of sugar, \$4-6 million of pig iron. Furthermore, it is conceivable that, on account of the heavy traffic of ocean transport via Mozambique and South Africa since the closure of the Suez Canal, demand on meats and other provisions in the form of ships' stores could have provided an important outlet for the produce of Southern Rhodesia. Indeed, available statistics regarding South African meat in the form of ships' stores registered important increases

in recent periods. It is possible that Southern Rhodesia, whose produce is more competitive, may very well have benefited from the expansion of this market.

Maize

22. Southern Rhodesia normally produced about 850 thousand metric tons of maize mainly for domestic consumption. Its exports and imports of this commodity were insignificant. As a result, however, of the régime's attempts to encourage agricultural diversification to compensate for the reduction in tobacco exports due to sanctions, there has been a substantial increase in the acreage under maize. Based on the most recent information of an annual production of 950 thousand metric tons in 1966, it is estimated that the amounts produced in 1967, 1968 and 1969 could perhaps reach as high as 1.3, 1.1* and 1.3 million tons respectively. Against the annual domestic requirement of 850 thousand metric tons, these figures could mean that Southern Rhodesia should have a stock of 1,150 thousand tons from crops harvested in these three years available for export. Indeed most of such an amount as available evidence indicates, could have been shipped out via Mozambique.

23. Mozambique normally produced about 150 thousand tons of maize also mainly for domestic consumption. In 1965 it imported 43 thousand tons (7 thousand in 1966) to supplement the locally-produced maize for domestic consumption, estimated to be about 180 thousand tons per annum. Nothing was imported since 1966 according to official published sources. There had been practically no exports of maize until 1967 in which year 25 thousand tons were sent to Portugal. During the year 1968 Mozambique reported exports of 122 thousand tons to the following three countries: 99 thousand tons to Portugal, 11 thousand tons to the Netherlands and 12 thousand tons to the United Arab Republic. During the first five months in 1969 total exports of Mozambique were 14 thousand tons. However, a detailed study of import data published by maize-importing countries revealed the following:

* Because of adverse seasonal factors maize production was reduced substantially in 1968 from the 1967 level.

24. It will be noted from the data shown above that by comparing the aggregate amount of the imports of maize supposedly of Mozambique origin received by the importing countries during the period 1967-1969 (approximately 1.1 million tons), with the amount of exports reported by Mozambique (122 thousand tons), there is a gap of about one million tons for the period, which may be maize exported by Southern Rhodesia via Mozambique.

25. A similar study of South Africa's trade in maize revealed substantial agreement between the exports recorded in South Africa's trade returns and the imports reported by reporting countries as shown below.

c/ Imports from South Africa by reporting countries.

d/ Estimate based on eleven months data.

26. Substantial agreement is also revealed by study of the trade in maize of Angola and Malawi.

27. Exports of the reporting countries to Southern Rhodesia of the four commodity groups specified in resolution 232 (1966), paragraph 2 (d)-(f), namely motor vehicles and their parts, petroleum products, crude petroleum and aircraft and their parts amounted to approximately \$0.1 million in 1969 (compared with \$36 million in the year 1965, \$1.2 million in the year 1967 and \$0.3 million in the year 1968).

Motor vehicles and their parts

28. Among the four commodity groups, motor vehicles and their parts are the most important group. In 1969 the reporting countries exported \$0.1 million of these commodities to Southern Rhodesia (compared with \$34 million in the year 1965, \$6.1 million in the year 1966, \$1.0 million in the year 1967 and \$0.2 million in the year 1968).

29. There appears to be a strong possibility that Southern Rhodesia may be receiving motor vehicles and their parts through neighbouring countries. This

possibility is strengthened by the fact that Southern Rhodesia is maintaining its exporting pattern of this commodity group to its neighbouring countries. Malawi, for instance, reported annual imports of \$0.5 million from Southern Rhodesia of motor vehicles and their parts during 1967-1968 (compared with \$1.3 million in 1965). For this reason, an analysis was made (in terms of value^{1/}) of the exports of the reporting countries to South Africa and also to Mozambique, Angola and Zambia together with the corresponding imports by the above-mentioned countries from the reporting countries. The results of the analysis are shown in tables XIV and XV below.

a/ Estimate.

30. It may be noted from the tables above that in the year 1965 exports agree well with the corresponding imports. However, in the years 1966, 1967, 1968 and 1969 exports exceeded the corresponding imports by \$26, \$10, \$23 and \$31 million respectively.

31. The figures quoted above would indicate that approximately \$22 million worth of motor vehicles and their parts, not officially designating Southern Rhodesia as the actual destination, could have reached Southern Rhodesian markets yearly. Furthermore, South Africa (not a reporting country) traditionally exported a substantial amount of motor vehicles and their parts to Southern Rhodesia. The amount of \$2.2 million was reported by Southern Rhodesia for 1965. Although South Africa has not released a meaningful analysis by country of destination for this commodity group since 1964, a study of its partner countries' data makes it possible to estimate the approximate amount that Southern Rhodesia has received from South Africa.

33. As to petroleum supplies to Southern Rhodesia, no meaningful evaluation of the situation is possible from the data reported by the reporting countries listed in the annex. It is known, however, that, following the closure of the only Southern Rhodesian refinery at Umtali in January 1966, no imports of crude petroleum are required. Iran, Bahrain and Saudi Arabia were normal major suppliers of petroleum products not only to Southern Rhodesia but also to South Africa, Mozambique and Angola. However there is indication that major sources of supply of these commodities to Southern Rhodesia were shifted to South Africa in the period 1966-1969. Based on available statistics, it is estimated that between \$40-\$50 million worth of fuel was exported by South Africa to Southern Rhodesia in these four years. The remainder of Southern Rhodesia's normal requirement of about \$60-\$70 million was most likely supplied by South Africa, but presumably without statistical recording in the regular trade statistics as suggested in paragraph 6 above.

34. In evaluating the import pattern of Southern Rhodesian trade for the periods following the application of economic sanctions it is not possible to give a commodity analysis as comprehensive as in the case for its export pattern

for the reason that Southern Rhodesia's exports are concentrated in a few primary commodities while its imports are much more diversified. For instance, the export commodities discussed in this note accounted for 59 per cent of the total Southern Rhodesian exports in 1965 while the four import commodities discussed in the preceding paragraphs accounted for only 16 per cent of total Southern Rhodesian imports in 1965.

The quotas are compounded on the basis of the average import quantity of the commodity during the previous three years. Fluctuations are furthermore possible between the years, as the use of a yearly quota requested in December may only appear in the trade statistics of the first three months of the following year, the reason being that the import licences granted within the quota are generally valid for three months."

1/ JANUARY - JUNE (IN THOUSAND US\$) 498.

2/ SEE THE OFFICIAL DECLARATION OF THE SWISS GOVERNMENT CONTAINED IN ANNEX II TO UNITED NATIONS DOCUMENT S/7781.

3/ 'THE SWISS IMPORTER IS AUTHORIZED TO MAKE USE OF HIS YEARLY QUOTA ANY TIME OF THE YEAR, E.G. IN THE EARLY MONTHS OF THE YEAR 1967. THE QUOTAS ARE COMPOUNDED ON THE BASIS OF THE AVERAGE IMPORT QUANTITY OF THE COMMODITY DURING THE PREVIOUS THREE YEARS. FLUCTUATIONS ARE FURTHERMORE POSSIBLE BETWEEN THE YEARS, AS THE USE OF A YEARLY QUOTA REQUESTED IN DECEMBER MAY ONLY APPEAR IN THE TRADE STATISTICS OF THE FIRST THREE MONTHS OF THE FOLLOWING YEAR, THE REASON BEING THAT THE IMPORT LICENCES GRANTED WITHIN THE QUOTA ARE GENERALLY VALID FOR THREE MONTHS.'

4/ REFERS TO TRADE WITH THE FEDERATION OF RHODESIA AND NYASALAND.

* TOTAL EXPORTS OF SOUTHERN RHODESIA, IN 1965, TO ALL DESTINATIONS (IN THOUSAND US\$) 6 436.

1/ SEE THE OFFICIAL DECLARATION OF THE SWISS GOVERNMENT CONTAINED IN ANNEX II TO UNITED NATIONS DOCUMENT S/7781.

2/ THE SWISS IMPORTER IS AUTHORIZED TO MAKE USE OF HIS YEARLY QUOTA ANY TIME OF THE YEAR, E.G. IN THE EARLY MONTHS OF THE YEAR 1967. THE QUOTAS ARE COMPOUNDED ON THE BASIS OF THE AVERAGE IMPORT QUANTITY OF THE COMMODITY DURING THE PREVIOUS THREE YEARS. FLUCTUATIONS ARE FURTHERMORE POSSIBLE BETWEEN THE YEARS, AS THE USE OF A YEARLY QUOTA REQUESTED IN DECEMBER MAY ONLY APPEAR IN THE TRADE STATISTICS OF THE FIRST THREE MONTHS OF THE FOLLOWING YEAR, THE REASON BEING THAT THE IMPORT LICENCES GRANTED WITHIN THE QUOTA ARE GENERALLY VALID FOR THREE MONTHS.

3/ REFERS TO TRADE WITH THE FEDERATION OF RHODESIA AND NYASALAND.

4/ 21 MARCH 1968 - 20 MARCH 1969.

5/ INCLUDES MEAT AS WELL AS MEAT PRODUCTS.

2/ *REPRESENTS INDIRECT SHIPMENT THAT ARRIVED IN THE UNITED STATES IN DECEMBER 1966. STATISTICAL ENTRY WAS DELAYED UNTIL JANUARY 1967.*

3/ *ONLY IMPORTS FROM WAREHOUSES OF THE SURVEY AREA ORIGINATING FROM THE 1965 HARVEST OR EARLIER HARVESTS.*

4/ *THESE IMPORTS ARISE FROM THE FACT THAT PRIOR TO THE ADOPTION OF SECURITY COUNCIL RESOLUTION 232, CONSIDERABLE QUANTITIES OF RHODESIAN TOBACCO WERE HELD BY DUTCH IMPORTERS AND TOBACCO MANUFACTURERS IN BONDED STORAGE IN VARIOUS PORTS OUTSIDE RHODESIA. SINCE THESE STOCKS CONSIST OF TOBACCO EXPORTED FROM SOUTHERN RHODESIA PRIOR TO DECEMBER 16, 1966, THE PROVISIONS OF RESOLUTION 232 DO NOT APPLY TO THEM. THIS TOBACCO IS ONLY GRADUALLY TAKEN OUT OF BONDED STORAGE ACCORDING TO THE NEEDS OF THE TOBACCO INDUSTRY. AS SUCH STOCKS ARE STILL CONSIDERABLE, IT IS TO BE EXPECTED THAT THEY WILL NOT BE EXHAUSTED BEFORE THE END OF 1967 AND POSSIBLY EVEN LATER. THE NETHERLANDS GOVERNMENT HAS TAKEN STRICT MEASURES TO ENSURE THAT ONLY RHODESIAN TOBACCO EXPORTED FROM THAT TERRITORY BEFORE DECEMBER 16, 1966, CAN BE IMPORTED INTO THE NETHERLANDS.*

5/ JANUARY - JUNE (IN THOUSAND US\$) 334.

6/ SEE THE OFFICIAL DECLARATION OF THE SWISS GOVERNMENT CONTAINED IN ANNEX II TO UNITED NATIONS DOCUMENT S/7781.

7/ *THE SWISS IMPORTER IS AUTHORIZED TO MAKE USE OF HIS YEARLY QUOTA ANY TIME OF THE YEAR, E.G. IN THE EARLY MONTHS OF THE YEAR 1967. THE QUOTAS ARE COMPOUNDED ON THE BASIS OF THE AVERAGE IMPORT QUANTITY OF THE COMMODITY DURING THE PREVIOUS THREE YEARS. FLUCTUATIONS ARE FURTHERMORE POSSIBLE BETWEEN THE YEARS, AS THE USE OF A YEARLY QUOTA REQUESTED IN DECEMBER MAY ONLY APPEAR IN THE TRADE STATISTICS OF THE FIRST THREE MONTHS OF THE FOLLOWING YEAR, THE REASON BEING THAT THE IMPORT LICENCES GRANTED WITHIN THE QUOTA ARE GENERALLY VALID FOR THREE MONTHS.*

8/ *TOBACCO DESPATCHED FROM SOUTHERN RHODESIA PRIOR TO 18 JANUARY 1966, THE DATE OF THE ORDER BY THE GOVERNMENT OF IRELAND UNDER WHICH IMPORTS OF TOBACCO FROM SOUTHERN RHODESIA INTO IRELAND WERE PREVENTED.*

9/ *TOBACCO WAREHOUSED IN JANUARY 1966, EX WAREHOUSE IN JANUARY AND FEBRUARY 1967.*
