### Summary

The present report contains the budget for the United Nations Organization Mission in the Democratic Republic of the Congo (MONUC) for the period from 1 July 2003 to 30 June 2004, which amounts to \$677,312,300, inclusive of budgeted voluntary contributions in kind in the amount of \$2,274,000. Owing to the adjustment of the Mission's mandate by the Security Council in its resolution 1493 (2003) of 28 July 2003, the present report supersedes budgetary proposals contained in the reports of the Secretary-General on the financing of MONUC dated 19 December 2002 (A/57/683) and 10 March 2003 (A/57/683/Add.1).

The budget provides for the phased deployment of 10,040 troops, 760 military observers, 182 civilian police, 938 international staff, 1,299 national staff, including 25 National Officers and 419 United Nations Volunteers.

## I. Mandate and planned results

1. The mandate of the Mission was established by Security Council resolution 1291 (2000) of 24 February 2000. The continuation and adjustment of the mandate was provided by the Security Council in its resolution 1493 (2003) of 28 July 2003.
2. The Mission is mandated to help the Security Council to achieve an overall objective, namely, to maintain international peace and security. Within this overall objective, the Mission has been mandated by the Security Council to carry out activities set out in its resolution 1493 (2003).
3. During the budget period, the Mission will, through its mandated activities, produce a number of key outputs which will contribute to the expected accomplishments shown in the frameworks below. These frameworks are grouped by five components, namely: peace and security in the Democratic Republic of the Congo; Transitional Government and elections; rule of law and human rights; human dimension of sustainable peace; and support, which reflect the common programmatic nature of the expected accomplishments and outputs contained in these components.
4. The expected accomplishments would lead to fulfilment of the Security Council's objective within the time frame of the Mission and the indicators of achievement would provide a measurement of progress towards such accomplishments. The financial resources for operational items have been linked to support component by identifying at least one quantitative output for each of the major operational classes.
5. The budget provides for the phased deployment of 760 military observers, 10,040 military contingents, 182 civilian police, 938 international staff, 1,299 national staff, including 25 National Officers and 419 United Nations Volunteers, as well as for the administrative and logistical support to its military and civilian personnel deployed in Kinshasa and 21 liaison and field offices in the mission area.

<sup>a</sup> Includes the Protocol Unit, Office of the Senior Community Relations Officer and the Quick-Impact Projects Unit.

10. The Special Representative of the Secretary-General at the Under-Secretary-General level assists the Secretary-General in the implementation of the MONUC mandate and is responsible for the overall management of the Mission and coordination of all activities of the United Nations in the Democratic Republic of the Congo. The Special Representative is supported by two Deputy Special Representatives at the Assistant Secretary-General level who oversee the work programmes of the Mandate Planning and Tracking Unit, the Legal Affairs Section, the Office of the Senior Community Relations Officer and the Quick-Impact Projects Unit. Other staff directly reporting to the Special Representative are the Force Commander, the Civilian Police Commissioner and the Director of the Political Affairs Division, as well as the heads of three liaison offices in Pretoria, Kigali and Kampala and 12 field offices in nine provinces of the Democratic Republic of the Congo.

11. The immediate office of the Special Representative of the Secretary-General includes a Chief of Staff, two special assistants, a Donor Coordination and Project Evaluation Officer and a Protocol Unit. The Office is supported by six secretaries/clerks (2 General Service (Other level) and 4 national staff) and five drivers (national staff).

12. The Chief of Staff (D-2) runs the Office of the Special Representative, provides policy and strategic advice to, and assists him in the overall coordination of the Mission's activities, liaises daily and serves as the main interlocutor with heads of liaison and field offices on operational matters and manages the information flow between United Nations Headquarters and the Mission, as well as within the Mission senior management team.

13. A senior special assistant (P-5) and a special assistant (P-3) provide direct support to the Special Representative in the discharge of his functions, draft speeches, prepare visual presentations and briefing notes, support the Special Representative in political consultations with the national and regional actors and serve as a focal point for MONUC for constituency-building with donors, the diplomatic community, non-governmental organizations and the media.

14. The Donor Coordination and Project Evaluation Officer (P-3) provides advice to the Special Representative of the Secretary-General and coordinates the Mission's fund-raising activities, liaises with donors, reviews project documentation and evaluates project proposals for donor funding complementary to the programmes financed by the Mission's budget.

**(a) Protocol Unit**

15. The Unit, headed by a Chief of Protocol (P-4) and assisted by a protocol officer (P-3), supports the Special Representative by planning and organization of all protocol activities and services in accordance with internationally accepted protocol standards.

**(b) Office of the Senior Community Relations Officer**

16. The Senior Community Relations Officer (P-5) provides advice to the Special Representative on redressing complaints and grievances of Congolese civil society and United Nations agencies in respect of the conduct of the Mission's military personnel, civilian police and international staff. The Senior Community Relations Officer would be supported by a secretary (General Service (Other level)) and a driver (national staff).

**(c) Quick-Impact Projects Unit**

17. An Administrative Officer (P-3) coordinates the activities of the Unit, conducts analysis of project proposals, makes recommendations to the Mission's Project Review Committee, prepares financial analyses and responses to the Unit's project proposals, monitors implementation of approved projects and provides guidelines to implementing partners. The head of the Unit would be supported by a secretary (national staff).

The Division is headed by a Director at the D-1 level and plans, organizes and conducts operations to disarm, demobilize and repatriate foreign combatants in the territory of the Democratic Republic of the Congo; supports the Mission's Division of Disarmament, Demobilization, Repatriation, Resettlement and Reintegration Steering Committee for disarmament, demobilization, repatriation, resettlement and reintegration policy and operations; liaises with the officials of the Transitional Government, the World Bank and Multi-Country Demobilization and Reintegration Programme in the Great Lakes region, the United Nations specialized agencies and non-governmental organizations; assists the Transitional Government in disarming and demobilizing Congolese combatants who may voluntarily decide to enter the disarmament, demobilization and reintegration process within the framework of the Programme, and establishes a national disarmament, demobilization and reintegration programme in coordination with the United Nations Development Programme (UNDP) and other concerned agencies. The Division also provides inputs to the reports of the Secretary-General and briefings to the Security Council.

38. The Division would also require a Deputy Director (P-5) who assists the Director in the overall planning and management of the Mission's disarmament, demobilization, repatriation, resettlement and reintegration activities, liaises with Government and local authorities and field offices and plans and conducts rapid response operations. Four disarmament, demobilization, repatriation, resettlement and reintegration officers (2 P-4 and 2 P-3) are requested to liaise with the World Bank, United Nations agencies, non-governmental organizations and civil society in the Democratic Republic of the Congo, draft reports and provide inputs in the centralized disarmament, demobilization, repatriation, resettlement and reintegration database. Two disarmament, demobilization, repatriation, resettlement and reintegration assistants (United Nations Volunteers) support the rapid response operations, conduct field surveys and maintain the centralized database. Eight interpreters or translators (national staff) would translate and interpret from and into French, Swahili and Kinyarwanda and support the field offices, as required. An administrative assistant (Field Service) and a secretary (Field Service) would provide administrative and secretarial support to the Division as a whole.

39. The Division would deploy its staff to Butembo, Goma, Bukavu, the disarmament, demobilization, repatriation, resettlement and reintegration reception centre in Lubero and to Kigali (Rwanda). The staff in the field establish and maintain contact with armed groups and with the local de facto civilian and military authorities; sensitize armed groups about the Mission's disarmament, demobilization, repatriation, resettlement and reintegration activities and conditions in Rwanda; organize and conduct voluntary disarmament, demobilization and repatriation operations; maintain statistics and issue regular reports. Each of the four disarmament, demobilization, repatriation, resettlement and reintegration field offices comprises a team leader (P-4), four disarmament, demobilization, repatriation, resettlement and reintegration officers (2 P-3 and 2 UNVs) supported by an administrative assistant (Field Service) and two drivers/messengers (national staff). The Reception Centre would comprise two disarmament, demobilization, repatriation, resettlement and reintegration officers (United Nations Volunteers). The Division's personnel assigned to the field may be redeployed as necessary throughout the Democratic Republic of the Congo to support disarmament and demobilization of Congolese combatants who may voluntarily decide to enter the disarmament, demobilization and reintegration process at any time.

57. The Child Protection Section contributes to expected accomplishments 1.4, 3.1 and 4.2 and supports the related outputs in framework components 1, 3 and 4. The Section is headed by a senior child protection officer (P-5) who monitors, documents and reports on the use of child soldiers in armed conflict; participates in special investigation teams and assessment missions concerning serious human rights abuses against minors; establishes mechanisms to address impunity and advocates the disarmament, demobilization and reintegration of Congolese child soldiers by planning and implementation of disarmament, demobilization, repatriation, resettlement and reintegration operations; liaises with and advocates the Transitional Government for new child protection legislation and institutional reforms; and conducts training and sensitization sessions in support of child protection non-governmental organizations and local government authorities.

58. In Kinshasa, the Section comprises three child protection officers (1 P-4 and 2 P-3) who monitor Transitional Government activities and advocate for strengthened child protection laws, institutional reforms and transitional justice, facilitate awareness of national and local authorities on children in armed conflicts and prevention of violence against minors, coordinate the disarmament, demobilization and reintegration of child soldiers and prepare reports and briefing notes. The Section is supported by an administrative assistant (General Service (Other level)), a clerk/driver (national staff) and an interpreter/translator (national staff).

59. The Section would deploy 12 child protection advisers (2 P-4 and 10 P-3) supported by 10 staff (National Officers), a child protection officer (P-2) and 4 child

protection assistants (United Nations Volunteers) to Kisangani, Bunia, Goma, Beni/Butembo, Bukavu, Uvira, Kindu, Gbadolite, Mbandaka, Lubumbashi, Kalemie, Mbuji-Mayi and Kananga.

#### Division of Administration

60. The Division of Administration provides administrative, logistical and technical support to the military, civilian police and substantive components of MONUC in the implementation of the Mission's mandate, as reflected in framework component 5 and related outputs. The proposed staffing establishment for the Division takes into account the wide geographical dispersion of the Mission's military and civilian personnel throughout the country and the lack of the basic surface, river and air transportation, communications, supply and re-supply, medical and financial infrastructure, as well as degraded or non-existent accommodation facilities in the Democratic Republic of the Congo. In addition to the Mission's headquarters in Kinshasa, the Division will deploy its staff to six sectors established in provincial capitals and major towns of the Democratic Republic of the Congo, as well as to 14 other locations throughout the country and in the mission area where MONUC has established its presence. The Division is headed by a Director of Administration and comprises the Office of the Director, Administrative Services and Integrated Support Services.

74. The Procurement Section is headed by a Chief Procurement Officer (P-5), who has responsibility for the local and international procurement of goods and services for the Mission; develops procurement sources and maintains a roster of vendors; conducts market surveys; and monitors contracts implementation. The Section includes the Contracts, Purchasing, Processing and Regional Support Units.

75. At Mission headquarters in Kinshasa, the Section comprises four procurement officers (1 P-4 and 3 P-3), assisted by six procurement assistants (3 Field Service and 3 United Nations Volunteers) and a secretary (national staff) who negotiate, prepare, process and monitor performance of service contracts entered into by the Mission, organize disposal of written-off equipment; three procurement officers (1 P-4 and 2 P-3), supported by five procurement assistants (1 Field Service, 2 General Service (Other level) and 2 United Nations Volunteers) and two procurement clerks (national staff), who negotiate, prepare, process and monitor performance of local purchase contracts entered into by the Mission; a procurement officer (P-3), supported by three procurement assistants (1 Field Service, 1 General Service (Other level) and 1 United Nations Volunteer) and two procurement clerks

(national staff), who coordinate the vendor payment process, liaise with requisitioning offices, close and archive purchase order cases.

76. The Section will establish a Regional Support Unit in Bunia and will deploy three procurement officers (1 P-4 and 2 P-3), seven procurement assistants (1 Field Service, 5 General Service (Other level) and 1 United Nations Volunteer) and six procurement clerks (national staff) to Bunia, Kisangani, Goma, Kalemie, Bukavu, Kindu and Pretoria.

77. The General Services Section is headed by a chief general services officer (P-5), supported by an administrative clerk (national staff), who provides for property control and maintenance of Mission's assets inventory, maintenance of the field assets control system, processing of claims and property survey cases, travel arrangements and visa services, mail/pouch operations, documents reproduction services, registry and electronic archives, facilities and camp management services. The Section includes the Claims and Property Survey, Travel, Archives/Records Management and Reproduction, Mail/Diplomatic Pouch, Property Control and Receipt and Inventory Units.

78. In Kinshasa, the Section comprises two claims/property survey officers (1 P-3 and 1 P-2), supported by four claims/property survey assistants (Field Service) and an administrative assistant (General Service (Other level)), who process third-party claims against the United Nations, claims for loss or damage to personal effects of mission personnel, property write-offs and service the Local Property Survey and Local Claims Review Boards; a travel/visa officer (P-3), supported by eight travel assistants (5 Field Service, 1 General Service (Other level) and 2 United Nations Volunteers), a travel clerk (national staff) two airport assistants (national staff) and two bus drivers (national staff), who is responsible for official travel and visa arrangements, liaison with the airport and immigration authorities, transportation of staff to and from the airport; an archives/records management and reproduction officer (P-2), supported by a documents imaging officer (Field Service), an administrative assistant (United Nations Volunteer) and two documents reproduction clerks (national staff), who establishes and manages the Mission's electronic archives and documents reproduction; a mail/diplomatic pouch officer (Field Service), supported by a pouch officer (Field Service), mail distribution officer (Field Service), two pouch clerks (national staff), five messengers (national staff) and a courier/driver (national staff) who deliver and collect incoming and outgoing mail, including contingent mail, manage pouch operations throughout the Mission area; a property control officer (Field Service), supported by four property control assistants (one General Service (Other level) and three United Nations Volunteers) and three inventory clerks (national staff), who is responsible for the management and maintenance of the Mission's field assets control system, inventory, assets disposition and write-off reports; two receipt and inspection officers (Field Service), supported by three receipt and inspection assistants (United Nations Volunteers), 10 assets inspectors (national staff) and two movers (national staff), who receive, inspect and record, in the field assets control system, the Mission's assets, produce damage/discrepancy reports; a facilities/camp manager officer (P-3), supported by six camp managers (United Nations Volunteers), four camp management clerks (national staff), two administrative assistants (national staff) and four forklift operators/heavy vehicle drivers (national staff), who operate and maintain buildings and related infrastructure, develop and implement office allocation plans, monitor and supervise contractual camp management services.

79. The Section would deploy six general services officers (P-3), 32 general services assistants (8 Field Service, 10 General Service (Other level) and 14 United Nations Volunteers), 22 camp managers (1 P-2, 2 Field Service, 3 General Service (Other level) and 19 United Nations Volunteers), 84 general services clerks, camp managers, drivers and movers (national staff) to Bunia, Kisangani, Bukavu, Kindu, Kananga, Kalemie, Goma, Mbandaka, Kigali and Kigoma.

80. The Medical Services Section is headed by a chief medical officer (P-5) supported by an administrative assistant (Field Service) who coordinates and delivers integrated civilian-military medical services, organizes medical care, health maintenance and preventative medical treatment of all MONUC personnel, coordinates medical and casualty evacuations within and outside mission area, plans for medical contingencies, provides for inspection of contingent-owned and operated medical facilities.

81. In Kinshasa, the Section comprises three medical officers (1 P-4 and 2 United Nations Volunteers) supported by a medical administrative assistant (General Service (Other level)), five nurses (national staff), a warehouse assistant (national staff), two laboratory technicians (1 United Nations Volunteer and 1 national staff), a dentist (United Nations Volunteer), a pharmacist (United Nations Volunteer) and three ambulance drivers (national staff), who provide medical services to the Mission's personnel in Kinshasa, operate two clinics and laboratories and arrange hospitalization of MONUC personnel, as required. The Section would deploy 14 medical officers (4 P-3 and 10 United Nations Volunteers), 19 nurses (2 United Nations Volunteers and 17 national staff), two medical administrative assistants (United Nations Volunteers) and eight ambulance drivers (national staff) to Bunia, Goma, Mbandaka, Kisangani, Kindu, Kalemie and Kananga.

82. The Contracts Management Section is headed by a chief contract management officer (P-5), supported by a contracts management officer (P-4) and an administrative clerk/driver (national staff) and would manage and administer 25 major high-value contracts for the mission covering airfield services and airfield rehabilitation projects, provision of fuel and rations, chartered commercial aircraft, contracted medical, catering and specialized communications support services, implement quality-assurance programmes, monitor compliance with the terms and conditions of contractual arrangements entered into by the Mission. The Section comprises the Airfield Services Contract Unit; the Airfield Rehabilitation Inter-Agency Agreement Unit; the Rations Contract Unit; Catering, Medical and Specialized Communications Services Contracts, Fuel Contracts; the Air Charters Unit; the Invoicing and Administration Units and the Kigoma (Tanzania) detachment.

83. The Section comprises a contracts management officer (P-3), supported by two contracts management assistants (Field Service) who manage and administer the Airfield Services contract and implement a quality assurance surveillance programme; allocate the United Nations-owned equipment to the contractor; a contracts management officer (P-3) supported by two contracts management assistants (1 Field Service and 1 United Nations Volunteer) who manage and administer the inter-agency agreement with the International Civil Aviation Organization (ICAO) and liaise and coordinate with the ICAO Programme Management Office and the Mission's Aviation and Engineering and Buildings Management Sections on all contract implementation matters; a contracts

management officer (P-3), supported by three contracts management assistants (2 Field Service and 1 United Nations Volunteer) who manage and administer the rations contract, conduct joint inspections of contractor warehouses, monitor contractor's compliance with the rations scale; a contracts management officer (P-3), supported by three contracts management assistants (1 Field Service and 2 United Nations Volunteers) who manage and administer catering, medical and specialized communications services contracts entered into with the providers of catering and communications services and the Centre medical de Kinshasa; a contracts management officer (P-3), supported by a contracts management assistant (Field Service) who manage and administer aviation charter contracts, monitor contractors' performance, implement a quality assurance surveillance programme, coordinate with the Mission's Aviation Section on all matters related to the implementation of contracts; a contracts management officer (P-3) supported by a contracts management assistant (Field Service) and a clerk/driver (national staff) who manage and administer the main and secondary aviation, diesel, gasoline and petroleum products contracts, monitor implementation of contracts and expenditures, ensure compliance with the terms and conditions of contracts; a contracts management officer (P-3), supported by three contracts management assistants (2 Field Service and 1 United Nations Volunteer) and four contracts clerks (national staff) who review and process contractors' invoices, coordinate invoices processing with the concerned Administrative Services sections and consolidate and monitor expenditures.

84. To coordinate distribution of rations to military contingents in the east of the country from the contractor's warehouse in Kigoma (Tanzania) and implementation of fuel contracts with the vendors in that area, the Section would deploy a contracts management officer (P-3), supported by a clerk/driver (national staff) to its Kigoma detachment.

85. The Integrated Support Services would be headed by a Chief of Integrated Support Services (D-1) who plans, coordinates and delivers the technical and logistical support to the Mission's substantive, military and civilian police components, including the integrated civilian-military logistics support planning, implements engineering projects and maintenance of buildings, air and transport operations, communications and information technology services, provision of general supplies and movement of equipment, goods and supplies throughout the mission area. The Integrated Support Services comprise the Office of the Chief, Joint Logistics Operations Centre, the Supply, Engineering, Communications and

Information Technology, Movement Control, Transport and Aviation Sections, as well as a Contingent-owned Equipment Verification Unit and a Geographical Information Systems Unit.

86. The Office of the Chief of the Integrated Support Services comprises an operations officer (P-3) and an administrative officer (P-2), who assist the Chief in the discharge of his or her functions, plan and coordinate logistical and technical support activities of the Mission and follow up on operational matters with the Services' sections, liaise with the Office of the Chief of Administrative Services and with those section chiefs in matters related to the coordinated implementation of mission support plans, coordinate Integrated Support Services inputs in the Mission's budget proposals; two administrative assistants (1 Field Service and 1 General Service (Other level)), a logistical assistant (United Nations Volunteer) and a secretary (national staff).

87. The Joint Logistics Operation Centre is headed by a Chief joint logistics operation centre officer (P-5) who, through integrated military-civilian structures, provides support to the deployment, redeployment and sustainment of military contingents and civilian personnel deployed in the mission area. In Kinshasa, the Centre comprises two logistics operations officers (1 P-4 and 1 P-2), 10 logistics operations desk officers (4 Field Service and 6 United Nations Volunteers), supported by two clerks/drivers who plan, coordinate, direct and monitor logistic operations in the field, coordinate implementation of logistical support tasks between Integrated Support Services sections, collect information on logistical support requirements in the field and maintain databases and conduct regular field assessment missions. The Centre would deploy eight logistics operations officers (2 P-4, 5 P-3 and 1 P-2), 16 logistics operations desk officers (5 Field Service and 11 United Nations Volunteers), eight logistics operations assistants (General Service (Other level)) and 11 clerks/drivers (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

88. The Contingent-owned Equipment Unit is headed by a Chief (P-4), who conducts contingent-owned equipment arrival, periodical and repatriation inspections and verifications, produces inspection, verification and contingent self-sustainment reports and maintains databases, arranges for the training of contingent personnel in the United Nations contingent-owned equipment policies and procedures. In Kinshasa, the Unit comprises a memorandum of understanding officer (P-3), an administrative assistant (Field Service) and 12 contingent-owned equipment inspection and verification assistants (United Nations Volunteers). The Unit would deploy six contingent-owned equipment inspection and verification officers (United Nations Volunteers) and one administrative assistant (General Service (Other level)) to Bunia, Kisangani and Kindu.

89. The Supply Section is headed by a chief supply officer (P-5), who implements the Mission's expendable and non-expendable commodities supply programme, administers and arranges for replenishment of specialized stores, general supplies, aviation and diesel fuel, gasoline, oil and lubricants, drinking and bulk water and rations, warehousing and distribution of supplies throughout the mission area. The Section comprises two supply officers (P-3), 13 supply assistants (4 General Service (Other level) and 9 United Nations Volunteers) and 15 clerks/drivers (national staff). The Section includes a Fuel Unit.

90. The Section would deploy three supply officers (P-3), 28 supply assistants (6 General Service (Other level), six Field Service and 16 United Nations Volunteers) and 34 supply clerks (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

91. The Fuel Unit is headed by a Chief (P-4) who manages the technical aspects of the distribution and storage of fuel and petroleum products; coordinates fuel operations in the mission area; plans and forecasts fuel requirements; monitors fuel consumption and initiates timely replenishment of stocks; liaises with vendors and distributors in operational matters; and monitors fuel quality. The Unit comprises a fuel planning officer (P-3), three fuel assistants (General Service (Other level)) and six fuel clerks (national staff). The Unit would deploy three fuel planning officers (2 P-3 and 1 P-2), 12 fuel assistants (6 Field Service and 6 United Nations Volunteers), two administrative assistants (General Service (Other level)) and 21 fuel clerks (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

92. The Engineering Section is headed by a chief engineer (P-5), who plans engineering work in the mission area, implements construction and buildings and facilities refurbishment projects and supervises implementation of contractual engineering work, arranges for the maintenance of the Mission's office premises and accommodation facilities, administers engineering stores and supplies, provides for the installation and operation of water-purification and bottling plants and supervises the operational aspects of implementation of the Inter-Agency Airfield Rehabilitation Agreement. The Section includes the Geographical Information Systems Unit. In Kinshasa, the Section comprises a Regional Engineer (P-4), who assists the Chief Engineer in managing engineering services in the east of the Democratic Republic of the Congo, four engineers (P-3), who manage and supervise the airfield rehabilitation projects, water-purification and bottling operations, provide for the management of engineering assets, supplies and materials and ongoing maintenance services; five engineering assistants (Field Service), two administrative assistants (General Service (Other level)), two site engineers (national officers), a computer-aided design assistant (national staff), a cost control assistant (national staff), six administrative clerks (national staff), four store clerks (national staff) and 24 electricians, generator mechanics, carpenters, plumbers, masons, welders, heavy equipment drivers, water plant and air-conditioning technicians (national staff).

93. The Section would deploy eight engineers (6 P-3 and 2 P-2), 17 engineering assistants (Field Service), six administrative assistants (General Service (Other level)), 27 site engineers, store managers, engineering design specialists, water plant technicians and generator mechanics (United Nations Volunteers), a site engineer (national officer) and 116 skilled workers and technicians and store clerks (national staff) to Kisangani, Kindu, Bunia, Bukavu, Kalemie, Kananga, Gbadolite, Beni, Goma, Kigali, Kigoma, Lubumbashi, Mbandaka and Kampala.

94. The Geographical Information Systems Unit is headed by a Chief geographical information systems officer (P-4) who collects, evaluates, analyses and disseminates geographic information and coordinates geographical information requirements with the Mission's military and civilian police components. The Unit comprises seven geographical information systems assistants (2 General Service (Other level) and 5 United Nations Volunteers) who perform satellite image interpretation, image

processing and mapping, manage and update the Earth Viewer system, geodatabases, conduct field surveys and arrange for the mapping and familiarization training for mission staff. The Unit would deploy a geographical information systems officer (P-2), two geographical information systems assistants (1 General Service (Other level) and 1 United Nations Volunteer) and one clerk (national staff) to Bunia.

95. The Communications and Information Technology Section is headed by a chief communications and information technology officer (P-5), supported by a secretary (General Service (Other level)) and an administrative clerk (national staff), who is responsible for the planning, installation and maintenance of all communications and information infrastructure and systems in the mission area. The Section would include the Communications and the Information Technology Units.

96. The Communications Unit is headed by a chief communications officer (P-4), who is responsible for the installation, operation and maintenance of the communications infrastructure and systems throughout the mission area, inclusive of very small aperture terminal (VSAT) systems, telephone exchanges, repeaters and transmitters, microwave links and radio studios and relays. The Unit comprises 27 communications assistants (15 Field Service and 12 United Nations Volunteers) and 24 communications technicians (national staff), who install, operate, maintain and repair satellite, microwave, very high frequency (VHF), high frequency (HF) and trucking equipment and networks, operate the Mission's central switchboard and telephone networks, administer the billing system, manage communications spare parts stores and supplies. The Unit would deploy eight communications officers (4 P-3 and 4 P-2), 32 communications assistants (9 Field Service and 23 United Nations Volunteers), two administrative assistants (General Service (Other level)) and 36 technicians and clerks (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

97. The Information Technology Unit is headed by a chief information technology officer (P-4), who is responsible for the operation, maintenance and repair of the Mission's information technology networks and infrastructure, application development, networks security, access control and data integrity, applications and database systems administration, user support and training. The Unit includes an information technology officer/systems analyst (P-3), who implements and maintains the Mission's network systems, 30 information technology assistants (5 Field Service, 10 General Service (Other level) and 15 United Nations Volunteers) and 10 technicians/clerks (national staff) who perform day-to-day operations and maintenance of the information technology infrastructure and applications systems.

98. The Unit would deploy six information technology officers (P-3), 22 information technology assistants (6 Field Service, 3 General Service (Other level) and 13 United Nations Volunteers) and 27 technicians/clerks (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

99. The Movement Control Section is headed by a chief movement control officer (P-5), who coordinates the air, river, sea and surface cargo and personnel movement requirements, the deployment, rotation and repatriation of military contingents and military observers, contingent-owned and United Nations-owned equipment, personal effects of civilian personnel to, from and within the mission area, customs

clearance, including dangerous goods; administers the movement of civilian and military personnel in the mission area, passenger and cargo handling and warehousing operations. The Section comprises 10 movement control officers and 22 movement control assistants (6 United Nations Volunteers and 16 national staff).

100. The Section would deploy 13 movement control officers (3 P-3 and 10 Field Service) and 93 movement control assistants (10 General Service (Other level), 19 United Nations Volunteers and 64 national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

101. The Transport Section is headed by a chief transport officer (P-5), who plans, organizes and controls the Mission's vehicular transportation services; arranges for the maintenance and repair of the Mission's vehicle fleet and operation of vehicle workshops; allocates and distributes vehicles; formulates and implements road safety standards and procedures and maintenance guidelines; manages spare parts stores and supplies and provides dispatch services. The Section comprises a transport management officer (P-3), who allocates and manages the Mission's ground fleet, eight transport officers (Field Service), responsible for the day-to-day operation, maintenance and safety of vehicles, one administrative assistant (General Service (Other level)), seven transport assistants (United Nations Volunteers), eight transport clerks (national staff) and 45 workshop technicians and pool drivers (national staff).

102. The Section would deploy 13 transport officers (2 P-3, 1 P-2 and 10 Field Service), three administrative assistants (General Service (Other level)), 26 transport assistants (United Nations Volunteers) and 131 vehicle mechanics, welders, tire repair personnel, store clerks and drivers (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

103. The Aviation Section is headed by a Chief Aviation Officer (P-5), who plans and coordinates the utilization of the Mission's air assets, including commercial aircraft and aircraft provided under the letter-of-assist arrangements; implements a coordinated air support system throughout the mission area; develops and implements aviation standard operating procedures; is responsible for the operational control of the air charter contracts, airfield services and airfield rehabilitation projects; manages air terminal operations; arranges for surveys and assessment of the remote sites airfields and helicopter landing zones; provides threat assessment, aeronautical and meteorological information to aircrews; liaises with national and international aviation authorities; and provides flight clearances and flight following.

104. The Section comprises a Deputy Chief Aviation Officer/Airfield Rehabilitation Project Coordinator (P-4), six aviation officers (3 P-3 and 3 P-2), nine air operations assistants (United Nations Volunteers) and 10 interpreters/clerks/drivers (national staff). The Section would deploy eight aviation officers (6 P-3 and 2 P-2), 22 aviation assistants (17 Field Service and 5 General Service (Other level)), five technical assistants (General Service (Other level)), 18 air operations assistants (United Nations Volunteers) and 32 interpreters/clerks/drivers (national staff) to Kisangani, Kindu, Bunia, Kigoma, Bukavu, Lubumbashi, Lubero, Kigali, Kampala, Kalemie, Goma, Mbandaka and Kananga.

### III. Analysis of variances

(Thousands of United States dollars)

#### *Reference*

This Section describes the single largest contributing factor of each resource variance according to specific standard options encompassed in the four standard categories listed below:

**Mandate:** variances caused by changes in the scale or scope of the mandate, or changes in the expected accomplishments, as driven by the mandate;

**External:** variances caused by parties or situations external to the United Nations;

**Cost parameters:** variances caused by United Nations regulations, rules and policies;

**Management:** variances caused by management actions to achieve planned results more effectively (e.g. by reprioritizing or adding certain outputs) or efficiently (e.g. by taking measures to reduce personnel or operational inputs, while maintaining the same level of outputs), and/or from performance-related issues (e.g. by having underestimated the costs or quantities of inputs required to produce a certain level of outputs, or by delayed recruitment).

	<i>Variance</i>	
Military observers	(\$7,187.9)	(14.8%)

• **Mandate: change in scale and scope of mandate**

105. The main factors contributing to the variance of \$7,187,900 are the lower estimated cost of emplacement, rotation and repatriation travel based on past expenditure patterns and lower subsistence allowance requirements, owing to the reduction in the authorized strength of military observers from 810 to 760.

	<i>Variance</i>	
Military contingents	\$84,914.3	63.2%

• **Mandate: change in scale and scope of mandate**

106. The variance of \$84,914,300 under this heading is due to the increase in the Mission's authorized troop strength from 4,727 to 10,040. The estimated resource requirements for military contingents take into account the actual strength of troops deployed as at 31 August 2003 and are based on the phased deployment of the additional troops in respect of which a 25 per cent delayed deployment factor has been applied to the computation of requirements for troop costs and contingent-owned equipment.

	<i>Variance</i>	
International staff	\$794.2	0.9%

• **Management: additional inputs and outputs**

107. The variance of \$794,200 under this heading is due to the proposed increase of the international civilian staffing establishment from 715 to 938 posts. The estimated resource requirements take into account the actual strength of international civilian staff as at 31 August 2003 and are based on the phased deployment of additional staff in respect of which a 30 per cent delayed recruitment factor has been applied to the computation of staff costs. It is assumed that 90 per cent of Professional staff and all Field Service staff would hold appointments of limited duration.

	<i>Variance</i>	
National staff	\$2,589.4	46.3%

• **Management: additional inputs and outputs**

108. The variance of \$2,589,400 under this heading is attributable to the proposed increase of the staffing establishment from 762 to 1,299 national staff, including 25 National Officers. The estimated resource requirements take into account the actual strength of national staff as at 31 August 2003 and are based on the phased deployment of additional staff in respect of which a 10 per cent delayed recruitment factor has been applied to the computation of staff costs. The G-2 step 1 of the national staff salary scale and the entry-level scale for the National Officers have been used as the basis for the determination of estimated requirements.

	<i>Variance</i>	
United Nations Volunteers	\$8,244.6	136.3%

• **Management: additional inputs and outputs**

109. The main factor contributing to the variance of \$8,244,600 under this heading is the increase by 207 to 419 in the strength of United Nations Volunteers. The estimated resource requirements take into account the actual strength of Volunteers as at 31 August 2003 and are based on the phased deployment of additional Volunteers, in respect of which a 10 per cent delayed deployment factor has been applied to the computation of living allowance requirements.

	<i>Variance</i>	
Consultants	\$165.7	-

• **Management: additional inputs and outputs**

110. The variance of \$165,700 under this heading is attributable to a requirement for consultancy services of a military adviser to assist the Special Envoy of the Secretary-General for the Inter-Congolese Dialogue for a period of five months; specialist engineering services for a period of four months to certify the installation of the global positioning system-based navigational aids under the Inter-Agency Airport Rehabilitation Project in the Democratic Republic of the Congo and medical

specialist services on an as-needed basis for specialist assistance in Kinshasa in the areas of cardiology, gynaecology, dermatology and radiology in respect of which no expertise is available in MONUC.

	<i>Variance</i>	
Official travel	\$2,157.9	120.9%

• **Management: additional inputs and outputs**

111. The main factors contributing to the variance of \$2,157,900 under this heading are increased requirements for the travel of mission staff within the mission area and to countries in the region for consultations and negotiations in connection with the peace process. Increased travel resources are required for in-situ logistical support due to the expansion of the Mission and redeployment of personnel and equipment among the 21 locations of the Mission. Travel resources for training programmes include workshops in humanitarian negotiation techniques, emergency field coordination, role of media in conflict resolution, human rights investigations, international human rights law and aircraft accident investigations.

	<i>Variance</i>	
Facilities and infrastructure	(\$6,223.1)	(8.6%)

• **Management: reduced inputs and same outputs**

112. The main factor contributing to the variance of \$6,223,100 under this heading is reduced requirements for equipment and supplies, procurement action in respect of which was completed in the previous financial period.

	<i>Variance</i>	
Ground transportation	(\$6,150.4)	(43.8%)

• **Management: reduced inputs and additional outputs**

113. The main factors contributing to the variance of \$6,150,400 under this heading are non-acquisition of new vehicles, as the Mission has already attained the required level of its vehicle fleet, lower liability insurance requirements and lower spare parts requirements, owing to sufficient stock and prior period acquisitions.

	<i>Variance</i>	
Air transportation	\$11,115.8	7.2%

• **Mandate: change in scope and scale of mandate**

114. The main factor contributing to the variance of \$11,115,800 under this heading is deployment of an additional eight aircraft in support of military contingents and the corresponding increase in operating costs, including aviation fuel, oil and lubricants, combined with a higher cost of aviation fuel. The proposed configuration of the Mission's fleet of 54 aircraft (25 fixed-wing and 29 helicopters) takes into account logistical support requirements arising from the deployment of a task force to the Kivus and Ituri Brigade Force to Bunia and additional civilian and military personnel to locations in the east of the country remote or inaccessible from the

existing road supply routes and waterways, as well as limitations on the use of heavy cargo fixed-wing aircraft stemming from the insufficient length of runways. The fleet would also comprise a military component required to provide robust air support and transport capability to the deployed troops.

115. The Mission's fleet of fixed-wing aircraft would comprise ten heavy, medium and light passenger aircraft, including six aircraft with a capability of landing on short runways (STOL), four medium and light passenger/cargo STOL aircraft, four heavy cargo and seven medium cargo STOL aircraft. The Mission's fleet of helicopters would consist of three heavy cargo and 12 medium passenger and cargo helicopters, as well as four military attack and ten utility rotary aircraft.

	<i>Variance</i>	
Naval transportation	(\$130.4)	(3.3%)

• **Management: reduced inputs and same outputs**

116. The main factor contributing to the variance of \$130,400 is the reduction in the Mission's military naval component and the number of support vessels from 20 to 18.

	<i>Variance</i>	
Communications	(\$901.1)	(4.8%)

• **Management: additional outputs and reduced inputs**

117. The main factors contributing to the variance of \$901,100 under this heading are the reduced requirement for contractual communications support services, which are being phased out, combined with the lower requirements for the PABX support services and a reduced provision for spare parts in respect of which requirements have been calculated at 5 per cent of the inventory value of equipment, compared to 15 per cent in the previous period.

	<i>Variance</i>	
Information technology	\$1,938.9	38.5%

• **Management: additional outputs and inputs**

118. The main factors contributing to the variance of \$1,938,900 under this heading are additional requirements for the acquisition of information technology equipment to support the proposed additional civilian staff and increased requirements for spare parts and supplies to maintain and repair the existing information technology equipment and networks. The provision of laptop and desktop computers is based on established ratios for the military and civilian personnel.

	<i>Variance</i>	
Medical	(\$1,548.4)	(20.1%)

• **Management: reduced inputs and same outputs**

119. The main factor contributing to the variance of \$1,548,400 under this heading is reduced requirements for medical equipment, owing to the acquisition of nine clinics in the previous financial period.

	<i>Variance</i>	
Special equipment	\$1,099.6	38.3%

• **Mandate: change in scale and scope of mandate**

120. The main factor contributing to the variance of \$1,099,600 under this heading is the increase in the military contingents self-sustainment requirements attributable to the increase in the authorized troop strength.

	<i>Variance</i>	
Miscellaneous supplies, services and equipment	\$1,185.1	8.6%

• **Management: additional outputs and inputs**

121. The main factors contributing to the variance of \$1,185,100 under this heading are additional requirements in respect of air and surface freight in connection with the deployment of additional troops, mine-clearing services, estimated cost of contractual arrangements for the delivery of cash from Kinshasa to MONUC offices in the interior of the country, owing to the absence of a banking infrastructure in the Democratic Republic of the Congo and the provision for engagement of drivers and interpreters on daily wages to support disarmament, demobilization, repatriation, resettlement and reintegration activities in the field on an as-required basis.

	<i>Variance</i>	
Quick-impact projects	\$1,000.0	-

• **Mandate: change in scale and scope of mandate**

122. The variance of \$1,000,000 under this heading is attributable to a provision for an estimated 66 quick-impact projects aimed at improving local medical, educational and sanitation infrastructure, as well as supporting local grass-roots initiatives which would be undertaken in support of the peace process in the areas of local conflict resolution.

#### IV. Actions to be taken by the General Assembly

123. The actions to be taken by the General Assembly in connection with the financing of MONUC are:

(a) Appropriation of an amount of \$93,038,300, in addition to the amount of \$582 million already appropriated and assessed by the General Assembly in its resolution 57/335 of 18 June 2003 for the maintenance of the Mission for the 12-month period from 1 July 2003 to 30 June 2004;

(b) Assessment of the additional amount set out in paragraph (a) above.

## V. Summary of follow-up action taken to implement requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions and the United Nations Board of Auditors

### A. Advisory Committee on Administrative and Budgetary Questions

(A/57/772/Add. 10)

<i>Request</i>	<i>Response</i>
<p>1. The Committee requested that all posts be fully justified in the new budget for 2003/04 in terms of the new concept of operation, new organizational structure and workload (para. 3).</p>	<p>The Mission's proposed staffing establishment and structure reflect results of the review of its deployment strategy and reflect a comprehensive readjustment of its structure and staffing establishment. Justification for the proposed posts for the 2003-2004 period is contained in the present report, with a new organizational structure shown in section VI.</p>
<p>2. The Advisory Committee noted a trend of overbudgeting for this Mission. Despite the reductions recommended by the Committee, large unencumbered balances continued to be realized, indicating a need for more realistic budget estimates. In addition, the Committee pointed out that this situation meant that the budget proposals for 2003/04 started from an inflated base (annex, para. 5).</p>	<p>The Mission's proposed budget for the 2003-2004 period reflects results of a thorough review of its expenditure patterns during the 2002-2003 period and inventory holdings, as well as budget assumptions for the 2003-2004 period with a view to ensuring efficient and economic utilization of funds provided for the support of its mandated activities.</p>
<p>3. The Advisory Committee considered that the large amounts of unliquidated obligations, as well as savings regularly realized by the Mission on prior-period obligations, indicated a laxity in obligating funds and illustrated weaknesses in budget implementation and monitoring. The Committee had commented on this issue in its general report (A/57/772) (annex, para. 7).</p>	<p>The Mission has strengthened financial controls to ensure efficient and economic utilization of financial resources and taken steps to improve monitoring on a regular basis of unliquidated obligations.</p>
<p>4. Neither the published budget document nor the additional information given to the Advisory Committee, either in writing or orally, provided a clear picture of the role of MONUC and other partners in the implementation of the important tasks of disarmament, demobilization, repatriation, resettlement and reintegration (annex, para. 17).</p>	<p>The observations of the Advisory Committee have been taken into account in the formulation and presentation of the financial resource requirements and staffing establishment in respect of the role of MONUC in the disarmament, demobilization, repatriation, resettlement and reintegration process.</p>

<i>Request</i>	<i>Response</i>
<p>5. The Committee requested that future budget documents give a clear indication of activities carried out by MONUC in support of disarmament, demobilization, repatriation, resettlement and reintegration, the budgetary implications of such activities and the staffing involved (annex, para. 19).</p>	<p>Reflected in component 1 of the frameworks, expected accomplishments 1.4 and 1.5 and the related outputs.</p>
<p>6. The Advisory Committee considered that the cost estimate for military and police personnel proposed for 2003-2004 could be adjusted considerably downward (annex, para. 27).</p>	<p>Resource requirements in respect of the military and civilian police components of MONUC reflect application of a 25 per cent delayed deployment factor.</p>
<p>7. The Advisory Committee noted from the additional information provided to it that for 2001/02 the average vacancy rates were 38 per cent for international staff (44 per cent for Professional staff and 35 per cent for General Service (Other level) staff), 47 per cent for national staff and 61 per cent for United Nations Volunteers. Such high vacancy rates indicated a serious problem facing the Mission in hiring civilian personnel and might call into question the need for some of the posts that were habitually vacant. The reasons for these high vacancy rates should be provided to the Committee when it took up the new budget for 2003-2004 (annex, para. 29).</p>	<p>As at 31 August 2003, the vacancy rate in respect of MONUC international civilian staff has been reduced to 15 per cent (20 per cent for Professional staff and 11 per cent for General Service and related categories), with full authorized strength of United Nations Volunteers achieved by 30 June 2003. The Mission will continue and intensify efforts to shorten the recruitment process.</p>
<p>8. The staffing table of the Mission (both for military commanders and civilian personnel) appeared to the Advisory Committee to be top-heavy. In that connection, the Committee believed that a review of the top staffing structure of the Mission should be undertaken in the context of the preparation of the new budget for 2003/04 (annex, para. 34).</p>	<p>MONUC has conducted a review of the senior level positions in its military and civilian components in the context of its revised concept of operations and adjusted mandate.</p>
<p>9. The requirements for communication and information technology for 2003/04 were estimated at \$22.7 million. The apportionment for 2002/03 was \$23.4 million. In view of the extensive investment in communication and information technology for MONUC in the past three years, the Advisory Committee saw no justification for approval of the same level of resources as was approved for the current period (annex, para. 53).</p>	<p>The Mission has reviewed its communications and information technology requirements in the context of the expansion of its military component to 10,800 personnel and proposed increases in the civilian staffing establishment, taking into account existing inventory holdings and expected delivery of new equipment in respect of which procurement action was completed at the end of the previous financial period. For the 2003-2004 period, resource requirements for spare parts have been calculated at 5 per cent of the inventory value of equipment, compared to 15 per cent in the previous period.</p>

<i>Request</i>	<i>Response</i>
<p>10. The Advisory Committee had been informed that the proposal for 2003/04 was to train 651 staff at an estimated cost of \$619,800. For 2001/02, 145 staff had been trained at a cost of \$528,000. In view of the fact that MONUC was at its early stages and that training was likely to play an important role in enhancing the capabilities of mission personnel, the Committee stressed the need for the Secretariat to bear in mind its comments in its report on administrative and budgetary aspects of the financing of the United Nations peacekeeping operations (A/56/887, para. 74) and reiterated its view that there was a need for better planning for training of personnel and that the subjects covered in the training programmes should be tailored towards fulfilling the mandate of missions (annex, para. 58).</p>	<p>In order to optimize the use of training resources MONUC has implemented the Train-the-Trainer and in-situ training programmes, as well as increased its support to the training and sensitization programmes, such as on gender and HIV/AIDS issues conducted by the substantive component of the Mission.</p>

## B. Board of Auditors

(A/57/5, vol. II, chap. II, para. 92)

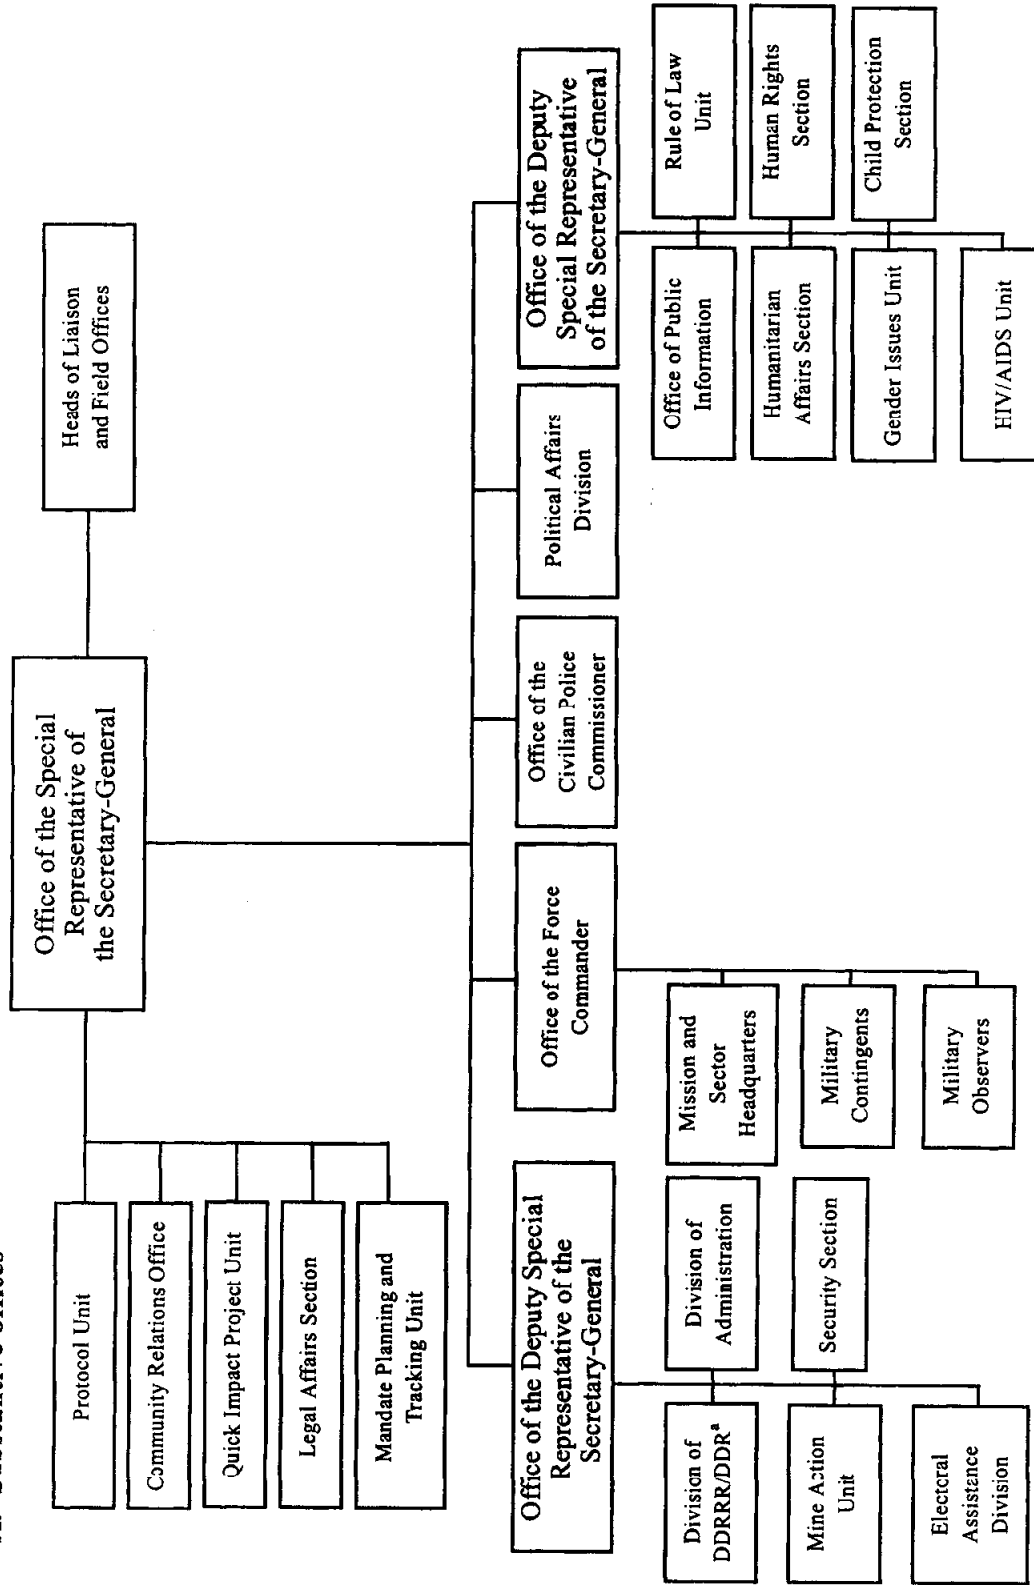

<i>Recommendation</i>	<i>Implementation</i>
<p>The Board recommended that the Administration, together with MONUC, implement measures to address the deficiencies and non-performance identified in the provision of airfield services. In particular, the Administration should:</p>	
<p>(a) Ensure that the contractor completes the full review of the equipment and staff levels as required by the amended airfield services contract;</p>	<p>Review of the equipment and staff levels has been completed and is pending finalization of an agreement between the United Nations and the contractor.</p>
<p>(b) Follow up the outstanding recertification by the contractor in respect of the ISO 9000 (series) quality programme;</p>	<p>Implemented.</p>
<p>(c) Expedite the finalization of the computer application program to process eligible passengers as required by the contract. MONUC should also consult with other United Nations organizations on the availability of similar systems for implementation at the Mission, where applicable;</p>	<p>A computerized check-in and cargo processing system is being developed by the Mission in consultation with the contractor.</p>
<p>(d) Ensure that the contractor implements a complaint system, as agreed;</p>	<p>Implemented.</p>

---

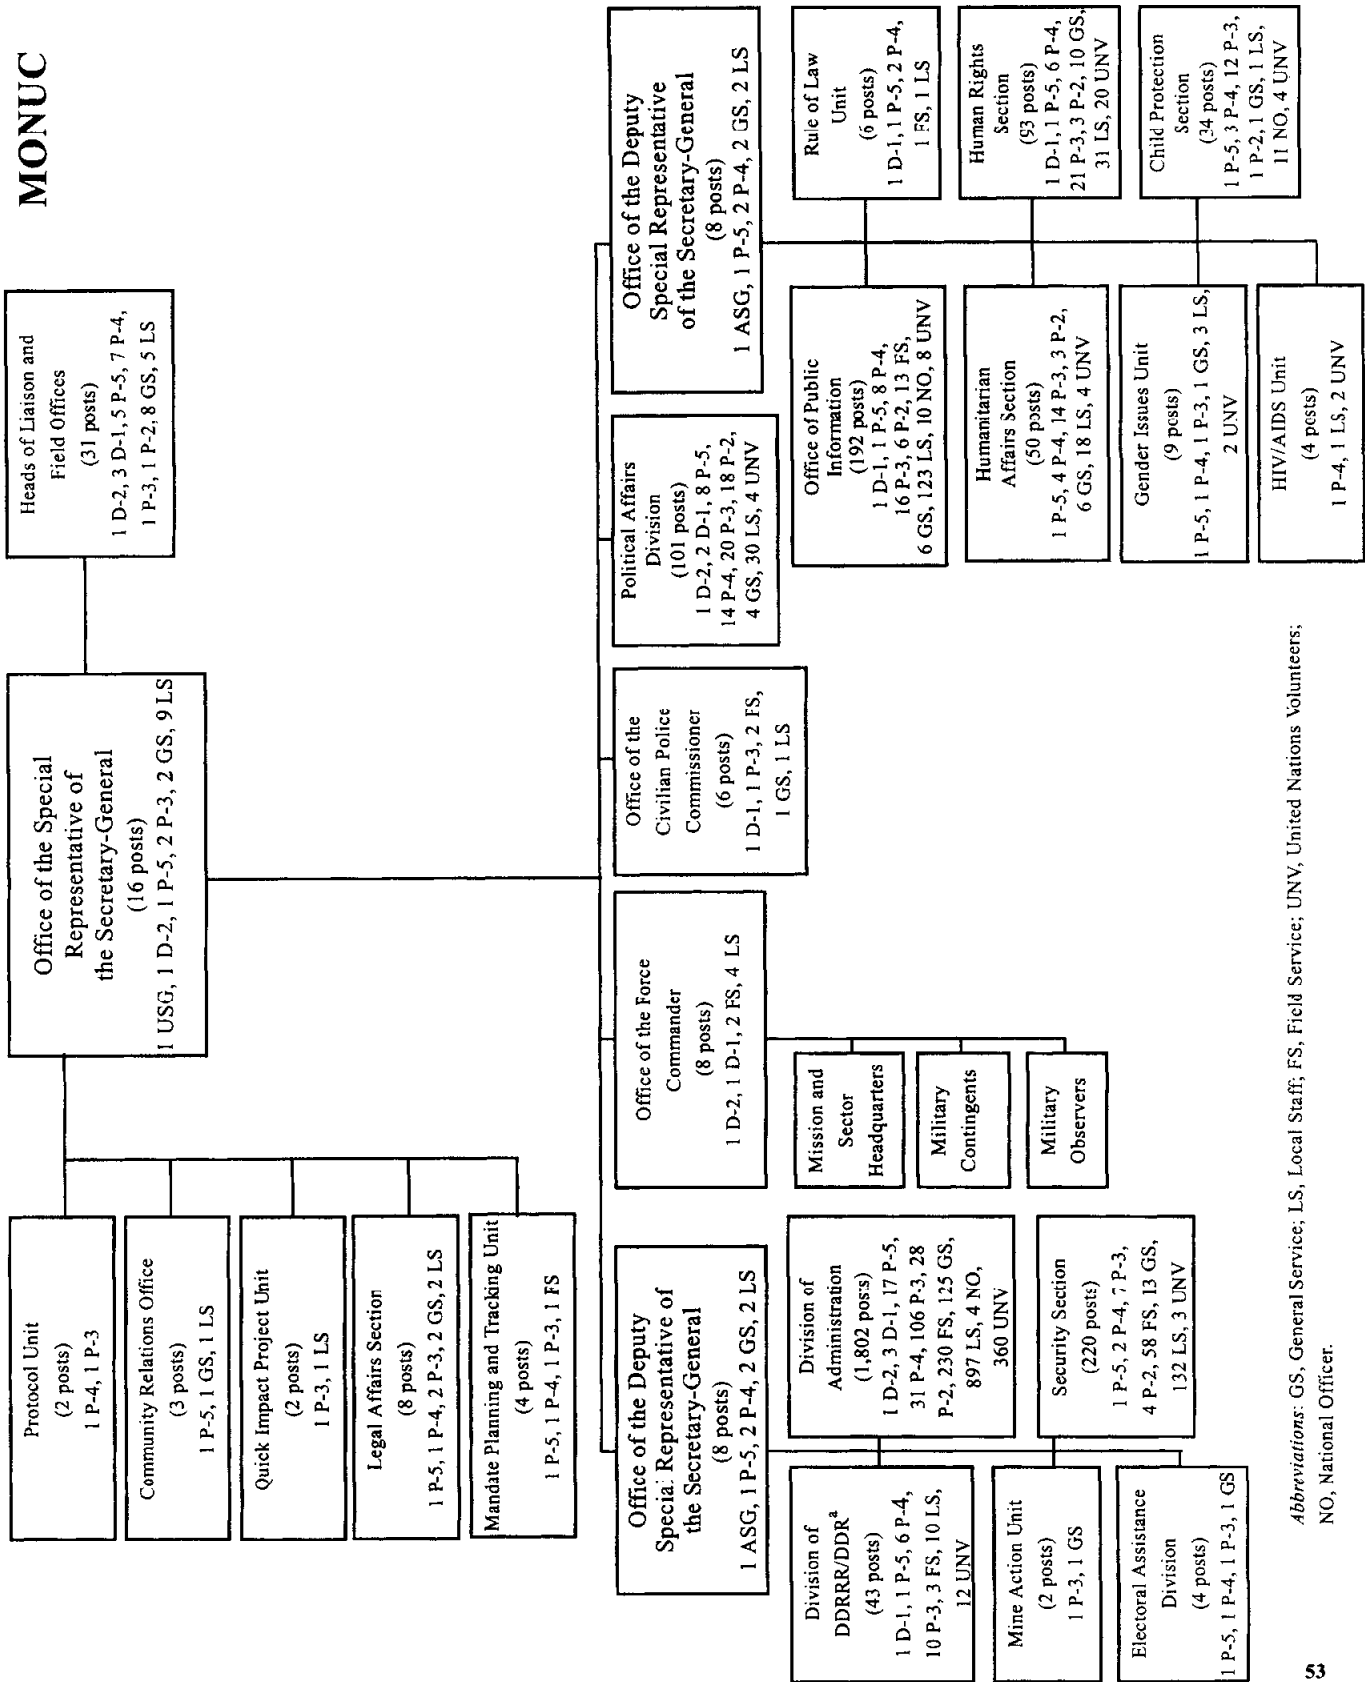

<i>Recommendation</i>	<i>Implementation</i>
<p>(e) Ensure that the contractor provides routine preventive and scheduled maintenance of all metal detectors, X-ray and other passenger-screening equipment;</p>	<p>A contract for the inspection, preventive and routine maintenance of screening equipment has been concluded.</p>
<p>(f) Improve the security checks of passengers;</p>	<p>All passengers leaving from major Democratic Republic of the Congo airports, airfields and airstrips used by the Mission and their luggage are subject to security screening.</p>
<p>(g) Prepare a progress report on its performance;</p>	<p>A new cost-plus-performance fee contract awarded with effect from 1 April 2003 following the re-bid of the Mission's airfield services requirements provides for adjustments to the performance fee paid to the contractor in cases of non-delivery of services or non-compliant performance.</p>
<p>(h) Avail itself of the provisions of the contract regarding penalties where the contractor fails to deliver and report such non-performance to the Procurement Division.</p>
