*Bearing in mind* the outcomes of the World Summit for Social Development<sup>4</sup> and the twenty-fourth special session of the General Assembly,<sup>5</sup>

*Expressing its deep concern* that the number of people living in extreme poverty in many countries continues to increase, with women and children constituting the majority and the most affected groups, in particular in the least developed countries and in sub-Saharan Africa,

*Recognizing* that, while the rate of poverty in some countries has been reduced, some developing countries and disadvantaged groups are being marginalized and others are at risk of being marginalized and effectively excluded from the benefits of globalization, resulting in increased income disparity among and within countries, thereby constraining efforts to eradicate poverty,

1. *Takes note* of the report of the Secretary-General;<sup>6</sup>

2. *Reiterates* that eradicating poverty is the greatest global challenge facing the world today and an indispensable requirement for sustainable development, in particular for developing countries, that each country has the primary responsibility for its own sustainable development and poverty eradication and that the role of national policies and development strategies cannot be overemphasized and that concerted and concrete measures are required at all levels to enable developing countries to eradicate poverty and achieve sustainable development;

3. *Recognizes* that, in order for developing countries to reach the targets set in the context of national development strategies for the achievement of the internationally agreed development goals, including those contained in the United Nations Millennium Declaration,<sup>1</sup> in particular the goal on the eradication of poverty, and for such poverty eradication strategies to be effective, it is imperative that they be integrated into the world economy and share equitably in the benefits of globalization;

4. *Reaffirms* that, within the context of overall action for the eradication of poverty, special attention should be given to the multidimensional nature of poverty and the national and international conditions and policies that are conducive to its eradication, fostering, inter alia, the social and economic integration of people living in poverty and the promotion and protection of all human rights and fundamental freedoms for all, including the right to development;

#### **Global response for the eradication of poverty**

5. *Stresses* the importance of the follow-up to the outcome of the International Conference on Financing for Development, and calls for the full and effective implementation of the Monterrey Consensus;<sup>2</sup>

6. *Reaffirms* that: good governance at the international level is fundamental for achieving poverty eradication and sustainable development; in order to ensure a dynamic and enabling international economic environment, it is important to promote global economic governance through addressing the international finance, trade, technology and investment patterns that have an impact on the development

prospects of developing countries; to that end, the international community should take all necessary and appropriate measures, including ensuring support to structural and macroeconomic reform, a comprehensive solution to the external debt problem and increasing market access for developing countries; efforts to reform the international financial architecture need to be sustained with greater transparency and with the effective participation of developing countries in decision-making processes; and that a universal, rule-based, open, non-discriminatory and equitable multilateral trading system, as well as meaningful trade liberalization, can substantially stimulate development worldwide, benefiting countries at all stages of development;

8. *Recognizes* the major role that trade can play as an engine of growth and development and in eradicating poverty, regrets that the Fifth Ministerial Conference of the World Trade Organization, held in Cancun, Mexico, from 10 to 14 September 2003, failed to produce an agreement, and calls for resumption of the negotiations and the implementation of the Doha agenda, adopted at the Fourth Ministerial Conference of the World Trade Organization, held at Doha from 9 to 13 November 2001;<sup>7</sup>

9. *Recognizes* the responsibility of all Governments to adopt policies aimed at preventing and combating corrupt practices at the national and international levels, and welcomes in this regard, the adoption of the United Nations Convention against Corruption;<sup>8</sup>

10. *Underlines* that, together with coherent and consistent domestic policies, international cooperation is essential in supplementing and supporting the efforts of developing countries to utilize their domestic resources for development and poverty eradication and in ensuring that they will be able to achieve the development goals as envisioned in the Millennium Declaration;

11. *Reiterates* that a substantial increase in official development assistance and other resources will be required if developing countries, in particular the least developed countries, are to achieve the internationally agreed development goals and objectives, including those contained in the Millennium Declaration, and that to build support for official development assistance, cooperation is necessary to further improve policies and development strategies to enhance aid effectiveness, both nationally and internationally, requests, in that regard, those countries that made announcements of increased official development assistance at the International Conference on Financing for Development to make those resources available as soon as possible, and notes in this context, the recent upward trend in official development assistance;

14. *Recognizes also* that creditors and debtors must share the responsibility for preventing and resolving unsustainable debt situations and that debt relief can play a key role in liberating resources that should be directed towards activities consistent with attaining poverty eradication, sustainable economic growth, sustainable development and the achievement of the internationally agreed development goals, including those contained in the Millennium Declaration, and in that regard urges countries to direct those resources freed through debt relief, in particular through debt cancellation and reduction, towards these objectives;

15. *Calls upon* the developed countries, by means of intensified and effective cooperation with developing countries, to promote capacity-building and facilitate access to and transfer of technologies and corresponding knowledge, in particular to developing countries, on favourable terms, including concessional and preferential terms, as mutually agreed, taking into account the need to protect intellectual property rights, as well as the special needs of developing countries;

16. *Recognizes* the crucial role that microcredit and microfinance could play in the eradication of poverty, the promotion of gender equality, the empowerment of vulnerable groups and the development of rural communities, encourages Governments to adopt policies that support access to microcredit as well as the development of microfinance institutions and their capacities, and calls upon the international community to support those efforts;
