Grand total:		301 376 847 c/			

a/ Contribution(s) reported to UNDRO without corresponding value. Many other countries reported contributions with no corresponding value. These, of course, could not be included in the totals for those countries listed above.

b/ See also European Economic Community.

c/ The apparent difference between the grand total shown here and the corresponding total which might be derived from annex V is explained primarily by updates to some contributions received in the period between the preparation of the two annexes. Updated versions of both annexes, reconciling the difference, were prepared too late to be included here, but are available on request.
