Summary

The present report contains the budget for the United Nations Operation in Côte d'Ivoire (UNOCI) for the period from 1 July 2004 to 30 June 2005, which amounts to \$384,350,400. It supersedes the budgetary proposals for UNOCI for the same period set out in the report of the Secretary-General dated 7 May 2004 (A/58/788).

The budget provides for the deployment of 200 military observers, 6,040 military contingent personnel, including 120 force headquarters staff officers, 350 civilian police, 387 international and 405 national staff, including 18 national officers, as well as 215 United Nations Volunteers.

The total resource requirements for the United Nations Operation in Côte d'Ivoire for the financial period from 1 July 2004 to 30 June 2005 have been linked to the mission's objective through a number of results-based frameworks, grouped by components: ceasefire; disarmament, demobilization, reintegration, repatriation and resettlement; humanitarian and human rights; peace process; and law and order, as well as support. The financial resources for operational items have been linked to the support component by identifying quantitative outputs for expenditure classes under operational costs.

I. Mandate and planned results

1. The mandate of the United Nations Operation in Côte d'Ivoire (UNOCI) was established by the Security Council in its resolution 1528 (2004) of 27 February 2004 for an initial period of 12 months as from 4 April 2004.
2. The Operation is mandated to help the Security Council to achieve an overall objective, namely, to restore normalcy and overall security in Côte d'Ivoire.
3. Within this overall objective, UNOCI will, during the budget period, contribute to a number of expected accomplishments by delivering related key outputs, shown in the frameworks below. These frameworks are grouped by components derived from the mandate of the Operation contained in paragraph 6 of resolution 1528 (2004), namely: ceasefire; disarmament, demobilization, reintegration, repatriation and resettlement; humanitarian and human rights; peace process; and law and order, and also include a support component.
4. The expected accomplishments lead to the fulfilment of the Security Council's objective within the time frame of the Operation and the indicators of achievement show a measurement of progress towards such accomplishments during the budget period. The financial resources for operational items have been linked to the support component by quantifying outputs for expenditure classes under operational costs. In view of the continuing deployment of the Operation, the attribution of the proposed human resources of UNOCI has been presented by organizational unit rather than by frameworks components.
5. UNOCI is headed by the Special Representative of the Secretary-General at the Under-Secretary-General level, assisted by a Principal Deputy Special Representative and a Deputy Special Representative, both at the Assistant Secretary-General level. Military operations are headed by a Force Commander at the D-2 level.
6. The headquarters for the Operation has been established in Abidjan, with two sector headquarters located in Bouaké (Sector East) and Daloa (Sector West) and a forward logistics base in Yamoussoukro. The Operation provides administrative, logistical and technical support to its substantive, military and civilian police personnel deployed in Abidjan, Sectors East and West and 75 field locations throughout the country.

Proposed	1	2	1	2	3	—	—	9	5	—	14

^a Includes one national officer.

11. The Special Representative of the Secretary-General at the Under-Secretary-General level assists the Secretary-General in the implementation of the UNOCI mandate and is responsible for the overall management of the Operation and for the coordination and conduct of all the activities of the United Nations system in Côte d'Ivoire. The Special Representative is supported by a Principal Deputy Special Representative at the Assistant Secretary-General level who is responsible for operations and the rule of law, and a Deputy Special Representative at the Assistant Secretary-General level who is responsible for humanitarian coordination, recovery

and reconstruction. Reporting directly to the Special Representative are the Force Commander, heads of the Political Affairs Office, Communications and Public Information Office, Principal Legal Adviser and Senior Resident Auditor.

12. The immediate Office of the Special Representative of the Secretary-General is managed by a Director (D-1) who provides policy and strategic advice as well as assistance to the Special Representative of the Secretary-General in the overall coordination of UNOCI activities and manages the flow of information between United Nations Headquarters in New York and the Operation as well as within the Operation's senior management team. The Director of the Office is supported by a Special Assistant (P-3).

13. The Office also comprises a Special Adviser (D-1) on the Economic Community of West African States. ECOWAS has played a key role in recent political advances in the peace process in Côte d'Ivoire. The close coordination between the United Nations and ECOWAS, formalized in the Accra III agreement for the monitoring of its implementation, will require regular contacts at senior levels within the two organizations. The Special Adviser to the Special Representative of the Secretary-General regarding ECOWAS would be responsible for providing policy advice to the Special Representative with regard to the implementation of UNOCI areas of work involving cooperation and collaboration with ECOWAS and for the coordination of such activities, and for maintaining close liaison with senior ECOWAS secretariat officials. The Special Adviser would, in particular, ensure close collaboration with ECOWAS in the monitoring of the implementation of the Accra III agreement, reflecting the key role of the two institutions in the preparation and follow-up to the Accra high-level meeting of 29 and 30 July 2004 and ensure close cooperation in supporting the implementation of the Linas-Marcoussis Agreement. The Special Adviser will, among other tasks, provide substantive inputs into the regular reports of the Accra III Agreement Monitoring Group, reports of the Secretary-General and briefings to the Security Council.

14. The Office of the Special Representative includes a Special Assistant (P-5) who provides direct support to the Special Representative in the discharge of his functions, including in political consultations with the national and regional actors, as well as serves as a focal point for UNOCI for constituency-building with donors and as a liaison with the diplomatic community, NGOs and the media; and two Protocol Officers (one P-2 and one national officer). The Office is supported by five administrative assistants (three Field Service and two national staff) and two drivers (national staff).

The Section comprises eight international staff (three P-3, one P-2 and four Field Service), eight United Nations Volunteers and 10 national General Service staff. In order to support operations in the field, the Section deploys four international (one P-3 and three Field Service) and five national General Service staff as well as one United Nations Volunteer to Sectors West and East and the forward logistics base.

III. Analysis of resource requirements¹

	<i>Cost estimates</i>
Military observers	\$8 909.4

76. Provision of \$8,909,400 under this heading reflects requirements with respect to mission subsistence and clothing allowances, travel costs and death and disability compensation. It is based on the projected phased deployment of the additional 64 military observers by September 2004 for a total authorized strength of 200 observers. Requirements for mission subsistence allowance reflect a 10 per cent delayed deployment factor.

¹ Resource requirements are expressed in thousands of United States dollars.

	<i>Cost estimates</i>
Military contingents	\$140 397.5

77. Provision of \$140,397,500 under this heading reflects requirements with respect to troop costs and contingent-owned equipment reimbursement, emplacement and rotation of contingent personnel, daily and recreational leave allowances, death and disability compensation, as well as rations and freight costs related to the deployment of contingent-owned equipment. It is based on the phased deployment of military contingents with the full authorized strength of 6,040 troops attained in October 2004. Pending finalization by October 2004 of catering arrangements, provision is made for the food and incidental portion of the mission subsistence allowance for the 120 Force headquarters staff officers. A 5 per cent delayed deployment factor has been applied, where applicable, to the cost estimates.

	<i>Cost estimates</i>
Civilian police	\$12 801.1

78. Provision of \$12,801,100 under this heading reflects requirements with respect to mission subsistence allowance, travel costs, clothing allowance and death and disability compensation. The requirements are based on the projected phased deployment of an additional 276 civilian police personnel, with full deployment of the authorized strength of 350 police officers attained by November 2004. A 10 per cent delayed deployment factor has been applied to the computation of mission subsistence allowance costs.

	<i>Cost estimates</i>
International staff	\$38 028.2

79. Provision of \$38,028,200 under this heading reflects requirements with respect to international staff salaries, common staff costs, including hazardous duty station allowance, where applicable, and mission subsistence allowance. It is based on the phased deployment of the proposed strength of 387 international staff with full deployment attained in March 2005. The cost estimates have been adjusted by the application of a 20 per cent delayed recruitment factor.

80. International staff costs have been computed based on the New York standard salary scale in respect of 30 per cent of the proposed posts. Staff costs for the remaining 70 per cent of posts are based on salary scales for appointments of limited duration, in respect of which common staff costs have been computed at 50 per cent of the standard costs.

	<i>Cost estimates</i>
National staff	\$7 679.0

81. Provision of \$7,679,000 under this heading reflects requirements with respect to national staff salaries and common staff costs. It is based on the phased deployment of 405 national staff, including 18 national officers, with full deployment attained in March 2005. The requirements for national staff costs are based on the established national staff salary scales for General Service staff and national officers, respectively, and have been adjusted by a 15 per cent delayed recruitment factor.

	<i>Cost estimates</i>
United Nations Volunteers	\$5 466.4

82. Provision of \$5,466,400 under this heading is based on the phased deployment of 215 United Nations Volunteers, including 120 Electoral Officers to be phased in commencing from November 2004. It also reflects a 20 per cent delayed deployment factor.

	<i>Cost estimates</i>
Government-provided personnel	\$362.6

83. Provision of \$362,600 under this heading reflects requirements for mission subsistence allowance and travel costs in respect of eight government-seconded corrections officers to be fully deployed by November 2004 to support and advise national authorities concerning the re-establishment of the prison system in the north and the strengthening of the system in the south.

	<i>Cost estimates</i>
Consultants	\$245.0

84. Provision of \$245,000 under this heading pertains to the engagement of consultants for the Operation's training programmes (including people management, competency-based interviewing and performance management, project management, media and communications, work planning, supervisory skills, information technology, cultural awareness and negotiation and conflict resolution) as well as the training of local journalists in core journalistic techniques and practices.

	<i>Cost estimates</i>
Official travel	\$1 720.2

85. Provision of \$1,720,200 under this heading reflects requirements for official travel costs, including travel of the Special Representative of the Secretary-General and senior staff for political consultations and meetings and travel of New York Headquarters staff to Côte d'Ivoire for providing support on various aspects of the peace process, as well as logistical and administrative assistance to the Operation. With respect to training-related travel, requirements reflect provision for the training of UNOCI personnel in areas such as supervisory skills, train-the-trainer, communications and information technology, air operations and aviation safety, engineering, transport, personnel administration, finance and budget.

	<i>Cost estimates</i>
Facilities and infrastructure	\$54 354.3

86. Provision of \$54,354,300 under this heading reflects requirements totalling \$19,315,600 for the acquisition of prefabricated facilities and infrastructure, bridges, generators, water purification systems, water and septic tanks, fuel tanks and pumps, refrigeration, water purification, security and safety equipment, as well

as office furniture and equipment. The cost estimates provide for the support of contingents deficient in meeting United Nations standards of self-sustainment.

87. The cost estimates also reflect requirements for the acquisition of supplies and maintenance and construction services as well as for the rental of premises for the Operation and Force headquarters and logistics base and facilities at team sites for military observers and civilian police along with repeater sites. The provision includes the estimated requirements for the reimbursement of troop-contributing countries for self-sustainment costs.

	<i>Cost estimates</i>
Ground transportation	\$27 782.6

88. Provision of \$27,782,600 under this heading reflects requirements for the acquisition of vehicles for the establishment of the Operation's fleet of 957 vehicles, including material handling, engineering and airfield support vehicles. The provision also reflects requirements with respect to the rental of vehicles pending delivery of new vehicles, repairs and maintenance, liability insurance, spare parts and diesel fuel, oil and lubricants and includes an amount of \$6,759,500 for the replenishment of the strategic deployment stocks for 233 vehicles, trailers and attachments transferred from the strategic deployment stocks to the Operation. In addition, 70 vehicles, 1 trailer and 10 cargo bed attachments have been transferred to UNOCI from other missions.

	<i>Cost estimates</i>
Air transportation	\$35 238.4

89. In order to provide for the movement of personnel and transportation of cargo, the supply and resupply of the sector headquarters and team sites throughout the country, medical and casualty evacuation, as well as military tasking, the Operation will establish a fleet of 14 aircraft comprising two fixed-wing aircraft (one light passenger and one medium passenger/cargo) and 12 medium-lift rotary wing aircraft (four commercially contracted and eight military-type helicopters under letter-of-assist arrangements).

90. Provision of \$35,238,400 under this heading supports deployment and operation of two fixed-wing and four commercially contracted rotary-wing aircraft, as well as the eight military-type helicopters. The cost estimates reflect requirements for the positioning, painting and rental costs, operating costs (aviation fuel, oil and lubricants, liability insurance and aircrew subsistence allowance), as well as equipment and supplies and landing fees and ground handling charges.

	<i>Cost estimates</i>
Communications	\$26 464.6

91. Provision of \$26,464,600 under this heading reflects requirements with respect to the acquisition of communications equipment in order to establish the Operations communications network. It includes requirements for the satellite, VHF and HF radio equipment, microwave and rural telephone links, as well as requirements with respect to commercial communications, maintenance, spare parts and specialized

technical support services. The estimate also provides for the reimbursement of troop-contributing countries for self-sustainment costs, as well as an amount of \$4,527,400 for the replenishment of the strategic deployment stocks for 983 items of VHF/UHF, HF, satellite and switching equipment and 320 items of miscellaneous equipment (e.g. battery chargers, solar power system, a communication analyser, heavy-duty tool box) transferred to the Operation in addition to 4 items of satellite equipment transferred from the United Nations Logistics Base.

Cost estimates

Information technology \$7 378.2

92. Provision of \$7,378,200 under this heading reflects requirements for the acquisition of information technology equipment and software, including the Geographic Information System, the related supplies and services, as well as workshop and test equipment, maintenance and repair of equipment, spare parts and specialized technical support services. The estimate includes an amount of \$1,480,200 for the replenishment of strategic deployment stocks for 206 desktop computers and monitors, 90 portable computers, 180 printers, 5 servers, 6 scanners and digital senders, 357 uninterrupted power supply units, 1 identification card system, 20 network switch and 13 wireless Local Area Networks, as well as 2 tool kits transferred to the Operation.

Cost estimates

Medical \$3 885.7

93. Provision of \$3,885,700 under this heading reflects requirements with respect to the acquisition of medical equipment for the Mission headquarters and two sector clinics as well as medical services, including external consultations, hospitalization and medical evacuation, and medical supplies (vaccines, malaria prophylaxis and HIV protection for military personnel). The estimate also provides for the estimated cost of the reimbursement of troop-contributing countries for self-sustainment and for medical support by the Operation with respect to one contingent.

Cost estimates

Special equipment \$2 750.9

94. Provision of \$2,750,900 under this heading is made for the acquisition of binoculars and night vision devices for military observers and civilian police officers as well as the estimated cost of the reimbursement of troop-contributing countries for self-sustainment.

Cost estimates

Other supplies, services and equipment \$10 086.3

95. Provision of \$10,086,300 under this heading reflects requirements with respect to freight and related costs, acquisition of various items of equipment, as well as supplies, uniform items, flags and decals and bank charges, training fees and supplies.

Quick-impact projects	\$800.0
------------------------------	----------------

96. The Operation supports the humanitarian community through implementation of quick-impact projects to promote and facilitate the United Nations peacekeeping efforts in Côte d'Ivoire. Projects focus primarily on public sanitation, provision of medical equipment and supplies, repairs of hospitals, medical facilities and basic community infrastructure, enhancement of water purification facilities, rehabilitation of school buildings and provision of basic school furniture and supplies.

IV. Actions to be taken by the General Assembly

97. The actions to be taken by the General Assembly in connection with the financing of UNOCI are:

(a) **Appropriation of the amount of \$183,703,800 for the maintenance of the Operation for the period from 1 July 2004 to 30 June 2005 in addition to the amount of \$200,646,600 already appropriated under the terms of General Assembly resolution 58/310 of 18 June 2004;**

(b) **Assessment of the amount of \$91,886,760 for the period from 1 July 2004 to 4 April 2005, taking into account the amount of \$200,646,600 already assessed under the terms of resolution 58/310;**

(c) **Assessment of the amount of \$91,817,040 at a monthly rate of \$32,029,200, for the period from 5 April to 30 June 2005, should the Security Council decide to continue the mandate of the Operation.**

V. Summary of follow-up action taken to implement requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions

Request/recommendation

Action taken to implement request/recommendation

1. The Advisory Committee strongly recommends that a time frame for implementation [disarmament, demobilization and reintegration programme] be established as soon as possible. (A/58/806, para. 11)

In accordance with the Linas-Marcoussis Agreement (S/2003/99), responsibility for the implementation of the disarmament, demobilization and reintegration programme rests, primarily, with the Government of National Reconciliation. A National Committee for disarmament, demobilization and reintegration has been established and has prepared a timeline for the disarmament, demobilization and reintegration programme, which foresees disarmament, demobilization and reintegration to be completed within the budget period. The implementation of the disarmament, demobilization and reintegration programme is expected to commence once a political agreement has been reached between the Ivorian parties concerned. UNOCI will be

*Request/recommendation**Action taken to implement request/recommendation*

2. In general, the Advisory Committee finds the proposed organizational structure of the Operation to be fragmented and top-heavy. The Committee recommends that a review be undertaken with a view to streamlining the structure by combining smaller units or integrating them into larger sections and eliminating some posts for heads of units and other higher-level posts, including in the Office of the Special Representative of the Secretary-General and the Deputy Special Representatives. In this connection, the Committee questions, inter alia, the establishment of a post of Chief of Staff at the D-2 level. The issue of the direct reporting line of the Division of Administration to the Special Representative should also be addressed. (A/58/806, para. 26)

3. While the Advisory Committee is convinced of the importance of the coordination role, the structure, as shown on the organization chart for the mission, does not appear to support the establishment of a second Deputy Special Representative post [Humanitarian Coordination, Recovery and Reconstruction], at least not at the Assistant Secretary-General level. (A/58/806, para. 28)

providing security at the disarmament, demobilization and reintegration sites and will monitor the disarmament of ex-combatants.

As a result of the review undertaken by the mission, the proposed staffing establishment reflects an overall reduction of 83 posts (7.6 per cent) from 1,090 posts proposed in the report of the Secretary-General on the financing of UNOCI dated 7 May 2004 (A/58/788) to 1,007 posts. Upon further review of the functions of Chief of Staff (Chef de Cabinet, D-2, Office of the Special Representative of the Secretary-General), Coordination and Liaison Officer (P-5, Office of the Deputy Special Representative of the Secretary-General for Humanitarian Coordination, Recovery and Reconstruction) and one Human Rights Officer (P-4), these posts have been downgraded to the D-1, P-4 and P-3 levels, respectively. In addition, the proposed staffing establishment of the Office of the Special Representative of the Secretary-General, Office of the Police Commissioner and Human Rights Office have been downsized by one P-3; one P-5, one P-4 and one P-3; and two P-4 posts, respectively.

The Division of Administration is reporting to the Principal Deputy Special Representative of the Secretary-General for Operations and Rule of Law.

The proposal to establish the position of Deputy Special Representative of the Secretary-General for Humanitarian Coordination, Recovery and Reconstruction at the Assistant Secretary-General level has been retained, in line with the Department of Peacekeeping Operations policy for all middle to large-sized multidimensional peacekeeping operations. The Deputy Special Representative of the Secretary-General, in his/her capacity as United Nations Resident and Humanitarian Coordinator, will lead the United Nations country team and ensure that the respective elements of the United Nations presence in Côte d'Ivoire work in a complementary manner. The Deputy Special Representative will also assist the mission in developing close working relations with other partners in the peace-building and reconciliation process, such as donors, civil society organizations, NGOs and community groups. The Deputy Special Representative will lead the mission's support for the preparation of a comprehensive programme of post-conflict recovery in close collaboration with the Government of National Reconciliation, the World Bank and other partners.

*Request/recommendation**Action taken to implement request/recommendation*

4. The Committee therefore recommends against the establishment of the Joint Mission Analysis Cell at this time. The matter should be reported on in the context of the comprehensive report of the Secretary-General on strengthening security, to be submitted to the General Assembly at the first part of its fifty-ninth session. (A/58/806, para. 32)

5. Given the availability of qualified local candidates in Côte d'Ivoire, the Committee is of the opinion that the staffing of the mission could be adjusted to include more national staff, particularly in the area of administration, where the functions would not be of a politically sensitive nature. (A/58/806, para. 33)

6. The Committee requests the mission to look into hiring qualified local personnel to carry out the French language training programme rather than using expensive consultants. (A/58/806, para. 36)

The organizational structure of UNOCI contained in the present report does not provide for the Joint Mission Analysis Cell.

At the current start-up phase, the mission is establishing facilities on both sides of the Zone of Confidence, requiring mobility in terms of logistical and administrative support. The current political situation has split the country into two regions and does not guarantee the safety to staff recruited from one region to move and/or work freely in the other region. Moreover, at the current phase, the mission requires staff who are trained and familiar with the standard United Nations practices and procedures to set up systems and install equipment in a similar fashion as installed and used in other peacekeeping operations. The absence of a strong United Nations infrastructure in Côte d'Ivoire in the past has made it difficult to find candidates compatible with the mission requirements. The current political situation demands neutrality. In order to support the mandated activities, the mission requires third-nationality personnel to perform some of the crucial tasks, such as setting up/establishing the disarmament, demobilization and reintegration and electoral sites.

In the long term, the mission intends to comply with this recommendation. UNOCI is in the process of formulating a policy to evaluate the level of training and/or responsibilities of national General Service staff which will ultimately lead to the increase in their recruitment and placement against administrative and logistics posts. The mission intends to reflect the implementation of this policy in its 2005/06 budgetary estimates.

The mission concurs with this recommendation and will hire local language teachers as individual contractors to meet the French language training programme requirements.

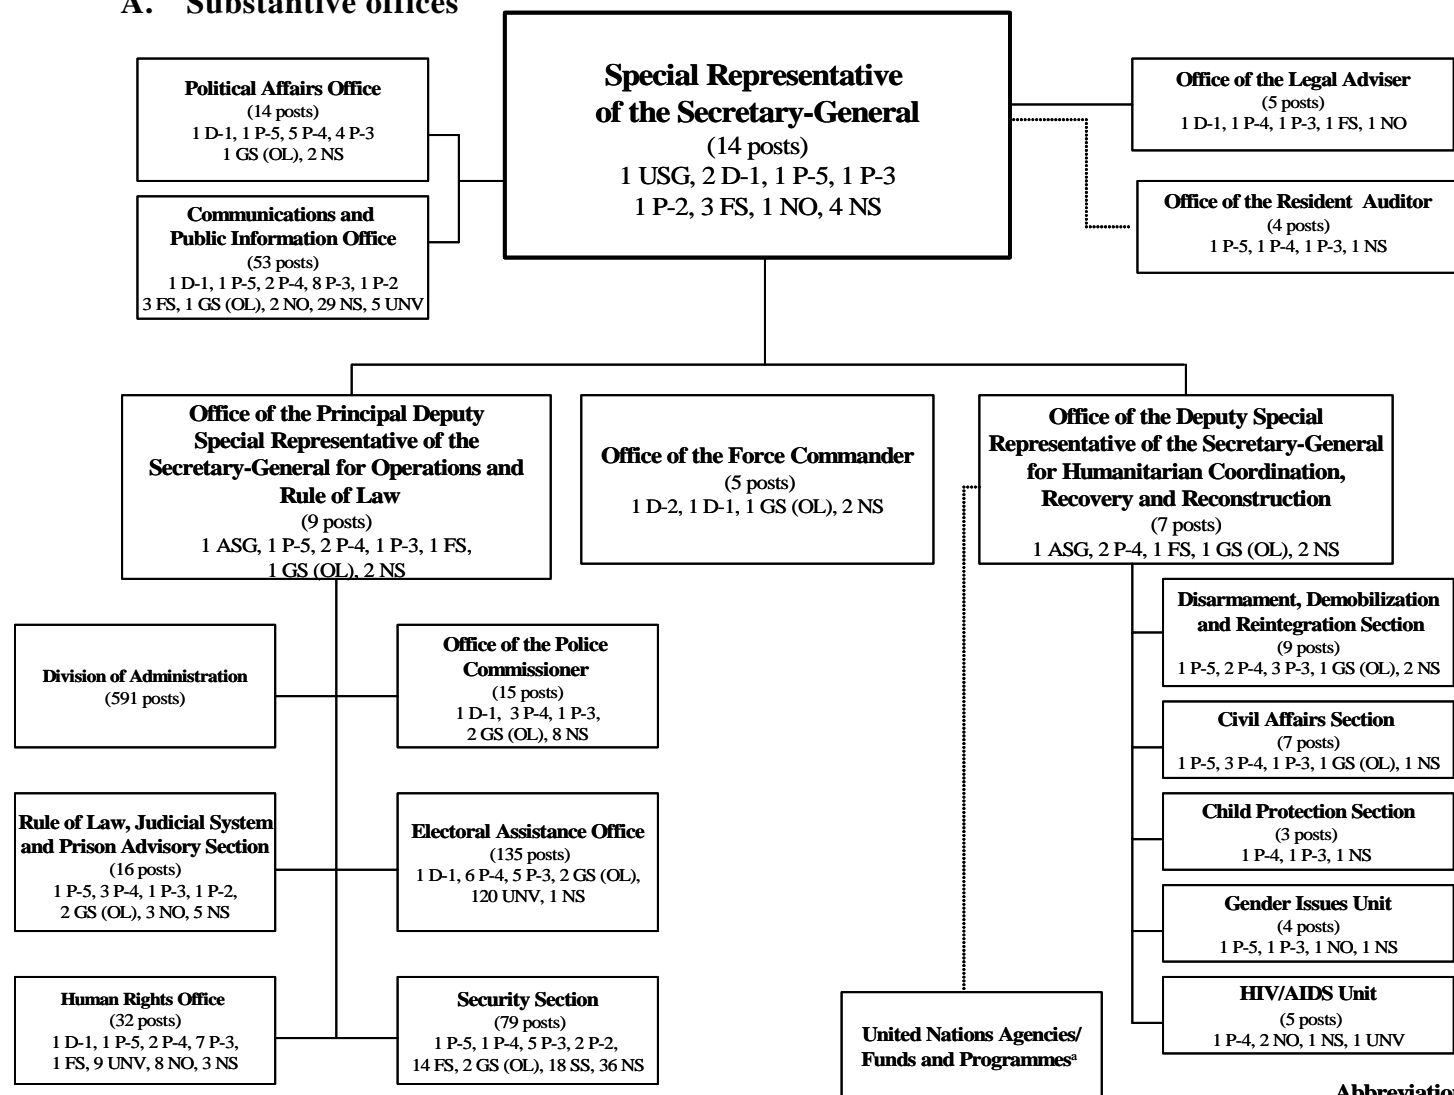

*Request/recommendation**Action taken to implement request/recommendation*

7. At the request of the Advisory Committee, the Department of Peacekeeping Operations reviewed the issue of the air conditioners received from the United Nations Mission for the Referendum in Western Sahara (MINURSO) and concluded that they would not need to be replaced in 2004/05. The requirements for the period from 1 July 2004 to 30 June 2005 should consequently be reduced by \$218,500. (A/58/806, para. 42)

No provision has been made in the present report for the replacement of 200 window-type air conditioners transferred from MINURSO.
