Recognizing that the enhancement of international peace and security and the promotion of nuclear disarmament mutually complement and strengthen each other,

Expressing deep concern regarding the growing dangers posed by the proliferation of weapons of mass destruction, including that caused by proliferation networks,

Welcoming the decision of the Libyan Arab Jamahiriya, announced on 19 December 2003, to renounce all its weapons of mass destruction programmes,

Welcoming the adoption of Security Council resolution 1540 (2004) of 28 April 2004 as an important step for global efforts to prevent the proliferation of weapons of mass destruction,

Convinced that every effort should be made to avoid nuclear war and nuclear terrorism,

Reaffirming the crucial importance of the Treaty on the Non-Proliferation of Nuclear Weapons¹ as the cornerstone of the international regime for nuclear non-proliferation and as an essential foundation for the pursuit of nuclear disarmament,

¹ United Nations, *Treaty Series*, vol. 729, No. 10485.

Bearing in mind that challenges to the Treaty and to the nuclear non-proliferation regime have further increased the necessity of full compliance and that the Treaty can fulfil its role only if there is confidence in compliance by all States parties,

Recognizing the progress made by the nuclear-weapon States in the reduction of their nuclear weapons unilaterally or through their negotiations, including the entry into force of the Treaty on Strategic Offensive Reductions between the Russian Federation and the United States of America,² which should serve as a step for further nuclear disarmament, and the efforts for nuclear disarmament and non-proliferation by the international community,

Welcoming the ongoing efforts aimed at the reduction of nuclear weapons related materials deployed within the framework of international cooperation, such as the Cooperative Threat Reduction programme,

Reaffirming the conviction that further advancement in nuclear disarmament will contribute to consolidating the international regime for nuclear non-proliferation, ensuring international peace and security,

Welcoming the continuation of a moratorium on nuclear-weapon-test explosions or any other nuclear explosions since the last nuclear tests, in 1998,

Welcoming also the successful adoption of the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,³ and stressing the importance of implementing its conclusions,

Recognizing the active discussions at the third session, held from 26 April to 7 May 2004, of the Preparatory Committee for the Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons to be held in 2005, and emphasizing the importance of a successful Review Conference in 2005, the year of the sixtieth anniversary of the atomic bombings,

Welcoming the steady increase in the number of States that have signed and/or concluded additional protocols to their International Atomic Energy Agency safeguards agreements in recent years, and sharing the hope that the International Atomic Energy Agency safeguards system will be further strengthened through the universalization of safeguards agreements and the additional protocols,

Encouraging the Russian Federation and the United States of America to implement fully the Treaty on Strategic Offensive Reductions and to continue their intensive consultations in accordance with the Joint Declaration on the New Strategic Relationship between both States,⁴

Welcoming the Final Declaration of the third Conference on Facilitating the Entry into Force of the Comprehensive Nuclear-Test-Ban Treaty, convened in Vienna from 3 to 5 September 2003⁵ in accordance with article XIV of the Treaty,⁵ and the Joint Ministerial Statement of the second meeting of Friends of the Comprehensive Nuclear-Test-Ban Treaty in September 2004,

⁴ CTBT-Art.XIV/2003/5, annex I.

⁵ See resolution 50/245.

Encouraging all States to make maximum efforts to bring about the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty, progress on which would contribute to a positive outcome of the 2005 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

Recognizing the importance of preventing terrorists from acquiring or developing nuclear weapons or related materials, radioactive materials, equipment and technology and underlining the role of the International Atomic Energy Agency in this regard,

(a) The importance and urgency of signatures and ratifications, without delay and without conditions and in accordance with constitutional processes, to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty⁵ as well as a moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending the entry into force of that Treaty;

(b) The establishment of an ad hoc committee in the Conference on Disarmament as early as possible during its 2005 session to negotiate a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, in accordance with the report of the Special Coordinator of 1995⁷ and the mandate contained therein, taking into consideration both nuclear disarmament and non-proliferation objectives, with a view to its conclusion within five years and, pending its entry into force, a moratorium on the production of fissile material for nuclear weapons;
