24 December 1965

ORIGINAL: ENGLISH

REPORT BY THE SECRETARY-GENERAL ON THE
SITUATION IN THE DOMINICAN REPUBLIC

Addendum

1. Further information on the situation in the Dominican Republic has been received from the Office of my Representative there since the publication of Addendum 1 (S/7032/Add.1) to my report of 20 December 1965 on the subject (S/7032).
2. While to a large extent the situation in the Dominican Republic was returning to normal during 22 and 23 December, terrorist activities continued. During the night of 22-23 December sporadic fire was still heard throughout the city although with less intensity than the previous night.
3. One of the most serious incidents in Santo Domingo was the bombing of "Radio Mil" - the third broadcasting station bombed within the last four days. Damages were estimated at between 20,000 to 30,000 pesos.
4. One person was shot dead on 22 December in the area of "Puente Duarte", in Santo Domingo. On the same date the body of the painter Enrique Stark was found in Santiago, at a distance of some 300 metres from the Matum Hotel. His death, which appears to be connected with the disturbances of 19 December in Santiago, brings the number of persons reportedly killed on that occasion to twenty-five.
5. On 22 December the Provisional Government closed down the newspaper "La Hoja" on the grounds that its continued publication might unsettle public order and "disturb the discipline and morale of the Armed Forces".
