## Overview

- 12.1 The United Nations Conference on Trade and Development (UNCTAD) is responsible for the implementation of the work programme under this section. The programme is guided by the sessions of the United Nations Conference on Trade and Development, the Trade and Development Board and its subsidiary bodies, and the Commission on Science and Technology for Development.
- 12.2 The activities for which UNCTAD is responsible fall within subprogrammes 1 to 5 of programme 10, Trade and development, of the biennial programme plan for the period 2006-2007. The International Trade Centre UNCTAD/WTO (ITC) is responsible for subprogramme 6.
- 12.3 Ensuring coherence for development was the overarching goal of the eleventh session of the Conference, held in São Paulo, Brazil, in June 2004. The eleventh session provided an opportunity to identify new developments and issues in the area of trade and development since the tenth session, held in Bangkok in February 2000, and to generate greater understanding of the interface and coherence between international processes and negotiations on the one hand and the development strategies and policies that developing countries need to pursue on the other. Development strategies in a globalizing world economy, building productive capacities and international competitiveness, assuring development gains from the international trading system and trade negotiations and partnerships for development were key themes of the Conference.
- 12.4 The decisions adopted at the eleventh session of the Conference, in addition to the Bangkok Plan of Action, form the basis for building upon UNCTAD future work. The treatment of development strategies in a globalizing world economy will be undertaken under subprogramme 1A. Subprogrammes 2 and 4 in particular will contribute to building productive capacities and international competitiveness. Work on assuring development gains from the international trading system and trade negotiations will be undertaken by subprogramme 3 and the trade facilitation component of subprogramme 4. Countries in special situations will be covered under subprogramme 5 and subprogramme 1B. For this purpose, and in accordance with the São Paulo Consensus, subprogramme 5 is now devoted to the special needs of least developed countries, small island developing States and landlocked developing countries, and the related special problems and challenges faced by transit developing countries. Attention will also be paid to structurally weak, vulnerable and small economies.
- 12.5 Issues relating to the least developed countries, Africa as well as other countries in special situations will also be treated across all UNCTAD subprogrammes. Aspects relating to economies in transition will also be taken into account. The integration of cross-cutting issues, such as poverty and gender, will receive the necessary consideration.
- 12.6 The Working Party on the Medium-term Plan and the Programme Budget reviewed the draft work programme at its forty-fourth session, held from 31 January to 2 February 2005. The recommendations of the Working Party were consistent with the approved biennial programme plan and priorities and the proposed adjustments on the level of outputs for the programme of work as well as proposed adjustments for the logical framework for executive direction and management have been reflected in the present document.
- 12.7 The Office of UNCTAD in New York represents UNCTAD interests and promotes its objectives at United Nations Headquarters and with relevant actors based in New York or Washington, D.C., including all United Nations entities, funds and specialized programmes, diplomatic missions and the press corps accredited to the United Nations, and technical assistance agencies in the area of trade, investment, technology and development. It serves as the North American access point for information to the public, universities, media and research centres on the research policy and

technical cooperation activities of UNCTAD. The New York Office consists of two Professional staff (1 P-5, 1 P-3) and two General Service staff.

- 12.8 UNCTAD carries out its activities in cooperation with other departments and offices of the secretariat, entities of the United Nations system, including the United Nations System Chief Executives Board for Coordination (CEB) and entities external to the United Nations, governmental and intergovernmental organizations, such as regional and subregional groupings of developing countries and the Organization for Economic Cooperation and Development, and non-governmental organizations and academic institutions, as well as the private sector. Such collaboration and cooperation include the preparation of reports, participation in meetings and briefings, the provision of technical and substantive support and the sharing of information and experience.
- 12.9 The expected accomplishments and indicators of achievement for UNCTAD in the biennium 2006-2007 are detailed, together with resources, under executive direction and management and the programme of work. The overall framework of these expected accomplishments and indicators of achievement is shown in table 12.1.

- 12.10 The issue of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as shown in table 12.2 below in summary and as distributed in the output information for each subprogramme.

12.11 The overall resources required for the biennium 2006-2007 for this section amount to \$112,530,900 before recosting, reflecting a decrease of \$2,271,400 (or 2 per cent). The decrease in table 12.4 can be summarized as follows:

- (a) The decrease of \$89,000 under policymaking organs relates to reduced requirements for other staff costs, travel of staff, hospitality and operating expenses. The reduction is related to the provisions included in the programme budget for the biennium 2004-2005 for the eleventh session of the Conference in 2004 that would not be required in the biennium 2006-2007. The twelfth session of the Conference is expected to be held in 2008;
- (b) The increase of \$14,800 under executive direction and management relates to the substantive pre-session preparation for the twelfth session of the Conference;
- (c) The net decrease of \$1,457,800 under programme of work relates to:
  - (i) A decrease of \$1,129,300 under subprogramme 1, comprising \$233,800 for posts and \$895,500 for non-posts, mainly owing to the proposed abolition of two General Service posts and reduced costs for services provided by the International Computing Centre. This has been partly offset by increased requirements arising from the São Paulo Consensus, in particular to support the New Partnership for Africa's Development (NEPAD);
  - (ii) A decrease of \$395,200 under subprogramme 2, comprising \$193,200 for posts and \$202,000 for non-posts relating to the proposed abolition of three General Service posts, the proposed establishment of two P-2 posts to better respond to the mandates that emerged from the eleventh session of the Conference, and reductions in non-post resources associated with expenditure experience;
  - (iii) A decrease of \$234,700 under subprogramme 3, comprising \$185,600 for posts and \$49,100 for non-posts associated with the proposed abolition of one General Service post and the increased utilization of in-house capacity for non-post elements;
  - (iv) A net decrease of \$486,800 under subprogramme 4, relating to a decrease of \$500,100 for posts owing to the redeployment of two posts (1 P-4 and 1 General Service) to subprogramme 5 arising from the mandates that emerged from the São Paulo Consensus as described in paragraph 12.3 and an increase of \$13,300 for non-post requirements, mainly for the production of the publication and technical materials of the subprogramme;
  - (v) An increase of \$788,200 under subprogramme 5, comprising \$715,400 for posts and \$72,800 arising from the mandates that emerged from the São Paulo Consensus as described in paragraph 12.4;
- (d) The net decrease of \$739,400 under programme support relates to an increase of \$130,000 under posts and a reduction of \$869,400 under non-post requirement arising from: (i) the abolition of a General Service post, and the creation of a P-2 post in information technology for improved development of applications in lieu of the more basic support services associated with the functions of the General Service post; (ii) the delayed impact of one new D-2 post established in the biennium 2004-2005; and (iii) reductions for non-post requirements, such as contractual services, operating expenses, and acquisition and replacement of office equipment, reflecting expenditure pattern.

12.12 During the biennium 2006-2007, the projected extrabudgetary resources amounting to \$61,146,400 will supplement resources from the regular budget to finance various activities, such as technical advisory services, training, workshops, seminars and field projects. This represents 35.2 per cent of

the total resources available to this programme. The decrease of \$749,200 is mainly related to non-recurrent provisions for conference and other costs associated with the eleventh session of the Conference in São Paulo, Brazil, partly offset by increased resources for technical cooperation activities.

- 12.13 Pursuant to General Assembly resolution 58/269 of 23 December 2003, resources identified for the conduct of monitoring and evaluation would amount to \$963,300 in the regular budget (comprising \$918,300 in post and \$45,000 in non-post resources and reflected under executive direction and management and subprogrammes 1 to 5) and \$82,000 in extrabudgetary resources.
- 12.14 The estimated percentage distribution of the resources of the programme in the biennium 2006-2007 is as shown in table 12.3.
- 12.15 The distribution of resources is summarized in tables 12.4 and 12.5.

## A. Policymaking organs

*Resource requirements (before recosting): \$482,800*

### **Eleventh session of the United Nations Conference on Trade and Development**

- 12.16 The eleventh session of the Conference was held at São Paulo, Brazil, in June 2004. In accordance with paragraph 2 of General Assembly resolution 1995 (XIX) of 30 December 1964, the General Assembly determines the dates and location of the sessions of the Conference, taking into account the recommendations of the Conference or of the Trade and Development Board. The twelfth session of the Conference is scheduled to take place in 2008, and preparations for it are expected to begin in 2007.

### **Trade and Development Board**

- 12.17 The Trade and Development Board was established as a permanent organ of the Conference to carry out the functions of the Conference when it is not in session. The Board reports to the Conference and also to the General Assembly through the Economic and Social Council. The Board meets annually in regular sessions, and could meet in executive sessions three times annually. The Board is assisted by the Working Party on the Medium-term Plan and the Programme Budget in its oversight of the programme of work, including technical cooperation.

### **Subsidiary bodies of the Trade and Development Board**

- 12.18 Three intergovernmental commissions were established at the ninth session of the Conference as subsidiary bodies of the Trade and Development Board (see A/51/308, paras. 107-111) to perform integrated policy work in their respective areas of competence, as explained below. The commissions hold annual sessions.
- 12.19 The Commission on Trade in Goods and Services, and Commodities was established, inter alia, to assist developing countries to integrate themselves more fully into, and derive benefits from, the international trading system and to maximize the opportunities arising from the Uruguay Round agreements on issues relating to international trade in goods and services and commodities issues, including strengthening the capacity of developing countries in the services sector.
- 12.20 The Commission on Investment, Technology and Related Financial Issues was established to deal with issues relating to international investment and technology and related financial issues, including development challenges regarding effective participation in international trade and investment, and issues related to competition law of particular relevance to development. In accordance with General Assembly resolution 49/130 of 19 December 1994, the Commission is assisted by 16 expert advisers, serving in their individual capacity and selected from both developed and developing countries. The Commission also has two standing subsidiary expert bodies, namely, the Intergovernmental Group of Experts on Competition Law and Policy, and the Intergovernmental Group of Experts on International Standards of Accounting and Reporting.
- 12.21 The Commission on Enterprise, Business Facilitation and Development was established to deal with issues relating to enterprise development, services infrastructure for development, trade efficiency and globalization and development strategies, including successful experiences.

- 12.22 In accordance with paragraph 114 of the final document of the ninth session of the Conference, entitled “Midrand Declaration and A Partnership for Growth and Development” (A/51/308), each Commission may convene expert meetings in order to benefit from a higher level of expertise. The total number of such expert meetings is not to exceed 10 per annum, including sessions of the two standing expert bodies of the Commission on Investment, Technology and Related Financial Issues. Technical matters discussed at expert meetings are reported to the parent commission, which may transmit them to the Board as appropriate.

### Commission on Science and Technology for Development

- 12.23 Established by the General Assembly in its resolution 46/235 of 13 April 1992, the intergovernmental Commission on Science and Technology for Development provides overall direction to the related programme of work. The Commission is composed of 33 members and, pursuant to Economic and Social Council resolution 2002/37 of 26 July 2002, meets on an annual basis and reports to the Council. In accordance with Council resolution 1993/75 of 30 July 1993, the Commission receives specialized and technical advice from ad hoc panels and workshops that meet between sessions of the Commission to examine specific issues to science and technology for development. The UNCTAD secretariat provides substantive support to the Commission.

<b>Total</b>	<b>571.8</b>	<b>482.8</b>	—	—

- 12.24 The amount of \$482,800, representing a decrease of \$89,000, is comprised of the following requirements: (a) \$96,600 for preparatory work for the twelfth session of the Conference reflecting: (i) \$26,500 for other staff costs; (ii) \$48,300 for travel of staff to service various preparatory meetings relating to the twelfth session of the Conference; and (iii) \$21,800 for general operating expenses; (b) \$110,300 for the travel and daily subsistence allowance of the 16 experts serving in their individual capacity the Commission on Investment, Technology and Related Financial Issues; and (c) \$275,900 for the travel of 33 representatives participating in the work of the Commission on Science and Technology for Development and the travel and daily subsistence allowance for the experts taking part in intersessional ad hoc panel of experts. The decrease is related to the provision for the organization of the conference in 2004, which is not required in the biennium 2006-2007 since the next session of the conference is scheduled for 2008.

## B. Executive direction and management

### *Resource requirements (before recosting): \$6,617,300*

- 12.25 The Secretary-General of UNCTAD provides overall direction on substantive and managerial matters and ensures the effective servicing of the intergovernmental machinery of UNCTAD, in particular the quadrennial sessions of the Conference and sessions of the Trade and Development Board. The Deputy Secretary-General deputizes for the Secretary-General, provides policy

coordination and clearance on substantive work in line with the objectives and strategies of the organization in programmatic terms.

- 12.26 The Office of the Secretary-General assists the Secretary-General and the Deputy Secretary-General in discharging their management responsibilities. The office includes the Programme, Planning and Assessment Unit, which provides support for:
- (a) Policy planning and clearance, including policy clearance of all documents and publications issued by UNCTAD, including material for the UNCTAD websites, policy planning and coordination of intergovernmental and expert meetings;
  - (b) Programme planning and oversight, including programme aspects of the budget and the biennial programme plan and priorities;
  - (c) Internal oversight and evaluation, including programme performance monitoring and assessment, coordination of and follow-up to the self-evaluation of the programmes;
  - (d) Interaction and coordination with organizations of the United Nations system;
  - (e) Supervision of the UNCTAD New York Office.

- 12.37 The proposed amount of \$17,473,500 comprises: (a) \$15,087,300 for the funding of 59 posts; and (b) \$2,386,200 for non-post requirements comprising of consultants and experts, travel of staff, contractual services for editing and printing of publications, press kits and studies, and for services provided to UNCTAD by the International Computing Centre. The decrease of \$233,800 under posts is the result of changes in the staffing table owing to the abolition of two General Service (Other level) posts because of an overall increase in productivity resulting from investment in information technology and increasing computer skills of staff members, and the establishment of one P-3 post under subprogramme 1B in response to the additional requirements arising from the São Paulo Consensus, in particular to support NEPAD. The decrease of \$895,500 for non-post resources reflects existing expenditure patterns and the increased usage of in-house printing facilities.
- 12.38 In addition, an estimated \$6,992,300 in extrabudgetary resources is anticipated, relating, inter alia, to: (a) advisory services, at the request of Governments, to strengthen the technical capacity of 64 developing countries and countries with economies in transition to record, monitor and analyse their external and domestic debt; (b) group training in DMFAS application; (c) a field project on the installation, updating and maintenance of the DMFAS programme; and (d) technical support services to the Intergovernmental Group of Twenty-four on International Monetary Affairs and Development.

## Subprogramme 2 Investment, enterprise and technology

**Resource requirements (before recosting): \$22,720,600**

- 12.39 The subprogramme is under the responsibility of the Division on Investment, Technology and Enterprise Development. The programme of work has been formulated by drawing upon subprogramme 2 of programme 10 of the biennial programme plan for the period 2006-2007. The work of the subprogramme will assist developing countries, in particular least developed countries, to design and implement active policies for building productive capacity and international competitiveness, based on an integrated treatment of investment, corporate responsibility, technology transfer and innovation, and enterprise development. The Division also contributes to the report of the Secretary-General of UNCTAD to the Conference at its twelfth session and *The Least Developed Countries Report*.

- 12.48 The proposed amount of \$23,084,600 comprises: (a) \$22,433,700 for the funding of 84 posts; and (b) \$650,900 under non-post requirements for consultants and experts, travel of staff and contractual services for editing and printing of publications and the production of CD-ROMs for technical material. The decrease of \$185,600 under posts is the result of the proposed abolition of one General Service (Other level) post. The net decrease of \$49,100 for non-post resources relates

to decreases for consultants and experts, partly offset by increases for travel of staff and contractual services based on existing expenditure patterns.

- 12.49 In addition, an estimated amount of \$13,420,100 in extrabudgetary resources is anticipated to carry out technical cooperation activities to strengthen the capacities of developing countries, to enable them, inter alia, to: (a) participate effectively in multilateral trade negotiations, successfully manage the accession to WTO and maximize market access benefits; (b) effectively address issues that interface between trade and environment to pursue trade and sustainable development objectives in a mutually supportive manner; (c) identify and address competition and consumer protection issues; and (d) improve the contribution of the commodity sector to development through improving supply capacities, meeting market requirements, diversification, innovative financing mechanisms and risk management instruments.

#### **Subprogramme 4 Services infrastructure for development, trade efficiency and human resources development**

*Resource requirements (before recosting): \$13,373,900*

- 12.50 The subprogramme is under the responsibility of the Division for Services Infrastructure for Development and Trade Efficiency. The programme of work has been formulated by drawing upon subprogramme 4 of programme 10 of the biennial programme plan for the period 2006-2007.
- 12.51 The effective implementation of the work programme under this subprogramme will contribute to promoting access to, and the capacity to use, information and knowledge, focusing on: trade-supporting services, such as transport efficiency, trade facilitation, customs and legal framework; economic applications of information and communication technologies; and capacity development of trade and training institutions. The Division also contributes to the report of the Secretary-General of UNCTAD to the Conference at its twelfth session and *The Least Developed Countries Report*.

12.54 The amount of \$13,373,900 comprises: (a) \$13,076,600 for the funding of 50 posts; and (b) \$297,300 under non-post requirements for consultants and experts, travel of staff and contractual services for editing, printing of publications and the production of CD-ROMs for technical material. The decrease of \$500,100 under posts is related to the outward redeployment of two posts (1 P-4 and 1 General Service (Other level)) to subprogramme 5 in order to strengthen the work under that subprogramme. The increase of \$13,300 under non-posts relates mainly to increased requirements for contractual services related to the production of CD-ROMs for the publications and materials of the work programme, partly offset by reduced requirements for consultancy services based on the existing expenditure pattern.

12.55 In addition, an estimated amount of \$21,234,900 in extrabudgetary resources is anticipated for the implementation of technical cooperation activities, in particular: (a) the provision of advisory

services on e-commerce and information and communications technology for development and the organization of workshops and seminars on follow-up actions of the World Summit on the Information Society related to e-commerce; (b) the development of a generic information technology platform to collect and structure information about tourist resources of developing countries aimed at providing tools for marketing and selling tourism services to reap international market opportunities; (c) the organization of training courses on key issues on the international economic agenda focusing on the links between trade, investment and development; (d) capacity-building and the provision of services and tools for the World Trade Point Federation aimed at strengthening and increasing the participation of small and medium-sized enterprises in international trade; (e) human resources development in the fields of international trade, trade-related services, investment and port management; and (f) assistance to academic institutions to enhance their teaching and research capacity in the areas of trade, investment and development through the UNCTAD Virtual Institute.

### **Subprogramme 5**

#### **Special needs of least developed countries, small island developing States and landlocked developing countries and the related special problems and challenges faced by transit developing countries**

*Resource requirements (before recosting): \$5,464,900*

- 12.56 The subprogramme is under the responsibility of the Special Programme for Least Developed Countries, Landlocked and Transit Developing Countries, Small Island Developing States and Structurally Weak, Vulnerable and Small Economies. The programme of work has been formulated by drawing upon subprogramme 5 of programme 10 of the biennial programme plan for the period 2006-2007.
- 12.57 The work of the subprogramme will focus its efforts on improving human and institutional capabilities, including national policymaking capacities in these countries by conducting research and policy analysis; making policy proposals based on such analysis; facilitating intergovernmental deliberations and consensus-building; and implementing technical cooperation projects and programmes such as the Integrated Framework for Trade-Related Technical Assistance to Least Developed Countries. The Special Programme also contributes to the report of the Secretary-General of UNCTAD to the Conference at its twelfth session, the reports to the Commission on Trade in Goods and Services, and Commodities, the Commission on Investment, Technology and Related Financial Issues and the Commission on Enterprise, Business Facilitation and Development and their expert meetings.

Table 12.19 Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures

**Objective of the Organization:** To promote progressive and beneficial integration into the global economy of least developed countries and facilitate their smooth graduation and to respond to the special needs of small, vulnerable economies, small island developing States and landlocked developing countries within a new global framework for transit transport cooperation for landlocked and transit developing countries, in accordance with the Almaty Programme of Action.

Expected accomplishments of the Secretariat	Indicators of achievement

- 12.60 The amount of \$5,464,900 comprises: (a) \$5,081,900 for the funding of 19 posts; and (b) \$383,000 under non-post requirements for consultants and experts and travel of staff. The increase of \$715,400 under posts is the result of changes in the staffing table owing to the establishment of one P-4 post, the inward redeployment of two posts (1 P-4 and 1 General Service (Other level)) from subprogramme 4 and the reclassification of one P-5 post to the D-1 level to strengthen the work under the subprogramme. The increase of \$72,800 under non-posts relates to increased requirements for consultants, experts and travel of staff.
- 12.61 In addition, an estimated amount of \$2,135,600 in extrabudgetary resources is anticipated to be utilized towards the implementation of capacity-building programmes such as the Integrated Framework for Trade-Related Technical Assistance to Least Developed Countries, commodity diversification, accession to WTO, as well as research and analytical studies on trade and trade policy issues and for the mid-term review of the Programme of Action for Least Developed Countries for the decade 2001-2010.

## D. Programme support

### *Resource requirements (before recosting): \$23,313,300*

- 12.62 Programme support services are provided to the policymaking organs, executive direction and management and substantive subprogrammes to assist them in delivering programmed outputs. The services are organized around three entities, namely, the Resources Management Service, the Technical Cooperation Service and the Intergovernmental Affairs and Outreach Service, as part of the Division of Management.
- 12.63 The Resources Management Service provides the support services for personnel, budgetary and financial administration, resource planning and budgeting and administration of technical cooperation activities as well as providing information technology support, including data processing services, development and maintenance of information technology systems and support services to computer networks.
- 12.64 The Technical Cooperation Service provides policy guidance for and promotes a coordinated approach by the secretariat to technical cooperation, including review of project proposals, fund-raising and liaison with beneficiaries, donors and other organizations involved in trade-related technical cooperation.

- 12.65 The Intergovernmental Affairs and Outreach Service is responsible for the preparation, management and servicing of the quadrennial United Nations Conference on Trade and Development, the Trade and Development Board and its subsidiary machinery (commissions, expert meetings and the Working Party on the Medium-term Plan and the Programme Budget) and United Nations conferences organized under the auspices of UNCTAD. The Service provides liaison support and services to the regional groups. The Service is also responsible for maximizing the impact of the work of UNCTAD through effective outreach to all stakeholders, including Member States, press/media and civil society. The Service is responsible for monitoring the institutional follow-up to decisions of the intergovernmental machinery, preparation of the UNCTAD calendar of meetings, editing of documentation and report writing and the monitoring of implementation of documentation policy, dispatch of official correspondence, protocol support and the preparation of the host country agreements for conferences.

12.67 The amount of \$23,313,300 comprises: (a) \$16,719,500 for the funding of 73 posts; and (b) \$6,593,800 under non-post requirements. The increase of \$130,000 under posts is a result of changes in the staffing table owing to the abolition of one General Service (Other level) post and the establishment of one P-2 post for an information systems officer rather than the more basic information technology support functions provided at the General Service post level, and the delayed impact of one D-2 post established in the biennium 2004-2005. Under non-post resources, the decrease of \$869,400 related to contractual services, general operating expenses and acquisition and replacement of office equipment reflects existing expenditure patterns.

12.68 In addition, an estimated amount of \$5,062,100 in extrabudgetary resources is anticipated to be utilized for support services to extrabudgetary activities carried out under the programme of work.

<p>The ratio of General Service staff should be reviewed with a view to reducing the number, while ensuring adequate support for communication and information technology (para. IV.57).</p>	<p>With the efficiency gained from the use of communication and information technology, the proposal includes the abolition of seven General Service posts for secretarial support, with the resources released to be utilized in the substantive work of priority, such as the annualization of <i>The Least Developed Countries Report</i> mandated by the Conference at its eleventh session.</p>
<p>Information should be provided in the next budget submission on the extent to which the recommendations and observations of the Advisory Committee set out in paragraph 69 to 78 and IV.44 to IV.54 of its previous report have been implemented (para. IV.58).</p>	<p>A number of publications previously printed externally (amounting to 6.8 million pages in total) are proposed to be printed with the in-house facilities of the United Nations Office at Geneva for the biennium 2006-2007.</p> <p>Through internal consultations and guidelines, efforts were made to improve the expected accomplishments and indicators of achievements to make them more specific and clear. The programme of work for the biennium 2006-2007 has been formulated in coordination with the intergovernmental Working Party on the Medium-term Plan and the Programme Budget, which reviews the proposed programme budget and submits its views directly to the Advisory Committee.</p> <p>The new result-oriented annual report, mandated by the Conference at its eleventh session, is discussed at the Trade and Development Board from 2005. The report will focus on the achievements of programmes and the impact of outputs/activities, including that of publications.</p> <p>Detailed information on each publication proposal is examined by the intergovernmental Working Party. The information includes objective, contents, type, frequency, format (electronic, etc.), target readership and dissemination strategy. It will be made available to the Advisory Committee.</p>

### **Report of the Board of Auditors**

(A/59/5, vol. I, chap. II)

The Board recommended that UNCTAD consider (a) documenting a multi-year funding strategy, in cooperation with donors; and (b) submitting a yearly technical cooperation plan to its governing bodies (para. 318).

UNCTAD agreed with the Board's recommendation that it improve benchmarks and indicators of achievement with a view to measuring the performance of its activities funded under section 23 of the United Nations regular budget (para. 321).

While recognizing the constraints of programme implementation and the need for flexibility in the administration of programme delivery, the Board recommended that the secretariat of UNCTAD comply with the Staff Rules and Regulations of the United Nations on the scope of the tasks entrusted to 200-series staff members. The Board also recommended that the secretariat review the geographical and gender balance of its staff, and consider introducing systematically competitive selection of its staff under the 200 series of the Staff Rules (para. 324).

The Board recommended that UNCTAD review its policy and funding on financing the travel of experts from developing countries in order to align goals and means (para. 326).

Part (a) has been implemented.

In 2002, the Trade and Development Board decided to discontinue the indicative plan on technical cooperation, previously submitted to the Board on an annual basis. UNCTAD will submit the recommendation to the Board for its consideration and decision in its next session, in 2005.

The implementation of the recommendation is in progress. Internal instructions have been issued in the context of the proposed programme budget for 2006-2007 as well as for measuring the performance in 2004-2005. Additional guidelines are under preparation for the reporting period at the end of the biennium 2004-2005.

Implementation of the recommendation is in progress. New procedures for the competitive selection of staff under the 200 series have been introduced. More comprehensive guidelines are currently under review and further advice is awaited from the Office of Human Resources Management at Headquarters. The geographical and gender balance is under constant review by management.

Implementation is in progress. The matter has been referred to the Trade and Development Board and the Working Party on the Medium-term Plan and the Programme Budget. The Board requested its President to hold consultations with a view to finding a solution and to report to the Board (see A/59/15, chap. I).
