# **Launching the National e-Strategy for Lebanon**

## **Project Overview**

Second Regional Preparatory  
Conference for the WSIS

Nov 2004- Damascus- Syria

By Ziad Haddara  
UNDP Project Coordinator- "National e-Strategy for Lebanon"  
Ziad.Haddara@undp.org

## **The Objective**

The aim of the National e-Strategy is to move the economy and society of Lebanon towards a Knowledge Based Society in the shortest possible time while simultaneously addressing related challenges and opportunities that Lebanon is facing.

## **The National e-Strategy for Lebanon**

- National e-Strategy completed in October 2003.
- Presented at the Regional National e-Strategies Conference held at the UN House in Beirut in May 2004.
- Full document available at

**[www.e-gateway.gov.lb/NeSWorkshop](http://www.e-gateway.gov.lb/NeSWorkshop)**

## **National e-Strategy Opportunities- 1**

- **Closing the e-Readiness Gap:** Getting ICT infrastructure and services to where they should be.
- **Developing and Adopting National ICT Policies:** Creating the right enabling environment to move towards a Knowledge-Based Society, including the proper legal frameworks.
- **Creating a Well-branded and Strong Local ICT Production Sector:** Finding the proper niche, attracting private investment, and reducing the brain drain.
- **Using ICT to Strengthen Human Capacity:** Updating academic and training curricula and providing widespread training programs.

## **National e-Strategy Opportunities- 2**

- **Using ICT as a Tool for Social Development:** Bridging the digital divide to reduce disparity and improve economic well-being.
- **Using ICT as a Tool for Economic and Business Development:** Increasing the productivity of the national economy and improving competitiveness.
- **Continuing to Work towards an e-Government:** Using ICT to ensure better and more streamlined services to the Lebanese people and businesses.

## **Currently: Launching the e-Strategy**

- This Phase: Implementation Plan for the e-Strategy.
- Project adopted by the Council of Ministers in July 2004.
- A Plan providing a coherent vision for the road ahead, across sectors, and including specific projects.

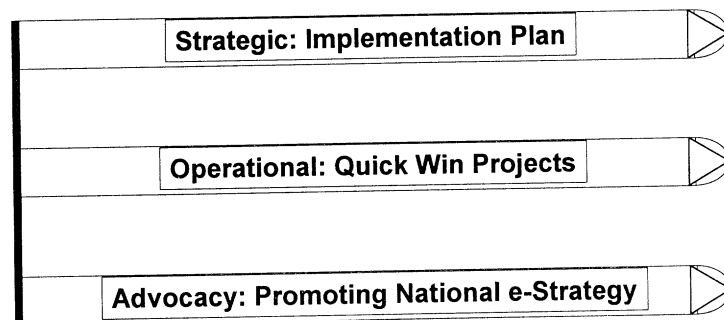

## **Expected Outcomes of Current Phase**

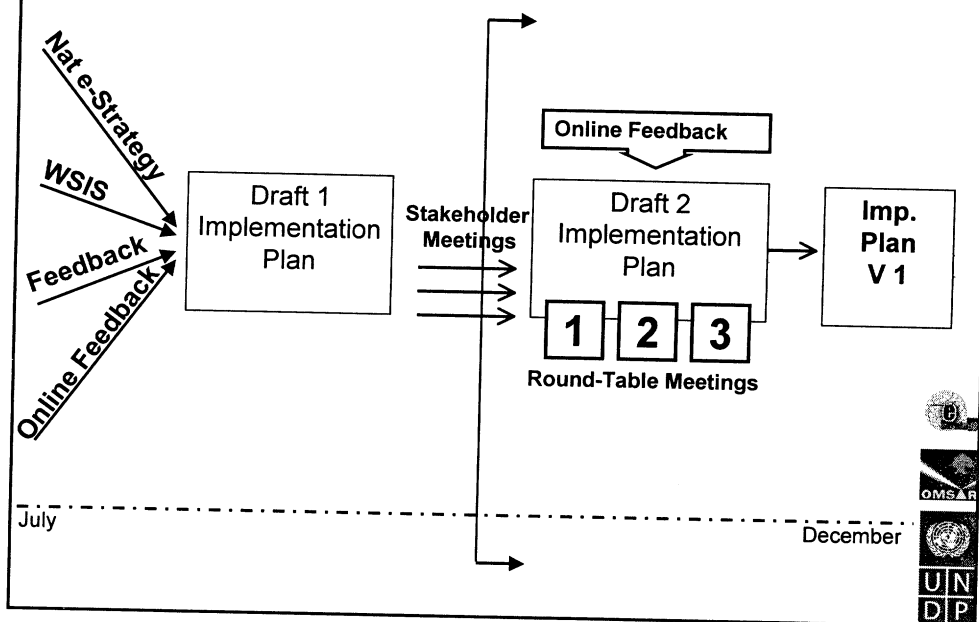

- Consolidating the Vision, socializing it, and building consensus among multi-sectoral stakeholders.
- Developing a 7-10 year Implementation Plan, with a focus on pre-requisites and national priorities for the next 2 years.
- Identifying and beginning to implement pilot projects (Quick Wins), including securing partners and financial resources.
- Identifying the most suitable format for a “National e-Strategy Coordination Entity” that will be responsible for overseeing and coordinating implementation as well as monitoring progress.

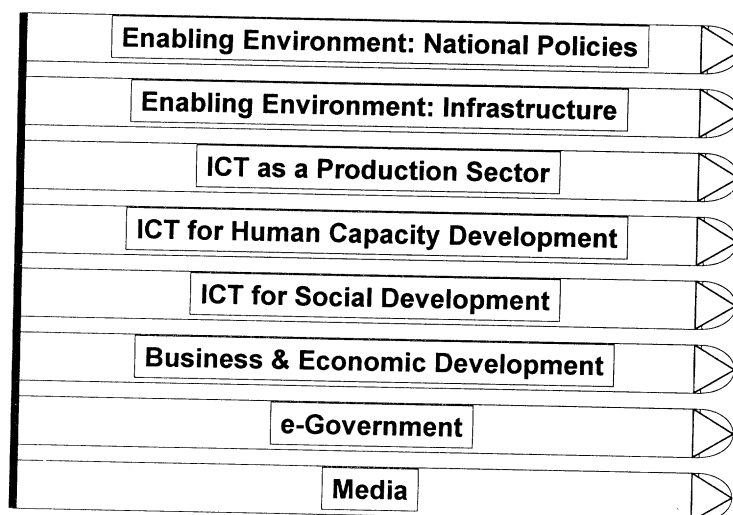

## **Three-Prong Process**

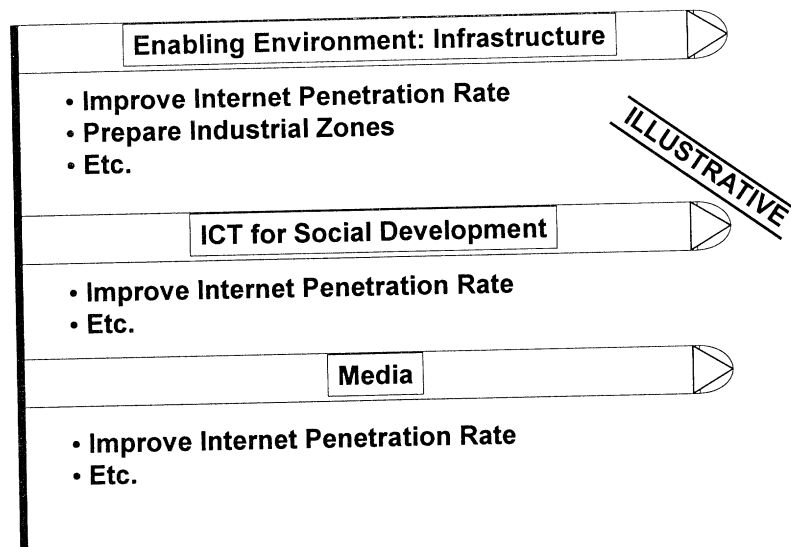

## Consultative & Open Process

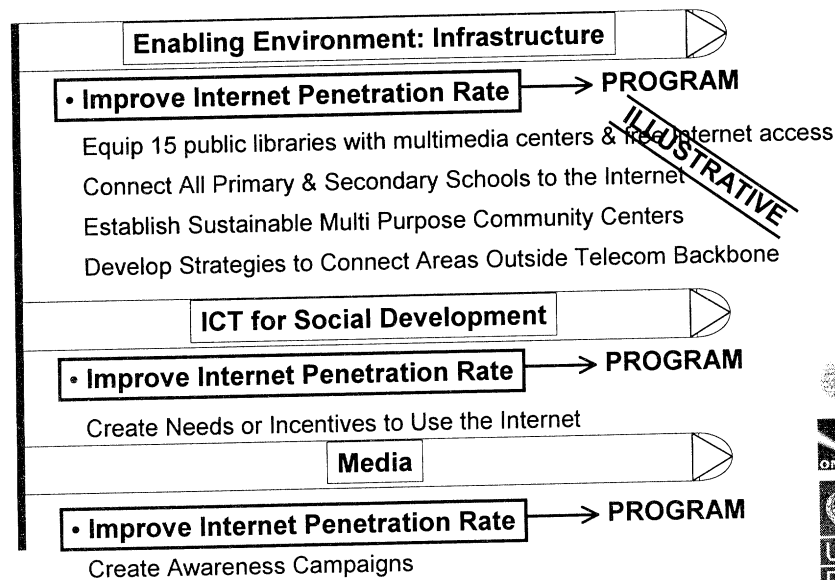

## The Implementaion Plan: 8 Tracks

## Programs Are Not Track-Specific

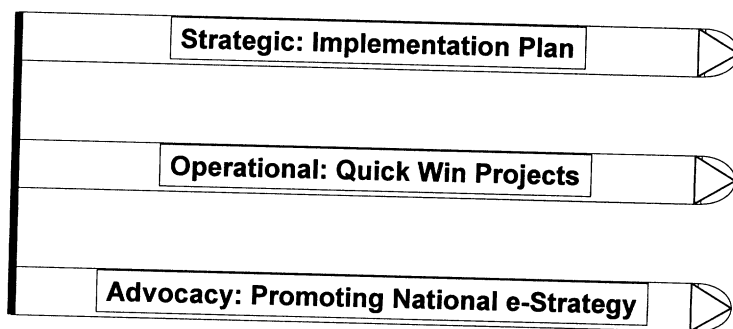

## Projects Are Track-Specific

## Three-Prong Process

## Quick Win Projects- Definition

Quick Wins are discrete, high-impact, and visible projects that are being implemented in this Phase.

They are meant to add value while simultaneously creating momentum and providing increased visibility and credibility to the National e-Strategy Project.

Quick Wins may be new projects or may build on or expand existing projects.

## **Quick Win Projects- Listing**

- A usage-based Internet awareness raising campaign.
- A mapping of all existing Multi Purpose Tele Centers in Lebanon as a tool for picking locations of future MPTCs.
- An ICT needs survey targeted at specific user-groups as a means to identify additional projects.
- Support the ongoing ICT for Women and Children Rights project in collaboration with ICTDAR.
- Plan for a citizen-centric public domain government information portal, building on existing initiatives such as [www.informs.gov.lb](http://www.informs.gov.lb) and other government sites.

## **Challenges**

- Combining bottom-up and top-down
- Socializing and creating ownership
- Finding champions
- Planning at the appropriate level
- Looking forward while keeping track of all ongoing and completed projects
- Making sure government decision makers are fully aware of the importance and need for an e-Strategy (awareness-raising efforts)
- Achieving clear government support and back-up leading towards the formation of a Coordinating Entity

## Next Steps

- Wrap up the individual stakeholder meetings
- Develop Draft 2 of the Implementation Plan
- Solicit feedback on Draft 2 through small working groups and/or online feedback
- Develop Implementation Plan Version 1
- Continue implementing Quick Wins
- Begin implementing programs in next phase while pushing for the creation of the Coordinating Entity

## Q&A
