Sixtieth session

Third Committee

Agenda items 64 and 124

Advancement of women

Proposed programme budget for the biennium 2006-2007

Future operations of the International Research and Training Institute for the Advancement of Women

Programme budget implications of draft resolution A/C.3/60/L.15

Statement submitted by the Secretary-General in accordance with rule 153 of the rules of procedure of the General Assembly

Summary

By draft resolution A/C.3/60/L.15, the General Assembly would decide to provide its full support to the current efforts to revitalize the International Research and Training Institute for the Advancement of Women (INSTRAW) and, in this regard, to provide it with the requisite funds to enable it to carry out its core functions for at least the next three years.

The requirements to sustain the operations of the Institute in 2006 are estimated in the amount of \$1,314,352. It is anticipated that the balance available for allocation in the INSTRAW Trust Fund as of 1 January 2006 would amount to approximately \$272,200. It is not possible at this stage to determine whether the Institute would have adequate resources to operate to 31 December 2006 without complementary funds. Contingent upon the availability or otherwise of additional voluntary contributions, an additional amount of \$1,067,200 may be required from the regular budget of the United Nations to maintain the Institute in 2006. The provision of additional funds, at this stage, for financing operations of the Institute in 2007 and 2008 would imply an annual subvention from the regular budget of the United Nations and is subject to the express decision of the General Assembly in this regard as well as to the amendment of article VII of the statute of the Institute.

The attention of the Committee is drawn to the provisions of section VI of resolution 45/248 B of 21 December 1990, in which the Assembly reaffirmed that the Fifth Committee is the appropriate Main Committee of the General Assembly entrusted with responsibilities for administrative and budgetary matters and reaffirmed also the role of the Advisory Committee on Administrative and Budgetary Questions.

I. Requests contained in the draft resolution

1. Under the terms of paragraph 6 of draft resolution A/C.3/60/L.15, the General Assembly would decide to provide its full support to the current efforts to revitalize the International Research and Training Institute for the Advancement of Women (INSTRAW) and, in this regard, to provide it with the requisite funds to enable it to carry out its core functions for at least the next three years.

II. Background

2. In paragraph 8 of its resolution 59/260 on the future operation of INSTRAW, the General Assembly decided to provide its full support to the current efforts to revitalize the Institute and, in this regard, to ensure that the Institute would be able to continue functioning for a period of at least one year.

3. The Fifth Committee, by its decision contained in document A/59/641, decided to inform the General Assembly that, should it adopt draft resolution A/C.3/59/L.26 (resolution 59/260) as an exceptional measure, additional requirements of \$1,092,400 would arise under section 9 of the programme budget for the biennium 2004-2005. The Committee requested the Assembly to appropriate this amount against the contingency fund, to be used should there be a shortage of voluntary contributions for the functioning of the Institute in 2005. Moreover, the Committee requested the Secretary-General to report to the Assembly, as a matter of priority, early during the main part of its sixtieth session, on the overall financial situation of the Institute. The report of the Secretary-General on the financial situation of the Institute was submitted to the current session of the Assembly (A/60/366).

III. Procedures for administrative and budgetary matters

4. As paragraph 6 of draft resolution A/C.3/60/L.15 deals with administrative and budgetary matters, the attention of the Committee is drawn to the provisions of part B, section VI, of General Assembly resolution 45/248, in which the Assembly reaffirmed that administrative and budgetary matters should be dealt with by the Fifth Committee and the Advisory Committee on Administrative and Budgetary Questions. Under the circumstances, the consideration by the Third Committee of the text of paragraph 6 of the draft resolution may be considered to be in contravention of resolution 45/248 B.

IV. Current financial situation

5. As indicated in the report of the Secretary-General on the financial situation of the Institute (*ibid.*), the available balance of the INSTRAW Trust Fund as at 1 January 2005 amounted to \$959,675, including \$546,200 representing 50 per cent of the subvention of \$1,092,400. For the period 1 January to 31 August 2005, additional income received in the Trust Fund amounted to \$696,185, while expenditures for the same period amounted to \$759,492. It was anticipated that expenditures for the period September through December 2005 would amount to \$424,208 and the closing balance as at 31 December 2005 was projected at \$472,160.

6. In its proposed operational budget (INSTRAW/EB/2005/R.3/Rev.1), INSTRAW estimated the 2006 core requirements at \$1,314,352, but funds to cover these requirements in full have been neither pledged nor received. As the United Nations pledging conference for development activities is scheduled for the beginning of November 2005, it is not possible to provide a reliable estimate of 2006 income at this time.

V. Administrative and financial arrangements and indication of additional requirements

7. As indicated in paragraph 28 of the proposed workplan and operational budget for 2006 for INSTRAW (ibid.), the estimated 2006 budget (\$1,314,352) represents an 11 per cent (or \$131,015) increase over the 2005 estimated requirements (\$1,183,760) owing mostly to the increase in the cost of living in the Dominican Republic and the resulting changes of the level of staff salaries and consultants' remuneration.

8. In detail, the related requirements of \$1,314,352 for 2006 include: (a) \$705,300 for nine posts (1 D-2, 1 P-3, 2 P-2/1 and 5 General Service); (b) resource requirements for substantive activities, including general temporary assistance, consultancy, travel and contractual services, estimated at \$423,500; and (c) administrative resource requirements of \$185,552, including general operating expenses, supplies and materials and equipment.

9. Excluding a reserve of \$200,000, which has been set aside to cover final expenditures and liabilities in the event that the Institute has to be closed down, the balance of resources to be available to INSTRAW as at 1 January 2006 would amount to some \$272,200. On this basis, it is estimated that a shortfall of resources required for 2006 would amount to approximately \$1,067,200 as follows:

Estimated balance available 1 January 2001	\$ 247 200
Anticipated requirements in 2001	\$1 314 400
Shortfall	\$1 067 200

10. It is assumed, on the basis of the financial periods of the regular budget, that the period of three years indicated in paragraph 6 of draft resolution A/C.3/60/L.15 would be from 1 January 2006 to 31 December 2007 and from 1 January to 31 December of 2008. It is also understood that the request to ensure that the Institute would have adequate resources to function for a period of three years implies the continuation and extension of the core activities of the Institute at the current level, those resources being defined as the salaries of the four Professional and five General Service staff as well as related substantive and administrative non-post resource requirements, estimated at approximately \$1,300,000 per annum or \$3,900,000 for three years.

11. It is implied that in order to provide the requisite funds to enable INSTRAW to carry out its core functions for at least the next three years, an annual subvention from the regular budget of the United Nations is required. However, it is not possible at this stage to determine precisely what resources from voluntary contributions the Institute will receive to finance its 2007 and 2008 requirements.

Experience to date, however, demonstrates that at least part of these requirements have been funded from the regular budget as indicated in the table below:

Table 1
Ratio of subventions to annual total expenditure

(United States dollars)

<i>Year</i>	<i>Approved by</i>	<i>Total expenditure</i>	<i>Subvention from the regular budget</i>	<i>Ratio of subvention to total expenditure</i>
2000		1 091 377	0	0
2001		893 878	0	0
2002	Decision 55/457	499 057	650 000	130
2003	Decision 57/580	479 776	500 000	104
	Resolution 57/311			
2004	Resolution 58/244 (A/58/649)	877 931	0	0
	Resolution 59/260 (A/59/641)			
2005*		1 183 760	546 200	46
Average		5 025 779	1 696 200	34

* Projected.

12. As estimated in the report of the Secretary-General on the financial situation of the Institute (A/60/366), 50 per cent of the 2005 subvention of \$1,092,400 would not be necessary to finance the Institute's requirements in 2005. It is also recalled, in this connection, that the amount of \$234,700 set aside in the contingency fund to finance the Institute's requirements in 2004 had not been used. Consequently, only requirements for the financing of the Institute in 2006 in the amount of \$1,067,200, as indicated in paragraph 9 above, could be reasonably estimated at this stage.

13. The proposed programme budget for the biennium 2006-2007 does not provide resources for the support of INSTRAW operations in 2006. Any amount that the General Assembly may decide to allocate to enable the Institute to continue its operations in 2006 and beyond would therefore need to be provided through an additional appropriation in the context of the operations of the contingency fund established by the Assembly in its resolution 41/213.

14. Moreover, if the General Assembly decides to provide the Institute with the requisite funds to enable it to carry out its core functions for at least the next three years, the Assembly could do so only through the regular budget. However, in accordance with article VII of the statute of the Institute, the Secretary-General of the United Nations shall provide the Institute with appropriate administrative and other support, including financial and personnel services, in accordance with the Financial Regulations and Rules of the United Nations and on conditions determined after consultations between the Secretary-General and the Director of the Institute, it being understood that no extra costs to the regular budget of the United Nations are incurred. Consequently, in order to provide an annual subvention

to the Institute for at least three years, it is necessary to amend article VII of the statute.

15. As to the manner in which the assistance, requested in draft resolution A/C.3/60/L.15, could be provided, it is the intention of the Secretary-General to bring this question to the attention of the Fifth Committee. As indicated in paragraph 3 above, the attention of the Fifth Committee was drawn to the status of the financial situation of the Institute in the report of the Secretary-General on the financial situation of the Institute (ibid.) submitted in the context of the programme budget for the biennium 2004-2005 (agenda item 123).

VI. Summary

16. **Should the General Assembly adopt draft resolution A/C.3/60/L.15, the decision to provide support to the Institute would, contingent upon availability or otherwise of additional voluntary contributions to the INSTRAW Trust Fund, give rise to potential additional requirements of up to \$1,067,200 for the biennium 2006-2007 over and above the regular budget resources proposed under section 9, Economic and social affairs, of the proposed programme budget for the biennium 2006-2007 in order to finance the requirements of the Institute in the year 2006 only.**

17. **The provision would represent a charge against the contingency fund and, as such, would need to be considered in the context of the review by the Fifth Committee of the consolidated statement of potential charges to the contingency fund before approval of any increase in appropriations for the biennium 2006-2007. The provision of additional funds to finance operations of the Institute in 2007 and 2008 would imply an annual subvention to the Institute, which is subject to the express decision of the General Assembly in this regard and to the amendment of article VII of the statute of the Institute.**

18. **The attention of the Committee is drawn to the provisions of section VI of General Assembly resolution 45/248 B, in which the Assembly reaffirmed that the Fifth Committee is the appropriate Main Committee of the Assembly entrusted with responsibilities for administrative and budgetary matters and reaffirmed also the role of the Advisory Committee on Administrative and Budgetary Questions.**
