---

REPORT BY THE SECRETARY-GENERAL ON HIS EFFORTS TO GIVE EFFECT TO SECURITY COUNCIL RESOLUTIONS 210 OF 6 SEPTEMBER 1965 AND 211 OF 20 SEPTEMBER 1965

Addendum

1. This report is to inform the members of the Security Council of the actions taken, as of 30 September 1965, in pursuance of the Council's request to the Secretary-General "to provide the necessary assistance to ensure supervision of the cease-fire and withdrawal of all armed personnel" (S/RES/211 (1965)), and "to take all measures possible to strengthen the UNMOGIP" (S/RES/210 (1965)).

UNIPOM

2. It should, perhaps, be explained that a distinct description, UNIPOM, has been given to that part of the cease-fire and withdrawal observation operation which takes place beyond Kashmir and the Kashmir Cease-Fire Line, solely for reasons of administrative necessity. The United Nations Observers serving outside of Kashmir could not be attached to UNMOGIP, which has no authority to act outside of Kashmir. These Observers had to have some kind of organization and direction and this is the sole purpose of UNIPOM. The cease-fire and withdrawal provisions of the resolutions of the Council are being dealt with as a whole and in the area as a whole, through the closely co-ordinated actions of UNIPOM and UNMOGIP.

3. As of 30 September, a total of ninety Observers have been provided for UNIPOM. Of these forty-one had already arrived in the mission area by that date; thirteen were in transit to the area, and the others were expected to leave their respective countries for the area shortly. This number may prove adequate. In any case, any larger number at this stage could not be satisfactorily provided with ground transport and communications equipment. Therefore, no additional Observers are being recruited as of 30 September. Thus, some offers are being held in abeyance.

4. It will be recalled that following the adoption of Security Council resolution 211 of 20 September 1965, General R.H. Nimmo and General Odd Bull were asked to provide temporarily a group of Observers from UNMOGIP and UNISO (The United Nations Truce Supervision Organization), respectively, to supervise the cease-fire pending the arrival of Observers recruited specifically for short-term UNIPOM duty. Thirteen UNMOGIP Observers were subsequently deployed in the UNIPOM area of operations immediately after the cease-fire demanded by the Security Council in its resolution of 20 September came into effect, and fifteen UNISO Observers from the Near-East arrived in the area on 26 September. These twenty-eight Observers are in addition to the ninety mentioned above. All of the Observers on loan will soon be returned to their own operations.
5. Major-General B.F. MacDonald, Chief Officer of UNIPOM, arrived in the mission area on 28 September and immediately assumed his duties.
6. The Observers and other personnel of UNIPOM have been recruited for an initial period of three months.
7. As indicated in an earlier report (S/6699), the estimated total cost of UNIPOM for a three-month period would be approximately \$1,645,000.

#### UNMOGIP

8. At the time of adoption of Security Council resolution 210 of 6 September 1965, in which the Council called upon the Secretary-General "to take all measures possible to strengthen the UNMOGIP", there were forty-three Military Observers serving with UNMOGIP on one-year contracts. As of 30 September, a total of fifty-nine additional Observers had been provided for UNMOGIP. Of these, forty-five had already arrived in the mission area by that date, four were in transit to the area, and the others were expected to depart for the area in the near future. No further Observers are being recruited for UNMOGIP as of 30 September, for the same reasons as in the case of UNIPOM.
9. The cost for the strengthening of UNMOGIP is estimated at approximately \$2 million for a period of one year.

Equipment

10. As indicated in an earlier report (S/6699/Add.5), the combined aircraft requirements of UNIPOM and UNMOGIP are for three Caribou and three Otter aircraft. One Caribou is already in the area and the remaining two are due to arrive on 3 October. The three Otters are expected to arrive in the area during the first week of October. Air and ground crews, maintenance equipment, spare parts and vehicles are expected to arrive in the area on 1 October.

11. Every effort is being made to provide essential ground transport, communications and other necessary equipment for UNIPOM and UNMOGIP.
