THEMES OF THE COMMITTEE ON ECONOMIC COOPERATION AND INTEGRATION**

Note by the secretariat

Addendum

Promoting Public-Private Partnerships for Domestic and Foreign Investment, as well as  
Intellectual Property Rights

**Thematic area D: Promoting public-private partnerships for domestic and foreign investment, as well as intellectual property rights**

**Table D.1. Promoting public-private partnerships**

	Name of Programme	Brief description of work and specific focus	Geographical coverage	Types of outputs (publications, guidelines, training)	Recent main results / impact
European Bank for Reconstruction and Development (EBRD)	EBRD Legal transition unit	monitors and evaluates governments' performance in creating a conducive legal environment for PPPs.	funds projects in 23 countries in Central and Eastern Europe	financing of PPPs, legal and regulatory performance reports.	has successfully closed a number of pilot PPPs in energy, telecommunications, transport and municipal services.
	Various EBRD lending departments, transport, municipal services, etc.	encourages the participation of the private sector in infrastructure projects where appropriate and feasible.			Its co-financing of PPP projects has acted as a catalyst for domestic and foreign investment.
European Investment Bank (EIB)	Trans-European networks (TENs)	finances and promotes the involvement of the private sector in TENs projects, in order to improve the quality of services, financing, management and cost effectiveness.	EU member States	funds and promotes PPP projects as part of the EU TENs programme.	Recent reports on best practice for regional and fiscal policies. Issued a new strategy document to encourage private participation in transport and energy infrastructures.
	European PPP Expertise Centre (EPEC) joint EU member state/Commission, EIB initiative	proposes the creation of a Centre of Excellence to share knowledge and experience on PPPs across the EU; would seek to develop the public sector as a better informed client for private partners; would be demand driven; and would prepare review papers on EU experience, case studies and on tried and tested structures.			Creation of EPEC is contingent on attracting sufficient donor support in EU.

	Name of Programme	Brief description of work and specific focus	Geographical coverage	Types of outputs (publications, guidelines, training)	Recent main results / impact
European Union (EU)	Directorate for Energy and Transport Trans-European Networks (TEN) programme	elaborates guidelines in order to enable the completion of TENs projects.  develops innovative financing instruments to strengthen private sector participation in Trans-European transport networks.	EU member States and neighbouring States.	holds informal meetings to exchange experience involving EU member States, private sector, including participation of UNECE experts.	Guidelines on TENs have identified a key role for the private sector and have created market confidence in the prospects for the implementation of the TENs projects.
Eurostat	Elaboration of Guidelines on PPP accounting	has elaborated guidelines for defining the balance sheet status of PPPs. These were intended to prevent the practice of moving PPP assets off the balance sheet so that future revenues were being pre-committed without this being evident on the balance sheet. Such a practice creates contingent liabilities for the public sector and budgetary rigidities.	EU member States	Report	Eurostat rules published in 2004.
United Nations Development Account (UNDA)	DA 2006-2008 Capacity-building in PPPs for basic infrastructure services UNECE/ UNESCAP/ UNECA	increases the knowledge, organization resources, and skills of the public sector in PPPs to overcome barriers and constraints in PPP implementation and increases the capacity of governments to realise the expected benefits of PPP programmes.	Focus on Africa, Asia and European regions.	Prepares guidelines, training programmes; developing regional and international networks through a Global PPP Alliance, to improve the skills of governments in the UNECE, UNESCAP, and UNECA regions.	Awaiting go-ahead.

	Name of Programme	Brief description of work and specific focus	Geographical coverage	Types of outputs (publications, guidelines, training)	Recent main results / impact
United Nations Department of Economic and Social Affairs (UNDESA)	Follow-up to the financing for development programme (FfD)	mobilises private sector cooperation for implementation of FfD conclusions and meeting the Millenium Development Goals.	Global coverage	Meetings and publications.	Successful national meetings held.
	Division for Sustainable Development	supports partnerships for sustainable development as a means of implementing commitments made at the World Summit on Sustainable Development.	Global coverage		Database record of partnerships Over 300 partnerships recorded Partnership Fairs held
United Nations Development Programme (UNDP)	Programme on PPPs in municipal services and training	prepares guidelines and best practice and funding of PPPs in developing countries; it hosts a website of all relevant tools, guides and publications on PPPs.	Global, with focus on developing economies	Meetings, publications, PPP Project Implementation	Elaborated a toolkit for local stakeholders in promoting PPPs in municipal and environmental services.
United Nations Economic Commission for Europe (UNECE)	PPP Alliance  Discontinued under the UNECE reform	increased the knowledge of governments in PPPs through publication of guidelines, holding of consultative visits, and annual meetings on a variety of themes related to PPPs, such as establishing successful and dynamic PPP Units, finding finance; and making PPPs bankable.	UNECE member States	Publications, regional meetings, guidelines, training.	Elaborated Guidelines on Good Governance in PPPs; Established a unique network of PPP experts that operated since 1995; Provided advisory support to a number of the UNECE governments on PPP legislation, and ofered a neutral forum to public and private sectors to exchange experiences and best practice.

	Name of Programme	Brief description of work and specific focus	Geographical coverage	Types of outputs (publications, guidelines, training)	Recent main results / impact
World Bank (WB)	Public-Private Partnership facility (PPIAF)	helps developing countries and some transition economies improve the quality of their infrastructure through private sector involvement; it channels technical assistance to governments on strategies and measures to tap the full potential from PPPs.	Global, with focus on developing and transition economies.	Meetings, publications and project funding.	Publications on best practice, technical assistance projects conducted in Albania, Armenia, Azerbaijan, Bulgaria and Croatia. Establishment of a Central Asia Regional Economic Cooperation (CAREC) member's Electricity Regulators Forum.
United Nations Commission on International Trade Law (UNCITRAL)		provides some technical assistance for the implementation of its Guidelines on privately financed infrastructure projects.			Published legislative Guide on Privately Financed Infrastructure Projects (2001).
