Second regular session 2006

11 to 13 September 2006, New York Item 9 of the provisional agenda **UNFPA**

UNITED NATIONS POPULATION FUND

Annual Financial Review, 2005

Summary

From 2004 to 2005, total income to UNFPA increased by \$62.8 million or 12.5 per cent to \$565.0 million. UNFPA resources surpassed the \$500-million level for the second sequential year, including \$365.8 million in regular resources, the highest total ever. However, this positive trend which does not take into account the effect of inflation should be put into proper perspective. In 1995, regular resources peaked at \$312.6 million, followed by a declining trend reaching \$249.8 million in 1999. In the meantime, the demand for reproductive health services, including HIV/AIDS prevention has continued to increase through the years.

Increased and sustainable core resources would enable UNFPA to deliver its programmes to help countries attain the goals of the International Conference on Population and Development and the Millennium Declaration, as well as the commitments made at the 2005 World Summit, including achieving universal access to reproductive health by 2015. With respect to the funding base, UNFPA aims to continue to focus on increasing and achieving more stability and predictability in contributions to regular resources which are the foundation and bedrock of the Fund's operations.

Increase in regular resource contribution income by \$28.7 million or 8.9 per cent from 2004 to 2005 was largely due to higher contributions from eleven major donors, as well as favourable exchange rates, particularly during early 2005.

Total expenditure increased by \$71.9 million or 15.9 per cent to \$523.3 million in 2005, of which \$68.1 million (95 per cent) was attributable to increase in programme activities.

The balance of unexpended regular resources carried forward from 2005 to 2006 totalled \$48.6 million (in 2004 it was 25.0 million), representing 13.3 per cent of income for the year. The higher amount of unexpended regular resources was due to lower implementation rates, also reflected by the increased level of pending advances to implementing partners of \$16.5 million. In addition, \$28.8 million in contributions was received during the latter part of the year. Statutory reserves, operational and field accommodation were replenished in accordance with applicable Financial Regulations and Rules.

UNFPA closed the year of 2005 in robust financial health.

This information is provided for activities funded by both regular and other resources. All figures are provisional subject to external audit, and may not add up to totals due to rounding.
- 2. The statements "Income and expenditures and fund balances for the year ended 31 December 2005" are provided in table 1 for regular, other, and total resources and in table 2 for other resources by category. The statement "Assets, liabilities and fund balances at 31 December 2005" is provided in table 3 for regular, other, and total resources.

II. REGULAR RESOURCES

A. <u>Income</u>

- 14. Contribution income for the year was \$351.2 million (in 2004 it was \$322.5 million). The increase by \$28.7 million or 8.9 per cent was due to \$15.8 million in increased contributions from eleven major donors and \$12.9 million was on account of favourable exchange rates as reflected in table 4.
- 15. At 31 December 2005, a provision of \$0.1 million (in 2004 it was \$0.1 million) was made in respect of contributions receivable for which collection is considered doubtful.
- 16. Increased interest rates throughout the period gave rise to interest income for the year of \$6.3 million (in 2004 it was \$3.5 million). Other income totalling \$8.3 million for the year (in 2004 it was \$1.7 million) was higher partly due to a change in financial presentation referred to in paragraph 3. A significant portion of the increase was on account of currency revaluation.
- 17. Table 4 provides a summary of contributions in excess of \$1.0 million.

B. Programme expenditure

18. Actual programme expenditure for the year, which includes the direct and indirect costs of programme activities of \$234.3 million and \$19 million in Technical Advisory Programme (TAP) expenditure totalled \$253.3 million (in 2004 it was \$241.4 million).

19. Programme activities expenditure by implementing partner can be summarized as follows:

		2005		2004
	\$m	%	\$m	%

C. <u>Biennial support budget</u>

- 20. The revised gross and net biennial support budget (BSB) appropriations for the biennium ending 31 December 2005 were \$169.6 million and \$155.0 million, respectively.
- 21. Actual BSB activity for the year can be summarized as follows:

Gross BSB expenditures	88.5	81.0
Credits to BSB	(9.9)	(10.7)
Net BSB expenditures	78.6	70.3
Total expenditure	334.7	318.6
Net BSB as percentage of total expenditure	23.5%	22.1%

22. Actual BSB expenditures can be summarized as follows:

	2005	2004
	\$m	\$m
Posts	64.2	58.5
Operating expenses	14.7	11.9

Credits to BSB	(9.9)	(10.7)
Net BSB expenditures	78.6	70.3

23. Net BSB appropriations for the 2004-2005 biennium were 96.1 per cent utilized as of 31 December 2005. Table 6 provides trend analysis of biennial support budget expenditures.

D. <u>Implementation of the Enterprise Resource Planning system</u>

24. The total development cost for the Enterprise Resource Planning (ERP) system approved by the Executive Board is \$13.8 million. Expenditures of \$1.8 million were incurred in the year (ended 31 December 2005 (in 2004 it was \$4.9 million). Cumulative expenditures since inception total \$14.0 million. Implementation was ongoing at 31 December 2005. The marginal over-expenditure will be offset against cumulative appropriation under ERP.

E. Fund balances and reserves

- 25. The balance of programmable funds at 1 January 2005 was \$25.0 million (in 2004 it was \$20.0 million). The net excess of income over expenditure for the year was \$30.6 million (in 2004 total expenditure exceeded income by \$9.0 million) and, together with other reserve movements, increased the balance of programmable funds to \$48.6 million at 31 December 2005, compared to \$25.0 million in 2004. The higher amount of unexpended regular resources was due to lower implementation rates which is also reflected by the increased level of pending advances to implementing partners of \$16.5 million and \$28.8 million in contributions received during the latter part of the year. Table 7 provides the movements in reserves and fund balances.
- 26. At 31 December 2005, the operational reserve was increased to \$70.2 million (in 2004 it was \$64.5 million). This amount equals 20 per cent of regular contributions income, in accordance with Financial Rule 112.1.

III. OTHER RESOURCES

A. <u>Income and Expenditure</u>

- 27. Total income to other resources during the year was \$199.2 million (in 2004 it was \$174.5 million) comprising contributions of \$193.7 million (in 2004 it was \$171.4 million) and other income including interest of \$5.4 million (in 2004 it was \$3.1 million). Other resources include co-financing (trust funds, thematic trust fund, cost-sharing and other trust funds), Junior Professional Officers programme and procurement services.
- 28. Activities financed by co-financing funds can be summarized as follows:

					2005	2004
	Trust Funds	Thematic Trust Fund	Cost- sharing	Other Trust Funds	Total	Total

Fund balance at 31 December	91.0	22.9	24.9	6.8	145.5	139.8

B. Fund balances

29. The excess of income over expenditure for the year of \$11.0 million (in 2004 it was \$41.7 million), together with refunds to donors of \$2.2 million (in 2004 it was \$0.8 million) and a net transfer within UNFPA resources of \$0.8 million (in 2004 it was \$0.5 million), resulted in an increase in other resources fund balances from \$149.1 million in 2004 to \$157.1 million in 2005.

IV. CASH AND INVESTMENTS

30. At 31 December 2005, investments held by UNFPA totalled \$113.6 million under regular resources, compared to \$160.0 million in 2004, and \$227.0 million under other resources, compared to \$201.0 million in 2004. Cash held under regular resources totalled \$5.2 million (in 2004 it was \$3.0 million) and \$0.3 million under other resources (in 2004 it was nil). The market value of investments held at 31 December 2005 was \$339.1 million.

V. RECOMMENDATIONS

31. The Executive Board may wish to: (a) take note of the present report (DP/FPA/2006/13); (b) recognize the significance of increasing and achieving stability and predictability in contributions to regular resources; and (c) recognize that timeliness in the payment of contributions is essential to maintaining liquidity and facilitating continuous programme implementation.

¹/Effective January 2005, in accordance with the Executive Board decision 2005/13 on a review of the system for the allocation of UNFPA resources to country programmes, countries with economies in transition have been mainstreamed into A, B, C and O groups, based on their individual levels of achievement with respect to the resource allocation system indicators. In addition, countries in the remaining categories may have been reclassified. 2004 has been restated to reflect this change. Countries affected by the change are the Democratic People's Republic of Korea and Thailand.

²/Figures for Pacific Multi Islands are comprised of several islands which, for reporting purposes, have been classified under one heading. The islands include the Cook and Fiji Islands, Kiribati, Marshall Island, Federated States of Micronesia, Nauru, Niue, Palau, Samoa, Solomon Islands, Tokelau, Tonga, Tuvalu and Vanuatu.
