## Summary

The present report contains the revised budget for the United Nations Mission in Ethiopia and Eritrea (UNMEE) for the period from 1 July 2006 to 30 June 2007, which amounts to \$145,516,400.

The budget provides for the deployment of 230 military observers, 2,070 military contingents, 205 international staff, 248 national staff and 68 United Nations Volunteers.

The resource requirements of UNMEE for the financial period 1 July 2006 to 30 June 2007 have been revised based on the implementation of Security Council resolution 1681 (2006), in which the Council authorized the reconfiguration of the UNMEE military component and approved deployment within UNMEE of up to 2,300 troops, including up to 230 military observers, within its existing mandate. With the reduction in military strength from 3,404 to 2,300, the level of the support staff has been adjusted accordingly. In addition, the total revised resource requirements for UNMEE have been linked to the Mission's objective through a number of results-based frameworks, grouped by components: substantive civilian, military and support. The human resources of the Mission in terms of number of personnel have been attributed to the individual components, with the exception of the Mission's executive direction and management, which can be attributed to the Mission as a whole.

The explanations of variances in resource levels, both human resources and financial resources, have, where applicable, been linked to specific outputs planned by the Mission.

## **I. Mandate and planned results**

1. The mandate of the United Nations Mission in Ethiopia and Eritrea (UNMEE) was established by the Security Council in its resolutions 1312 (2000) and 1320 (2000) and further adjusted by the Council in its resolutions 1430 (2002) and 1531 (2004). The military strength of the Mission has also been adjusted by the Council in its resolutions 1560 (2004), 1622 (2005) and 1681 (2006). The most recent extension of the mandate was authorized by the Council in its resolution 1710 (2006).
2. The Mission is mandated to help the Security Council achieve an overall objective, namely, the peaceful settlement of the dispute between Ethiopia and Eritrea.
3. Within this overall objective, the Mission will, during the budget period, contribute to a number of expected accomplishments by delivering related key outputs, shown in the frameworks below. These frameworks are grouped by components: substantive civilian, military and support.
4. The expected accomplishments would lead to the fulfilment of the Security Council's objective within the lifetime of the Mission and the indicators of achievement show a measurement of progress towards such accomplishments during the budget period. The human resources of the Mission in terms of the number of personnel have been attributed to the individual components, with the exception of the Mission's executive direction and management, which can be attributed to the Mission as a whole. Variances in the number of personnel, compared to the original budget of 2006/07, have been explained under the respective components.
5. The main focus of the Mission during this period will be the implementation of Security Council resolution 1681 (2006), in which the Council authorized the reconfiguration of the UNMEE military component and approved the deployment within UNMEE of up to 2,300 troops, including up to 230 military observers, within its existing mandate, as stipulated in resolution 1320 (2000) and further adjusted in resolution 1430 (2002). With the reduction of the military strength from 3,404 to 2,300, the level of the support staff has been adjusted accordingly. The Mission has undertaken a review and the proposals on reductions for the civilian component are reflected in the present report.
6. The implementation of the reconfiguration plan was completed at the end of August 2006 and entailed, inter alia, a reduction in strength of two battalions, the administration and guard company, and a demining unit as well as the repatriation of an engineering unit. The remaining elements have been reorganized to meet the current operational requirements. The indicators of achievement and outputs have also been revised, where applicable.

### **Executive direction and management**

7. Overall Mission direction and management are to be provided by the immediate Office of the Special Representative of the Secretary-General.

8. Following a review of staffing in the Office of the Special Representative of the Secretary-General, the following changes are proposed:

*Justification*

• **International staff: redeployment of 2 posts**

The Special Representative of the Secretary-General travels frequently between Asmara and Addis Ababa. It has been determined that during his absences, the current administrative capacity of the Office is insufficient to meet the operational requirements of the Mission. It is therefore proposed that in order to provide additional administrative support to the Senior Legal Adviser and the Director of the Office of the Special Representative, 2 Field Service posts should be redeployed from the Office of Public Information.

• **National staff: reduction of 3 posts**

In view of the downsizing of the Mission, it is proposed to redeploy 3 posts from the Office of the Special Representative. One of the 3 posts will be redeployed to the Office of the Deputy Special Representative under the substantive civilian component and the remaining 2 to the Office of the Chief of Administrative Services under the support component.

**Component 1: Substantive civilian**

#### *Justification*

- International posts: reduction of 10 posts, redeployment of 1 post**

In view of the downsizing of the Mission and the constraints imposed by the expulsion of staff of certain nationalities, it is apparent that the scope of the activities of several Offices in this component will, of necessity, diminish significantly. Given that the basic responsibilities are unchanged, the following changes are proposed in order to obtain the best operational outcome from the staffing that will remain:

*Office of Political Affairs:* reduction of 1 P-4 and 2 P-3 Political Affairs Officer posts and the redeployment of 1 additional P-3 post to the Office of Public Information;

*Human Rights Office:* reduction of 1 P-3 post and 3 United Nations Volunteers positions;

*Office of Public Information:* reduction of 2 P-4 posts and 2 Field Service posts. These posts cover the functions of Deputy Spokesperson and Chief of the Radio Unit and 2 Public Information Assistants. To support the functions in the Radio Unit, it is proposed to redeploy 1 P-3 post from the Office of Political Affairs to serve as a Radio Producer

• **National staff: 1 additional post, redeployment of 2 posts**

It is proposed that 1 of the 3 posts identified to be redeployed from the Office of the Special Representative should be redeployed to the Office of the Deputy Special Representative, Asmara, to serve as a Driver. It is also proposed that 2 posts, 1 from the Office of the Deputy Special Representative, Addis Ababa, and 1 from the Office of Public Information be redeployed to the Human Rights Office to provide support in place of departing United Nations Volunteers

**Component 2: Military**

<i>Expected accomplishments</i>	<i>Indicators of achievement</i>
2.1 Maintenance of separation of forces, security and integrity of the temporary security zone and its adjacent areas	2.1.1 No change

*Revised outputs*

- 52,560 military observer mobile patrol person days (4 military observers per patrol x twice a day x 18 team sites x 365 days)
- 936 challenge inspections inside the temporary security zone (18 team sites x 1 inspection per week x 52 weeks)
- 116,800 foot patrol person days (8 troops per patrol x twice a day x 20 posts x 365 days)
- 67,160 manned static observation post troop person days (8 troops per post x 23 posts (20 posts inside the temporary security zone plus 3 Sector headquarters outside the zone) x 365 days)
- 840 air patrol hours (4 two-hour patrols per week x 3 sectors x 35 weeks) (assuming that flights start on 1 November 2006)

<i>Expected accomplishments</i>	<i>Indicators of achievement</i>
2.2 Reduced threat of mines in the temporary security zone and its adjacent areas and facilitation of the demarcation process	2.2.1 and 2.2.2 No change

*Revised outputs*

- Investigation of 20 mine accidents

*Revised external factors*

- The situation in the Mission area remains stable
- The Eritrea-Ethiopia Boundary Commission commences the physical demarcation of the border
- The ban on helicopter flights will be lifted on 31 October 2006
- The parties do not impose further restrictions on the freedom of movement of UNMEE and permit access to priority areas, allowing mine action implementers to operate within International Mine Action Standards
- The parties will adhere to the Algiers Agreement on Cessation of Hostilities and there will not be any activities that would result in contamination or recontamination of known safe areas

*Justification*

---

- **International staff: reduction of 5 posts, redeployment of 1 post**

In the process of reviewing the current staffing of this component, it has been recognized that the level of support initially envisaged for the Military Coordination Commission secretariat is no longer necessary and the remaining requirements can be consolidated within the Office of the Force Commander. It is therefore proposed to abolish 1 General Service post in the Office of the Force Commander, 2 P-3 and 2 General Service posts in the Military Coordination Commission secretariat and, at the same time, redeploy 1 P-3 post from the Military Coordination Commission secretariat to the Office of the Force Commander.

- **National staff: reduction of 4 national posts**

As a result of the consolidation outlined above, it is also proposed to abolish 4 National posts in the Military Coordination Commission secretariat. These 4 posts will be redeployed to the support component.

#### *Justification*

- International staff: net reduction of 12 posts and 3 United Nations Volunteers positions**

As a direct result of the downsizing of the Mission, the following changes in the structure of the Offices that make up this component have become necessary:

*Office of the Chief Administrative Officer:* proposed reduction of 2 P-3 posts, 8 Field Service posts, 2 General Service posts and 3 United Nations Volunteers positions and redeployment of 9 United Nations Volunteers positions to the Office of Integrated Support Services

*Office of the Chief of Administrative Services:* proposed reduction of 1 P-3 post, redeployment of 2 P-2 posts to the Office of Integrated Support Services and, in exchange, 2 Field Service posts will be redeployed from the Office of Integrated Support Services

*Office of Integrated Support Services:* proposed (i) reduction of 1 P-3 post; (ii) reduction of 2 Field Service posts to be redeployed to the Office of the Chief of Administrative Services; (iii) 2 additional General Service posts deployed from the Office of the Chief Administrative Officer; (iv) 9 additional United Nations Volunteers positions redeployed from the Office of the Chief Administrative Officer; and (v) 2 additional P-2 posts redeployed from the Office of the Chief of Administrative Services

- National staff: reduction of 11 posts**

In order to support the foregoing restructuring and compensate to some degree for the loss of some posts formerly staffed by internationally recruited personnel, the following redeployments are also proposed:

*Office of the Chief Administrative Officer:* addition of 9 posts, 2 from the Security Section, 3 from the Office of Integrated Support Services and 4 from the Office of the Force Commander/Military Coordination Commission

*Office of the Chief of Administrative Services:* 2 posts redeployed from Office of the Special Representative of the Secretary-General

*Office of Integrated Support Services:* reduction of 3 posts redeployed to the Office of the Chief of Administrative Services

*Security Section:* as security is considered an internal support function, the related posts (1 P-4, 1 P-3, 1 P-2, 16 Field Service and 1 General Service) and changes in the Security Section have been reflected under this component. In this regard, it has been determined that it is no longer necessary to maintain 2 Security Officer posts at the P-2 level. It is therefore proposed to abolish 1 P-2 post and replace it with 1 of the 8 Field Service posts from the Office of the Chief Administrative Officer

*Conduct and Discipline Team:* 5 international (1 P-5, 2 P-4, 1P2, 1 FS) and 2 national general temporary assistance positions are included for the Conduct and Discipline Team

11. The change in requirements is due to the exclusion of some costs for training previously planned for Asmara but now rescheduled outside the Mission area.

### III. Analysis of variances<sup>1</sup>

#### *Reference*

The present section describes the single largest contributing factor of each resource variance according to specific standard options encompassed in the four standard categories listed below:

- **Mandate:** variances caused by changes in the scale or scope of the mandate, or changes in the expected accomplishments as driven by the mandate
- **External:** variances caused by parties or situations external to the United Nations
- **Cost parameters:** variances caused by United Nations regulations, rules and policies
- **Management:** variances caused by management actions to achieve planned results more effectively (e.g. by reprioritizing or adding certain outputs) or efficiently (e.g. by taking measures to reduce personnel or operational inputs while maintaining the same level of outputs) and/or from performance-related issues (e.g. by having underestimated the costs or quantities of inputs required to produce a certain level of outputs, or by delayed recruitment)

	<i>Variance</i>	
<b>Military contingents</b>	(\$14 915.3)	(21.2%)

- **Management: reduced inputs and outputs**

12. The variance is due primarily to the reduced provision for reimbursement to troop-contributing countries for troop costs and contingent-owned equipment provided under self-sustainment, and for rations, resulting from the reduction in the authorized strength of the military from 3,174 to 2,070 in accordance with Security Council resolution 1681 (2006).

	<i>Variance</i>	
<b>International staff</b>	(\$7 065.2)	(24.2%)

- **Management: reduced inputs and outputs**

13. The variance under this heading is attributable to the proposed reduction of 23 international posts in relation to the downsizing of the military component as well as the application of a 20 per cent vacancy rate.

<sup>1</sup> Resource variance amounts are expressed in thousands of United States dollars.

	<i>Variance</i>	
<b>National staff</b>	\$131.4	11%

- **Cost parameters: additional inputs and same outputs**

14. The variance is due to the implementation of revised salary scales effective 1 March 2006 for Asmara and 1 April 2006 for Addis Ababa. The estimate also takes into account a 5 per cent vacancy rate.

	<i>Variance</i>	
<b>United Nations Volunteers</b>	(\$159.4)	(6.2%)

- **Management: reduced inputs and outputs**

15. The variance is due primarily to the proposed reduction in the number of Volunteers from 74 to 68.

	<i>Variance</i>	
<b>Official travel</b>	\$146.1	28.1%

- **Management: additional inputs and outputs**

16. The variance is due primarily to the inclusion of costs for anticipated travel to London to facilitate the work of the Eritrea-Ethiopia Boundary Commission.

	<i>Variance</i>	
<b>Facilities and infrastructure</b>	(\$1 686.4)	(10.2%)

- **Management: reduced inputs and outputs**

17. The most significant factor contributing to the variance is reduced requirements for reimbursement to troop-contributing countries for contingent-owned equipment provided under self-sustainment as a result of the reduction in the authorized strength of the military from 3,174 to 2,070 in accordance with Security Council resolution 1681 (2006).

	<i>Variance</i>	
<b>Ground transportation</b>	(\$206.3)	(3.4%)

- **Management: reduced inputs and outputs**

18. The most significant factor contributing to the variance is the reduction in requirements under petrol, oil and lubricants resulting from a smaller vehicle establishment owing to the downsizing.

	<i>Variance</i>	
<b>Air transportation</b>	(\$6 884.6)	(30.6%)

- **Management: reduced inputs and outputs**

19. The variance is due primarily to a reduction in the helicopter fleet from nine to seven and to lower overall rental costs, as rental for four of the helicopters is calculated for 8 months instead of 12 months. The variance also reflects reduced provisioning for petrol, oil and lubricants based on a net reduction of 1,810 fewer flying hours than originally budgeted for both fixed-wing aircraft and helicopters.

	<i>Variance</i>	
<b>Communications</b>	(\$875.4)	(15.2%)

- **Management: reduced inputs and outputs**

20. The most significant factor contributing to the variance is reduced requirements for reimbursement to troop-contributing countries for contingent-owned equipment provided under self-sustainment as a result of the reduction in the authorized strength of the military from 3,174 to 2,070 in accordance with Security Council resolution 1681 (2006).

	<i>Variance</i>	
<b>Information technology</b>	(\$66.9)	(6.1%)

- **Management: reduced inputs and outputs**

21. The variance is due mainly to the use of new server software technology which has resulted in the cancellation of plans to replace five servers.

	<i>Variance</i>	
<b>Medical</b>	(\$578.2)	(26.7%)

- **Management: reduced inputs and outputs**

22. The most significant factor contributing to the variance is reduced requirements for reimbursement to troop-contributing countries for contingent-owned equipment provided under self-sustainment as a result of the reduction in the authorized strength of the military from 3,174 to 2,070 in accordance with Security Council resolution 1681 (2006).

	<i>Variance</i>	
<b>Special equipment</b>	(\$395.2)	(28.5%)

- **Management: reduced inputs and outputs**

23. The most significant factor contributing to the variance is reduced requirements for reimbursement to troop-contributing countries for contingent-owned equipment provided under self-sustainment as a result of the reduction in the authorized strength of the military from 3,174 to 2,070 in accordance with Security Council resolution 1681 (2006).

	<i>Variance</i>	
<b>Other supplies, services and equipment</b>	3 992.6	48.1%

- **Management: additional inputs and outputs**

24. The variance is due primarily to the inclusion of requirements for demining services in support of demarcation based on the memorandum of agreement with the United Nations Office for Project Services. The additional provision relates primarily to mine clearance for the construction of pillar sites.

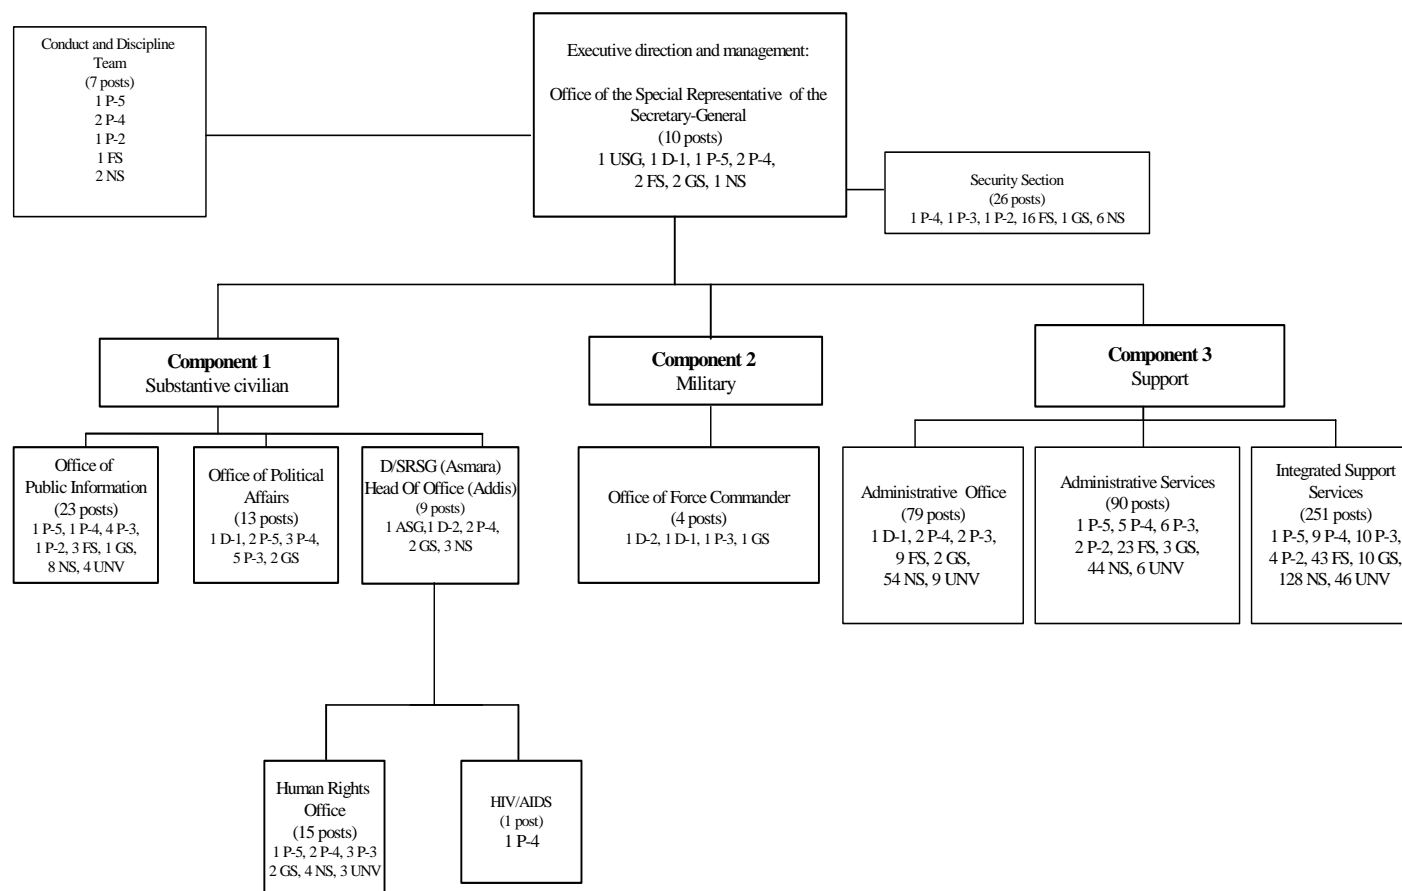

#### **IV. Actions to be taken by the General Assembly**

25. The actions to be taken by the General Assembly in connection with the financing of the Mission are:

(a) To reduce the appropriation of \$174,679,200 provided by resolution 60/272 for the maintenance of the Mission for the 12-month period from 1 July 2006 to 30 June 2007 by the amount of \$29,162,800 to \$145,516,400;

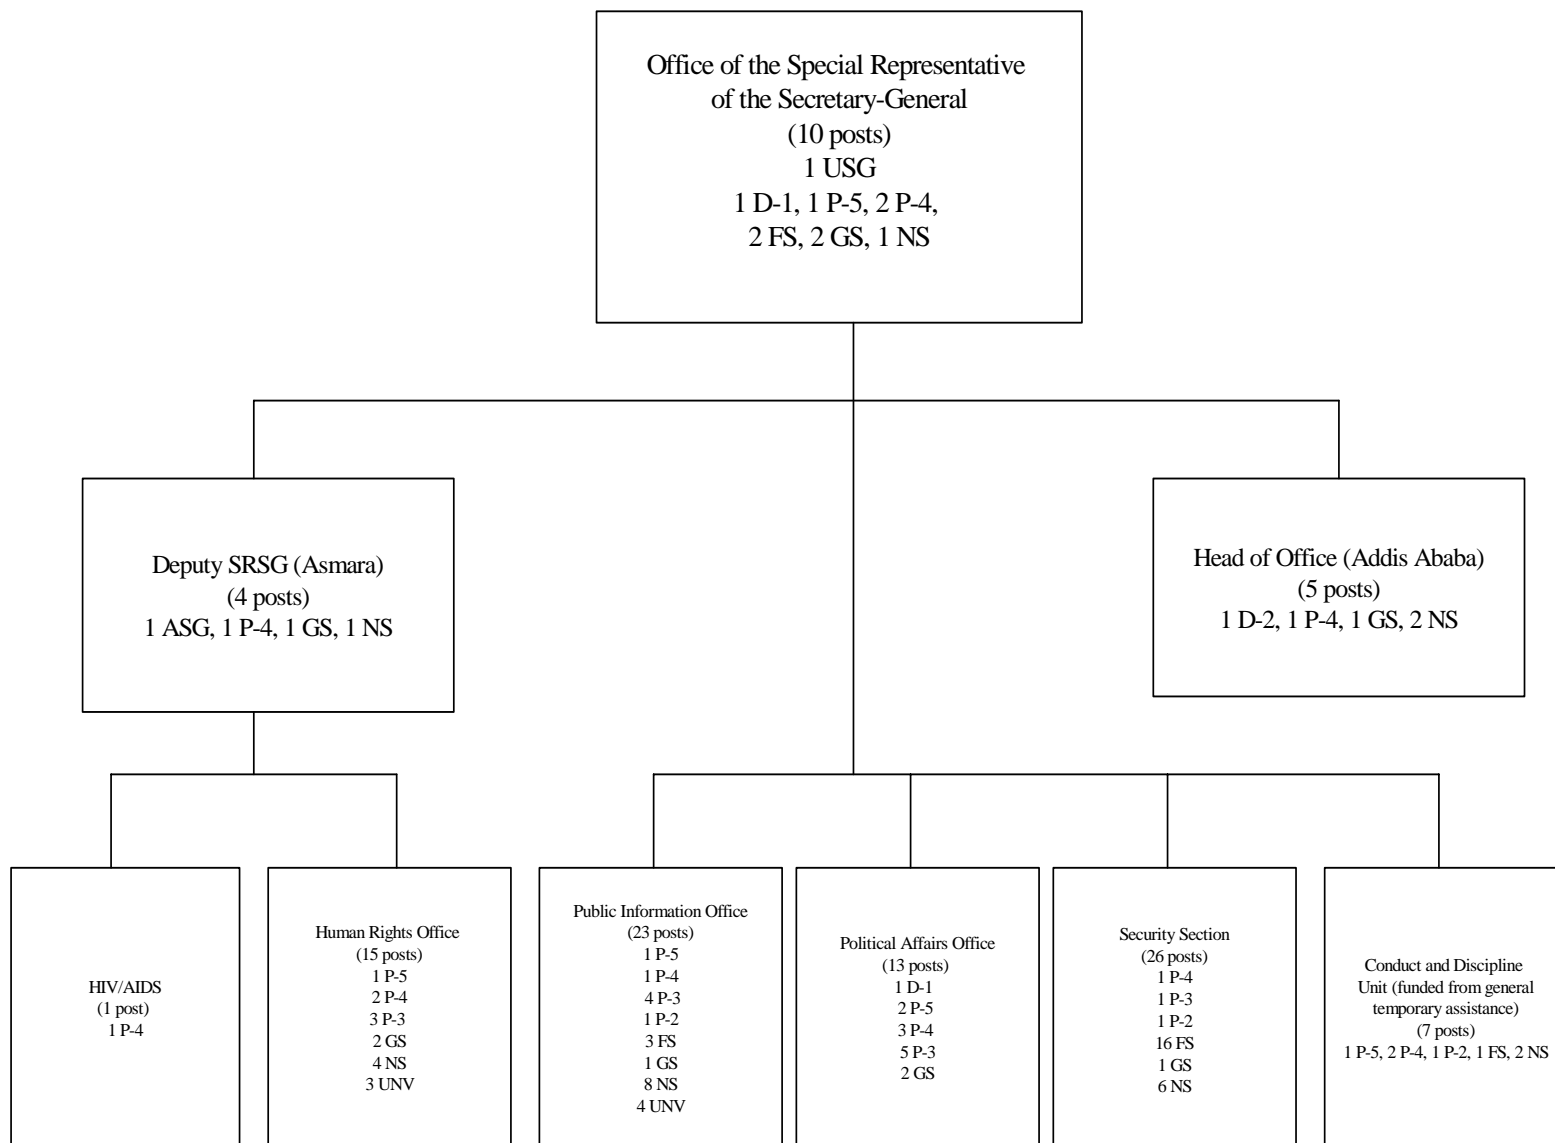

(b) To reduce the amount of staff assessment income from \$3,563,700 to \$2,751,000;

(c) To assess the additional amount of \$61,956,100 for the period from 1 January to 30 June 2007 at a monthly rate of \$10,326,016, should the Security Council decide to continue the mandate of the Mission.
