

General Assembly

Distr.: General
13 December 2006

Original: English

Sixty-first session
Agenda item 53 (c)

Sustainable development: International Strategy for Disaster Reduction

Report of the Second Committee*

Rapporteur: Ms. Vanessa **Gomes** (Portugal)

I. Introduction

1. The Second Committee held a substantive debate on agenda item 53 (see A/61/422, para. 2). Action on sub-item (c) was taken at the 25th, 30th, 31st and 33rd meetings, on 7, 17 and 22 November and 6 December 2006. An account of the Committee's consideration of the sub-item is contained in the relevant summary records (A/C.2/61/SR.25, 30, 31 and 33).

II. Consideration of proposals

A. Draft resolutions A/C.2/61/L.25 and A/C.2/61/L.58

2. At the 25th meeting, on 7 November, the representative of South Africa, on behalf of the States Members of the United Nations that are members of the Group of 77 and China, introduced a draft resolution entitled "International Strategy for Disaster Reduction" (A/C.2/61/L.25), which read:

"The General Assembly,

"Recalling its resolutions 44/236 of 22 December 1989, 49/22 A of 2 December 1994, 49/22 B of 20 December 1994, 53/185 of 15 December 1998, 54/219 of 22 December 1999, 56/195 of 21 December 2001, 57/256 of 20 December 2002, 58/214 of 23 December 2003, 59/231 of 22 December 2004 and 60/195 of 22 December 2005, and Economic and Social Council resolutions 1999/63 of 30 July 1999 and 2001/35 of 26 July 2001, and taking

* The report of the Committee on this item will be issued in eight parts, under the symbol A/61/422 and Add.1-7.

into due consideration its resolution 57/270 B of 23 June 2003 on integrated and coordinated implementation of and follow-up to the outcomes of the major United Nations conferences and summits in the economic and social fields,

“Recalling also the 2005 World Summit Outcome,

“Recalling further the Hyogo Declaration, the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters, and the common statement of the special session on the Indian Ocean disaster: risk reduction for a safer future, as adopted by the World Conference on Disaster Reduction,

“Recognizing that the Hyogo Framework for Action complements the Yokohama Strategy for a Safer World: Guidelines for Natural Disaster Prevention, Preparedness and Mitigation and its Plan of Action,

“Reaffirming its role to provide policy guidance on the implementation of the outcomes of the major United Nations conferences and summits,

“Recalling that the Inter-Agency Task Force for Disaster Reduction serves as the main forum within the United Nations system for devising strategies and policies for disaster reduction and to ensure complementarity of action by agencies involved in disaster reduction, mitigation and preparedness,

“Expressing its deep concern at the number and scale of natural disasters and their increasing impact within recent years, which have resulted in massive loss of life and long-term negative social, economic and environmental consequences for vulnerable societies throughout the world, in particular in developing countries,

“Reiterating that, although natural disasters damage the social and economic infrastructure of all countries, the long-term consequences of natural disasters are especially severe for developing countries and hamper the achievement of their sustainable development,

“Recognizing that disaster risk reduction is a cross-cutting issue in the context of sustainable development,

“Recognizing also the clear relationship between development, disaster risk reduction, disaster response and disaster recovery and the need to continue to deploy efforts in all these areas,

“Recognizing further the urgent need to further develop and make use of the existing scientific and technical knowledge to build resilience to natural disasters, and emphasizing the need for developing countries to have access to appropriate advanced and environmentally sound technologies so as to tackle natural disasters effectively,

“Emphasizing that disaster risk reduction, including reducing vulnerability to natural disasters, is an important element that contributes to the achievement of sustainable development,

“Stressing the importance of advancing the implementation of the Plan of Implementation of the World Summit on Sustainable Development and its relevant provisions on vulnerability, risk assessment and disaster management,

“Recognizing the need to continue to develop an understanding of, and to address, socio-economic activities that exacerbate the vulnerability of societies to natural disasters and to build and further strengthen community capability to cope with disaster risks,

“Noting the Third International Conference on Early Warning, held in Bonn, Germany, from 27 to 29 March 2006,

“1. Takes note of the report of the Secretary-General on the implementation of the International Strategy for Disaster Reduction;

“2. Recalls that the commitments of the Hyogo Declaration and the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters include the provision of assistance for developing countries that are prone to natural disasters and disaster-stricken States in the transition phase towards sustainable physical, social and economic recovery, for risk-reduction activities in post-disaster recovery and for rehabilitation processes;

“3. Welcomes the progress made in the implementation of the Hyogo Framework for Action and stresses the need for a more effective integration of disaster risk reduction into sustainable development policies, planning and programming; for the development and strengthening of institutions, mechanisms and capacities to build resilience to hazards and for a systematic incorporation of risk-reduction approaches into the implementation of emergency preparedness, response and recovery programmes;

“4. Calls upon the international community to fully implement the commitments of the Hyogo Declaration and the Hyogo Framework for Action;

“5. Invites Member States, the United Nations system, including international financial institutions, regional bodies and other international organizations, as well as relevant civil society organizations, to support, implement and follow up the Hyogo Framework for Action;

“6. Calls upon the United Nations system, including international financial institutions and international organizations, to integrate the goals of and take into full account the Hyogo Framework for Action in their strategies and programmes, making use of existing coordination mechanisms, and to assist developing countries with those mechanisms to design and implement, as appropriate, disaster risk-reduction measures with a sense of urgency;

“7. Calls upon the United Nations system, including the international financial institutions as well as regional banks and other regional and international organizations, to support, in a timely and sustained manner, the efforts led by disaster-stricken countries for disaster risk reduction, in post-disaster recovery and rehabilitation processes;

“8. Recognizes that each State has the primary responsibility for its own sustainable development and for taking effective measures to reduce disaster risk, including for the protection of people on its territory, infrastructure and other national assets from the impact of disasters, including the implementation of and follow-up to the Hyogo Framework for Action, and stresses the importance of international cooperation and partnerships to support those national efforts;

“9. *Also recognizes* the efforts made by Member States to develop national and local capacities to implement the Hyogo Framework for Action, including through the establishment of national platforms for disaster reduction, and encourages Member States that have not done so to develop such capacities;

“10. *Invites* Governments and relevant international organizations to consider disaster risk assessment as an integral component of development plans and poverty eradication programmes;

“11. *Stresses* that continued cooperation and coordination among Governments, the United Nations system, other organizations, regional organizations, non-governmental organizations and other partners, as appropriate, are considered essential to address effectively the impact of natural disasters;

“12. *Notes* all the regional and subregional initiatives developed in order to achieve disaster risk reduction, reiterates the need to further develop regional initiatives and risk-reduction capacities of regional mechanisms and to strengthen them, and encourages the use and sharing of all existing tools;

“13. *Recognizes* the importance of linking disaster risk management to regional frameworks, as appropriate, such as the African Regional Strategy for Disaster Reduction developed within the New Partnership for Africa’s Development, to address issues of poverty eradication and sustainable development;

“14. *Calls upon* the international community to support the development and strengthening of institutions, mechanisms and capacities at all levels, in particular at the community level, that can systematically contribute to building resilience to hazards;

“15. *Notes* the proposed establishment of a Global Platform for Disaster Risk Reduction, and decides that as a successor mechanism of the Inter-Agency Task Force for Disaster Reduction, the Global Platform shall serve as the main forum within the United Nations system for devising strategies and policies for disaster reduction and to ensure complementarity of action by agencies involved in disaster reduction, mitigation and preparedness;

“16. *Recognizes* the importance of integrating a gender perspective as well as engaging women in the design and implementation of all phases of disaster management, particularly at the disaster risk-reduction stage;

“17. *Expresses its appreciation* to those countries that have provided financial support for the activities of the Strategy by making voluntary contributions to the Trust Fund for the International Strategy for Disaster Reduction;

“18. *Encourages* the international community to provide adequate voluntary financial contributions to the United Nations Trust Fund for Disaster Reduction, in the effort to ensure the adequate support for the follow-up activities to the Hyogo Framework for Action, and to review the current usage and feasibility for the expansion of the Fund, inter alia, to assist disaster-prone developing countries to set up national strategies for disaster risk reduction;

“19. *Calls upon* the international community, particularly developed countries, including Governments and funding institutions, to invest in disaster risk reduction with a view to implementing the objectives of the International Strategy for Disaster Reduction;

“20. *Requests* the Secretary-General to allocate adequate financial and administrative resources from the regular budget to the Inter-Agency Secretariat for the International Strategy for Disaster Reduction;

“21. *Also requests* the Secretary-General to submit a report on the result of the Global Survey of Early Warning Systems, including his recommendations on how to address associated technical, financial and organizational gaps and needs;

“22. *Stresses* the need to foster better understanding and knowledge of the causes of disasters, as well as to build and strengthen coping capacities through, inter alia, the transfer and exchange of experiences and technical knowledge, access to relevant data and information and the strengthening of institutional arrangements, including community-based organizations;

“23. *Emphasizes* the need for the international community to maintain its focus beyond emergency relief and to support medium and long-term rehabilitation, reconstruction and risk reduction, and stresses the importance of implementing programmes related to the eradication of poverty, sustainable development and disaster risk-reduction management in the most vulnerable regions, particularly in developing countries prone to natural disasters;

“24. *Stresses* the need to address risk reduction of and vulnerabilities to all natural hazards, including geological and hydrometeorological hazards, in a comprehensive manner;

“25. *Requests* the Secretary-General to submit to the General Assembly at its sixty-second session a report on the implementation of the present resolution, under the item entitled ‘Sustainable development’.”

3. At its 33rd meeting, on 6 December, the Committee had before it a draft resolution entitled “International Strategy for Disaster Reduction” (A/C.2/61/L.58), submitted by the Vice-Chairman of the Committee, Benedicto Fonseca Filho (Brazil), on the basis of informal consultations held on draft resolution A/C.2/61/L.25.

4. At the same meeting, the Secretary of the Committee read out a statement of programme budget implications of draft resolution A/C.2/61/L.58 (see A/C.2/61/SR.33).

5. Also at the same meeting, the Committee adopted draft resolution A/C.2/61/L.58 (see para. 19, draft resolution I).

6. Following the adoption of the draft resolution, a statement was made by the representative of the Islamic Republic of Iran (see A/C.2/61/SR.33).

7. In the light of the adoption of draft resolution A/C.2/61/L.58, draft resolution A/C.2/61/L.25 was withdrawn by its sponsors.

B. Draft resolutions A/C.2/61/L.26 and A/C.2/61/L.45

8. At the 25th meeting, on 7 November, the representative of South Africa, on behalf of the States Members of the United Nations that are members of the Group of 77 and China, introduced a draft resolution entitled “International cooperation to reduce the impact of the El Niño phenomenon” (A/C.2/61/L.26), which read:

“The General Assembly,

“Recalling its resolutions 52/200 of 18 December 1997, 53/185 of 15 December 1998, 54/220 of 22 December 1999, 55/197 of 20 December 2000, 56/194 of 21 December 2001, 57/255 of 20 December 2002 and 59/232 of 22 December 2004 and Economic and Social Council resolutions 1999/46 of 28 July 1999, 1999/63 of 30 July 1999 and 2000/33 of 28 July 2000,

“Noting that the El Niño phenomenon has a recurring character and that it can lead to extensive natural hazards with the potential to seriously affect humankind,

“Reaffirming the importance of developing strategies at the national, subregional, regional and international levels that aim to prevent, mitigate and repair the damage caused by natural disasters that result from the El Niño phenomenon,

“Noting that technological developments and international cooperation have enhanced the capabilities for the prediction of the El Niño phenomenon and thereby the potential for the preventive actions that may be taken to reduce its negative impacts,

“Taking into account the Johannesburg Declaration on Sustainable Development and the Plan of Implementation of the World Summit on Sustainable Development (‘Johannesburg Plan of Implementation’), in particular paragraph 37 (i) thereof,

“1. Recognizes the ongoing efforts made by the Government of Ecuador, the World Meteorological Organization and the inter-agency secretariat for the International Strategy for Disaster Reduction to strengthen the International Centre for the Study of the El Niño Phenomenon at Guayaquil, Ecuador, and encourages them to continue their support for the advancement of the Centre;

“2. Also recognizes the technical and scientific support of the World Meteorological Organization to produce regionally coordinated monthly seasonal forecasts;

“3. Encourages, in this regard, the World Meteorological Organization to strengthen the exchange of information with the relevant institutions;

“4. Welcomes the activities undertaken so far to strengthen the International Centre for the Study of the El Niño Phenomenon, through collaboration with international monitoring centres, including the national oceanographic institutions, and the efforts to enhance regional and international recognition and support for the Centre and to develop tools for decision makers and Government authorities to reduce the impact of the El Niño phenomenon;

“5. *Calls upon* the Secretary-General and the relevant United Nations organs, funds and programmes, in particular those taking part in the International Strategy for Disaster Reduction, and the international community to adopt, as appropriate, the necessary measures to assure the development of the International Centre for the Study of the El Niño Phenomenon, and invites the international community to provide scientific, technical and financial assistance and cooperation for this purpose, as well as to strengthen, other centres devoted to the study of the El Niño phenomenon;

“6. *Welcomes* the decision of the Government of Spain and the Permanent Commission for the South Pacific to become new permanent members of the International Board of the International Centre for the Study of the El Niño Phenomenon, and their commitment to provide economic and technical support;

“7. *Underscores* the importance of maintaining the El Niño/Southern Oscillation observation system, continuing research into extreme weather events, improving forecasting skills and developing appropriate policies for reducing the impact of the El Niño phenomenon and other extreme weather events and emphasizes the need to further develop and strengthen these institutional capacities in all countries, in particular in developing countries;

“8. *Requests* the Secretary-General to include a section on the implementation of the present resolution in his report to the General Assembly at its sixty-third session under the item entitled ‘Sustainable development’.”

9. At its 31st meeting, on 22 November, the Committee had before it a draft resolution entitled “International cooperation to reduce the impact of the El Niño phenomenon” (A/C.2/61/L.45) submitted by the Vice-Chairman of the Committee, Benedicto Fonseca Filho (Brazil), on the basis of informal consultations held on draft resolution A/C.2/61/L.26.

10. At the same meeting, the Committee was informed that the draft resolution had no programme budget implications.

11. Also at the same meeting, the Committee adopted draft resolution A/C.2/61/L.45 (see para. 19, draft resolution II).

12. In the light of the adoption of draft resolution A/C.2/61/L.45, draft resolution A/C.2/61/L.26 was withdrawn by its sponsors.

C. Draft resolutions A/C.2/61/L.28 and A/C.2/61/L.44

13. At the 25th meeting, on 7 November, the representative of South Africa, on behalf of the States Members of the United Nations that are members of the Group of 77 and China, introduced a draft resolution entitled “Natural disasters and vulnerability” (A/C.2/61/L.28), which read:

“*The General Assembly,*

“*Recalling* its decision 57/547 of 20 December 2002 and its resolutions 58/215 of 23 December 2003, 59/233 of 22 December 2004 and 60/196 of 22 December 2005,

“Reaffirming the Johannesburg Declaration on Sustainable Development and the Plan of Implementation of the World Summit on Sustainable Development, adopted by the World Summit, held in Johannesburg, South Africa, from 26 August to 4 September 2002,

“Reaffirming also the Hyogo Declaration and the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters, adopted by the World Conference on Disaster Reduction,

“Recalling the 2005 World Summit Outcome,

“Recognizing the need to continue to develop an understanding of, and to address, the underlying risk factors, as identified in the Hyogo Framework for Action, including socio-economic factors, that exacerbate the vulnerability of societies to natural hazards, to build and further strengthen the capacity at all levels to cope with disaster risks and to enhance resilience against hazards associated with disasters, while also recognizing the negative impact of disasters on economic growth and sustainable development, in particular in developing countries and disaster-prone countries,

“Noting that the global environment continues to suffer degradation, adding to economic and social vulnerabilities, in particular in developing countries,

“Taking into account the various ways and forms in which all countries, in particular the more vulnerable countries, are affected by severe natural hazards such as earthquakes, tsunami, landslides and volcanic eruptions and extreme weather events such as heat waves, severe droughts, floods and storms, and the El Niño/La Niña events which have global reach,

“Expressing deep concern at the recent increase in the frequency and intensity of extreme weather events and associated natural disasters in some regions of the world and their substantial economic, social and environmental impacts, in particular upon developing countries in those regions,

“Taking into account that geologic and hydro-meteorological hazards and their associated natural disasters and their reduction must be addressed in a coherent and effective manner,

“Noting the need for international and regional cooperation to increase the capacity of countries to respond to the negative impacts of all natural hazards, including earthquakes, tsunami, landslides and volcanic eruptions and extreme weather events such as heat waves, severe droughts and floods, and associated natural disasters, in particular in developing countries and disaster-prone countries,

“Bearing in mind the importance of addressing disaster risks related to changing social, economic, environmental conditions and land use, and the impact of hazards associated with geologic events, weather, water, climate variability and climate change, in sector development planning and programmes as well as in post-disaster situations,

“1. Takes note of the report of the Secretary-General on the implementation of its resolution 60/196 of 22 December 2005;

“2. *Urges* the international community to continue to address ways and means, including through cooperation and technical assistance, to reduce the adverse effects of natural disasters, including those caused by extreme weather events, in particular in vulnerable developing countries, including least developed countries and in Africa, through the implementation of the International Strategy for Disaster Reduction, including the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disaster, and encourages the institutional arrangement for the International Strategy to continue its work in this regard;

“3. *Stresses* the importance of the Hyogo Declaration and the Hyogo Framework for Action and the priorities for action that States, regional and international organizations and international financial institutions as well as other concerned actors should take into consideration in their approach to disaster risk reduction and implement, as appropriate, according to their own circumstances and capacities, bearing in mind the vital importance of promoting a culture of prevention in the area of natural disasters, including through the mobilization of adequate resources for disaster risk reduction, and of addressing disaster risk reduction, including disaster preparedness at the community level, and the adverse effects of natural disasters on efforts to implement national development plans and poverty reduction strategies with a view to achieving the internationally agreed development goals, including the Millennium Development Goals;

“4. *Encourages* Governments, through their respective International Strategy for Disaster Reduction national platforms and national focal points for disaster risk reduction, in cooperation with the United Nations system, the International Federation of Red Cross and Red Crescent Societies and other stakeholders, to strengthen capacity-building in the most vulnerable regions, to enable them to address the socio-economic factors that increase vulnerability, and to develop measures that will enable them to prepare for and cope with natural disasters, including those associated with earthquakes and extreme weather events, and encourages the international community to provide effective assistance to developing countries in this regard;

“5. *Emphasizes*, in order to build resilience, particularly in developing countries, especially those vulnerable among them, the importance of addressing the underlying risk factors identified in the Hyogo Framework for Action and the importance of promoting the integration of risk reduction associated with geologic and hydro-meteorological hazards in disaster risk reduction programmes;

“6. *Stresses* that, in order to reduce vulnerability to natural hazards, risk assessments should be integrated into disaster risk reduction programmes at national and local levels;

“7. *Encourages* the institutional arrangement for the International Strategy for Disaster Reduction to continue, within its mandate, particularly the Hyogo Framework for Action, to enhance the coordination of activities to promote natural disaster risk reduction and to make available to the relevant United Nations entities information on options for natural disaster risk reduction, including severe natural hazards and extreme weather-related disasters and vulnerabilities;

“8. *Stresses* the importance of close cooperation and coordination among Governments, the United Nations system, and other international and regional organizations, as well as non-governmental organizations and other partners such as the International Federation of Red Cross and Red Crescent Movement, as appropriate, taking into account the need for the development of disaster management strategies, including the effective establishment of early warning systems that are, inter alia, people-centred, while taking advantage of all available resources and expertise for that purpose;

“9. *Also stresses* that, to reduce vulnerability to all natural hazards, including geologic and hydro-meteorological events, and extreme weather-related disasters, closer and more systematic cooperation and information-sharing between the scientific community and disaster management specialists should be strengthened for disaster preparedness;

“10. *Encourages* the Conference of the Parties to the United Nations Framework Convention on Climate Change and the parties to the Kyoto Protocol to the United Nations Framework Convention on Climate Change to continue to address the adverse effects of climate change, especially in developing countries that are particularly vulnerable, in accordance with the provisions of the Convention, and also encourages the Intergovernmental Panel on Climate Change to continue to assess the adverse effects of climate change on the socio-economic and natural disaster reduction systems of developing countries;

“11. *Stresses* the need to address risk reduction of and vulnerabilities to all natural hazards including geologic and hydro-meteorological hazards;

“12. *Requests* the Secretary-General to report to the General Assembly at its sixty-third session on the implementation of the present resolution, and decides to consider the issue of natural disasters and vulnerability at that session, under the sub-item entitled ‘International Strategy for Disaster Reduction’ of the item entitled ‘Sustainable development’.”

14. At its 30th meeting, on 17 November, the Committee had before it a draft resolution entitled “Natural disasters and vulnerability” (A/C.2/61/L.44) submitted by the Vice-Chairman of the Committee, Benedicto Fonseca Filho (Brazil), on the basis of informal consultations held on draft resolution A/C.2/61/L.28.

15. At the same meeting, the Committee was informed that the draft resolution had no programme budget implications.

16. Also at the same meeting, the Committee adopted draft resolution A/C.2/61/L.44 (see para. 19, draft resolution III).

17. Following the adoption of the draft resolution, a statement was made by the representative of the United States of America (see A/C.2/61/SR.30).

18. In the light of the adoption of draft resolution A/C.2/61/L.44, draft resolution A/C.2/60/L.28 was withdrawn by its sponsors.

III. Recommendations of the Second Committee

19. The Second Committee recommends to the General Assembly the adoption of the following draft resolutions:

Draft resolution I International Strategy for Disaster Reduction

The General Assembly,

Recalling its resolutions 44/236 of 22 December 1989, 49/22 A of 2 December 1994, 49/22 B of 20 December 1994, 53/185 of 15 December 1998, 54/219 of 22 December 1999, 56/195 of 21 December 2001, 57/256 of 20 December 2002, 58/214 of 23 December 2003, 59/231 of 22 December 2004 and 60/195 of 22 December 2005 and Economic and Social Council resolutions 1999/63 of 30 July 1999 and 2001/35 of 26 July 2001, and taking into due consideration its resolution 57/270 B of 23 June 2003 on integrated and coordinated implementation of and follow-up to the outcomes of the major United Nations conferences and summits in the economic and social fields,

Recalling also the 2005 World Summit Outcome,¹

Reaffirming the Hyogo Declaration,² the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters³ and the common statement of the Special Session on the Indian Ocean disaster: risk reduction for a safer future,⁴ as adopted by the World Conference on Disaster Reduction,

Recognizing that the Hyogo Framework for Action complements the Yokohama Strategy for a Safer World: Guidelines for Natural Disaster Prevention, Preparedness and Mitigation and its Plan of Action,⁵

Reaffirming its role of providing policy guidance on the implementation of the outcomes of the major United Nations conferences and summits,

Recalling that the Inter-Agency Task Force for Disaster Reduction has been serving as the main forum within the United Nations system for devising strategies and policies for disaster reduction and to ensure complementarity of action by agencies involved in disaster reduction, mitigation and preparedness,

Expressing its appreciation for the work the Inter-Agency Task Force for Disaster Reduction has been carrying out in its mandated functions,

Expressing its deep concern at the number and scale of natural disasters and their increasing impact within recent years, which have resulted in massive loss of life and long-term negative social, economic and environmental consequences for vulnerable societies throughout the world, in particular in developing countries,

¹ See resolution 60/1.

² A/CONF.206/6 and Corr.1, chap. I, resolution 1.

³ Ibid., resolution 2.

⁴ A/CONF.206/6 and Corr.1, annex II.

⁵ A/CONF.172/9, chap. I, resolution 1, annex I.

Reiterating that, although natural disasters damage the social and economic infrastructure of all countries, the long-term consequences of natural disasters are especially severe for developing countries and hamper the achievement of their sustainable development,

Recognizing that disaster risk reduction is a cross-cutting issue in the context of sustainable development,

Recognizing also the clear relationship between development, disaster risk reduction, disaster response and disaster recovery and the need to continue to deploy efforts in all these areas,

Recognizing further the urgent need to further develop and make use of the existing scientific and technical knowledge to build resilience to natural disasters, and emphasizing the need for developing countries to have access to appropriate, advanced, environmentally sound, cost-effective and easy-to-use technologies so as to seek more comprehensive solutions to disaster risk reduction and to effectively and efficiently strengthen their capabilities to cope with disaster risks,

Emphasizing that disaster risk reduction, including reducing vulnerability to natural disasters, is an important element that contributes to the achievement of sustainable development,

Stressing the importance of advancing the implementation of the Plan of Implementation of the World Summit on Sustainable Development⁶ and its relevant provisions on vulnerability, risk assessment and disaster management,

Recognizing the need to continue to develop an understanding of, and to address, socio-economic activities that exacerbate the vulnerability of societies to natural disasters and to build and further strengthen community capability to cope with disaster risks,

Noting with appreciation the convening of the Third International Conference on Early Warning, held in Bonn, Germany, from 27 to 29 March 2006,

1. *Takes note* of the report of the Secretary-General on the implementation of the International Strategy for Disaster Reduction;⁷

2. *Recalls* that the commitments of the Hyogo Declaration² and the Hyogo Framework for Action³ include the provision of assistance for developing countries that are prone to natural disasters and disaster-stricken States in the transition phase towards sustainable physical, social and economic recovery, for risk-reduction activities in post-disaster recovery and for rehabilitation processes;

3. *Welcomes* the progress made in the implementation of the Hyogo Framework for Action, and stresses the need for a more effective integration of disaster risk reduction into sustainable development policies, planning and programming; for the development and strengthening of institutions, mechanisms and capacities to build resilience to hazards; and for a systematic incorporation of risk-reduction approaches into the implementation of emergency preparedness, response and recovery programmes;

⁶ *Report of the World Summit on Sustainable Development, Johannesburg, South Africa, 26 August-4 September 2002* (United Nations publication, Sales No. E.03.II.A.1 and corrigendum), chap. I, resolution 2, annex.

⁷ A/61/229 and Corr.1.

4. *Calls upon* the international community to fully implement the commitments of the Hyogo Declaration and the Hyogo Framework for Action;

5. *Invites* Member States, the United Nations system, international financial institutions, regional bodies and other international organizations, including the International Federation of Red Cross and Red Crescent Societies, as well as relevant civil society organizations, to support, implement and follow up the Hyogo Framework for Action;

6. *Calls upon* the United Nations system, international financial institutions and international organizations to integrate the goals of and take into full account the Hyogo Framework for Action in their strategies and programmes, making use of existing coordination mechanisms, and to assist developing countries with those mechanisms to design and implement, as appropriate, disaster risk-reduction measures with a sense of urgency;

7. *Also calls upon* the United Nations system, the international financial institutions and regional banks and other regional and international organizations to support, in a timely and sustained manner, the efforts led by disaster-stricken countries for disaster risk reduction, in post-disaster recovery and rehabilitation processes;

8. *Recognizes* that each State has the primary responsibility for its own sustainable development and for taking effective measures to reduce disaster risk, including for the protection of people on its territory, infrastructure and other national assets from the impact of disasters, including the implementation of and follow-up to the Hyogo Framework for Action, and stresses the importance of international cooperation and partnerships to support those national efforts;

9. *Also recognizes* the efforts made by Member States to develop national and local capacities to implement the Hyogo Framework for Action, including through the establishment of national platforms for disaster reduction, and encourages Member States that have not done so to develop such capacities;

10. *Invites* Governments and relevant international organizations to consider disaster risk assessment as an integral component of development plans and poverty eradication programmes;

11. *Stresses* that continued cooperation and coordination among Governments, the United Nations system, other organizations, regional organizations, non-governmental organizations and other partners, as appropriate, are considered essential to address effectively the impact of natural disasters;

12. *Notes* all the regional and subregional initiatives developed in order to achieve disaster risk reduction, and reiterates the need to further develop regional initiatives and risk-reduction capacities of regional mechanisms where they exist and to strengthen them and encourage the use and sharing of all existing tools;

13. *Recognizes* the importance of linking disaster risk management to regional frameworks, as appropriate, such as the African Regional Strategy for Disaster Reduction developed within the New Partnership for Africa's

Development,⁸ to address issues of poverty eradication and sustainable development;

14. *Calls upon* the international community to support the development and strengthening of institutions, mechanisms and capacities at all levels, in particular at the community level, that can systematically contribute to building resilience to hazards;

15. *Notes* the proposed establishment of a Global Platform for Disaster Risk Reduction as the successor mechanism of the Inter-Agency Task Force for Disaster Reduction, and, taking into account the implementation of the Hyogo Framework for Action, decides that the Global Platform shall have the same mandate as the Inter-Agency Task Force for Disaster Reduction, and requests the Secretary-General to include information on the Global Platform, for consideration by the General Assembly, in his next report;

16. *Decides* that the proposed establishment of the Global Platform should continue to be carried out in an inclusive and transparent manner and be open to all Member States;

17. *Recognizes* the importance of integrating a gender perspective as well as engaging women in the design and implementation of all phases of disaster management, particularly at the disaster risk-reduction stage;

18. *Expresses its appreciation* to those countries that have provided financial support for the activities of the Strategy by making voluntary contributions to the Trust Fund for the International Strategy for Disaster Reduction;

19. *Encourages* the international community to provide adequate voluntary financial contributions to the United Nations Trust Fund for Disaster Reduction, in the effort to ensure adequate support for the follow-up activities to the Hyogo Framework for Action, and to review the current usage and feasibility for the expansion of the Fund, inter alia, to assist disaster-prone developing countries to set up national strategies for disaster risk reduction;

20. *Encourages* Governments, multilateral organizations, international and regional organizations, international and regional financial institutions, the private sector and civil society to systematically invest in disaster risk reduction with a view to implementing the objectives of the Strategy;

21. *Recognizes* the need for adequate financial and administrative resources for the International Strategy for Disaster Reduction secretariat, requests the Secretary-General to allocate such resources, within existing resources, for the activities and effective functioning of the inter-agency secretariat for the International Strategy for Disaster Reduction, and also requests the Secretary-General to report on this as appropriate;

22. *Requests* the Secretary-General to submit a report on the result of the Global Survey of Early Warning Systems, including his recommendations on how to address associated technical, financial and organizational gaps and needs;

23. *Stresses* the need to foster better understanding and knowledge of the causes of disasters, as well as to build and strengthen coping capacities through,

⁸ A/57/304, annex.

inter alia, the transfer and exchange of experiences and technical knowledge, educational and training programmes for natural disaster risk reduction, access to relevant data and information and the strengthening of institutional arrangements, including community-based organizations;

24. *Emphasizes* the need for the international community to maintain its focus beyond emergency relief and to support medium- and long-term rehabilitation, reconstruction and risk reduction, and stresses the importance of implementing programmes related to the eradication of poverty, sustainable development and disaster risk-reduction management in the most vulnerable regions, particularly in developing countries prone to natural disasters;

25. *Stresses* the need to address risk reduction of and vulnerabilities to all natural hazards, including geological and hydro-meteorological hazards, in a comprehensive manner;

26. *Requests* the Secretary-General to submit to the General Assembly at its sixty-second session a report on the implementation of the present resolution, under the item entitled "Sustainable development".

Draft resolution II International cooperation to reduce the impact of the El Niño phenomenon

The General Assembly,

Recalling its resolutions 52/200 of 18 December 1997, 53/185 of 15 December 1998, 54/220 of 22 December 1999, 55/197 of 20 December 2000, 56/194 of 21 December 2001, 57/255 of 20 December 2002 and 59/232 of 22 December 2004 and Economic and Social Council resolutions 1999/46 of 28 July 1999, 1999/63 of 30 July 1999 and 2000/33 of 28 July 2000,

Noting that the El Niño phenomenon has a recurring character and that it can lead to extensive natural hazards with the potential to seriously affect humankind,

Reaffirming the importance of developing strategies at the national, subregional, regional and international levels that aim to prevent, mitigate and repair the damage caused by natural disasters that result from the El Niño phenomenon,

Noting that technological developments and international cooperation have enhanced the capabilities for the prediction of the El Niño phenomenon and thereby the potential for the preventive actions that may be taken to reduce its negative impacts,

Taking into account the Johannesburg Declaration on Sustainable Development¹ and the Plan of Implementation of the World Summit on Sustainable Development (“Johannesburg Plan of Implementation”),² in particular paragraph 37 (i) thereof,

Reaffirming the Hyogo Declaration³ and the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters,⁴

1. *Recognizes* the ongoing efforts made by the Government of Ecuador, the World Meteorological Organization and the inter-agency secretariat for the International Strategy for Disaster Reduction which have led to the establishment of the International Centre for the Study of the El Niño Phenomenon at Guayaquil, Ecuador, and encourages them to continue their support for the advancement of the Centre;

2. *Also recognizes* the technical and scientific support of the World Meteorological Organization to produce regionally coordinated monthly seasonal forecasts;

3. *Encourages*, in this regard, the World Meteorological Organization to strengthen the exchange of information with the relevant institutions;

4. *Welcomes* the activities undertaken so far to strengthen the International Centre for the Study of the El Niño Phenomenon, through collaboration with

¹ *Report of the World Summit on Sustainable Development, Johannesburg, South Africa, 26 August-4 September 2002* (United Nations publication, Sales No. E.03.II.A.1 and corrigendum), chap. I, resolution 1, annex.

² *Ibid.*, resolution 2, annex.

³ A/CONF.206/6 and Corr.1, chap. I, resolution 1.

⁴ *Ibid.*, resolution 2.

international monitoring centres, including the national oceanographic institutions, and efforts to enhance regional and international recognition and support for the Centre and to develop tools for decision makers and Government authorities to reduce the impact of the El Niño phenomenon;

5. *Calls upon* the Secretary-General and the relevant United Nations organs, funds and programmes, in particular those taking part in the International Strategy for Disaster Reduction, and the international community to adopt, as appropriate, the necessary measures to strengthen the International Centre for the Study of the El Niño Phenomenon, and invites the international community to provide scientific, technical and financial assistance and cooperation for this purpose, as well as to strengthen, as appropriate, other centres devoted to the study of the El Niño phenomenon;

6. *Welcomes* the decision made by the Government of Spain and the Permanent Commission for the South Pacific to become new permanent members of the International Board of the Centre, as well as their commitment to provide economic and technical support;

7. *Underscores* the importance of maintaining the El Niño/Southern Oscillation observation system, continuing research into extreme weather events, improving forecasting skills and developing appropriate policies for reducing the impact of the El Niño phenomenon and other extreme weather events, and emphasizes the need to further develop and strengthen these institutional capacities in all countries, in particular in developing countries;

8. *Requests* the Secretary-General to include a section on the implementation of the present resolution in his report to the General Assembly at its sixty-third session on the implementation of the International Strategy for Disaster Reduction.

Draft resolution III

Natural disasters and vulnerability

The General Assembly,

Recalling its decision 57/547 of 20 December 2002 and its resolutions 58/215 of 23 December 2003, 59/233 of 22 December 2004 and 60/196 of 22 December 2005,

Reaffirming the Johannesburg Declaration on Sustainable Development¹ and the Plan of Implementation of the World Summit on Sustainable Development,² adopted by the World Summit, held in Johannesburg, South Africa, from 26 August to 4 September 2002,

Reaffirming also the Hyogo Declaration³ and the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters,⁴ adopted by the World Conference on Disaster Reduction,

Recalling the 2005 World Summit Outcome,⁵

Recognizing the need to continue to develop an understanding of, and to address, the underlying risk factors, as identified in the Hyogo Framework for Action, including socio-economic factors, that exacerbate the vulnerability of societies to natural hazards, to build and further strengthen the capacity at all levels to cope with disaster risks and to enhance resilience against hazards associated with disasters, while also recognizing the negative impact of disasters on economic growth and sustainable development, in particular in developing countries and disaster-prone countries,

Recognizing also the need to integrate a gender perspective in the design and implementation of all phases of disaster risk reduction management, with a view to reducing vulnerability,

Noting that the global environment continues to suffer degradation, adding to economic and social vulnerabilities, in particular in developing countries,

Taking into account the various ways and forms in which all countries, in particular the more vulnerable countries, are affected by severe natural hazards such as earthquakes, tsunamis, landslides and volcanic eruptions and extreme weather events such as heat waves, severe droughts, floods and storms, and the El Niño/La Niña events which have global reach,

Expressing deep concern at the recent increase in the frequency and intensity of extreme weather events and associated natural disasters in some regions of the world and their substantial economic, social and environmental impacts, in particular upon developing countries in those regions,

¹ *Report of the World Summit on Sustainable Development, Johannesburg, South Africa, 26 August-4 September 2002* (United Nations publication, Sales No. E.03.II.A.1 and corrigendum), chap. I, resolution 1, annex.

² *Ibid.*, resolution 2, annex.

³ A/CONF.206/6 and Corr.1, chap. I, resolution 1.

⁴ *Ibid.*, resolution 2.

⁵ See resolution 60/1.

Taking into account that geological and hydro-meteorological hazards and their associated natural disasters and their reduction must be addressed in a coherent and effective manner,

Noting the need for international and regional cooperation to increase the capacity of countries to respond to the negative impacts of all natural hazards, including earthquakes, tsunami, landslides and volcanic eruptions and extreme weather events such as heat waves, severe droughts and floods, and associated natural disasters, in particular in developing countries and disaster-prone countries,

Bearing in mind the importance of addressing disaster risks related to changing social, economic, environmental conditions and land use, and the impact of hazards associated with geological events, weather, water, climate variability and climate change, in sector development planning and programmes as well as in post-disaster situations,

1. *Takes note* of the report of the Secretary-General on the implementation of its resolution 60/196 of 22 December 2005;⁶

2. *Urges* the international community to continue to address ways and means, including through cooperation and technical assistance, to reduce the adverse effects of natural disasters, including those caused by extreme weather events, in particular in vulnerable developing countries, including least developed countries and in Africa, through the implementation of the International Strategy for Disaster Reduction, including the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disaster,⁴ and encourages the institutional arrangement for the International Strategy to continue its work in this regard;

3. *Recognizes* that each State has the primary responsibility for its own sustainable development and for taking effective measures to reduce disaster risk, including for the protection of people on its territory, infrastructure and other national assets from the impact of disaster, including the implementation and follow-up of the Hyogo Framework for Action, and stresses the importance of international cooperation and partnerships to support those national efforts;

4. *Stresses* the importance of the Hyogo Declaration³ and the Hyogo Framework for Action and the priorities for action that States, regional and international organizations and international financial institutions as well as other concerned actors should take into consideration in their approach to disaster risk reduction and implement, as appropriate, according to their own circumstances and capacities, bearing in mind the vital importance of promoting a culture of prevention in the area of natural disasters, including through the mobilization of adequate resources for disaster risk reduction, and of addressing disaster risk reduction, including disaster preparedness at the community level, and the adverse effects of natural disasters on efforts to implement national development plans and poverty reduction strategies with a view to achieving the internationally agreed development goals, including the Millennium Development Goals;

5. *Encourages* Governments, through their respective International Strategy for Disaster Reduction national platforms and national focal points for disaster risk reduction, in cooperation with the United Nations system, the International

⁶ A/61/229 and Corr.1.

Federation of Red Cross and Red Crescent Societies and other stakeholders, to strengthen capacity-building in the most vulnerable regions, to enable them to address the social, economic and environmental factors that increase vulnerability, and to develop measures that will enable them to prepare for and cope with natural disasters, including those associated with earthquakes and extreme weather events, and encourages the international community to provide effective assistance to developing countries in this regard;

6. *Emphasizes*, in order to build resilience, particularly in developing countries, especially those vulnerable among them, the importance of addressing the underlying risk factors identified in the Hyogo Framework for Action and the importance of promoting the integration of risk reduction associated with geological and hydro-meteorological hazards in disaster risk reduction programmes;

7. *Stresses* that, in order to reduce vulnerability to natural hazards, risk assessments should be integrated into disaster risk reduction programmes at national and local levels;

8. *Encourages* the institutional arrangement for the International Strategy for Disaster Reduction to continue, within its mandate, particularly the Hyogo Framework for Action, to enhance the coordination of activities to promote natural disaster risk reduction and to make available to the relevant United Nations entities information on options for natural disaster risk reduction, including severe natural hazards and extreme weather-related disasters and vulnerabilities;

9. *Stresses* the importance of close cooperation and coordination among Governments, the United Nations system, and other international and regional organizations, as well as non-governmental organizations and other partners such as the International Federation of Red Cross and Red Crescent Societies, as appropriate, taking into account the need for the development of disaster management strategies, including the effective establishment of early warning systems that are, inter alia, people-centred, while taking advantage of all available resources and expertise for that purpose;

10. *Also stresses* that, to reduce vulnerability to all natural hazards, including geological and hydro-meteorological events and associated natural disasters, closer and more systematic cooperation, and information-sharing on disaster preparedness between the scientific community and disaster managers at all levels should be strengthened;

11. *Encourages* the Conference of the Parties to the United Nations Framework Convention on Climate Change⁷ and the parties to the Kyoto Protocol to the United Nations Framework Convention on Climate Change⁸ to continue to address the adverse effects of climate change, especially in developing countries that are particularly vulnerable, in accordance with the provisions of the Convention, and also encourages the Intergovernmental Panel on Climate Change to continue to assess the adverse effects of climate change on the socio-economic and natural disaster reduction systems of developing countries;

12. *Stresses* the need to address risk reduction of and vulnerabilities to all natural hazards including geological and hydro-meteorological hazards;

⁷ United Nations, *Treaty Series*, vol. 1771, No. 30822.

⁸ FCCC/CP/1997/7/Add.1, decision 1/CP.3, annex.

13. *Requests* the Secretary-General to report to the General Assembly at its sixty-third session on the implementation of the present resolution, and decides to consider the issue of natural disasters and vulnerability at that session, under the sub-item entitled “International Strategy for Disaster Reduction” of the item entitled “Sustainable development”.
