United Nations Children's Fund Executive Board Second regular session 2007 5-7 September 2007

Interim financial report and statements for the year ended 31 December 2006, the first year of the biennium 2006-2007

Summary

The present document, submitted for information to the Executive Board, contains the financial report on the accounts of UNICEF for the year ended 31 December 2006, the first year of the biennium 2006-2007. The document, comprised of the financial report and 10 statements supported by notes and 1 schedule, summarizes the financial results of transactions made in 2006. In line with General Assembly resolution 50/204 of 23 December 1995, and the formats agreed upon by the Chief Executives Board for Coordination, the document is prepared to achieve harmonization of the presentation of the accounts of the agencies in the United Nations system. A summary of significant accounting policies and other information is included in the notes to the financial statements.

^{*} This report is presented to the Executive Board for information only and will be discussed only if specifically requested by a member of the Board.

I. Interim financial report for the year ended 31 December 2006

Introduction

1. The United Nations Children's Fund (UNICEF) submits herewith its financial report, accompanied by 10 statements and supported by 1 schedule. Of these, statements I, II, III and IV are presented in line with the formats agreed upon by the Chief Executives Board for Coordination as a step towards harmonizing the accounts of agencies in the United Nations system. The financial report provides the financial results of UNICEF activities in 2006. Highlights are summarized in the following paragraphs.

Income

2. UNICEF income in the year 2006 totalled \$2,768 million. Virtually all Governments of both industrialized and developing countries contributed to UNICEF in 2006. Income comprised \$1,043 million for regular resources, \$1,125 million for other resources (regular) and \$600 million in other resources (emergency). The breakdown of UNICEF income by source is: 58 per cent (\$1,600 million) from Governments; 29 per cent (\$800 million) from fund-raising campaigns, the sale of greeting cards and individual donations; and 7 per cent (\$190 million) from miscellaneous sources, including interest and exchange rate revaluation of assets and liabilities. An amount of \$178 million (6 per cent) was contributed under inter-organizational arrangements.

Expenditures

3. UNICEF expenditures in the year 2006 were \$2,337 million. This amount consisted of \$676 million for programme cooperation from regular resources, \$913 million for programme cooperation from other resources (regular), and \$672 million for other resources (emergency). The remaining expenditures of \$65 million were for management and administration, and \$11 million were for security.

Supported deliveries

4. UNICEF handled supported deliveries on behalf of third parties valued at \$274 million during 2006. These deliveries are not reflected in the financial accounts of UNICEF, although they are handled through the administrative structures of the organization.

Trust funds

5. Trust funds not related to programmes approved by the UNICEF Executive Board are not entered in the financial accounts of UNICEF as income and expenditures. These funds are used mainly to cover the cost of goods and services purchased and delivered on a reimbursable basis by UNICEF on behalf of Governments, other agencies in the United Nations system and non-governmental organizations (NGOs). In 2006, UNICEF received cash of \$820 million for these trust funds. Disbursements and obligations totalled \$829 million.

Cash holdings

6. UNICEF has total cash of \$2,448 million (which includes the unspent balances from trust funds in the amount of \$342 million). An amount of \$2,447 million is held in first-class banks, comprising \$2,355 million in interest-bearing term deposit and investments, and \$92 million in current bank accounts. Cash on hand amounts to \$1 million.

Approved programmes

7. During 2006, the Executive Board approved the amount of \$3,250 million for new programmes for children in countries with which UNICEF cooperates, as well as for regional and interregional projects. This total includes \$1,430 million in programmes to be funded from UNICEF regular resources and \$1,218 million for projects that the Board approved as worthy of support and that were financed by pledges of supplementary funds made in 2006. The total also includes \$602 million for projects financed by pledges for emergency relief and rehabilitation.

Notes to the financial statements

Note 1

Statement of the objectives and activities of UNICEF

1. UNICEF is mandated by the United Nations General Assembly to advocate for the protection of children's rights, to help meet their basic needs and to expand their opportunities to reach their full potential. The organization mobilizes political will and material resources to help countries, particularly developing countries, ensure a "first call for children" and build their capacity to form appropriate policies and deliver services for children and their families.

Note 2

Summary of significant accounting policies

Accounting Convention

2. The financial statements are prepared in accordance with the Financial Regulations and Rules of UNICEF and the United Nations system accounting standards.

3. In line with the goal of achieving harmonization of the presentation of the accounts by agencies in the United Nations system, the financial statements are presented in line with the formats agreed upon by the CEB.

Financial period

4. In accordance with the UNICEF Financial Regulations and Rules, the accounts are maintained on a biennial basis.

Unit of account

5. The accounting unit is the United States dollar. The equivalent in United States dollars of other currencies is established on the basis of the United Nations operational rate of exchange.

Translation of currencies

6. Differences between the valuation of the currencies when entered into the accounts and when actual transactions are completed are accounted for as gains or losses on exchange transactions. Periodically, assets and liabilities in currencies other than United States dollars are revalued for accounting purposes at the prevailing United Nations operational rates of exchange. Any variance due to fluctuation of those rates is accounted for as income or loss and shown separately in the statement of income and expenditure. In accordance with UNICEF Executive Board decision 1990/28 (E/ICEF/1990/13), differences resulting from the payment of contributions pledged in currencies other than United States dollars are recorded against the contributions.

Income

7. Income consists of regular resources, supplementary funds and funds for emergency relief and rehabilitation. Regular resources include funds from the voluntary annual contributions of Governments, intergovernmental organizations, NGOs, the net income from the Private Sector Division (PSD), unearmarked funds contributed by the public and other income. Supplementary funds are those contributed to UNICEF by Governments, intergovernmental organizations, NGOs and the United Nations system for specific purposes within the programmes approved by the UNICEF Executive Board. Emergency relief and rehabilitation funds include those contributed for emergency operations.

8. Income is recorded on the basis of funds or pledges received for the current year. Funds received for future years for purposes specified by donors are considered deferred income and recorded as "contributions received in advance".

9. Contributions income received from National Committees for UNICEF is accounted for on a cash basis, with the exception of contributions for supplementary funds and for emergency relief and rehabilitation, which may be recorded on the basis of a valid pledge from a National Committee. The validity of the pledge is determined by the existence of funds raised and a statement from the National Committee that it is committing funds to UNICEF in the form of a pledge.

10. The statement of income and expenditures does not include funds received and disbursements made from trust funds. Those transactions that do not require commitments by the Executive Board are maintained as trust funds.

11. All other income received by UNICEF is classified as miscellaneous income and is credited as regular resources.

12. Contributions in-kind are valued by management and reflect the cost UNICEF would normally pay for similar items.

13. Support Deliveries are not reflected in the financial accounts of UNICEF, although they are handled through the administrative structures of the organization.

Expenditure

14. All expenditures of UNICEF are accounted for on an accrual basis, except for those relating to staff entitlements, which are accounted for on the basis of cash disbursements only.

15. Deferred charges comprise expenditure items which are not properly chargeable in the current financial period and which will be charged as expenditure in a subsequent financial period.

16. No provision is made for end of service entitlements for staff with temporary fixed term contracts, staff loaned to or by UNICEF, junior professional officers, or staff that are not part of UNICEF payroll. Also, no provision is made to meet contingencies under appendix D of the United Nations Staff Rules, as funds are provided in the budget appropriations as required.

Cash

17. All funds received are deposited into UNICEF bank accounts, including those under trust fund arrangements and reflected as cash holdings.

Stock

18. The stock of programme supplies at the UNICEF Supply Division warehouses is shown at average cost. All costs associated with bringing the goods to the

warehouse are considered as part of the average cost. Goods in transit to the warehouse are valued at actual cost.

Capital assets cost

19. Capital assets consist of buildings and staff housing presented at their acquisition cost. The PSD machinery and equipment are depreciated over the estimated useful life of these assets.

Non-expendable property

20. Furniture, equipment and other non-expendable property are not included in the assets of the organization. Acquisitions are charged against budgetary accounts in the year of purchase.

Capital asset reserve

21. By its decision 1990/26 (E/ICEF/1990/13), the Executive Board approved the establishment of a capital asset reserve fund to better control the future purchases of UNICEF capital assets, mainly buildings to be purchased for office accommodations and staff housing in the field. At such time as may be necessary, additional authorized appropriations will be made to replenish the capital asset reserve.

Consolidation of Private Section Division (PSD) accounts

22. The financial report and accounts reflect UNICEF income, expenditure, assets and liabilities, including the net operating income, assets and liabilities of PSD. Inter-office transactions between UNICEF and PSD are eliminated for PSD consolidation purposes.

PSD accounting conventions

23. The PSD accounts are maintained in accordance with the Financial Regulations and Rules of UNICEF and the Greeting Card Operation special supplement.

PSD translation of currencies

24. Gross proceeds are recorded in local currency based on current year deliveries. They are converted into United States dollars at the United Nations operational rates of exchange prevailing on 31 December.

PSD allowance for exchange rate fluctuation and doubtful accounts receivable

25. The policy of making an allowance of 10 per cent of non-United States dollardenominated outstanding accounts receivable as at 31 December as a provision for delays in the collection thereof, was discontinued effective 31 December 2003. In accordance with PSD accounting policy, a provision to cover accounts receivable that are considered doubtful for collection may be established.

PSD inventories

26. The inventory of work in process and finished goods are valued at standard cost, while raw materials are valued at moving average cost. It is PSD policy to

write-down unsold cards and dated products at the end of the first sales campaign year and all other products at the end of the second sales campaign year. Products that have been written-down and carried forward are valued at their add-on cost. All publicity and promotion materials produced in the current campaign year but relating to future campaign years are shown at standard cost and included in inventory.

PSD capital assets

27. Capital assets costing \$100,000 or more are capitalized and depreciated over their estimated useful life.

PSD liabilities

28. Liabilities are accrued in the PSD accounts following recognized accounting standards, and appropriate cut-off procedures are followed consistently.

PSD income

29. Gross proceeds from the sale of cards and products are recorded in foreign currency and accrued on the basis of the provisional sales reports received from the sales partners at year-end. They are converted into United States dollars at the United Nations operational rates of exchange prevailing on 31 December of the year in question. The accrual is adjusted in the following year on receipt of the final sales report. In case the provisional sales report is not received from a sales partner by end-of-year closure, gross proceeds are accrued on the basis of that sales partner's average sales-to-delivery ratio for the current year.

30. Income from private sector fund-raising activities and related expenses are recorded separately in the PSD accounts. The net proceeds raised by National Committees from private sector fund-raising activities are recorded on the basis of the reports they submit at year's end, while the net proceeds raised by field offices from private sector fund-raising activities are recorded upon receipt of funds.

Note 3

Transfer to the biennium support budget

31. A transfer is made from income to biennium support budget, in keeping with the budget harmonization of the United Nations Development Programme (UNDP), the United Nations Population Fund (UNFPA) and UNICEF, as follows:

	2006	2005
	(Thousands of United St	ates dollars)

Note 7 Reserves

33. In 2003, the Executive Board authorized the establishment of a funded reserve for after-service health insurance for \$30 million. The reserve balance at the end of 2005 was \$60 million. The reserve was increased by \$30 million during 2006. Currently disbursements for retirees are charged against the budget appropriations of the periods when actual payments are made. (See note 20 for actuarial valuation)

Reserve for procurement services — staff and related costs

34. In 1993, the Executive Board authorized the establishment of a reserve for procurement services at \$2 million (E/ICEF/1993/AB/L.11 and E/ICEF/1993/14, decision 1993/19). There were no movements in the reserve in 2006.

35. The income and expenditures relating to procurement services amounted to:

	2006	2005
	(Thousands of United Stat	tes dollars)
Funds received	23 801	15 632
Staff-related expenses	9 137	8 583
Transfer to miscellaneous income	14 664	7 049

Reserve for losses of programme supplies and equipment and property loss

36. In 1950, the Executive Board authorized the establishment of a reserve for insurance of \$200,000 to absorb losses of UNICEF programme supplies and equipment not covered by commercial insurance. In 1987, UNICEF established a reserve of \$100,000 to self-insure for property losses.

Reserve for capital asset fund

37. In 1990, The Executive Beard authorized the establishment of a reserve for capital asset fund for Field Office Accommodations, and Staff Housing in a total amount of \$25 million.

Reserve for separation fund

38. In 2006, the Executive Board authorized the establishment of a separation fund to cover separation and termination liabilities and approved an allocation of \$10,000,000 from UNICEF regular resources as an initial fund for this purpose. The fund will be built up on an annual basis by the net of total contributions less payments made. There was an increase of \$5,724,000 in the reserve during 2006.

39. The activities on all reserves are shown as follows:

	Balance as at 1 January 2006	Funds received	Expenses/Adjustments	Balance as at 31 December 2006

44. The Medical Insurance Plan is a health and dental insurance plan operated by the United Nations, UNDP, the Office of the United Nations Commissioner for Refugees (UNHCR) and UNICEF at designated duty stations for the benefit of locally recruited General Service staff members, national Professional officers, former staff members and their eligible family members. Staff and the organization share in the cost of the premiums. The balance represents premiums less expenses.

Note 20

After-service health insurance liability

45. In order to gain a better understanding of the financial dimensions of the organization's liability for after-service health insurance, a consulting actuary was engaged to carry out an actuarial valuation of post-retirement health insurance benefits as at 31 December 2005. On the basis of that study, it has been estimated that UNICEF liability as at 31 December 2005 for after-service health insurance benefits covering all participants is as follows:

	Present value of future benefits as at 31 December 2005	Accrued liability as at 31 December 2005
	(Thousands of United States	dollars)
Gross liability	589 213	368 946
Offset from retirees	121 769	76 566
Total	467 444	292 380

46. The present value of future benefits is the discounted value of all benefits, less retiree contributions, to be paid in the future to all current retirees and active employees expected to retire in the future. In actuarial terminology, it is called the expected postretirement benefit obligation.

47. The accrued liability for future benefits represents that portion of the present value of benefits that has accrued from the employee's date of hire until the valuation date. An active employee's benefit is fully accrued when that employee has reached the date of full eligibility for benefits. Thus, for retirees and active employees who are eligible to retire with benefits, the present value of future benefits and the accrued liability are equal. In actuarial terminology, the accrued liability is called the accumulated postretirement benefit obligation.

48. As at 31 December 2006, the reserve balance for after service health insurance was \$90 millions. (See note 7, paragraph 33)

Note 21

Other end-of-service liabilities

49. The net contingent liability for staff benefits as at 31 December 2006 is estimated at \$80,799,000 consisting of the following:

	2006	2005
	(Thousands of United States do	ollars)
Accumulated leave	41 564	38 902
Repatriation grant	39 235	36 909
Total	80 799	75 811

50. In 2006, the Executive Board authorized the establishment of a separation fund to cover separation and termination liabilities. The reserve balance was 15,724,000 at the end of 2006.

Note 22 United Nations Joint Staff Pension Fund

51. UNICEF is a member organization participating in the United Nations Joint Staff Pension Fund, which was established by the General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded defined benefit plan. The financial obligations of the organization to the consist of its mandated contribution at the rate established by the General Assembly, together with any share of any actuarial deficiency payments under Article 26 of the Regulations and rules of the Fund. Such deficiency payments are payable only if and when the General Assembly has invoked the provision of Article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Funds as of the valuation date.

52. At the time of this report, the General Assembly has not invoked this provision.
