CABLE DATED 24 JUNE 1965 FROM THE ASSISTANT SECRETARY GENERAL
OF THE ORGANIZATION OF AMERICAN STATES ADDRESSED TO THE
SECRETARY-GENERAL OF THE UNITED NATIONS

In accordance Article 54 United Nations Charter I have honour to transmit to you, for information of Security Council, following text of statement issued by OAS ad hoc Committee on article by Richard Eber appearing in todays New York Times: The ad hoc Committee of the Tenth Meeting has taken note of a report published today concerning a supposed program of trusteeship developed in the OAS which would be proclaimed next week and would allegedly be imposed upon the Dominican Republic. The Committee categorically denies this report. At no time has the Committee or the OAS given any consideration to a trusteeship plan. The Committee's only objective is that the Dominicans should govern themselves. While the Committee has considered a number of other proposals made to it in the course of its exploratory conversations, its views regarding a peaceful solution of the Dominican crisis are contained in the proposals presented on June 18th to the Dominican people and to the contending parties. Observations concerning these proposals have been made by the contending parties as well as by a large number of other groups and individuals and these are now being considered by the Committee.

William Sanders
Assistant Secretary General
Organization of American States
