S/6447/Add. 1
16 June 1965

ORIGINAL: ENGLISH

REPORT BY THE SECRETARY-GENERAL

Addendum

1. Further to my report (S/6447), I have received the following information from my Representative in the Dominican Republic, Mr. José Antonio Mayobre.
2. According to my Representative, there is no evidence as to which side started the firing on 15 June 1965, and it is quite probable that a minor incident escalated into a general outbreak.
3. Radio Santo Domingo, which is controlled by the Imbert side, and Radio San Isidro, which is under the control of General Wessin y Wessin, broadcast throughout 15 June inflammatory speeches stating that these were the last days of the "rebels" and asking the civilian population of the Caamaño area to co-operate with the Dominican Army which "will enter the city at any moment". These broadcasts have continued on 16 June.
4. Since 0500 hours on 16 June, my Representative has received complaints of firing against the Caamaño forces. Mr. Mayobre has maintained contact with the IAPF, which deny having resorted to any firing and have confirmed that they have not been fired on by Caamaño troops. However, my Representative asserts that he continues to receive reports of firing against the Caamaño sector. He indicated that it cannot be ruled out that such firing might come from Imbert elements.
