Recalling its resolution 50/70 Q of 12 December 1995, in which the General Assembly noted that the States parties to the Treaty affirmed the need to continue to move with determination towards the full realization and effective implementation of the provisions of the Treaty, and accordingly adopted a set of principles and objectives,

Recalling also that, on 11 May 1995, the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons adopted three decisions on strengthening the review process for the Treaty, principles and objectives for nuclear non-proliferation and disarmament, and extension of the Treaty,²

Reaffirming the resolution on the Middle East adopted on 11 May 1995 by the 1995 Review and Extension Conference of the Parties to the Treaty,² in which the Conference reaffirmed the importance of the early realization of universal adherence to the Treaty and placement of nuclear facilities under full-scope International Atomic Energy Agency safeguards,

Reaffirming also its resolution 55/33 D of 20 November 2000, in which the General Assembly welcomed the adoption by consensus on 19 May 2000 of the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,³ including, in particular, the documents entitled “Review of the operation of the Treaty, taking into account the decisions and the resolution adopted by the 1995 Review and Extension Conference” and “Improving the effectiveness of the strengthened review process for the Treaty”,⁴

Taking into consideration the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference of the Parties to the Treaty, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties to the Treaty are committed under article VI of the Treaty,

Gravely concerned over the failure of the 2005 Review Conference of the Parties to the Treaty to reach any substantive agreement on the follow-up to the nuclear disarmament obligations,

Noting that the Preparatory Committee for the 2010 Review Conference of the Parties to the Treaty held a successful first meeting in Vienna in April/May 2007,

1. *Determines* to pursue practical steps for systematic and progressive efforts to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons¹ and paragraphs 3 and 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;²

2. *Calls for* practical steps, as agreed to at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to be taken by all nuclear-weapon States that would lead to nuclear disarmament in a way that promotes international stability and, based upon the principle of undiminished security for all, for:

(a) Further efforts to be made by the nuclear-weapon States to reduce their nuclear arsenals unilaterally;

(b) Increased transparency by the nuclear-weapon States with regard to nuclear weapons capabilities and the implementation of agreements pursuant to article VI of the Treaty and as a voluntary confidence-building measure to support further progress in nuclear disarmament;

(c) The further reduction of non-strategic nuclear weapons, based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

(d) Concrete agreed measures to reduce further the operational status of nuclear weapons systems;

(e) A diminishing role for nuclear weapons in security policies so as to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

(f) The engagement, as soon as appropriate, of all the nuclear-weapon States in the process leading to the total elimination of their nuclear weapons;

3. *Notes* that the 2000 Review Conference of the Parties to the Treaty agreed that legally binding security assurances by the five nuclear-weapon States to the non-nuclear-weapon States parties to the Treaty strengthen the nuclear non-proliferation regime;

4. *Urges* the States parties to the Treaty to follow up on the implementation of the nuclear disarmament obligations under the Treaty agreed to at the 1995 and 2000 Review Conferences of the Parties to the Treaty within the framework of the 2010 Review Conference of the Parties to the Treaty and its Preparatory Committee;

5. *Decides* to include in the provisional agenda of its sixty-fourth session an item entitled "Follow-up to nuclear disarmament obligations agreed to at the 1995 and 2000 Review Conferences of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons".

Draft resolution IV

Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments

The General Assembly,

Recalling its resolution 61/65 of 6 December 2006,

Expressing its grave concern at the danger to humanity posed by the possibility that nuclear weapons could be used,

Reaffirming that nuclear disarmament and nuclear non-proliferation are mutually reinforcing processes requiring urgent irreversible progress on both fronts,

Recalling the decisions and the resolution on the Middle East of the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons¹ and the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,²

Recalling also the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, in accordance with commitments made under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,³

Urging States parties to exert all possible efforts to ensure a successful and productive preparatory process for the 2010 Review Conference of the Parties to the Treaty,

1. *Welcomes* the first session of the Preparatory Committee for the 2010 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, held in Vienna from 30 April to 11 May 2007, and looks forward to a constructive and successful preparatory process leading to the 2010 Review Conference which should contribute to strengthening the Treaty and achieving its full implementation and universality;

3. *Reaffirms* that the outcome of the 2000 Review Conference of the Parties to the Treaty sets out the agreed process for systematic and progressive efforts towards nuclear disarmament;²

4. *Reiterates its call upon* the nuclear-weapon States to accelerate the implementation of the practical steps towards nuclear disarmament that were agreed upon at the 2000 Review Conference of the Parties to the Treaty, thereby contributing to a safer world for all;

³ United Nations, Treaty Series, vol. 729, No. 10485.

5. *Calls upon* all States to comply fully with all commitments made regarding nuclear disarmament and nuclear non-proliferation and not to act in any way that may compromise either cause or that may lead to a new nuclear arms race;

6. *Again calls upon* all States parties to spare no effort to achieve the universality of the Treaty on the Non-Proliferation of Nuclear Weapons, and urges India, Israel and Pakistan, which are not yet parties to the Treaty, to accede to it as non-nuclear-weapon States promptly and without conditions;

7. *Urges* the Democratic People's Republic of Korea to rescind its announced withdrawal from the Treaty on the Non-Proliferation of Nuclear Weapons;

8. *Recognizes* the vital importance of the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty⁴ to the achievement of nuclear disarmament and nuclear non-proliferation and takes note of the Final Declaration and Measures to promote its entry into force, adopted by consensus at the Fifth Conference on Facilitating the Entry into Force of the Comprehensive Nuclear-Test-Ban Treaty, held in Vienna on 17 and 18 September 2007;

Draft resolution V
National legislation on transfer of arms, military equipment
and dual-use goods and technology

The General Assembly,

Recognizing that disarmament, arms control and non-proliferation are essential for the maintenance of international peace and security,

Recalling that effective national control of the transfer of arms, military equipment and dual-use goods and technology, including those transfers that could contribute to proliferation activities, is an important tool for achieving those objectives,

Recalling also that the States parties to the international disarmament and non-proliferation treaties have undertaken to facilitate the fullest possible exchange of materials, equipment and technological information for peaceful purposes, in accordance with the provisions of those treaties,

Considering that the exchange of national legislation, regulations and procedures on the transfer of arms, military equipment and dual-use goods and technology contributes to mutual understanding and confidence among Member States,

Convinced that such an exchange would be beneficial to Member States that are in the process of developing such legislation,

Welcoming the electronic database established by the Office for Disarmament Affairs,¹ in which all information exchanged pursuant to General Assembly resolutions 57/66 of 22 November 2002, 58/42 of 8 December 2003, 59/66 of 3 December 2004 and 60/69 of 3 December 2005, entitled “National legislation on transfer of arms, military equipment and dual-use goods and technology”, can be consulted,

Reaffirming the inherent right of individual or collective self-defence in accordance with Article 51 of the Charter of the United Nations,

1. *Invites* Member States that are in a position to do so, without prejudice to the provisions contained in Security Council resolutions 11540 (2004) of 28 April 2004 and 1673 (2006) of 27 April 2006, to enact or improve national legislation, regulations and procedures to exercise effective control over the transfer of arms, military equipment and dual-use goods and technology, while ensuring that such legislation, regulations and procedures are consistent with the obligations of States parties under international treaties;

2. *Encourages* Member States to provide, on a voluntary basis, information to the Secretary-General on their national legislation, regulations and procedures on the transfer of arms, military equipment and dual-use goods and technology, as well as the changes therein, and requests the Secretary-General to make that information accessible to Member States;

3. *Decides* to remain attentive to the matter.

Draft resolution VI Promotion of multilateralism in the area of disarmament and non-proliferation

The General Assembly,

Determined to foster strict respect for the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolution 56/24 T of 29 November 2001 on multilateral cooperation in the area of disarmament and non-proliferation and global efforts against terrorism and other relevant resolutions, as well as its resolutions 57/63 of 22 November 2002, 58/44 of 8 December 2003, 59/69 of 3 December 2004, 60/59 of 8 December 2005 and 61/62 of 6 December 2006 on the promotion of multilateralism in the area of disarmament and non-proliferation,

Recalling also the purpose of the United Nations to maintain international peace and security and, to that end, to take effective collective measures for the prevention and removal of threats to the peace and for the suppression of acts of aggression or other breaches of the peace, and to bring about by peaceful means, and in conformity with the principles of justice and international law, adjustment or settlement of international disputes or situations which might lead to a breach of the peace, as enshrined in the Charter,

Recalling further the United Nations Millennium Declaration,¹ which states, inter alia, that the responsibility for managing worldwide economic and social development, as well as threats to international peace and security, must be shared among the nations of the world and should be exercised multilaterally and that, as the most universal and most representative organization in the world, the United Nations must play the central role,

Convinced that, in the globalization era and with the information revolution, arms regulation, non-proliferation and disarmament problems are more than ever the concern of all countries in the world, which are affected in one way or another by these problems and, therefore, should have the possibility to participate in the negotiations that arise to tackle them,

Bearing in mind the existence of a broad structure of disarmament and arms regulation agreements resulting from non-discriminatory and transparent multilateral negotiations with the participation of a large number of countries, regardless of their size and power,

Aware of the need to advance further in the field of arms regulation, non-proliferation and disarmament on the basis of universal, multilateral, non-discriminatory and transparent negotiations with the goal of reaching general and complete disarmament under strict international control,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on disarmament,

Recognizing also that the proliferation and development of weapons of mass destruction, including nuclear weapons, are among the most immediate threats to

¹ See resolution 55/2.

international peace and security which need to be dealt with, with the highest priority,

Considering that the multilateral disarmament agreements provide the mechanism for States parties to consult one another and to cooperate in solving any problems which may arise in relation to the objective of, or in the application of, the provisions of the agreements and that such consultations and cooperation may also be undertaken through appropriate international procedures within the framework of the United Nations and in accordance with the Charter,

Stressing that international cooperation, the peaceful settlement of disputes, dialogue and confidence-building measures would contribute essentially to the creation of multilateral and bilateral friendly relations among peoples and nations,

Being concerned at the continuous erosion of multilateralism in the field of arms regulation, non-proliferation and disarmament, and recognizing that a resort to unilateral actions by Member States in resolving their security concerns would jeopardize international peace and security and undermine confidence in the international security system as well as the foundations of the United Nations itself,

Noting that the Fourteenth Conference of Heads of State or Government of Non-Aligned Countries, held at Havana on 15 and 16 September 2006, welcomed the adoption of General Assembly resolution 60/59, and underlined the fact that multilateralism and multilaterally agreed solutions, in accordance with the Charter, provide the only sustainable method of addressing disarmament and international security issues,

Reaffirming the absolute validity of multilateral diplomacy in the field of disarmament and non-proliferation, and determined to promote multilateralism as an essential way to develop arms regulation and disarmament negotiations,

1. *Reaffirms* multilateralism as the core principle in negotiations in the area of disarmament and non-proliferation with a view to maintaining and strengthening universal norms and enlarging their scope;

2. *Also reaffirms* multilateralism as the core principle in resolving disarmament and non-proliferation concerns;

3. *Urges* the participation of all interested States in multilateral negotiations on arms regulation, non-proliferation and disarmament in a non-discriminatory and transparent manner;

4. *Underlines* the importance of preserving the existing agreements on arms regulation and disarmament, which constitute an expression of the results of international cooperation and multilateral negotiations in response to the challenges facing mankind;

5. *Calls once again upon* all Member States to renew and fulfil their individual and collective commitments to multilateral cooperation as an important means of pursuing and achieving their common objectives in the area of disarmament and non-proliferation;

6. *Requests* the States parties to the relevant instruments on weapons of mass destruction to consult and cooperate among themselves in resolving their concerns with regard to cases of non-compliance as well as on implementation, in accordance with the procedures defined in those instruments, and to refrain from

resorting or threatening to resort to unilateral actions or directing unverified non-compliance accusations against one another to resolve their concerns;

7. *Takes note* of the report of the Secretary-General containing the replies of Member States on the promotion of multilateralism in the area of disarmament and non-proliferation, submitted pursuant to resolution 61/62;²

8. *Requests* the Secretary-General to seek the views of Member States on the issue of the promotion of multilateralism in the area of disarmament and non-proliferation and to submit a report thereon to the General Assembly at its sixty-third session;

9. *Decides* to include in the provisional agenda of its sixty-third session the item entitled "Promotion of multilateralism in the area of disarmament and non-proliferation".

Emphasizing the importance of the observance of environmental norms in the preparation and implementation of disarmament and arms limitation agreements,

Recognizing that it is necessary to take duly into account the agreements adopted at the United Nations Conference on Environment and Development, as well as prior relevant agreements, in the drafting and implementation of agreements on disarmament and arms limitation,

Taking note of the report of the Secretary-General submitted pursuant to resolution 61/63,¹

Mindful of the detrimental environmental effects of the use of nuclear weapons,

1. *Reaffirms* that international disarmament forums should take fully into account the relevant environmental norms in negotiating treaties and agreements on disarmament and arms limitation and that all States, through their actions, should contribute fully to ensuring compliance with the aforementioned norms in the implementation of treaties and conventions to which they are parties;

2. *Calls upon* States to adopt unilateral, bilateral, regional and multilateral measures so as to contribute to ensuring the application of scientific and technological progress within the framework of international security, disarmament and other related spheres, without detriment to the environment or to its effective contribution to attaining sustainable development;

3. *Welcomes* the information provided by Member States on the implementation of the measures they have adopted to promote the objectives envisaged in the present resolution;¹

4. *Invites* all Member States to communicate to the Secretary-General information on the measures they have adopted to promote the objectives envisaged in the present resolution, and requests the Secretary-General to submit a report containing that information to the General Assembly at its sixty-third session;

Draft resolution VIII

Convening of the fourth special session of the General Assembly devoted to disarmament

The General Assembly,

Recalling its resolutions 49/75 I of 15 December 1994, 50/70 F of 12 December 1995, 51/45 C of 10 December 1996, 52/38 F of 9 December 1997, 53/77 AA of 4 December 1998, 54/54 U of 1 December 1999, 55/33 M of 20 November 2000, 56/24 D of 29 November 2001, 57/61 of 22 November 2002, 59/71 of 3 December 2004 and 61/60 of 6 December 2006, as well as its decisions 58/521 of 8 December 2003, 60/518 of 8 December 2005 and 60/559 of 6 June 2006,

Recalling also that, there being a consensus to do so in each case, three special sessions of the General Assembly devoted to disarmament were held in 1978, 1982 and 1988, respectively,

Bearing in mind the Final Document of the Tenth Special Session of the General Assembly, adopted by consensus at the first special session devoted to disarmament,¹

Bearing in mind also the ultimate objective of general and complete disarmament under effective international control,

Taking note of paragraph 80 of the Final Document of the Fourteenth Conference of Heads of State or Government of Non-Aligned Countries, held at Havana on 15 and 16 September 2006,² which supported the convening of the fourth special session of the General Assembly devoted to disarmament, which would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the process of disarmament and to mobilize the international community and public opinion in favour of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons,

Recalling the United Nations Millennium Declaration, adopted by the Heads of State and Government during the Millennium Summit of the United Nations, held in New York from 6 to 8 September 2000,³ in which the Heads of State and Government resolved “to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers”,

Reiterating its conviction that a special session of the General Assembly devoted to disarmament can set the future course of action in the fields of disarmament, arms control, non-proliferation and related international security matters,

Emphasizing the importance of multilateralism in the process of disarmament, arms control, non-proliferation and related international security matters,

Taking note of the paper presented by the Chairman of Working Group II during the 1999 substantive session of the Disarmament Commission,⁴ and the written proposals and views submitted by Member States as contained in the working papers presented during the three substantive sessions of the Open-ended Working Group in 2003⁵ as well as the reports of the Secretary-General regarding the views of Member States on the objectives, agenda and timing of the fourth special session of the General Assembly devoted to disarmament,⁶

Taking note also of the reports of the Open-ended Working Group to consider the objectives and agenda, including the possible establishment of the preparatory committee, for the fourth special session of the General Assembly devoted to disarmament,⁷

The General Assembly,

Guided by the purposes and principles enshrined in the Charter of the United Nations and the rules of humanitarian international law,

Determined to promote multilateralism as an essential means to carry forward negotiations on arms regulation and disarmament,

Convinced that as humankind is more aware of the need to take immediate measures to protect the environment, any event that could jeopardize such efforts requires urgent attention to implement the required measures,

Taking into consideration the potential harmful effects of the use of armaments and ammunitions containing depleted uranium on human health and the environment,

1. *Requests* the Secretary-General to seek the views of Member States and relevant international organizations on the effects of the use of armaments and ammunitions containing depleted uranium, and to submit a report on this subject to the General Assembly at its sixty-third session;

Draft resolution X Treaty on the South-East Asia Nuclear-Weapon-Free Zone (Bangkok Treaty)

The General Assembly,

Recalling its resolution 60/56 of 8 December 2005, entitled “Towards a nuclear-weapon-free world: accelerating the implementation of nuclear disarmament commitments”, and its resolution 61/69 of 6 December 2006, entitled “Nuclear-weapon-free southern hemisphere and adjacent areas”,

Welcoming the desire of the South-East Asian States to maintain peace and stability in the region in the spirit of peaceful coexistence and mutual understanding and cooperation,

Reaffirming its conviction of the important role of nuclear-weapon-free zones in strengthening the nuclear non-proliferation regime and in extending the areas of the world that are nuclear-weapon-free, and, with particular reference to the responsibilities of the nuclear-weapon States, calling upon all States to support the process of nuclear disarmament and to work for the total elimination of all nuclear weapons,

Convinced that the establishment of a South-East Asia Nuclear-Weapon-Free Zone, as an essential component of the Declaration on the Zone of Peace, Freedom and Neutrality, signed in Kuala Lumpur on 27 November 1971, will contribute towards strengthening the security of States within the Zone and towards enhancing international peace and security as a whole,

Noting the entry into force of the Treaty on the South-East Asia Nuclear-Weapon-Free Zone on 27 March 1997¹ and the tenth anniversary of its entry into force in 2007,

Welcoming the reaffirmation of South-East Asian States that the South-East Asia Nuclear-Weapon-Free Zone shall continue to play a pivotal role in the area of confidence-building measures, preventive diplomacy and the approaches to conflict resolution as enshrined in the Declaration of the Association of Southeast Asian Nations Concord II (Bali Concord II),²

Reaffirming the inalienable right of all the parties to the Treaty on the South-East Asia Nuclear-Weapon-Free Zone to develop research, production and use of nuclear energy for peaceful purposes without discrimination and in conformity with the Treaty on the Non-Proliferation of Nuclear Weapons,³

Recognizing that by signing and ratifying the relevant protocols to the treaties establishing nuclear-weapon-free zones, nuclear-weapon States undertake legally binding commitments to respect the status of such zones and not to use or threaten to use nuclear weapons against States parties to such treaties,

Recalling the applicable principles and rules of international law relating to the freedom of the high seas and the rights of innocent passage, archipelagic sea lanes

passage or transit passage of ships and aircraft, particularly those of the United Nations Convention on the Law of the Sea,⁴

1. *Welcomes* the commitment of the Commission for the Treaty on the South-East Asia Nuclear-Weapon-Free Zone to further enhance and strengthen the implementation of the Bangkok Treaty¹ by adopting a Plan of Action for the period 2007–2012 in Manila on 29 July 2007;

Draft resolution XI Reducing nuclear danger

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

Emphasizing the need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomaly or other technical malfunctions,

Conscious that limited steps relating to de-alerting and de-targeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that a diminishing role for nuclear weapons in the security policies of nuclear-weapon States would positively impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly¹ and by the international community,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*² that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Recalling also the call in the United Nations Millennium Declaration³ to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls for* a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons, including through de-alerting and de-targeting of nuclear weapons;
2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 above;
3. *Calls upon* Member States to take the necessary measures to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;
4. *Takes note* of the report of the Secretary-General submitted pursuant to paragraph 5 of General Assembly resolution 61/85 of 6 December 2006;⁴
5. *Requests* the Secretary-General to intensify efforts and support initiatives that would contribute towards the full implementation of the seven recommendations identified in the report of the Advisory Board on Disarmament Matters that would significantly reduce the risk of nuclear war,⁵ and also to continue to encourage Member States to consider the convening of an international conference as proposed in the United Nations Millennium Declaration,³ to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its sixty-third session;
6. *Decides* to include in the provisional agenda of its sixty-third session the item entitled “Reducing nuclear danger”.

Draft resolution XII

Measures to prevent terrorists from acquiring weapons of mass destruction

The General Assembly,

Recalling its resolution 61/86 of 6 December 2006,

Recognizing the determination of the international community to combat terrorism, as evidenced in relevant General Assembly and Security Council resolutions,

Deeply concerned by the growing risk of linkages between terrorism and weapons of mass destruction, and in particular by the fact that terrorists may seek to acquire weapons of mass destruction,

Cognizant of the steps taken by States to implement Security Council resolution 1540 (2004) on the non-proliferation of weapons of mass destruction, adopted on 28 April 2004,

Welcoming the entry into force on 7 July 2007 of the International Convention for the Suppression of Acts of Nuclear Terrorism,¹

Draft resolution XV

Decreasing the operational readiness of nuclear weapons systems

The General Assembly,

Recalling that the maintenance of nuclear weapons on high alert was a feature of cold war nuclear postures, and welcoming the increased confidence and transparency since the cessation of the cold war,

Concerned that, notwithstanding the end of the cold war, several thousand nuclear weapons remain on high alert, ready to be launched within minutes,

Noting the increased engagement in multilateral disarmament forums in support of further reductions to the operational status of nuclear weapons systems,

Recognizing that the maintenance of nuclear weapons systems at a high level of readiness increases the risk of the use of such weapons, including the unintentional or accidental use, which would have catastrophic consequences,

Also recognizing that reductions in deployments and the lowering of operational status contribute to the maintenance of international peace and security, as well as to the process of nuclear disarmament, through the enhancement of confidence-building and transparency measures and a diminishing role for nuclear weapons in security policies,

Welcoming bilateral initiatives, such as the proposed United States/Russian Federation Joint Centre for the Exchange of Data from Early Warning Systems and Notification of Missile Launches, which can play a central role in operational status reduction processes,

Also welcoming the steps taken by some States to reduce the operational status of their nuclear weapons systems, including de-targeting initiatives and increasing the amount of preparation time required for deployment,

1. *Calls for* further practical steps to be taken to decrease the operational readiness of nuclear weapons systems, with a view to ensuring that all nuclear weapons are removed from high alert status;
2. *Urges* States to update the General Assembly on progress made in the implementation of the present resolution;
3. *Decides* to remain seized of the matter.

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the establishment of a nuclear-weapon-free world,

Bearing in mind that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction of 1972¹ and the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction of 1993² have already established legal regimes on the complete prohibition of biological and chemical weapons, respectively, and determined to achieve a nuclear weapons convention on the prohibition of the development, testing, production, stockpiling, loan, transfer, use and threat of use of nuclear weapons and on their destruction, and to conclude such an international convention at an early date,

Recognizing that there now exist conditions for the establishment of a world free of nuclear weapons, and stressing the need to take concrete practical steps towards achieving this goal,

Bearing in mind paragraph 50 of the Final Document of the Tenth Special Session of the General Assembly,³ the first special session devoted to disarmament, calling for the urgent negotiation of agreements for the cessation of the qualitative improvement and development of nuclear-weapon systems, and for a comprehensive and phased programme with agreed time frames, wherever feasible, for the progressive and balanced reduction of nuclear weapons and their means of delivery, leading to their ultimate and complete elimination at the earliest possible time,

Reaffirming the conviction of the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons⁴ that the Treaty is a cornerstone of nuclear non-proliferation and nuclear disarmament and the importance of the decision on strengthening the review process for the Treaty, the decision on principles and objectives for nuclear non-proliferation and disarmament, the decision on the extension of the Treaty and the resolution on the Middle East, adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁵

Noting with appreciation also the entry into force of the Treaty on Strategic Offensive Reductions (“the Moscow Treaty”) between the United States of America and the Russian Federation⁹ as a significant step towards reducing their deployed strategic nuclear weapons, while calling for further irreversible deep cuts in their nuclear arsenals,

Noting with appreciation further the unilateral measures taken by the nuclear-weapon States for nuclear arms limitation, and encouraging them to take further such measures, while reiterating deep concern over the slow pace of progress towards nuclear disarmament and the lack of progress by the nuclear-weapon States towards accomplishing the total elimination of their nuclear arsenals,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on nuclear disarmament, and that bilateral negotiations can never replace multilateral negotiations in this respect,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and the multilateral efforts in the Conference on Disarmament to reach agreement on such an international convention at an early date,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*, issued on 8 July 1996,¹⁰ and welcoming the unanimous reaffirmation by all Judges of the Court that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

2. *Reaffirms* that nuclear disarmament and nuclear non-proliferation are substantively interrelated and mutually reinforcing, that the two processes must go hand in hand and that there is a genuine need for a systematic and progressive process of nuclear disarmament;

3. *Welcomes and encourages* the efforts to establish new nuclear-weapon-free zones in different parts of the world on the basis of agreements or arrangements freely arrived at among the States of the regions concerned, which is an effective measure for limiting the further spread of nuclear weapons geographically and contributes to the cause of nuclear disarmament;

4. *Recognizes* that there is a genuine need to diminish the role of nuclear weapons in strategic doctrines and security policies to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

5. *Urges* the nuclear-weapon States to stop immediately the qualitative improvement, development, production and stockpiling of nuclear warheads and their delivery systems;

Draft resolution XXII

Transparency and confidence-building measures in outer space activities

The General Assembly,

Recalling its resolutions 60/66 of 8 December 2005 and 61/75 of 6 December 2006,

Reaffirming that the prevention of an arms race in outer space would avert a grave danger to international peace and security,

Conscious that further measures should be examined in the search for agreements to prevent an arms race in outer space, including the weaponization of outer space,

Recalling, in this context, its previous resolutions, including resolutions 45/55 B of 4 December 1990 and 48/74 B of 16 December 1993, which, inter alia, emphasize the need for increased transparency and confirm the importance of confidence-building measures as a means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Recalling also the report of the Secretary-General of 15 October 1993 to the General Assembly at its forty-eighth session, the annex to which contains the study by governmental experts on the application of confidence-building measures in outer space,¹

Draft resolution XXIII

Conventional arms control at the regional and subregional levels

The General Assembly,

Recalling its resolutions 48/75 J of 16 December 1993, 49/75 O of 15 December 1994, 50/70 L of 12 December 1995, 51/45 Q of 10 December 1996, 52/38 Q of 9 December 1997, 53/77 P of 4 December 1998, 54/54 M of 1 December 1999, 55/33 P of 20 November 2000, 56/24 I of 29 November 2001, 57/77 of 22 November 2002, 58/39 of 8 December 2003, 59/88 of 3 December 2004, 60/75 of 8 December 2005 and 61/82 of 6 December 2006,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,¹ which is a cornerstone of European security,

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;
2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;
3. *Requests* the Secretary-General, in the meantime, to seek the views of Member States on the subject and to submit a report to the General Assembly at its sixty-third session;
4. *Decides* to include in the provisional agenda of its sixty-third session the item entitled "Conventional arms control at the regional and subregional levels".

Draft resolution XXIV

Confidence-building measures in the regional and subregional context

The General Assembly,

Guided by the purposes and principles enshrined in the Charter of the United Nations,

Recalling its resolutions 58/43 of 8 December 2003, 59/87 of 3 December 2004, 60/64 of 8 December 2005 and 61/81 of 6 December 2006,

Recalling also its resolution 57/337 of 3 July 2003 entitled "Prevention of armed conflict", in which it calls upon Member States to settle their disputes by peaceful means, as set out in Chapter VI of the Charter, inter alia, by any procedures adopted by the parties,

Recalling further the resolutions and guidelines adopted by consensus by the General Assembly and the Disarmament Commission relating to confidence-building measures and their implantation at the global, regional and subregional levels,

Considering the importance and effectiveness of confidence-building measures taken at the initiative and with the agreement of all States concerned and taking into account the specific characteristics of each region, since such measures can contribute to regional stability,

Convinced that resources released by disarmament, including regional disarmament, can be devoted to economic and social development and to the protection of the environment for the benefit of all peoples, in particular those of the developing countries,

Recognizing the need for meaningful dialogue among States concerned to avert conflict,

Welcoming the peace processes already initiated by States concerned to resolve their disputes through peaceful means bilaterally or through mediation, inter alia, by third parties, regional organizations or the United Nations,

Recognizing that States in some regions have already taken steps towards confidence-building measures at the bilateral, subregional and regional levels in the political and military fields, including arms control and disarmament, and noting that such confidence-building measures have improved peace and security in those regions and contributed to progress in the socio-economic conditions of their people,

Concerned that the continuation of disputes among States, particularly in the absence of an effective mechanism to resolve them through peaceful means, may contribute to the arms race and endanger the maintenance of international peace and security and the efforts of the international community to promote arms control and disarmament,

1. *Calls upon* Member States to refrain from the use or threat of use of force in accordance with the purposes and principles of the Charter of the United Nations;

2. *Reaffirms its commitment* to the peaceful settlement of disputes under Chapter VI of the Charter, in particular Article 33, which provides for a solution by negotiation, enquiry, mediation, conciliation, arbitration, judicial settlement, resort to regional agencies or arrangements or other peaceful means chosen by the parties;

3. *Reaffirms* the ways and means regarding confidence- and security-building measures set out in the report of the Disarmament Commission on its 1993 session;¹

4. *Calls upon* Member States to pursue these ways and means through sustained consultations and dialogue, while at the same time avoiding actions that may hinder or impair such a dialogue;

5. *Urges* States to comply strictly with all bilateral, regional and international agreements, including arms control and disarmament agreements, to which they are party;

6. *Emphasizes* that the objective of confidence-building measures should be to help strengthen international peace and security and be consistent with the principle of undiminished security at the lowest level of armaments;

7. *Encourages* the promotion of bilateral and regional confidence-building measures, with the consent and participation of the parties concerned, to avoid conflict and prevent the unintended and accidental outbreak of hostilities;

8. *Requests* the Secretary-General to submit a report to the General Assembly at its sixty-third session containing the views of Member States on confidence-building measures in the regional and subregional context;

9. *Decides* to include in the provisional agenda of its sixty-third session the item entitled "Confidence-building measures in the regional and subregional context".

Draft resolution XXV

Preventing the acquisition by terrorists of radioactive materials and sources

The General Assembly,

Recognizing the essential contribution of radioactive materials and sources to social and economic development, and the benefits drawn from their use for all States,

Recognizing also the determination of the international community to combat terrorism, as evident in relevant General Assembly and Security Council resolutions,

Deeply concerned by the threat of terrorism and the risk that terrorists may acquire, traffic in or use radioactive materials or sources in radiological dispersion devices,
