PART I: GENERAL INFORMATION ON THE GSP OF TURKEY

Explanatory Notes

The Generalized System of Preferences (GSP) aims at contributing to the economic development of developing countries. GSP provides benefits to developing countries by enabling qualified products to enter the markets of preference-giving countries at changing rates from duty free to reductions in the MFN rate.

Turkey applied for association with the European Economic Community in 1959, one year after the enforcement of the Treaty of Rome. The Ankara Agreement of 1963 and the Additional Protocol of 1970 are two important documents which identify modalities and calendars ensuring the future customs union and confirm the ultimate aim of full membership.

The customs union covering industrial products and processed agricultural products which came into force on 1 January 1996 with Decision No 1/95 of The Turkey - EC Association Council was an outcome of these calendars.

Article 16 of Decision No 1/95 of the Association Council states that “With a view to harmonizing its commercial policy with that of the EC, Turkey shall align itself progressively with the preferential customs regime of the EC within five years as from the date of entry into force of this decision. This alignment will concern both autonomous regimes and preferential agreements with third countries.”

Within this context, Turkey initiated a Generalized System of Preferences by harmonizing with the EC’s GSP on 1 January 2002 and extended the system with the view of aiming to align itself fully with the EC’s GSP scheme in the consecutive years. With the 2006 import regime put into force at the beginning of the year, full alignment with the EC’s GSP scheme has been achieved.

1. Beneficiaries

Turkey grants preferential treatment to selected countries and territories which are classified as developing countries and least developing countries by the World Bank in line with the EC (see tables 1 and 2).

Beneficiary countries are announced annually in Annexes of the Import Regime Decree.

2. Product coverage

Preferences are granted for all industrial products and certain agricultural products covered by the EC’s GSP scheme. (See table 3).

Least developed countries (LDCs) have duty- and quota-free access to Turkish markets for all industrial products falling under chapters 25-97 (except chapter 93) and for some agricultural products covered by the customs union between Turkey and EU.

While all customs duties on products covered by Turkey's GSP scheme have been suspended for the countries benefiting from the special incentive arrangements in line with the EC's GSP scheme, customs duties have been suspended or reduced in accordance with sensitivities of the products covered by the GSP for developing countries.

3. Depth of tariff cuts for GSP products

Preferences are differentiated according to the sensitivity of the products fully in harmony with the EC's. It is sufficient to differentiate between two product categories, namely non-sensitive and sensitive products.

Tariff duties on non-sensitive products are entirely suspended, while duties on sensitive products are subject to tariff reductions (3.5 points for ad valorem duties and 30 per cent for specific duties).

Finally, Turkey adopted the same tariff duties with the EC, neither higher nor lower, for GSP products.

Turkey has reserved the right to suspend preferential treatment for GSP products under certain circumstances.

4. Graduation mechanism (Country/Sector)

Turkey applied the graduation mechanism for the list concerned in line with the EC's application (see tables 3 and 4).

For Rules of Origin, please see Part 2 of this handbook.

PART II:

RULES OF ORIGIN UNDER THE GSP SCHEME OF TURKEY

1. Explanatory notes

In the context of the Generalized System of Preferences, Turkey has granted tariff preferences to the beneficiary countries¹ as from 1 January 2002 as a result of the customs union between Turkey and the European Community which is based on Association Council Decision No 1/95 between Turkey and the European Community.

The rules of origin are regulated by the “Decision on Determination of Origin of Goods Benefiting from Preferential Regime for the Purposes of the Generalised System of Preferences No. 2001/3485” (hereinafter referred to as "Decision") which was published in the Turkish Official Gazette on 30 December 2001 and **amended by the Decisions which were published in the Official Gazette of the Republic of Turkey on 9 October 2003/25254 and 20 March 2004/25408**

The Decision regulates the procedures and principles for determining the origin of goods benefiting from the preferential regime at trade with Turkey for the purposes of the Generalized System of Preferences. The provisions of the Decision are in accordance with the ones of the “Commission Regulation No 1602/2000 amending Regulation No. 2454/93 laying down provisions for the implementation of Council Regulation No 2193/92 establishing the Community Customs Code” and **Commission Regulation No 881/2003 of 21 May 2003.**

Goods to benefit from preferential treatment under the Turkish GSP scheme must meet the following main three requirements:

1. The exporting country must be designated as the beneficiary country;
2. The product must be eligible for the GSP treatment; and
3. The product must meet the origin criteria.

Concerning the origin criteria, goods exported from the beneficiary country to Turkey must comply with the requirements of rules of origin if they are to benefit from the preferential tariff treatment, provided that they are under the GSP scheme. Goods not complying with the rules of origin requirements will be denied preferential treatment and the normal duty rate will apply to these goods.

The rules of origin under the Turkish GSP scheme comprise the following elements:

- Origin Criteria
- Direct Consignment
- Documentary Evidence

¹ These countries are available in Annex III of Turkish Import Regime (<http://www.dtm.gov.tr/ab/ingilizce/gsp%20ingilizce.htm>)

1.1. Origin Criteria

Article 3, 4, 6 and 7 of the Decision refer to the conditions of products to be considered as originating in Turkey or in a beneficiary country. Article 5 concerns cumulation with Norway, Switzerland and the European Community (Diagonal Cumulation). Article 13 sets out the provision with Regional Cumulation.²

Wholly Obtained Products **(Article 6)**

The following shall be considered as wholly obtained in Turkey or in a beneficiary country:

- (1) mineral products extracted from its soil or from its seabed;
- (2) vegetable products harvested there;
- (3) live animals born and raised there;
- (4) products from live animals raised there;
- (5) products obtained by hunting or fishing conducted there;
- (6) products of sea fishing and other products taken from the sea outside its territorial waters by its vessels;
- (7) products made on board its factory ships exclusively from the products referred to in subparagraph (6);
- (8) used articles collected there fit only for the recovery of raw materials;
- (9) waste and scrap resulting from manufacturing operations conducted there;
- (10) products extracted from the seabed or below the seabed which is situated outside its territorial waters but where it has exclusive exploitation rights;
- (11) goods produced there exclusively from products specified in subparagraphs (1) to (10).
 - (a) The terms 'its vessels' and 'its factory ships' in paragraph (a)(6) and (7) shall apply only to vessels and factory ships:
 - (1) which are registered or recorded in the Republic of Turkey or in the beneficiary country,
 - (2) which sail under the flag of the Republic of Turkey or of a beneficiary country,
 - (3) which are at least 50 % owned by nationals of the Republic of Turkey or of the beneficiary country or by a company with its head office in the Republic of Turkey or in that country, of which the manager or managers, Chairman of the Board of Directors or of the Supervisory Board, and the majority of the members of such boards are nationals of the Republic of Turkey or of that beneficiary country and of which, in addition, in the case of companies, at least half the capital belongs to the Republic of Turkey or that beneficiary country or to public bodies or nationals of the Republic of Turkey or of that beneficiary country,
 - (4) of which the master and officers are nationals of the Republic of Turkey or of the beneficiary country, and
 - (5) of which at least 75 % of the crew are nationals of the Republic of Turkey or of the beneficiary country.

² These provisions are not applicable now. Only bilateral cumulation is valid.

- (b) Vessels operating on the high seas, including factory ships on which the fish caught is worked or processed, shall be considered as part of the territory of the Republic of Turkey or of the beneficiary country to which they belong, provided that they satisfy the conditions set out in paragraph (b).

Products which have undergone sufficient working or processing
(Article 7)

Products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II of the Decision are fulfilled.

On the other hand, non-originating materials may be used in the manufacture of a product provided that (a) their total value does not exceed 10 per cent of the ex-works price of the product; (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

Bilateral Cumulation
(Article 4)

Materials originating in Turkey shall be considered as materials originating in a beneficiary country when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond the operations referred to in Article 8 of the decision.

Insufficient Working or Processing
(Article 8)

The following operations shall be considered as insufficient working or processing to confer the status of originating products

- (a) preserving operations to ensure that the products remain in good condition during transport and storage;
- (b) breaking-up and assembly of packages;
- (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total milling, polishing and glazing of cereals and rice;
- (g) operations to colour sugar or form sugar lumps; partial or total milling of sugar;
- (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds, where one or more components of the mixtures do not meet the conditions laid down in this section to enable them to be considered as originating in a beneficiary country or in Turkey;

- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) a combination of two or more of the operations specified in points (a) to (n);
- (p) slaughter of animals.

Cumulation with Norway, Switzerland and the European Community (Article 5)

Article 5 lays down the provision for cumulation with Norway, Switzerland and EC. However, this Article will not be applicable until the necessary agreements have been made between these countries.

Regional Cumulation (Article 13)

According to Article 13 of the decision, regional cumulation is applicable, which means that products originating in any of the countries of that regional group and used in further manufacture in another country of the group shall be treated as if they originated in the country of further manufacture.

Three regional economic groups may utilize the Turkish GSP Scheme. These are:

Group 1:

Brunei-Darussalam, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Viet Nam;

Group 2:

Bolivia, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Nicaragua, Panama, Peru, Venezuela,

Group 3:

Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka.

On the other hand, the provisions relating to the regional cumulation shall be applied provided that these rules, as between the countries of the regional group, are identical to those laid down in this Decision and each country of the regional group has undertaken to comply or ensure compliance with the terms of this Decision and to provide the administrative cooperation necessary both to Turkey and to the other countries of the regional group in order to ensure the correct issue of certificates of origin Form A and the verification of certificates of origin Form A and invoice declarations.

This undertaking shall be transmitted via diplomatic channels to Turkey.

1.2. Direct Consignment

According to Article 22 of the Decision, preferential treatment shall only be applied to the products fulfilling the requirements of this Decision and transported directly between Turkey and the beneficiary country.

This requirement aims to ensure that goods shipped from a beneficiary country are the same goods as those presented at the port of entry into Turkey and have not been manipulated or further processed in third countries during shipment.

1.3. Documentary Evidence

(a) Products originating in the beneficiary country shall benefit from the Generalized System of Preferences, upon import to Turkey, upon submission of either the Certificate of Origin Form A or the Invoice Declaration.

Certificate of Origin Form A

Originating products within the meaning of the Decision shall be eligible, upon import to the Republic of Turkey, to benefit from the preferential regime upon submission of a certificate of origin Form A which is issued by the customs authorities or by other competent governmental authorities of the beneficiary country.

Invoice Declaration

An invoice declaration may be made out if the products concerned can be considered as originating in Turkey or in a beneficiary country and fulfil the other requirements of the Decision. The invoice declaration may be either made out by an approved exporter of the Republic of Turkey or by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6000.

Certificate of origin Form A issued retrospectively and duplicated

A certificate of origin Form A may be exceptionally issued after export of products in the following cases:

- it was not issued at the time of export because of errors and involuntary omissions or special circumstances
- It is demonstrated to the satisfaction of the competent governmental authorities that a certificate of origin Form A was issued but not accepted upon import for technical reasons.

In the event of the theft, loss or destruction of a certificate of origin Form A, the exporter of a certificate of origin Form A, the exporter may apply to the governmental authorities which issued it for a duplicate to be made out on the basis of the export documents in their possession.

(b) Upon export from Turkey to the beneficiary countries in order to benefit from bilateral cumulation for goods originating in Turkey and fulfilling the other requirements of the Decision, evidence of the originating status of products shall be furnished by either an EUR.1 movement certificate or an invoice declaration.

The procedures and principles of use of EUR.1 Movement Certificates issued and invoice declarations are laid down in the “Regulation on Movement Certificate of EUR.1 and Invoice Declaration To Be Issued On Exportation Under The Generalised System of Preferences of Turkey” which is published on the Turkish Official Gazette numbered 24704 on 23 April 2002.

Non-commercial Products

Products sent as small packages from private persons the value of which does not exceed EUR 500 and ones forming part of travellers' personal luggage the total value of which does not exceed EUR 1200 shall be admitted as originating without requiring the submission of proof of origin.

Validity of Proof of Origin

Proof of origin shall be valid for ten months from the date of issue in the exporting country and shall be submitted within the said period to the customs authorities of the importing country.

Subsequent Verification

The information provided on certificates of origin Form A and invoice declarations may be verified at random or whenever the customs authorities of Turkey have reasonable doubt as to the authenticity of the document or the accuracy of the information regarding the origin of the goods.

When an application for subsequent verification has been made, such verification shall be carried out and its results communicated to Turkey within a maximum of six months. If in cases of reasonable doubt there is no reply within the six months or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, a second communication shall be sent to the competent authorities. If after the second communication the results of the verification are not communicated to the requesting authorities within four months, or if these results do not allow the authenticity of the document in question or the real origin of the products to be determined, the requesting authorities shall, except in exceptional circumstances, refuse entitlement to the preferential regime.

Validity

The Decision has been implemented from 1 January 2002.

2. Consolidated Decision on Determination of Origin of Goods Benefiting from Preferential Regime for the Purposes of the Generalized System of Preferences

(* Published in the Official Gazette of the Republic of Turkey on 30 December 2001/24626)

(** Amended by the Decision which was published in the Official Gazette of the Republic of Turkey on 9 October 2003/25254)

(*** Amended by the Decision which was published in the Official Gazette of the Republic of Turkey on 20 March 2004/25408)

SECTION I Purpose, Scope and Definitions

Purpose and Scope

Article 1 - This Decision shall regulate procedures and principles on determining the origin of goods benefiting from the preferential regime at trade to the Republic of Turkey for the purposes of the Generalized System of Preferences, according to Article 22(b) of Customs Law no. 4458.

Definitions

Article 2 - For the purposes of this Decision:

- (a) 'Undersecretariat' means the Undersecretariat of Customs;
- (b) 'manufacture' means any kind of working or processing including assembly or specific operations;
- (c) 'material' means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (d) 'product' means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (e) 'goods' means both materials and products;
- (f) 'customs value' means the value as determined in accordance with the 1994 Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on customs valuation);
- (g) 'ex-works price' means the price paid for the product ex-works to the manufacturer in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
- (h) 'value of materials' means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the Republic of Turkey or the beneficiary country;
- (i) 'value of originating materials' means the value of such materials as defined in (h) applied mutatis mutandis;

- (j) 'chapters' and 'headings' mean the chapters and the headings (four-digit codes) used in the nomenclature which makes up the Harmonized Commodity Description and Coding System referred as “the Harmonized System” or “HS” in this Decision;
- (k) 'classified' refers to the classification of a product or material under a particular heading;
- (l) 'consignment' means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such document, by a single invoice;
- (m) 'territories' includes territorial waters;
- (n) 'proof of origin' means the certificate of origin Form A, EUR.1 Movement Certificate or invoice declaration;
- (o) 'the certificate of origin Form A' means the proof of origin, a specimen of which appears in Annex III, issued properly by the customs authorities or other competent governmental authorities in order to be able to benefit the originating products from the preferential regime for the purposes of the Generalized System of Preferences upon their import to the Republic of Turkey;
- (p) 'EUR.1 Movement Certificate' means the proof of origin, a specimen of which appears in Annex IV, issued properly by the customs authorities or made out by institutions authorized by those authorities and then endorsed by the customs authorities in order to be able to benefit the products originating in the Republic of Turkey from the provisions of cumulation for the purposes of the Generalized System of Preferences;
- (q) 'application form for EUR.1 Movement Certificate' means the form, a specimen of which appears in Annex IV, which should be filled in order to demand a EUR.1 Movement Certificate by the exporter or his authorized representative;
- (r) 'invoice declaration' means the declaration, the text of which appears in Annex V, made out properly by the exporter on an invoice, a delivery note or any other commercial document;
- (s) 'beneficiary country' means the developing countries benefiting from the preferential treatment of the Republic of Turkey for the purposes of the Generalized System of Preferences;
- (t) 'least developed country' means the countries listed in Annex VII among the countries concerned by this Decision.

SECTION II

CHAPTER I

Definition of the Concept of Originating Products

Rules of Origin

Article 3 - For the purposes of this Decision, the following products shall be considered as originating in the Republic of Turkey or a beneficiary country:

- (a) products wholly obtained in the Republic of Turkey or a beneficiary country within the meaning of Article 6;
- (b) products obtained in the Republic of Turkey or a beneficiary country in the manufacture of which products other than those referred to in (a) are used, provided that the said products have undergone sufficient working or processing in the Republic of Turkey or a beneficiary country within the meaning of Article 7.

Bilateral Cumulation

Article 4 - Materials originating in Turkey shall be considered as materials originating in a beneficiary country when incorporated into a product obtained there. It shall not be necessary that such materials have undergone sufficient working or processing, provided they have undergone working or processing going beyond the operations referred to in Article 8.

Cumulation with Norway, Switzerland and the European Community

Article 5 - In so far as Norway, Switzerland and the European Community (EC) grant generalized tariff preferences to products originating in the beneficiary countries and apply a definition of the concept of origin corresponding to that set out in this Decision, products originating in the Republic of Turkey, Norway, Switzerland or the EC which are subject in a beneficiary country to working or processing going beyond that described in Article 8 shall be considered as originating in that beneficiary country.

The provisions of the first paragraph shall apply only to products originating in the Republic of Turkey, Norway Switzerland or the EC (according to the rules of origin relative to the tariff preferences in question) which are exported direct to the beneficiary country. The provisions of the first paragraph shall not apply to products falling within Chapters 1 to 24 of the Harmonized System.

The provisions of this Article shall apply on condition that Norway, Switzerland and the EC grant, by reciprocity, the same treatment to products of the Republic of Turkey. The date from which the provisions of this Article would apply shall be communicated by the Undersecretariat.

Wholly Obtained Products

Article 6 – For the purposes of this Decision;

- (a) The following shall be considered as wholly obtained in the Republic of Turkey or in a beneficiary country:
 - (1) mineral products extracted from its soil or from its seabed;
 - (2) vegetable products harvested there;
 - (3) live animals born and raised there;
 - (4) products from live animals raised there;
 - (5) products obtained by hunting or fishing conducted there;
 - (6) products of sea fishing and other products taken from the sea outside its territorial waters by its vessels;
 - (7) products made on board its factory ships exclusively from the products referred to in subparagraph (6);
 - (8) used articles collected there fit only for the recovery of raw materials;
 - (9) waste and scrap resulting from manufacturing operations conducted there;
 - (10) products extracted from the seabed or below the seabed which is situated outside its territorial waters but where it has exclusive exploitation rights;
 - (11) goods produced there exclusively from products specified in subparagraphs (1) to (10).
- (b) The terms 'its vessels' and 'its factory ships' in paragraph (a)(6) and (7) shall apply only to vessels and factory ships:
 - (1) which are registered or recorded in the Republic of Turkey or in the beneficiary country,
 - (2) which sail under the flag of the Republic of Turkey or of a beneficiary country,
 - (3) which are at least 50 % owned by nationals of the Republic of Turkey or of the beneficiary country or by a company having its head office in the Republic of Turkey or in that country, of which the manager or managers, Chairman of the Board of Directors or of the Supervisory Board, and the majority of the members of such boards are nationals of the Republic of Turkey or of that beneficiary country and of which, in addition, in the case of companies, at least half the capital belongs to the Republic of Turkey or that beneficiary country or to public bodies or nationals of the Republic of Turkey or of that beneficiary country,
 - (4) of which the master and officers are nationals of the Republic of Turkey or of the beneficiary country, and
 - (5) of which at least 75 % of the crew are nationals of the Republic of Turkey or of the beneficiary country.
- (c) Vessels operating on the high seas, including factory ships on which the fish caught is worked or processed, shall be considered as part of the territory of the Republic of Turkey or of the beneficiary country to which they belong, provided that they satisfy the conditions set out in paragraph (b).

Sufficiently Worked or Processed Products

Article 7 - For the purposes of Article 3;

- (a) Products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.
- (b) The conditions referred to in (a) indicate, for all products covered by this Decision, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials.
- (c) If a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10 per cent of the ex-works price of the product;
- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this subparagraph.

The second paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonized System.

Insufficient Working or Processing

Article 8 - Without prejudice to paragraph 2 of this Article, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 7 are satisfied:

- (a) preserving operations to ensure that the products remain in good condition during transport and storage;
- (b) breaking-up and assembly of packages;
- (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total milling, polishing and glazing of cereals and rice;
- (g) operations to colour sugar or form sugar lumps; partial or total milling of sugar;
- (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;

- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
- (m) simple mixing of products, whether or not of different kinds, where one or more components of the mixtures do not meet the conditions laid down in this section to enable them to be considered as originating in a beneficiary country or in Turkey;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) a combination of two or more of the operations specified in points (a) to (n);
- (p) slaughter of animals.

All the operations carried out in either Turkey or in a beneficiary country on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

CHAPTER II

Unit of Qualification, Accessories, Spare Parts, Tools, Sets and Neutral Elements

Unit of Qualification

Article 9 - The unit of qualification for the application of the provisions of this Decision shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System. Accordingly, it follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
- (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Decision.

Where, under general rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Accessories, Spare Parts and Tools

Article 10 - Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Sets

Article 11 - Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all the component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the ex-works price of the set.

Neutral Elements

Article 12 - In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

CHAPTER III Regional Cumulation

Regional Cumulation

Article 13 - By way of derogation from Articles 3 to 5, for the purposes of determining whether a product manufactured in a beneficiary country which is a member of a regional group originates therein with the meaning of that Article, products originating in any of the countries of that regional group and used in further manufacture in another country of the group shall be treated as if they originated in the country of further manufacture (regional cumulation).

The country of origin of the final product shall be determined in accordance with Article 15.

Regional Groups

Article 14 - Regional cumulation shall apply to three separate regional groups of beneficiary countries benefiting from the Generalized System of Preferences:

- Group 1: Brunei-Darussalam, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Viet Nam;
- Group 2: Bolivia, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Nicaragua, Panama, Peru, Venezuela;

Group 3: Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, Sri Lanka.

The expression 'regional group' shall be taken to mean Group 1, Group 2 or Group 3, as the case may be.

Determination of Origin in Regional Cumulation

Article 15 – When goods originating in a country which is a member of a regional group are worked or processed in another country of the same regional group, they shall have the origin of the country of the regional group where the last working or processing was carried out, provided that:

- (a) the value added there, as defined in paragraph 3 of this Article, is greater than the highest customs value of the products used originating in any one of the other countries of the regional group, and
- (b) the working or processing carried out there exceeds that set out in Article 8 and, in the case of textile products, also those operations referred to at Annex 6.

When the conditions of original in paragraph 1(a) and (b) are not satisfied, the products shall have the origin of the country of the regional group which accounts for the highest customs value of the originating products coming from other countries of the regional group.

'Value added' means the ex-works price minus the customs value of each of the products incorporated which originated in another country of the regional group.

Proof of Origin in Regional Cumulation

Article 16 - Proof of the originating status of goods exported from a country of a regional group to another country of the same group to be used in further working or processing, or to be re-exported where no further working or processing takes place, shall be established by a certificate of origin Form A issued in the first country.

Proof of the originating status, acquired or retained under the terms of this Chapter, of goods exported from a country of a regional group to the Republic of Turkey, shall be established by a certificate of origin Form A issued or an invoice declaration made out in that country on the basis of a certificate of origin Form A issued according to the provisions of paragraph 1.

The country of origin shall be marked in box 12 of the certificate of origin Form A or on the invoice declaration, that country being:

- in the case of products exported without further working or processing according to paragraph 1, the country of manufacture;
- in the case of products exported after further working or processing, the country of origin as determined in accordance with paragraph 1 of Article 15.

Necessary Conditions for the Implementation of Regional Cumulation

Article 17 - Articles 13 to 16 shall apply only where:

- (a) the rules regulating trade in the context of regional cumulation, as between the countries of the regional group, are identical to those laid down in this Decision;
- (b) each country of the regional group has undertaken to comply or ensure compliance with the terms of this Decision and to provide the administrative cooperation necessary both to the Republic of Turkey and to the other countries of the regional group in order to ensure the correct issue of certificates of origin Form A and the verification of certificates of origin Form A and invoice declarations.

This undertaking shall be transmitted via diplomatic channels to the Republic of Turkey through the Secretariat of the regional group.

The Secretariats are as follows:

Group 1: the General Secretariat of the Association of South-East Asian Nations (ASEAN)

Group 2: the Andean Community – Central American Common Market and Panama Permanent Joint Committee on Origin (Comité Conjunto Permanente de Origen Comunidad Andina-Mercado Común Centroamericano y Panamá);

Group 3: the Secretariat of the South Asian Association for Regional Cooperation (SAARC)

as the case may be.

The Undersecretariat shall announce that the conditions set out in paragraph 1 have been satisfied, in the case of each regional group. This Chapter concerning regional cumulation shall not be applied unless that announcement is made.

Article 22(1)(b) shall not apply to products originating in any of the countries of the regional group when they pass through the territory of any of the other countries of the regional group, whether or not further working or processing takes place there.

SECTION III Derogation for the Least Developed Countries

Derogation for the Least Developed Countries

Article 18 - Derogations from the provisions of this Decision may be made in favour of the least-developed beneficiary countries benefiting from the Generalized System of Preferences when the development of existing industries or the creation of new industries justifies them. For this purpose, the country concerned shall submit a

request via diplomatic channels for a derogation together with the reasons for the request in accordance with paragraph 2 of Article 19.

Examination of Derogation Request

Article 19 - The examination of requests shall, in particular, take into account:

- (a) cases where the application of existing rules of origin would affect significantly the ability of an existing industry in the country concerned to continue its exports to the Republic of Turkey, with particular reference to cases where this could lead to business closures;
- (b) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation encouraging implementation of the investment programme would enable the rules to be satisfied by stages;
- (c) the economic and social impact of the decision to be taken especially in respect of employment in the beneficiary countries and the Republic of Turkey.

In order to facilitate the examination of requests for derogation, the country making the request shall furnish in support of its request the fullest possible information, covering in particular the points listed below:

- (a) description of the finished product,
- (b) nature and quantity of materials originating in a third country,
- (c) manufacturing process,
- (d) value added,
- (e) the number of employees in the enterprise concerned,
- (f) the anticipated volume of the exports to the Republic of Turkey,
- (g) other possible sources of supply for raw materials,
- (h) reasons for the duration requested,
- (i) other observations.

The decision taken as a consequence of the evaluation of the derogation request shall be communicated by diplomatic channels. The decision concerning requests accepted shall be published in the Official Gazette.

Stating of Derogation Implementation on the Certificates of Origin Form A

Article 20 - Where use is made of a derogation, the following phrase must appear in box 4 of the certificate of origin Form A, or on the invoice declaration laid down in Article 26:

‘İstisna – Karar No: .../...’

‘Derogation - Regulation (TR) No .../...’

The provisions of Articles 18 to 20 shall apply to any prolongations.

SECTION IV

Territorial Requirements

Principle of Territoriality

Article 21 - The conditions set out in Section II for acquiring originating status must continue to be fulfilled at all times in the Republic of Turkey or in the beneficiary country.

If originating products exported from the Republic of Turkey or the beneficiary country to another country are returned, they must be considered as non-originating unless it can be demonstrated to the satisfaction of the competent authorities that:

- (a) the products returned are the same as those which were exported, and
- (b) they have not undergone any operations beyond that necessary to preserve them in good condition while in that country or while being exported.

Direct Transport

Article 22 – Preferential treatment shall only be applied to the products fulfilling the requirements of this Decision and transported directly between the Republic of Turkey and the beneficiary country. The following shall be considered as transported directly from the beneficiary country to the Republic of Turkey or from the Republic of Turkey to the beneficiary country:

- (a) products transported without passing through the territory of any other country, except in the case of the territory of another country of the same regional group where Article 13 is applied;
- (b) products constituting a single consignment transported through the territory of countries other than the beneficiary country or the Republic of Turkey, with, should the occasion arise, trans-shipment or temporary warehousing in those countries, provided that the products remain under the surveillance of the customs authorities in the country of transit or of warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition;
- (c) products transported through the territory of Norway, Switzerland and EC subsequently re-exported in full or in part to the Republic of Turkey or to the beneficiary country, provided that the products remain under the surveillance of the customs authorities of the country of transit or of warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition;
- (d) products which are transported by pipeline without interruption across a territory other than that of the Republic of Turkey or of the exporting beneficiary country.

Evidence that the conditions specified in paragraph 1(b) and (c) have been fulfilled shall be supplied to the competent customs authorities by the production of:

- (a) a single transport document covering the passage from the exporting country through the country of transit; or
- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products,
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships or the other means of transport used, and
 - (iii) certifying the conditions under which the products remained in the country of transit;
- (c) or failing these, any substantiating documents.

Originating products within the meaning of this Decision shall be eligible on importation into the Republic of Turkey to benefit from the tariff preferences referred to in Article 1 on production of a replacement certificate of origin Form A issued by the customs authorities of Norway, Switzerland or the EC on the basis of a certificate of origin Form A issued by the competent governmental authorities of the beneficiary country, provided that the conditions laid down in this Article have been satisfied and provided that Norway, Switzerland or the EC assists the Republic of Turkey by allowing its customs authorities to verify the authenticity and accuracy of the certificates issued. The verification procedure laid down in Articles 40 and 41 shall apply *mutatis mutandis*. The time limit laid down in paragraph 1 of Article 41 shall be extended to eight months.

Subparagraph (c) of paragraph 1 and paragraph 3 of this Article shall apply only in so far as Norway, Switzerland and the EC, in the context of tariff preferences granted by them to certain products originating in developing countries, apply provisions similar to those of the Republic of Turkey. The Undersecretariat shall announce the date of adoption by Norway, Switzerland and the EC of such provisions and the date from which the provisions of subparagraph (c) of paragraph 1 and paragraph 3 of this Article and the similar provisions adopted by Norway, Switzerland and the EC are applied.

These provisions shall apply on condition that the Republic of Turkey, Norway, Switzerland and the EC have concluded an agreement stating, among other things, that they shall provide each other with the necessary mutual assistance in matters of administrative cooperation.

Exhibitions

Article 23 - Originating products sent from a beneficiary country for exhibition in another country and sold after the exhibition for importation into the Republic of Turkey shall benefit from the tariff preferences, provided that it is shown to the satisfaction of the competent Community customs authorities that:

- (a) an exporter has consigned these products from one of the beneficiary countries to the country in which the exhibition is held;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in the Republic of Turkey;
- (c) the products have been consigned during the exhibition or immediately thereafter to the Republic of Turkey in the state in which they were sent for exhibition;
- (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

A certificate of origin Form A shall be submitted to the customs authorities of the Republic of Turkey in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the nature of the products and the conditions under which they have been exhibited may be required.

Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organized for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

SECTION V

CHAPTER I

Proof of Origin of Goods

Proofs of Origin

Article 24 – Products originating in the beneficiary country shall benefit from the Generalized System of Preferences upon import into the Republic of Turkey, upon submission of either:

- (a) a certificate of origin Form A, a specimen of which appears in Annex III; or
- (b) in the cases specified in Article 26, a declaration, the text of which appears in Annex V, given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified (hereinafter referred to as the 'invoice declaration').

Within the meaning of Article 4, upon export from the Republic of Turkey to the beneficiary countries in order to benefit from bilateral cumulation for goods considered as originating in the Republic of Turkey and fulfilling the other requirements of the Decision, evidence of the originating status of products shall be furnished by either:

- (a) the production of an EUR.1 movement certificate, a specimen of which is set out in Annex IV; or
- (b) the production of a declaration as referred to in Article 26.

Certificate of Origin Form A

Article 25 - Originating products within the meaning of this Decision shall be eligible, upon import into the Republic of Turkey, to benefit from the preferential regime referred to in Article 1, provided that they have been transported directly within the meaning of Article 22, upon submission of a certificate of origin Form A, issued by the customs authorities or by other competent governmental authorities of the beneficiary country, provided that the latter country has communicated to the Republic of Turkey the information required by Article 39, and assists the Republic of Turkey by allowing the customs authorities of Republic of Turkey to verify the authenticity of the document or the accuracy of the information regarding the true origin of the products in question.

A certificate of origin Form A may be issued only where it can serve as the documentary evidence required for the purposes of the preferential regime referred to in Article 1.

A certificate of origin Form A shall be issued only on written application from the exporter or his authorised representative. The exporter or his authorized representative shall submit with his application any appropriate supporting documents proving that the products to be exported qualify for the issue of a certificate of origin Form A.

The certificate shall be issued by the competent governmental authorities of the beneficiary country if the products to be exported can be considered as products originating in that country within the meaning of this Decision. The certificate shall be made available to the exporter as soon as the export has taken place or is ensured. For the purposes of verifying whether the conditions set out in this paragraph have been met, the competent governmental authorities shall have the right to call for any documentary evidence or to carry out any check which they consider appropriate.

It shall be the responsibility of the competent governmental authorities of the beneficiary country to ensure that certificates and applications are duly completed. The completion of box 2 of the certificate of origin Form A shall be optional. Box 12 shall be duly completed by indicating "Turkey". The date of issue of the certificate of origin Form A shall be indicated in box 11. The signature to be entered in that box, which is reserved for the competent governmental authorities issuing the certificate, shall be handwritten.

Since the certificate of origin Form A constitutes the documentary evidence for the application of provisions concerning the preferential regime referred to in Article 1, it shall be the responsibility of the competent governmental authorities of the exporting country to take any steps necessary to verify the origin of the products and to check the other statements on the certificate.

Invoice Declaration

Article 26 - The invoice declaration referred to in subparagraphs (b) of paragraphs 1 and 2 of Article 24 may be made out:

- (a) by an approved exporter of the Republic of Turkey within the meaning of Article 38, or
- (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6000, and provided that the assistance referred to paragraph 1 of Article 25 applies to this procedure.

An invoice declaration may be made out if the products concerned can be considered as originating in the Republic of Turkey or in a beneficiary country, and fulfil the other requirements of this Decision.

The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs or other competent governmental authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Decision.

An invoice declaration shall be made out by the exporter in either Turkish, French or English by typing, stamping or printing on the invoice, the delivery note or any other commercial document, the declaration, the text of which appears in Annex V. If the declaration is handwritten, it shall be written in ink in printed characters.

Invoice declarations shall bear the original, handwritten signature of the exporter. However, an approved exporter within the meaning of Article 38 shall not be required to sign such declarations provided that he gives the customs authorities a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it bore his handwritten signature.

In the cases referred to in paragraph 1(b), the use of an invoice declaration shall be subject to the following special conditions:

- (a) one invoice declaration shall be made out for each consignment;
- (b) if the goods contained in the consignment have already been subject to verification in the exporting country by reference to the definition of 'originating products', the exporter may refer to this check in the invoice declaration.

The provisions of the paragraph 6 shall not exempt exporters from complying with any other formalities required under customs or postal regulations.

EUR.1 Movement Certificate

Article 27 – Within the meaning of bilateral cumulation referred to in Article 4, procedures and principles of use of EUR.1 Movement Certificates issued and invoice declarations made out on exportation of the goods originating in the Republic of Turkey to the countries benefiting from the Generalised System of Preferences referred to in Article 1 shall be laid down in a regulation on implementing provisions.

CHAPTER II

Issuing Retrospectively, Making Out a Duplicate and Replacing Certificate of Origin Form A

Issuing after Exportation

Article 28 - By way of derogation from paragraph 4 of Article 25, a certificate of origin Form A may exceptionally be issued after exportation of the products to which it relates in the cases referred to in subparagraph (a).

- (a) A certificate of origin Form A may exceptionally be issued retrospectively, if:
 - (1) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
 - (2) it is demonstrated to the satisfaction of the competent governmental authorities that a certificate of origin Form A was issued but was not accepted at import for technical reasons.
- (b) The competent governmental authorities may issue a certificate retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding export file and that a certificate of origin Form A satisfying the provisions of this Decision was not issued when the products in question were exported.
- (c) Certificates of origin Form A issued retrospectively must contain the endorsement as follows:

“SONRADAN VERİLMİŞTİR”
“ISSUED RETROSPECTIVELY”
“DÉLIVRÉ A POSTERIORI”

Issuing a Duplicate

Article 29 - In the event of the theft, loss or destruction of a certificate of origin Form A, the exporter may apply, to the competent governmental authorities which issued it, for a duplicate to be made out on the basis of the export documents in their possession.

Box 4 of a duplicate Form A issued in this way must be endorsed with the word:

“İKİNCİ NÜSHADIR”

“DUPLICATE”

“DUPLICATA”

together with the date of issue and the serial number of the original certificate.

For the purposes of Articles 31 and 32, the duplicate shall take effect from the date of the original.

Replacing Certificates of Origin Form A

Article 30 - When originating products are placed under the control of a customs office in the Republic of Turkey, it shall be possible to replace the original proof of origin by one or more certificates of origin Form A for the purpose of sending all or some of these products elsewhere within the Republic of Turkey or to Switzerland, Norway or the EC. The replacement certificate(s) of origin Form A shall be issued by the customs office under whose control the products are placed on the basis of a written request by the re-exporter. The replacement certificate issued in application of this paragraph and paragraph 2 of Article 22 shall be regarded as the definitive certificate of origin for the products to which it refers.

The top right-hand box of the replacement certificate shall indicate the name of the intermediary country where it is issued. Box 4 shall contain the words “MÜFREZ MENŞE BELGESİDİR” (Replacement certificate), as well as the date of issue of the original certificate of origin and its serial number. The name of the re-exporter shall be given in box 1. The name of the final consignee may be given in box 2. All particulars of the re-exported products appearing on the original certificate shall be transferred to boxes 3 to 9. References to the re-exporter's invoice shall be given in box 10.

The customs authorities which issued the replacement certificate shall endorse box 11. The responsibility of the authorities is confined to the issue of the replacement certificate. The particulars in box 12 concerning the country of origin and the country of destination shall be taken from the original certificate. This box shall be signed by the re-exporter. A re-exporter who signs this box in good faith shall not be responsible for the accuracy of the particulars entered on the original certificate.

The customs office which is requested to perform the operation referred to in paragraph 1 should note on the original certificate the weights, numbers and nature of the products forwarded and indicate thereon the serial numbers of the corresponding replacement certificate or certificates. It shall keep the original certificate for at least three years. A photocopy of the original certificate may be annexed to the replacement certificate.

In the case of products which benefit from the tariff preferences in the purpose of this Decision, under a derogation granted in accordance with the provisions of Section III, the procedure laid down in this Article shall apply only when such products are intended for the Republic of Turkey.

In the context of the cumulation referred to in Articles 4 and 5, the competent governmental authorities of the beneficiary country called on to issue a certificate of origin Form A for products in the manufacture of which materials originating in the Republic of Turkey, Norway, Switzerland or the EC are used shall rely on the EUR.1 movement certificate or, where necessary, the invoice declaration. Box 4 of certificates of origin Form A issued in the cases set out in this paragraph shall contain the remark “Türkiye kümülasyon”, “Norveç kümülasyon”, “İsviçre kümülasyon”, “AT kümülasyon” or “Turkey cumulation”, “Norway cumulation”, “Switzerland cumulation”, “EC cumulation” or “Cumul Turquie”, “Cumul Norvège”, “Cumul Suisse”, “Cumul CE”.

CHAPTER III

Submission

Validity of Proof of Origin

Article 31 - A proof of origin shall be valid for 10 months from the date of issue in the exporting country, and shall be submitted within the said period to the customs authorities of the importing country.

Proofs of origin submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying the preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

In other cases of belated presentation, the customs authorities of the Republic of Turkey may accept the proofs of origin where the products have been submitted before the said final date.

In cases of belated presentation, in order to benefit from the preferential treatment, the goods have to be submitted before the final date of submission of the proof of origin and an application in writing has to be presented to the customs authorities in the said period by the importer or his authorized representative entitled to sign the customs declaration.

The customs authority concerned shall inform the supervising regional headquarter on the issue. The latter shall examine the case and may extend the period of validity of the proof of origin if it considers the existence of force majeure and extraordinary circumstances and agrees that the reasons justify such demand.

Submission of Single Proof of Origin

Article 32 - At the request of the importer and having regard to the conditions laid down by the Undersecretariat, a single proof of origin may be submitted to the customs authorities at the importation of the first consignment when the goods:

- (a) are imported within the framework of frequent and continuous trade flows of a significant commercial value;

- (b) are the subject of the same contract of sale, the parties of this contract established in the exporting country or in Turkey;
- (c) are classified in the same code (eight digits) of the Customs Tariff Nomenclature;
- (d) come exclusively from the same exporter, are destined for the same importer, and are made the subject of entry formalities at the same customs office in Turkey.

This procedure shall be applicable for the quantities and a period determined by the competent customs authorities. This period cannot, in any circumstances, exceed three months.

Submission of Proof of Origin

Article 33 – Proofs of origin shall be submitted to the customs authorities of the Republic of Turkey in accordance with customs legislation and other concerned legislation. The said authority may require a translation of proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the application of this Decision.

Where proofs of origin required for the preferential treatment of goods can not be presented before or at the time of actual import of the goods concerned and the goods are intended to be imported without delay by the importer, the preferential regime shall not be applied and the duties shall be calculated and definitely collected on the basis of autonomous duty rates. However, if the proofs of origin duly completed are submitted to the customs authority which fulfilled the procedures within the period of validity following the actual import of this kind of goods, the difference between the duty amount calculated on the base of preferential rate and that calculated on the base of non-preferential shall be repaid to the operator, on the condition that it is understood that the proofs of origin submitted relates to the goods imported by comparing with the customs declaration and its enclosures and that the period of validity of the proof of origin is not expired.

Import by Instalments

Article 34 - Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of general rule 2(a) of the Harmonized System and falling within Section XVI or XVII or heading No 7308 or 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities on importation of the first instalment.

Discrepancies and Formal Errors

Article 35 - The discovery of slight discrepancies between the statements made in the certificate of origin Form A, in the EUR.1 movement certificate or in an invoice declaration, and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto

render the certificate or declaration null and void if it is duly established that that document does correspond to the products submitted.

Obvious formal errors such as typing errors on proofs of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in that document.

CHAPTER IV

Exemptions from Proof of Origin and Amounts Expressed in Euro

Non-commercial Products

Article 36 – Products sent as small packages from private person to private persons or forming part of travellers' personal luggage shall be admitted as originating without requiring the submission of proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the conditions required for the application of this Decision, and where there is no doubt as to the veracity of such a declaration.

Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

Amounts Expressed in Euro

Article 37 - The total value of the products referred to in Article 36 shall not exceed EUR 500 in the case of small packages or EUR 1200 in the case of products forming part of traveller's personal luggage.

SECTION VI

Simplified Procedures

Approved Exporter

Article 38 – The Undersecretariat may authorize simplified procedures in the framework of the following provisions in order to benefit from bilateral cumulation within the meaning of Article 4:

The Undersecretariat may grant to the following private or legal persons authorization as 'approved exporters' to make out an invoice declaration, a specimen of which is given in Annex V, irrespective of the value of the products concerned; persons who:

- (a) make frequent shipments requiring the issue of EUR.1 Movement Certificate,
- (b) offer, to the satisfaction of the customs authorities, all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Decision,

- (c) have not committed any serious and repeated breaches of taxation and customs legislation,
- (d) have records to allow the inspection of their activities by the customs authorities.

The Undersecretariat shall grant to the approved exporter a customs authorization number which shall appear on the invoice declaration. The Undersecretariat shall monitor the use of the authorization by the approved exporter.

The Undersecretariat (Directorate General of Customs) shall determine the procedures regarding the grant of the authorization document for the implementation of simplified procedure and the monitoring of the use of the authorization by the approved exporter.

The authorization may be provisionally suspended or revoked by the Undersecretariat (Directorate General of Customs), without prejudice to penal provisions where the approved exporter violates the provisions of this Decision or does not fulfil the conditions set forth in the authorization or the conditions no longer exist.

SECTION VII

Arrangements for Administrative Co-operation

Communication of Stamps and Addresses

Article 39 - The beneficiary countries shall inform the Undersecretariat of Customs of the Republic of Turkey of the names and addresses of the governmental authorities situated in their territory which are empowered to issue certificates of origin Form A, together with specimen impressions of the stamps used by those authorities, and the names and addresses of the relevant governmental authorities responsible for the control of the certificates of origin Form A and the invoice declarations. The stamps shall be valid as from the date of receipt by the Undersecretariat of Customs of the Republic of Turkey of the specimens. When these communications are made within the framework of an amendment of previous communications, the Undersecretariat of Customs of the Republic of Turkey shall indicate the date of entry into use of those new stamps according to the instructions given by the competent governmental authorities of the beneficiary countries. This information is for official use; however, when goods are to be released for free circulation, the customs authorities in question may allow the importer or his duly authorized representative to consult the specimen impressions of the stamps mentioned in this paragraph.

The Undersecretariat of Customs of the Republic of Turkey shall send, to the beneficiary countries, specimen impressions of the stamps used by its own customs authorities for the issue of EUR.1 movement certificates.

For the purposes of the provisions concerning the tariff preferences referred to in Article 1, every beneficiary country shall comply or ensure compliance with the rules concerning the origin of the products, the completion and issue of certificates of origin

Form A, the conditions for the use of invoice declarations and those concerning methods of administrative cooperation.

Subsequent Verification

Article 40 - Subsequent verifications of certificates of origin Form A and invoice declarations shall be carried out at random or whenever the Undersecretariat of Customs of the Republic of Turkey have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Decision.

For the purposes of implementing the provisions of paragraph 1, the Undersecretariat of Customs of the Republic of Turkey shall return the certificate of origin Form A and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the competent governmental authorities in the exporting beneficiary country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

If the Undersecretariat of Customs of the Republic of Turkey decides to suspend the granting of the tariff preferences while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

Results of Subsequent Verification

Article 41 - When an application for subsequent verification has been made in accordance with paragraph 1 of Article 40, such verification shall be carried out and its results communicated to the Undersecretariat of Customs of the Republic of Turkey within a maximum of six months. The results shall be such as to establish whether the proof of origin in question applies to the products actually exported and whether these products can be considered as products originating in the Republic of Turkey or in the beneficiary country.

In the case of certificates of origin Form A issued in accordance with paragraph 6 of Article 30, the reply shall include a copy (copies) of the EUR.1 movement certificate(s) or, where necessary, of the corresponding invoice declaration(s).

If in cases of reasonable doubt there is no reply within the six months specified in paragraph 1 or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, a second communication shall be sent to the competent authorities. If after the second communication the results of the verification are not communicated to the requesting authorities within four months, or if these results do not allow the authenticity of the document in question or the real origin of the products to be determined, the requesting authorities shall, except in exceptional circumstances, refuse entitlement to the preferential regime.

The provisions of the paragraph 3 shall apply between the countries of the same regional group for the purposes of the subsequent verification of the certificates of origin Form A issued in accordance with this Decision.

Where the verification procedure or any other available information appears to indicate that the provisions of this Decision are being contravened, the exporting beneficiary country shall, on its own initiative or at the request of the Republic of Turkey, carry out appropriate inquiries or arrange for such inquiries to be carried out with due urgency to identify and prevent such contraventions. For this purpose, the Republic of Turkey may participate in the inquiries.

Preservation of the Documents

Article 42 - For the purposes of the subsequent verification of certificates of origin Form A, copies of the certificates, as well as any export documents referring to them, shall be kept for at least three years by the competent governmental authorities of the exporting beneficiary country.

SECTION VIII Final Provisions

Penalties

Article 43 – Provisions of the Customs Law (no. 4458) of 27.10.1999 and Law on Prevention and Investigation of Smuggling (no. 4926) of 10.07.2003 and other relevant legislation in force shall apply to the acts contrary of this Decision.

Miscellaneous

Article 44 – Any hesitation and disagreement which may arise in the implementation provisions in this Decision shall be communicated to the Undersecretariat by the agents responsible for carrying out the operations within this Decision, and shall be resolved by the Undersecretariat.

Relevant provisions of the Customs Law (no. 4458) and its implementing provisions shall apply to the matters not regulated in this Decision for the purposes of implementing the provisions of this Decision.

SECTION IX

Validity and Execution

Validity

Article 45 - This Decision shall enter into force on the date of its publication as valid from 1.1.2002.

Execution

Article 46 - The Minister in charge of the Undersecretariat of Customs shall execute the provisions of this Decision.

ANNEX I

Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 7 of this Decision.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

- 3.1. The provisions of Article 7 of this Decision, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the beneficiary country or in the Republic of Turkey.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 % of the ex-works price, is made from "other alloy steel roughly shaped by forging" of the heading ex 7224.

If this forging has been forged in the beneficiary country from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory

in the beneficiary country. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule states that "materials of any heading", may be used materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression "manufacture from materials of any heading, including other materials of heading ..." means that only materials classified in the same heading as the product and of a different description than that of the product as given in column 2 of the list may be used.
- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth, even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn, that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term "natural fibres" includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10% or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4.)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- current-conducting filaments,
- artificial man-made filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallized yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 % of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used provided their total weight does not exceed 10 % of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is only a mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20 % in respect of this yarn.
- 5.4. In the case of products incorporating a "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 % of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within chapters 50 to 63. For the same reason, it does not prevent the use of slide fasteners, even though slide fasteners normally contain textiles.

- 6.3. Where a percentage rule applies, the value of materials which are not classified within chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

- 7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation-process⁽³⁾;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolourization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerization;
- (h) alkylation;
- (i) isomerization.

- 7.2. For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation-process⁽⁴⁾;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralization with alkaline agents; decolourization and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerization;
- (h) alkylation;
- (i) isomerization;
- (j) in respect of heavy oils of heading ex 2710 only, desulphurization with hydrogen, resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);

³ See additional explanatory Note 4(b) to chapter 27 of Customs Tariff Nomenclature.

⁴ See additional explanatory Note 4(b) to chapter 27 of Customs Tariff Nomenclature.

- (k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bars and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurization, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourization), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush discharge.

7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of these operations or like operations, do not confer origin.

ANNEX II

List of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status

The products mentioned in the list may not all be covered by the Agreement. It is therefore necessary to consult the other parts of the Agreement.

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|---|---|--------|
| (1) | (2) | (3) | or (4) |
| Chapter 1 | Live animals | All the animals of Chapter 1 must be wholly obtained | |
| Chapter 2 | Meat and edible meat offal | Manufacture in which all the materials of Chapters 1 and 2 used must be wholly obtained | |
| Chapter 3 | Fish and crustaceans, molluscs and other aquatic invertebrates | Manufacture in which all the materials of Chapter 3 used must be wholly obtained | |
| ex Chapter 4 | Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for: | Manufacture in which all the materials of Chapter 4 used must be wholly obtained | |
| 0403 | Buttermilk, curdled milk and cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa | Manufacture in which: - all the materials of Chapter 4 used must be wholly obtained, - all the fruit juice (except that of pineapple, lime or grapefruit) of heading 2009 used is originating, - the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product | |
| ex Chapter 5 | Products of animal origin, not elsewhere specified or included; except for: | Manufacture in which all the materials of Chapter 5 used must be wholly obtained | |
| ex 0502 | Prepared pigs', hogs' or boars' bristles and hair | Cleaning, disinfecting, sorting and straightening of bristles and hair | |
| Chapter 6 | Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage | Manufacture in which: - all the materials of Chapter 6 used must be wholly obtained, - the value of all the materials used does not exceed 50 % of the ex-works price of the product | |
| Chapter 7 | Edible vegetables and certain roots and tubers | Manufacture in which all the materials of Chapter 7 used must be wholly obtained | |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|---|--|
| Chapter 8 | Edible fruit and nuts; peel of citrus fruits or melons | Manufacture in which: - all the fruit and nuts used must be wholly obtained, - the value of all the materials of Chapter 17 used does not exceed 30 % of the value of the ex-works price of the product | |
| ex Chapter 9 | Coffee, tea, maté and spices; except for: | Manufacture in which all the materials of Chapter 9 used must be wholly obtained | |
| 0901 | Coffee, whether or not roasted or decaffeinated; coffee husks and skins; coffee substitutes containing coffee in any proportion | Manufacture from materials of any heading | |
| 0902 | Tea, whether or not flavoured | Manufacture from materials of any heading | |
| ex 0910 | Mixtures of spices | Manufacture from materials of any heading | |
| Chapter 10 | Cereals | Manufacture in which all the materials of Chapter 10 used must be wholly obtained | |
| ex Chapter 11 | Products of the milling industry; malt; starches; inulin; wheat gluten; except for: | Manufacture in which all the cereals, edible vegetables, roots and tubers of heading 0714 or fruit used must be wholly obtained | |
| ex 1106 | Flour, meal and powder of the dried, shelled leguminous vegetables of heading 0713 | Drying and milling of leguminous vegetables of heading 0708 | |
| Chapter 12 | Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder | Manufacture in which all the materials of Chapter 12 used must be wholly obtained | |
| 1301 | Lac; natural gums, resins, gum-resins and oleoresins (for example, balsams) | Manufacture in which the value of all the materials of heading 1301 used may not exceed 50 % of the ex-works price of the product | |
| 1302 | Vegetable saps and extracts; pectic substances, pectinates and pectates; agar-agar and other mucilages and thickeners, whether or not modified, derived from vegetable products: - Mucilages and thickeners, modified, derived from vegetable products - Other | Manufacture from non-modified mucilages and thickeners Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product | |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|---|--|
| Chapter 14 | Vegetable plaiting materials; vegetable products not elsewhere specified or included | Manufacture in which all the materials of Chapter 14 used must be wholly obtained | |
| ex Chapter 15 | Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes; except for: | Manufacture in which all the materials used are classified within a heading other than that of the product | |
| 1501 | Pig fat (including lard) and poultry fat, other than that of heading 0209 or 1503: - Fats from bones or waste | Manufacture from materials of any heading, except those of heading 0203, 0206 or 0207 or bones of heading 0506 Manufacture from meat or edible offal of swine of heading 0203 or 0206 or of meat and edible offal of poultry of heading 0207 | |
| 1502 | Fats of bovine animals, sheep or goats, other than those of heading 1503 - Fats from bones or waste - Other | Manufacture from materials of any heading, except those of heading 0201, 0202, 0204 or 0206 or bones of heading 0506 Manufacture in which all the materials of Chapter 2 used must be wholly obtained | |
| 1504 | Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified: - Solid fractions - Other | Manufacture from materials of any heading, including other materials of heading 1504 Manufacture in which all the materials of Chapters 2 and 3 used must be wholly obtained | |
| ex 1505 | Refined lanolin | Manufacture from crude wool grease of heading 1505 | |
| 1506 | Other animal fats and oils and their fractions, whether or not refined, but not chemically modified: - Solid fractions - Other | Manufacture from materials of any heading, including other materials of heading 1506 Manufacture in which all the materials of Chapter 2 used must be wholly obtained | |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|--|--|
| 1507 to 1515 | Vegetable oils and their fractions: Soya, ground nut, palm, copra, palm kernel, babassu, tung and oiticica oil, myrtle wax and Japan wax, fractions of jojoba oil and oils for technical or industrial uses other than the manufacture of foodstuffs for human consumption - Solid fractions, except for that of jojoba oil - Other | Manufacture in which all the materials used are classified within a heading other than that of the product Manufacture from other materials of headings 1507 to 1515 Manufacture in which all the vegetable materials used must be wholly obtained | |
| 1516 | Animal or vegetable fats and oils and their fractions, partly or wholly hydrogenated, inter-esterified, re-esterified or elaidinized, whether or not refined, but not further prepared | Manufacture in which: - all the materials of Chapter 2 used must be wholly obtained, - all the vegetable materials used must be wholly obtained. However, materials of headings 1507, 1508, 1511 and 1513 may be used | |
| 1517 | Margarine; edible mixtures or preparations of animal or vegetable fats or oils or of fractions of different fats or oils of this Chapter, other than edible fats or oils or their fractions of heading 1516 | Manufacture in which: - all the materials of Chapters 2 and 4 used must be wholly obtained, - all the vegetable materials used must be wholly obtained. However, materials of headings 1507, 1508, 1511 and 1513 may be used | |
| Chapter 16 | Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates | Manufacture: - from animals of Chapter 1 and/or - in which all the materials of Chapter 3 used are wholly obtained | |
| ex Chapter 17 | Sugars and sugar confectionery; except for: | Manufacture in which all the materials used are classified within a heading other than that of the product | |
| ex 1701 | Cane or beet sugar and chemically pure sucrose, in solid form, containing added flavouring or colouring matter | Manufacture in which the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product | |
| 1702 | Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form; sugar syrups not containing added flavouring or colouring matter; artificial honey, whether or not mixed with natural honey; caramel: - Chemically pure maltose and fructose | Manufacture from materials of any heading, including other materials of heading 1702 | |

| ex Chapter 78 | Lead and articles thereof; except for: | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 50 % of the ex-works price of the product | |
| 7801 | Unwrought lead: - Refined lead | Manufacture from "bullion" or "work" lead | |
| 7801 | - Other | Manufacture in which all the materials used are classified within a heading other than that of the product. However, waste and scrap of heading 7802 may not be used | |
| 7802 | Lead waste and scrap | Manufacture in which all the materials used are classified within a heading other than that of the product | |
| ex Chapter 79 | Zinc and articles thereof; except for: | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 50 % of the ex-works price of the product | |
| 7901 | Unwrought zinc | Manufacture in which all the materials used are classified within a heading other than that of the product. However, waste and scrap of heading 7902 may not be used. | |
| 7902 | Zinc waste and scrap | Manufacture in which all the materials used are classified within a heading other than that of the product | |
| ex Chapter 80 | Tin and articles thereof; except for: | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 50 % of the ex-works price of the product | |
| 8001 | Unwrought tin | Manufacture in which all the materials used are classified within a heading other than that of the product. However, waste and scrap of heading 8002 may not be used | |
| 8002 and 8007 | Tin waste and scrap; other articles of tin | Manufacture in which all the materials used are classified within a heading other than that of the product | |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |

| Chapter 81 | Other base metals; cermets; articles thereof: - Other base metals, wrought; articles thereof - Other | Manufacture in which the value of all the materials classified within the same heading as the product used does not exceed 50 % of the ex-works price of the product Manufacture in which all the materials used are classified within a heading other than that of the product | |
| ex Chapter 82 | Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal; except for: | Manufacture in which all the materials used are classified within a heading other than that of the product | |
| 8206 | Tools of two or more of the headings 8202 to 8205, put up in sets for retail sale | Manufacture in which all the materials used are classified within a heading other than heading Nos 8202 to 8205. However, tools of headings 8202 to 8205 may be incorporated into the set, provided their value does not exceed 15 % of the ex-works price of the set | |
| 8207 | Interchangeable tools for hand tools, whether or not power-operated, or for machine-tools (for example, for pressing, stamping, punching, tapping, threading, drilling, boring, broaching, milling, turning, or screwdriving), including dies for drawing or extruding metal, and rock drilling or earth boring tools | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8208 | Knives and cutting blades, for machines or for mechanical appliances | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| ex 8211 | Knives with cutting blades, serrated or not (including pruning knives), other than knives of heading 8208 | Manufacture in which all the materials used are classified within a heading other than that of the product. However, knife blades and handles of base metal may be used | |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|--|--|
| 8214 | Other articles of cutlery (for example, hair clippers, butchers' or kitchen cleavers, choppers and mincing knives, paper knives); manicure or pedicure sets and instruments (including nail files) | Manufacture in which all the materials used are classified within a heading other than that of the product. However, handles of base metal may be used | |
| 8215 | Spoons, forks, ladles, skimmers, cake servers, fish knives, butter knives, sugar tongs and similar kitchen or tableware | Manufacture in which all the materials used are classified within a heading other than that of the product. However, handles of base metal may be used | |
| ex Chapter 83 | Miscellaneous articles of base metal; except for: | Manufacture in which all the materials used are classified within a heading other than that of the product | |
| ex 8302 | Other mountings, fittings and similar articles suitable for buildings, and automatic door closers | Manufacture in which all the materials used are classified within a heading other than that of the product. However, other materials of heading 8302 may be used, provided their value does not exceed 20 % of the ex-works price of the product | |
| ex 8306 | Statuettes and other ornaments, of base metal | Manufacture in which all the materials used are classified within a heading other than that of the product. However, other materials of heading 8306 may be used, provided their value does not exceed 30 % of the ex-works price of the product | |
| ex Chapter 84 | Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof; except for: | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| ex 8401 | Nuclear fuel elements | Manufacture in which all the materials used are classified within a heading other than that of the product ⁽¹³⁾ | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8402 | Steam or other vapour-generating boilers (other than central heating hot-water boilers capable also of producing low pressure steam); super-heated water boilers | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|------------------|--|--|--|
| 8403 and ex 8404 | Central heating boilers other than those of heading 8402 and auxiliary plant for central heating boilers | Manufacture in which all the materials used are classified within a heading other than heading No 8403 or 8404 | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product |
| 8406 | Steam turbines and other vapour turbines | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8407 | Spark-ignition reciprocating or rotary internal combustion piston engines | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8408 | Compression-ignition internal combustion piston engines (diesel or semi-diesel engines) | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8409 | Parts suitable for use solely or principally with the engines of heading 8407 or 8408 | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8411 | Turbojets, turboprops and other gas turbines | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8412 | Other engines and motors | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| ex 8413 | Rotary positive displacement pumps | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| ex 8414 | Industrial fans, blowers and the like | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|--|--|
| 8415 | Air conditioning machines, comprising a motor-driven fan and elements for changing the temperature and humidity, including those machines in which the humidity cannot be separately regulated | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8418 | Refrigerators, freezers and other refrigerating or freezing equipment, electric or other; heat pumps other than air conditioning machines of heading 8415 | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product, - the value of all the non-originating materials used does not exceed the value of the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| ex 8419 | Machines for wood, paper pulp, paper and paperboard industries | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where, within the above limit, the materials of the same heading as the product must be only used up to a value of 25 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8420 | Calendering or other rolling machines, other than for metals or glass, and cylinders therefore | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where, within the above limit, the materials of the same heading as the product must be only used up to a value of 25 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8423 | Weighing machinery (excluding balances of a sensitivity of 5 cg or better), including weight-operated counting or checking machines; weighing machine weights of all kinds | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8425 to 8428 | Lifting, handling, loading or unloading machinery | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within heading No 8431 must be only used up to a value of 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|---|---|--|
| 8429 | Self-propelled bulldozers, angledozers, graders, levellers, scrapers, mechanical shovels, excavators, shovel loaders, tamping machines and road rollers: - Road rollers - Other | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within heading No 8431 must be only used up to a value of 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8430 | Other moving, grading, levelling, scraping, excavating, tamping, compacting, extracting or boring machinery, for earth, minerals or ores; pile-drivers and pile-extractors; snowploughs and snowblowers | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within heading No 8431 must be only used up to a value of 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| ex 8431 | Parts suitable for use solely or principally with road rollers | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8439 | Machinery for making pulp of fibrous cellulosic material or for making or finishing paper or paperboard | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within the same heading as the product are only used up to a value of 25 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8441 | Other machinery for making up paper pulp, paper or paperboard, including cutting machines of all kinds | Manufacture in which: - the value of all the materials used does not exceed 40 % of the ex-works price of the product, and - within the above limit, the value of all the materials of the same heading as the product used does not exceed 25 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|---|--|
| 8444 to 8447 | Machines of these headings for use in the textile industry | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| ex 8448 | Auxiliary machinery for use with machines of headings 8444 and 8445 | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8452 | <p>Sewing machines, other than book-sewing machines of heading 8440; furniture, bases and covers specially designed for sewing machines; sewing machine needles:</p> <p>- Sewing machines (lock stitch only) with heads of a weight not exceeding 16 kg without motor or 17 kg with motor</p> <p>- Other</p> | <p>Manufacture:</p> <p>- in which the value of all the materials used does not exceed 40 % of the ex-works price of the product,</p> <p>- where the value of all the non-originating materials used in assembling the head (without motor) does not exceed the value of the originating materials used,</p> <p>- the thread-tension, crochet and zigzag mechanisms used must be already originating</p> <p>Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product</p> | |
| 8456 to 8466 | Machine tools and machines and their parts and accessories of headings 8456 to 8466 | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8469 to 8472 | Office machines (for example, typewriters, calculating machines, automatic data-processing machines, duplicating machines, stapling machines) | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8480 | Moulding boxes for metal foundry; mould bases; moulding patterns; moulds for metal (other than ingot moulds), metal carbides, glass, mineral materials, rubber or plastics | Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product | |
| 8482 | Ball or roller bearings | <p>Manufacture in which:</p> <p>- all the materials used are classified within a heading other than that of the product,</p> <p>- the value of all the materials used does not exceed 40 % of the ex-works price of the product</p> | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |

| 8484 | Gaskets and similar joints of metal sheeting combined with other material or of two or more layers of metal; sets or assortments of gaskets and similar joints, dissimilar in composition, put up in pouches, envelopes or similar packings; mechanical seals | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8485 | Machinery parts, not containing electrical connectors, insulators, coils, contacts or other electrical features, not specified or included elsewhere in this Chapter | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| ex Chapter 85 | Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles; except for: | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8501 | Electric motors and generators (excluding generating sets) | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within heading No 8503 must be only used up to a value 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8502 | Electric generating sets and rotary converters | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where, within the above limit, the materials classified within heading No 8501 and 8503, taken together, must be only used up to a value of 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| ex 8504 | Power supply units for automatic data-processing machines | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| ex 8518 | Microphones and stands therefor; loudspeakers, whether or not mounted in their enclosures; audio-frequency electric amplifiers; electric sound amplifier sets | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|---|--|
| 8519 | Turntables (record-decks), record-players, cassette-players and other sound reproducing apparatus, not incorporating a sound recording device | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of the originating materials used | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8520 | Magnetic tape recorders and other sound recording apparatus, whether or not incorporating a sound reproducing device | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of the originating materials used | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8521 | Video recording or reproducing apparatus, whether or not incorporating a video tuner | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of the originating materials used | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8522 | Parts and accessories suitable for use solely or principally with the apparatus of headings 8519 to 8521 | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8523 | Prepared unrecorded media for sound recording or similar recording of other phenomena, other than products of Chapter 37 | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8524 | Records, tapes and other recorded media for sound or other similarly recorded phenomena, including matrices and masters for the production of records, but excluding products of Chapter 37: | | |
| 8524 | - Matrices and masters for the production of records - Other | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |

| | | - where, within the above limit, the materials classified within heading No 8523 must be only used up to a to a value of 10 % of the ex-works price of the product | |
| 8525 | Transmission apparatus for radio-telephony, radio-telegraphy, radio-broadcasting or television, whether or not incorporating reception apparatus or sound recording or reproducing apparatus; television cameras; still image video cameras and other video camera recorders; digital cameras | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, and - where the value of all the non-originating materials used does not exceed the value of all the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8526 | Radar apparatus, radio navigational aid apparatus and radio remote control apparatus | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of all the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8527 | Reception apparatus for radio-telephony, radio-telegraphy or radio-broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of all the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8528 | Reception apparatus for television, whether or not incorporating radio broadcast receivers or sound or video recording or reproducing apparatus; video monitors and video projectors | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of all the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|--|--|--|
| 8529 | Parts suitable for use solely or principally with the apparatus of headings 8525 to 8528: - Suitable for use solely or principally with video recording or reproducing apparatus - Other | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where the value of all the non-originating materials used does not exceed the value of all the originating materials used | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8535 and 8536 | Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within heading No 8538 must be only used up to a value of 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| 8537 | Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments or apparatus of Chapter 90, and numerical control apparatus, other than switching apparatus of heading 8517 | Manufacture: - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product, - where within the above limit, the materials classified within heading No 8538 must be only used up to a value of 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product |
| ex 8541 | Diodes, transistors and similar semiconductor devices, except wafers not yet cut into chips | Manufacture in which: - all the materials used are classified within a heading other than that of the product, - the value of all the materials used does not exceed 40 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |
|---------------|---|--|--|
| 8542 | Electronic integrated circuits and microassemblies: | Manufacture in which: - the value of all the materials used does not exceed 40 % of the ex-works price of the product, and - within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the ex-works price of the product | Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product |
| 8544 | Insulated (including enamelled or anodized) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8545 | Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8546 | Electrical insulators of any material | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8547 | Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly, other than insulators of heading 8546; electrical conduit tubing and joints therefor, of base metal lined with insulating material | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |
| 8548 | Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus, not specified or included elsewhere in this Chapter | Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product | |

| HS heading No | Description of product | Working or processing carried out on non-originating materials that confers originating status | |

ANNEX III

Certificate of origin, Form A

1. Certificates of Origin Form A must conform to the specimen shown in this annex. The use of English or French for the notes on the reverse of the certificate shall not be obligatory. Certificates shall be made out in English or French. If completed by hand, entries must be in ink and in capital letters.

2. Each certificate shall measure 210 x 297 mm; a tolerance up to plus 5 mm or minus 8 mm in the length may be allowed. The paper used shall be white writing paper, sized, not containing mechanical pulp and weighing not less than 25 g/m². It shall have a printed green guilloche-pattern background making any falsification by mechanical or chemical means apparent to the eye.

If the certificates have several copies, only the top copy which is the original shall be printed with a printed guilloche-pattern background.

3. Each certificate shall bear a serial number, printed or otherwise, by which it can be identified.

I. Countries which accept Form A for the purposes of the generalized system of preferences (GSP):

| | | | |
|--|-----------------|------------|----------------|
| Australia* | European Union: | | |
| Belarus | Austria | Finland | Netherlands |
| Canada | Belgium | France | Poland |
| Japan | Bulgaria | Hungary | Portugal |
| New Zealand** | Cyprus | Ireland | Romania |
| Norway | Czech Republic | Italy | Slovakia |
| Russian Federation | Denmark | Latvia | Slovenia |
| Switzerland including Liechtenstein*** | Estonia | Lithuania | Spain |
| Turkey | Germany | Luxembourg | Sweden |
| United States of America**** | Greece | Malta | United Kingdom |

Full details of the conditions covering admission to the GSP in these countries are obtainable from the designated authorities in the exporting preference-receiving countries or from the customs authorities of the preference-giving countries listed above. An information note is also obtainable from the UNCTAD secretariat.

II. General conditions

To qualify for preference, products must:

- (a) fall within a description of products eligible for preference in the country of destination. The description entered on the form must be sufficiently detailed to enable the products to be identified by the customs officer examining them;
- (b) comply with the rules of origin of the country of destination. Each article in a consignment must qualify separately in its own right; and,
- (c) comply with the consignment conditions specified by the country of destination. In general, products must be consigned direct from the country of exportation to the country of destination but most preference-giving countries accept passage through intermediate countries subject to certain conditions. (For Australia, direct consignment is not necessary).

III. Entries to be made in Box 8

Preference products must either be wholly obtained in accordance with the rules of the country of destination or sufficiently worked or processed to fulfil the requirements of that country's origin rules.

- (a) Products wholly obtained: for export to all countries listed in Section I, enter the letter "P" in Box 8 (for Australia and New Zealand Box 8 may be left blank).
- (b) Products sufficiently worked or processed: for export to the countries specified below, the entry in Box 8 should be as follows:
 - (1) United States of America: for single country shipments, enter the letter "Y" in Box 8, for shipments from recognized associations of countries, enter the letter "Z", followed by the sum of the cost or value of the domestic materials and the direct cost of processing, expressed as a percentage of the ex-factory price of the exported products; (example "Y" 35% or "Z" 35%).
 - (2) Canada: for products which meet origin criteria from working or processing in more than one eligible least developed country, enter letter "G" in Box 8; otherwise "F".
 - (3) The European Union, Japan, Norway, Switzerland including Liechtenstein, and Turkey; enter the letter "W" in Box 8 followed by the Harmonized Commodity Description and coding system (Harmonized System) heading at the 4-digit level of the exported product (example "W" 96.18).
 - (4) Russian Federation: for products which include value added in the exporting preference-receiving country, enter the letter "Y" in Box 8 followed by the value of imported materials and components expressed as a percentage of the fob price of the exported products (example "Y" 45%); for products obtained in a preference-receiving country and worked or processed in one or more other such countries, enter "Pk".
 - (5) Australia and New Zealand: completion of Box 8 is not required. It is sufficient that a declaration be properly made in Box 12.

* For Australia, the main requirement is the exporter's declaration on the normal commercial invoice. Form A, accompanied by the normal commercial invoice, is an acceptable alternative, but official certification is not required.

** Official certification is not required.

*** The Principality of Liechtenstein forms, pursuant to the Treaty of 29 March 1923, a customs union with Switzerland.

**** The United States does not require GSP Form A. A declaration setting forth all pertinent detailed information concerning the production or manufacture of the merchandise is considered sufficient only if requested by the district collector of Customs.

NOTES (2007)

I. Pays qui acceptent la formule A aux fins du système généralisé de préférences (SGP):

| | | | |
|------------------------------------|-------------------|------------|--------------------|
| Australie* | Union Européenne: | | |
| Belarus | Allemagne | France | Pays-Bas |
| Canada | Autriche | Grèce | Pologne |
| Etats-Unis d'Amérique*** | Belgique | Hongrie | Portugal |
| Fédération de Russie | Bulgarie | Irlande | République tchèque |
| Japon | Chypre | Italie | Roumanie |
| Norvège | Danemark | Lettonie | Royaume-Uni |
| Nouvelle-Zélande** | Espagne | Lituanie | Slovaquie |
| Suisse y compris Liechtenstein**** | Estonie | Luxembourg | Slovénie |
| Turquie | Finlande | Malte | Suède |

Des détails complets sur les conditions régissant l'admission au bénéfice du SGP dans ce pays peuvent être obtenus des autorités désignées par les pays exportateurs bénéficiaires ou de l'administration des douanes des pays donneurs qui figurent dans la liste ci-dessus. Une note d'information peut également être obtenue du secrétariat de la CNUCED.

II. Conditions générales

Pour être admis au bénéfice des préférences, les produits doivent:

- correspondre à la définition établie des produits pouvant bénéficier du régime de préférences dans les pays de destination. La description figurant sur la formule doit être suffisamment détaillée pour que les produits puissent être identifiés par l'agent des douanes qui les examine;
- satisfaire aux règles d'origine du pays de destination. Chacun des articles d'une même expédition doit répondre aux conditions prescrites; et
- satisfaire aux conditions d'expédition spécifiées par le pays de destination. En général, les produits doivent être expédiés directement du pays d'exportation au pays de destination; toutefois, la plupart des pays donneurs de préférences acceptent sous certaines conditions le passage par des pays intermédiaires (pour l'Australie, l'expédition directe n'est pas nécessaire).

III. Indications à porter dans la case 8

Pour bénéficier des préférences, les produits doivent avoir été, soit entièrement obtenus, soit suffisamment ouverts ou transformés conformément aux règles d'origine des pays de destination.

- Produits entièrement obtenus: pour l'exportation vers tous les pays figurant dans la liste de la section, il y a lieu d'inscrire la lettre "P" dans la case 8 (pour l'Australie et la Nouvelle-Zélande, la case 8 peut être laissée en blanc).
- Produits suffisamment ouverts ou transformés: pour l'exportation vers les pays figurant ci-après, les indications à porter dans la case 8 doivent être les suivantes:
 - Etats Unis d'Amérique: dans le cas d'expédition provenant d'un seul pays, inscrire la lettre "Y" ou, dans le cas d'expéditions provenant d'un groupe de pays reconnu comme un seul, la lettre "Z", suivie de la somme du coût ou de la valeur des matières et du coût direct de la transformation, exprimée en pourcentage du prix départ usine des marchandises exportées (exemple: "Y" 35% ou "Z" 35%);
 - Canada: il y a lieu d'inscrire dans la case 8 la lettre "G" pour les produits qui satisfont aux critères d'origine après ouvrage ou transformation dans plusieurs des pays les moins avancés; sinon, inscrire la lettre "F";
 - Japon, Norvège, Suisse y compris Liechtenstein, Turquie et l'Union européenne: inscrire dans la case 8 la lettre "W" suivie de la position tarifaire à quatre chiffres occupée par le produit exporté dans le Système harmonisé de désignation et de codification des marchandises (Système harmonisé) (exemple "W" 96.18);
 - Fédération de Russie: pour les produits avec valeur ajoutée dans le pays exportateur bénéficiaire de préférences, il y a lieu d'inscrire la lettre "Y" dans la case 8, en la faisant suivre de la valeur des matières et des composants importés, exprimée en pourcentage du prix fob des marchandises exportées (exemple: "Y" 45%); pour les produits obtenus dans un pays bénéficiaire de préférences et ouverts ou transformés dans un ou plusieurs autres pays bénéficiaires, il y a lieu d'inscrire les lettre "Pk" dans la case 8;
 - Australie et Nouvelle-Zélande: il n'est pas nécessaire de remplir la case 8. Il suffit de faire une déclaration appropriée dans la case 12.

* Pour l'Australie, l'exigence de base est une attestation de l'exportateur sur la facture habituelle. La formule A, accompagnée de la facture habituelle, peut être acceptée en remplacement, mais une certification officielle n'est pas exigée.

** Un visa officiel n'est pas exigé.

*** Les Etats-Unis n'exigent pas de certificat SGP Formule A. Une déclaration reprenant toute information appropriée et détaillée concernant la production ou la fabrication de la marchandise est considérée comme suffisante, et doit être présentée uniquement à la demande du receveur des douanes du district (District collector of Customs).

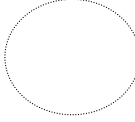

**** D'après l'Accord du 29 mars 1923, la Principauté du Liechtenstein forme une union douanière avec la Suisse.

NOTLAR

1. Sertifikalar, silinmeler veya birbiri üzerine yazılmış kelimeler ihtiva edemez. Değişiklikler doğru olmayan kayıtların üzeri çizilmek ve gerekli düzeltmeler eklenmek suretiyle yapılır. Böyle bir değişiklik, sertifikayı düzenleyen kişi tarafından paraf edilmeli ve düzenlendiği ülke gümrük idaresi tarafından onaylanmalıdır.
2. Sertifikaya kaydedilen maddeler arasında boşluk bırakılmamalı ve her bir madde önüne bir sıra numarası konulmalıdır. Son maddenin hemen altına yatay bir çizgi çekilmelidir. Kullanılmayan yerler, sonradan bir eklemeyi imkansız kılmak üzere aynı şekilde iptal edilmelidir.
3. Eşya, ticari faaliyetlere uygun olarak ve teşhis edilmelerini sağlayacak yeterli ayrıntularla tanımlanmalıdır.

NOTES

1. Certificates must not contain erasures or words written over one another. Any alterations must be made by deleting the incorrect particulars and adding any necessary corrections. Any such alteration must be initialled by the person who completed the certificate and endorsed by the customs authorities of the issuing country or territory.
2. No spaces must be left between the items entered on the certificate and each item must be preceded by an item number. A horizontal line must be drawn immediately below the last item. Any unused space must be struck through in such a manner as to make any later additions impossible.
3. Goods must be described in accordance with commercial practice and with sufficient detail to enable them to be identified.

*Bu belge Türkiye Cumhuriyeti, Başbakanlık Gümrük Müsteşarlığının izni ile basılmıştır.
