**Re-introduction of the TIR Guarantee in the EU for some goods considered as “sensitive”  
if transported under certain weight limitations**

Following the commitments taken by IRU and in order to align the TIR guarantee on Annex 44c (“Goods involving greater risk of fraud”) of the Implementing Regulation of the Community Customs Code, we hereby inform you that after major negotiations, the Insurers of the TIR System as well as the EU Associations accepted to re-introduce from 1<sup>st</sup> January 2008, 00h00 GMT:

***within the weight limitations stipulated in Annex 44c, the coverage for transports under TIR procedures on EU territory of goods which were until now totally excluded from the TIR Guarantee in the EU.***

The enclosed document recapitulates the list of the sensitive goods for which the TIR Guarantee in the EU is restored under certain weight limitations.

Furthermore, please note that TIR coverage will be fully restored for the transport of bananas on the territory of the European Union, without limitation.

It is important to underline that Tobacco products with HS codes 24.02.10, 24.02.20 and 24.03.10, as well as Alcohol and derived products with HS codes 22.07.10 and 22.08 are still excluded from the TIR Guarantee in all the Contracting Parties to the TIR Convention, EU included.

This will be duly reported in the certificates of insurance to be issued for the year 2008 to the EU Associations who will then inform their respective Customs Authorities accordingly.

For your information, the TAXUD receives an identical letter.

We thank you to forward this information to the Contracting Parties to the TIR Convention.

Signed

Martin Marmy  
Secretary General
