Agenda items 140 and 152

### Administrative and budgetary aspects of the financing of the United Nations peacekeeping operations

#### Financing of the United Nations Mission in Liberia

## Financial performance report for the period from 1 July 2006 to 30 June 2007 and proposed budget for the period from 1 July 2008 to 30 June 2009 of the United Nations Mission in Liberia

### Report of the Advisory Committee on Administrative and Budgetary Questions

Appropriation for 2006/07	\$714,613,300
Expenditure for 2006/07	\$676,202,000
Unencumbered balance for 2006/2007	\$38,411,300
Appropriation for 2007/2008	\$688,330,600
Projected expenditure 2007/08 <sup>a</sup>	\$670,420,287
Estimated unencumbered balance for 2007/08 <sup>a</sup>	\$17,910,313
Proposal submitted by the Secretary-General for 2008/09	\$603,708,000
Recommendation of the Advisory Committee for 2008/09	\$603,708,000

<sup>a</sup> Estimates as at 31 March 2008 (see annex I).

## I. Introduction

1. **The Advisory Committee on Administrative and Budgetary Questions recommends approval of the proposals of the Secretary-General for the United Nations Mission in Liberia (UNMIL) for the period from 1 July 2008 to 30 June 2009.**

2. The general report of the Advisory Committee on the administrative and budgetary aspects of the United Nations peacekeeping operations (A/62/781) contains its views and recommendations on a number of cross-cutting issues. In the paragraphs below, the Committee deals with resources and other items that relate specifically to UNMIL.

3. The documents reviewed and used for background by the Advisory Committee in its consideration of the financing of UNMIL are listed at the end of the present report.

## II. Financial performance report for the period from 1 July 2006 to 30 June 2007

4. By its resolution 60/276, the General Assembly appropriated an amount of \$714,613,300 gross (\$704,321,400 net) for the maintenance of the Mission for the period from 1 July 2006 to 30 June 2007. Expenditures for the period totalled \$676,202,000 gross (\$665,151,700 net).

5. The resulting unencumbered balance of \$38,411,300 gross (\$39,169,700 net) represents, in gross terms, 5.4 per cent of the appropriation and reflects underexpenditures of \$12,755,200 under military and police personnel and \$32,161,400 under operational costs. Analysis of variances is provided in paragraphs 11 to 46 of the performance report on the budget of the Mission for the period from 1 July 2006 to 30 June 2007 (A/62/648).

6. The underexpenditures are attributable mainly to the following factors:

(a) *Military contingents (\$9,311,900)*. Three contingent units were repatriated earlier than anticipated, and the number of military personnel was decreased by 125 pursuant to Security Council resolution 1694 (2006), by which the Council also increased the authorized size of the civilian police component by 125;

(b) *United Nations police (\$9,491,500)*. The reconfiguration of the police component within the authorized strength of 1,240 personnel resulted in a reduction of 240 United Nations police personnel and a corresponding increase in the formed police units, with a lower requirement for mission subsistence allowance;

(c) *National staff (\$1,467,400)*. Recruitment was slower than planned;

(d) *Facilities and infrastructure (\$12,186,900)*. Reduced requirements for fuel followed implementation of the mission electronic fuel accounting system, and requirements for security services and renovation were also lower;

(e) *Ground transportation (\$5,292,300)*. Reduced requirements for fuel followed implementation of the mission electronic fuel accounting system, and requirements for spare parts, insurance and rental of vehicles were also lower;

(f) *Air transportation (\$6,874,700)*. Lower requirements resulted from the forward deployment of helicopter assets and the non-deployment of a replacement for a fixed-wing aircraft put out of action by an accident;

(g) *Communications (\$5,212,100)*. Reduced requirements were due to the repatriation of military personnel and lower requirements for public information services, spare parts and commercial communications;

(h) *Medical (\$1,853,000)*. Costs for medical and casualty evacuations were lower than budgeted;

(i) *Special equipment (\$2,170,900)*. Reduced requirements were due to the repatriation of three contingent units and lower amounts for the acquisition of observation equipment, given the sufficient stock.

7. Underexpenditures were partially offset by increased requirements under:

(a) *Formed police units (\$6,142,400)*. There was an increase of 365 personnel;

(b) *International staff (\$8,090,200)*. Salary scales were revised, vacancy rates were lower than budgeted vacancy rates and there were expenditures on residential security measures previously budgeted under facilities and infrastructure;

(c) *Official travel (\$922,300)*. Provisions for within-mission travel were not included in the budget for 2006/07;

(d) *Other supplies, services and equipment (\$1,094,200)*. There were losses on exchange rates, bank charges and other services.

8. The comments of the Advisory Committee on the information presented in the performance report (A/62/648) on individual objects of expenditure can be found, where relevant, in the discussion of the proposed budget for the period from 1 June 2008 to 30 June 2009 (A/62/764) in the paragraphs below.

### III. Information on performance for the current period

9. The Advisory Committee was informed that, as at 29 February 2008, a total of \$3,446,261,000 had been assessed on Member States in respect of UNMIL since its inception. Payments received as at the same date amounted to \$3,032,183,000, leaving an outstanding balance of \$414,078,000. As at 24 March 2008, the cash position of the Mission was \$400,600,000. Taking into account the three-month operating reserve of \$95,205,900, the remaining cash balance of \$305,394,100 was sufficient to allow for reimbursements to troop-contributing countries at the next scheduled payment date, in June 2008.

10. The Advisory Committee was informed that, as at 31 December 2007, \$31,750,000 was owed for troop-cost reimbursements and \$27,666,000 for contingent-owned equipment. In respect of death and disability compensation, \$3,371,900 had been paid for 89 claims since the inception of the Mission; 17 claims were pending and unliquidated obligations amounted to \$1,951,400. **The Committee expects that these claims will be settled expeditiously.**

11. The Advisory Committee was informed that, as at 31 March 2008, the incumbency for UNMIL for the period from 1 July 2007 to 30 June 2008 was as follows:

	<i>Authorized<sup>a</sup></i>	<i>Encumbered</i>	<i>Vacancy rate (percentage)</i>
Military observers	215	196	9
Military contingent personnel	14 060	12 242	13
United Nations police	635	546	14
Formed police units	605	602	0
International staff	568	503	11
National staff	983	929	5
United Nations Volunteers	259	236	9

<sup>a</sup> Represents the highest authorized strength for the period.

12. The Advisory Committee was provided with a table on current and projected expenditures for the period from 1 July 2007 to 30 June 2008, with reasons for variances (see annex I). Expenditures for the period as at 31 March 2008 amounted to \$476,413,293. At the end of the current financial period, the estimated total expenditures would amount to \$670,420,287 against the appropriation of \$688,330,600, leaving a projected unencumbered balance of \$17,910,313.

13. The Advisory Committee notes that the projected unencumbered balance reflects underexpenditures primarily under military and police personnel, international staff and operational costs. The reasons for these variances are indicated in annex I to the present report.

#### **IV. Proposed budget for the period from 1 July 2008 to 30 June 2009**

##### **A. Mandate and planned results**

14. The mandate of UNMIL was established by the Security Council in its resolution 1509 (2003). By its resolution 1777 (2007), the Council extended the mandate of the Mission until 30 September 2008.

15. The Advisory Committee notes that, with the completion of the consolidation phase by December 2007, UNMIL has entered into the drawdown phase under the framework of consolidation, drawdown and withdrawal proposed by the Secretary-General in his tenth progress report to the Security Council (S/2006/159). In its resolution 1777 (2007), the Council endorsed the proposed drawdown plans for the military and police components, i.e., a reduction of 2,450 military personnel during the period from October 2007 to September 2008 and a reduction of 498 police officers during the period from April 2008 to December 2010. The Committee also notes that the pace of the drawdown process is linked to the progress in achieving the core benchmarks indicated in paragraph 66 of the fifteenth progress report of the Secretary-General to the Council (S/2007/479). In addition, benchmarks for the

drawdown phase are contained in annex I to the latest report of the Secretary-General to the Security Council (S/2008/183).

## B. Resource requirements

16. The proposed budget for UNMIL for 2008/09 amounts to \$603,708,000, representing a decrease of \$84,622,600, or 12.3 per cent, in gross terms, compared with the appropriation of \$688,330,600 for 2007/08. An analysis of variances is provided in paragraphs 80 to 133 of the proposed budget (A/62/764).

17. The budget provides for the deployment of 215 military observers, 11,602 military contingent personnel, 582 United Nations police officers, 605 formed police unit personnel, 549 international staff (including 2 temporary positions), 1,049 national staff (including 2 temporary positions) and 251 United Nations Volunteers.

### 1. Military and police personnel

<i>Category</i>	<i>Approved 2007/08<sup>a</sup></i>	<i>Proposed 2008/09<sup>b</sup></i>	<i>Variance</i>
Military observers	215	215	—
Military contingent personnel	14 060	11 602	(2 458)
United Nations police	635	582	(53)
Formed police units	605	605	—

<sup>a</sup> Represents the highest authorized strength for the period.

<sup>b</sup> See also paras. 19 to 21 below.

18. The proposed budget for military and police personnel for the period from 1 July 2008 to 30 June 2009 amounts to \$298,001,300, a decrease of \$59,842,000, or 16.7 per cent, compared to the appropriation for 2007/08.

19. A phased reduction of 128 military observers from the current authorized strength of 215 is planned by 31 March 2009. The proposed drawdown would result in an overall average strength of some 152 military observers for the 2008/09 period. A 5 per cent vacancy factor has been applied to the cost estimates for military observers.

20. The lower requirements for military contingents relate to the phased reduction of 2,458 personnel of three infantry battalions and three infantry companies between October 2007 and 30 September 2008, offset in part by increased requirements in mission subsistence allowance for military staff officers. A 2 per cent vacancy factor has been applied to the cost estimates for military contingents.

21. The reduced requirements for United Nations police reflect a phased reduction from the current strength of 635 United Nations police to 398 by January 2009. A 5 per cent vacancy factor has been applied to the cost estimates. The increased requirements for the formed police units are attributable to the anticipated full deployment of their 605 personnel.

## 2. Civilian personnel

<i>Category</i>	<i>Approved 2007/08</i>	<i>Proposed 2008/09</i>	<i>Variance</i>
International staff	568	547	(21)
National staff	983	1 047	64
United Nations Volunteers	259	251	(8)
Temporary positions	9	4	(5)

22. The proposed budget for civilian personnel for the period from 1 July 2008 to 30 June 2009 amounts to \$115,293,900, a decrease of \$1,796,600, or 1.5 per cent. Reduced requirements are attributable to a net decrease of 21 posts for international staff, 8 United Nations Volunteers and 5 positions under general temporary assistance, offset in part by a total of 64 additional posts for national staff. A 10 per cent vacancy factor has been applied to cost estimates for international staff and 5 per cent for national staff.

### Recommendation on posts

23. The proposed establishment of 51 national General Service posts reflects the conversion of 31 individual contractors to posts in the Transport Section (19 drivers and 12 vehicle technicians) and the establishment of 20 national General Service staff in the Security Office (15 firefighters and 5 fire engine drivers) (A/62/764, paras. 40 and 42). In its general report on the administrative and budgetary aspects of United Nations peacekeeping operations, the Advisory Committee welcomed the proposals of the Secretary-General to phase out the practice of hiring individual contractors for functions of a continuing nature (A/62/781, para. 36).

24. A summary of the posts requested for conversion, establishment and abolition is presented in annex II to the present report. **The Advisory Committee welcomes the conversion of international posts to national posts, which contributes to national capacity-building. The Committee recommends approval of the proposals of the Secretary-General.**

## 3. Operational costs

<i>Apportioned 2007/08</i>	<i>Proposed 2008-2009</i>	<i>Variance</i>
\$213 396 800	\$190 412 800	(\$22 984 000)

25. The estimated operational requirements for the period from 1 July 2008 to 30 June 2009 reflect a decrease of \$22,984,000, or 10.8 per cent, in comparison with the appropriation for 2007/08.

26. The decrease is attributable mainly to lower requirements resulting from the phased reduction of 2,458 military contingent personnel (see also para. 20) under:

- (a) Facilities and infrastructure (\$9,039,200);
- (b) Ground transportation (\$3,366,000);
- (c) Communications (\$2,734,600);

- (d) Medical (\$2,550,700);
- (e) Special equipment (\$1,249,700).

Other contributing factors include lower requirements under air transportation (\$5,690,300), offset in part by an increase under information technology (\$1,056,100) for replacement of equipment.

### **Air transportation**

27. The decrease of \$5,690,300 for 2008/09 is attributable primarily to:
- (a) A reduction of the air fleet by one heavy transport MI-26 helicopter;
  - (b) Reduced fuel requirements as a result of the use of more fuel-efficient fixed-wing aircraft and a 10 per cent decrease in budgeted flying hours;
  - (c) Discontinuation of monthly dedicated flights for cash deliveries.
28. The overall decrease is offset in part by increased requirements for the rental and operation of three fixed-wing aircraft as a result of the change in aircraft type:
- (a) A regional wide-bodied aircraft (Boeing 757-200);
  - (b) A regional and liaison airliner (Beechcraft 1900D) capable of landing on short runways;
  - (c) A medium utility/passenger aircraft (Dash-7), also with short take-off and landing capability.
29. The Advisory Committee notes from the budget that the rental and operation of the regional wide-bodied and regional liaison airliner involve increased contract costs, but that it is expected to achieve net economies, as the increased passenger capacity would reduce the cost of the emplacement, rotation and repatriation of the military contingents. The aircraft would also be used to support the United Nations Operation in Côte d'Ivoire and other missions, as needed (A/62/764, para. 115).

### **Fuel**

30. The Advisory Committee notes that the implementation of the mission electronic fuel accounting system has allowed stricter controls of fuel consumption, through better fuel management (A/62/648, paras. 32 and 35). In its last report on UNMIL (A/61/852/Add.7, para. 33), the Committee requested that the next budget submission contain an appraisal of the efficiency gains realized. In this regard, the Committee was informed that the system was operational in 12 locations, with the remaining 8 locations scheduled to be operational by 31 July 2008. The Committee was also informed that estimated savings of \$1.2 million had been achieved by 31 March 2008 and that the total savings for 2007/08 were expected to be \$1.6 million.

31. **The Advisory Committee notes that efficiency gains from better management contributed to underexpenditure for fuel. Upon enquiry, the Committee was informed that overbudgeting was also a major factor in underexpenditure for fuel.** In this regard, the Committee was informed that the mission had benefited from the visit of a budget team from Headquarters, under the Abacus initiative, during its preparation of the budget for 2008/09.

### **Quick-impact projects**

32. A provision of \$1,000,000 for quick-impact projects is proposed in the budget for 2008/09, at the same level of the appropriation for 2007/08. A total of 45 projects are planned (A/62/764, paras. 73-78).

33. Upon enquiry, the Advisory Committee was informed that in 2007 an independent consultant conducted a review of 287 projects carried out in earlier years at an approximate cost of \$4 million. The review concluded that quick-impact projects raised awareness of the peacekeeping activities of UNMIL and that, in general, the projects should not be a substitute for recovery or development actions of United Nations agencies, government or non-governmental organizations. The Committee was also informed that the indirect effects of these small projects is that capacity is being built among small firms and associations to undertake projects with the advice and assistance of UNMIL engineers and that this effort will assist Liberia in terms of capacity and know-how for years to come. **While recognizing that the Mission is in the drawdown phase, the Committee still sees merit in the implementation of quick-impact projects and therefore recommends approval of the proposed budget of \$1 million for quick-impact projects for 2008/09.**

## **4. Other**

### **Budget presentation**

34. **The Advisory Committee notes the well-prepared proposed budget for 2008/09 for UNMIL and the inclusion of information on the activities of other United Nations entities in Liberia (A/62/764, annex II). The Committee considers that information on the activities of such entities is relevant and that it facilitates better understanding of the integration and coordination of the activities of the various partners in the field.**

### **Handover to the United Nations country team**

35. The Advisory Committee notes the Mission's expectation that the projected inputs of development agencies will progressively increase in the post-conflict period. **Bearing in mind the completed consolidation, current drawdown and eventual withdrawal of UNMIL from Liberia, the Committee wishes to emphasize the roles and responsibilities of the United Nations country team in progressively taking over functions performed by UNMIL in order to ensure a successful transition from recovery to development.** In this regard, the Committee was informed that UNMIL and the United Nations country team had jointly developed the integrated mission planning process in 2006 in line with the Secretary-General's revised guidelines on the integrated mission planning process, and that, in parallel, UNMIL had developed benchmarks for the Mission's consolidation, drawdown and withdrawal process, in accordance with the Security Council mandate. These benchmarks were incorporated into the integrated mission planning process.

### **Training of national staff**

36. The Advisory Committee notes the implementation by UNMIL of a capacity-building project for national staff, the aim of which is to have 120 staff assessed and certified in 10 vocational skills and 60 administration staff certified in professional

administration (A/62/764, para. 56). The Committee was informed that a goal of the training activities for the 2008/09 period would be for 82 per cent of the trainees to be national staff. The Committee was further informed that since 2006, 75 national staff have become United Nations Volunteers, 8 have been selected for international posts and 15 have served on temporary duty in other missions. **The Committee commends these efforts in national capacity-building.**

#### **Key performance indicators**

37. The Advisory Committee notes a management initiative by UNMIL to develop key performance indicators that graphically depict performance in critical areas. The Committee was informed that this initiative had been shared with other missions and the Communications and Information Technology Service of the Department of Field Support, where a tool is being built for the monthly report (A/62/781, para. 67).

#### **Recommendations of the Board of Auditors**

38. **The Advisory Committee notes the comments raised by the Board with respect to UNMIL and requests that the recommendations of the Board be implemented in a timely manner.** The Committee notes, in particular, the comment by the Board on longer lead time for contract approval and measures implemented to reduce lead time, including the use of the expediting and tracking sheet by the Mission to monitor its procurement lead time (A/62/764, sect. V.C). Upon enquiry, the Committee was informed that the use of the tracking sheet enables an overview of the procurement cycle and activities, and, as a management tool, it highlights the work overload of particular staff, thus enabling the redistribution of work.

## **V. Conclusion**

39. The action to be taken by the General Assembly in connection with the financing of UNMIL for the period from 1 July 2006 to 30 June 2007 is indicated in paragraph 47 of the performance report (A/62/648). **The Advisory Committee recommends that the unencumbered balance of \$38,411,300, as well as other income and adjustments in the amount of \$46,097,200, be credited to Member States in a manner to be determined by the Assembly.**

40. The action to be taken by the General Assembly in connection with the financing of UNMIL for the period from 1 July 2008 to 30 June 2009 is indicated in paragraph 134 of the proposed budget (A/62/764). **The Advisory Committee recommends that, should the Security Council decide to continue the mandate of UNMIL, the General Assembly appropriate an amount of \$603,708,000 for the maintenance of the Mission for the 12-month period from 1 July 2008 to 30 June 2009.**

Savings were partially offset by an increase in the number of required in-house projects, freight costs and additional parts for the acquisition of bridges and infrastructure.

	Apportionment (1)	1 July 2007 to 31 March 2008		Projected expenditure 1 April to 30 June 2008 (4)	Total expenditure, including projected (5)=(2)+(4)	Estimated unencumbered balance (6)=(1)-(5)	Variance (percentage) (7)=(6)÷(1)	Reasons for variance

Air transportation	69 139 200	61 054 802	8 084 398	9 224 199	70 279 001	(1 139 801)	(1.6)	Projected overexpenditure is due to the high guaranteed cost of the new aircraft, B-757 and B-1900, offset by savings (\$2,866,349) due mainly to lower fuel consumption resulting from the utilization of the fuel-efficient fixed-wing aircraft B-757 as opposed to the planned B-727.
