Item 2 of the provisional agenda

**UNFPA – Financial, budgetary and administrative matters**

**UNITED NATIONS POPULATION FUND**

Statistical and financial review, 2007

*Summary*

In view of the implementation of the enterprise resource planning (ERP) system and the early availability of required data, effective this year, the Statistical overview and the Annual financial review documents, which previously were made available to the Executive Board at the annual session and at the second regular session, respectively, are merged into one document.

From 2006 to 2007, total income to UNFPA increased by \$146.7 million, or 24.2 per cent, to \$752.2 million. UNFPA resources surpassed the \$500-million level for the fourth sequential year, including \$457.1 million in regular resources, the highest total ever in the history of UNFPA. Increased and predictable core resources are necessary to enable UNFPA to deliver its programmes to help countries attain the goals of the International Conference on Population and Development (ICPD) and the Millennium Declaration, as well as the commitments made at the 2005 World Summit, including achieving universal access to reproductive health by 2015.

UNFPA will continue to focus its programme delivery on supporting and promoting national ownership and capacity-building. With respect to the funding base, UNFPA will continue to focus on increasing and achieving more stability and predictability in contributions to regular resources, which are the foundation and bedrock of the Fund's operations.

Regular resource contribution income increased by \$58.5 million, or 16.2 per cent, from 2006 to 2007. The increase is due mainly to \$31.5 million in higher contributions from 13 major donors and \$27.0 million on account of favourable exchange rates as reflected in annex 2, table 4.

Total expenditure increased by \$92.4 million, or 17.2 per cent, to \$629.0 million in 2007. Of that increase, \$92.1 million (99.7 per cent) was attributable to increased programme activities.

The balance of unexpended regular resources at the end of 2007, after adjustments for unfunded liabilities for staff benefits (\$32.2 million in 2007) and for a restricted contribution from a private endowment trust (\$18.3 million in 2007), was \$64.1 million (in 2006 it was \$42.9 million). Of this amount, \$21.3 million is reserved for the one-time cost of UNFPA reorganization. After excluding this amount, the balance of \$42.8 million (10.2 per cent of regular resources income) was available for reprogramming in 2008, which is comparable to the \$42.9 million balance available at the end of 2006. Annex 2, table 8, delineates the movements in reserves and fund balances. Statutory reserves were replenished in accordance with applicable UNFPA Financial Regulations and Rules.

UNFPA closed the year 2007 in robust financial health.

## Introduction

1. The Statistical and financial review, 2007, provides summary information on UNFPA income and expenditure for the year and on assets, liabilities and fund balances at 31 December 2007. This information is provided for activities funded by both regular and other resources. All figures are provisional subject to external audit, and may not add up to totals due to rounding. In view of the implementation of the enterprise resource planning (ERP) system and the early availability of required data, effective this year, the Statistical overview and the Annual financial review documents, which previously were made available to the Executive Board at the annual session and at the second regular session, respectively, are merged into one document.

2. The statements "Income and expenditures and fund balances for the year ended 31 December 2007" are provided in annex 2, table 1, for regular, other and total resources and in annex 2, table 2, for other resources by category. The statement "Assets, liabilities and fund balances for the year ended 31 December 2007" is provided in annex 2, table 3, for regular, other and total resources.

15. At 31 December 2007, a provision of \$0.1 million (in 2006 it was \$0.1 million) was made in respect of contributions receivable for which collection is considered doubtful.

16. Increased interest rates and a larger investment portfolio gave rise to interest income for the year of \$18.3 million (in 2006 it was \$10.8 million). Other income totalled \$1.5 million for the year.

17. Annex 2, table 4 provides a summary of contributions in excess of \$1.0 million.

### B. Programme expenditure

18. Actual programme expenditure for the year, which includes the direct and indirect costs of programme activities of \$273.6 million and \$18.6 million in Technical Advisory Programme (TAP) expenditure, totalled \$292.2 million (in 2006 it was \$265.0 million).

C. Biennial support budget

20. The revised gross and net biennial support budget (BSB) appropriations for the biennium ending 31 December 2007 were \$209.0 million and \$196.4 million, respectively.

21. Actual BSB activity for the year can be summarized as follows:

	<u>2007</u>	<u>2006</u>
	\$m	\$m
Gross BSB expenditures	101.1	97.0
Credits to BSB	(13.3)	(10.0)
Net BSB expenditures	<u>87.8</u>	<u>87.0</u>
Total expenditure	385.4	357.4
Net BSB as percentage of total expenditure	<u>22.8%</u>	<u>24.3%</u>

22. Actual BSB expenditures can be summarized as follows:

	<u>2007</u>	<u>2006</u>
	\$m	\$m
Posts	76.5	70.4
Operating expenses	14.2	15.6
Reimbursement to United Nations agencies	6.6	6.4
Furniture and equipment	1.3	1.9
Travel	1.4	1.4
Consultants	0.9	1.1
Other staff costs	0.2	0.2
Gross total	<u>101.1</u>	<u>97.0</u>
Credits to BSB	<u>(13.3)</u>	<u>(10.0)</u>
Net BSB expenditures	<u>87.8</u>	<u>87.0</u>

23. Gross BSB appropriations for the 2006-2007 biennium were 94.8 per cent utilized as of 31 December 2007. Annex 2, table 7, provides a trend analysis of gross biennial support budget expenditures.

24. Personnel. As of 1 January 2007, the total number of authorized budget posts numbered 1,031, comprising 497 Professional (including 263 national programme officers) and 534 General Service staff. These include 123 Professional and 109 General Service posts at headquarters, 2 Professional and 1 General Service posts in Geneva and 372 Professional and 424 local General Service posts in the field. The percentage of women among UNFPA Professional staff at headquarters and in the field was 46 per cent in 2007, one of the highest percentages among United Nations agencies and organizations. Moreover, in 2007, six of the 11 members of the Fund's Executive Committee were women.

D. Implementation of the enterprise resource planning system

25. The total development costs for the enterprise resource planning system approved by the Executive Board is \$22.7 million. Expenditures of \$2.8 million were incurred in the year ended 31 December 2007 (in 2006 it was \$2.2 million). Cumulative expenditures since inception total \$19.0 million.

E. Fund balances and reserves

26. The balance of unexpended resources at 1 January 2007 was \$1.2 million (in 2006 it was \$48.6 million). The net excess of income over expenditure for the year was \$71.7 million (in 2006 it was \$32.2 million) and, together with other reserve movements, increased the balance of unexpended resources to \$65.6 million at 31 December 2007, before making necessary adjustments. After making adjustments for unfunded liabilities for staff benefits (\$32.2 million in 2007 and \$57.1 million in 2006) and for a restricted contribution from a private endowment trust (\$18.3 million in 2007 and \$15.4 million in 2006), the distributable balance in 2007 carried over to 2008 was \$64.1 million (in 2006 it was \$42.9 million). Annex 2, table 8, delineates the movements in reserves and fund balances. Of this amount, \$21.3 million is reserved for the one-time cost of UNFPA reorganization. After excluding this amount, the balance of \$42.8 million (10.2 per cent of regular resources income) was available for reprogramming in 2008 (this is comparable to the \$42.9 million balance available at the end of 2006). Incremental after-service health insurance (ASHI) liabilities of \$3.8 million (2006: \$61.6 million initial recognition) and other accrued staff benefits of \$2.6 million (2006: \$18.0 million initial recognition) were recognized as at 31 December 2007. ASHI liability was funded by \$30.0 million in 2007.

27. At 31 December 2007, the operational reserve was increased to \$72.8 million (in 2006 it was \$72.1 million). This amount should equal 20.0 per cent of regular contributions income, in accordance with Financial Rule 112.1. However, the mandatory increase which should have been \$11.7 million was reduced by \$11.0 million as approved by the Executive Board in its decision 2007/43. The \$11.0 million will be used as a funding source for the one-time cost of the Fund's reorganization.

III. OTHER RESOURCES

A. Income and expenditure

28. Total income to other resources during the year was \$295.1 million (in 2006 it was \$216.2 million) comprising contributions of \$286.2 million (in 2006 it was \$210.0 million) and other income including interest of \$9.0 million (in 2006 it was \$6.2 million). Other resources include co-financing (trust funds, thematic trust funds, cost-sharing and other trust funds), Junior Professional Officers programme and procurement services.

29. Activities financed by co-financing funds can be summarized as follows:

#### B. Fund balances

31. The excess of income over expenditure for the year of \$49.2 million (in 2006 it was \$36.3 million), together with refunds to donors of \$9.4 million (in 2006 it was \$5.4 million) and a net transfer within UNFPA resources of \$0.2 million (in 2006 it was \$0.7 million), resulted in an increase in other resources fund balances from \$187.3 million in 2006 to \$227.0 million in 2007. However, it should be noted that of the 2007 fund balance of \$227.0 million, the amount \$190.0 million, or 83.7 per cent, relates to funds earmarked for expenditure in 2008 and beyond.

#### IV. CASH AND INVESTMENTS

32. At 31 December 2007, cash and investments held by UNFPA totalled \$303.8 million under regular resources, compared to \$225.3 million in 2006, and \$290.8 million under other resources, compared to \$263.0 million in 2006. The market value of investments held at 31 December 2007 was \$593.3 million.

#### V. RECOMMENDATION

33. **The Executive Board may wish to:**

- (a) Take note of the present report (DP/FPA/2008/5 (Part I, Add. 1));**
- (b) Recognize the significance of increasing and achieving stability and predictability in contributions to UNFPA regular resources, which are the foundation and bedrock of the Fund's operations;**
- (c) Recognize that timeliness in the payment of contributions is essential to maintaining liquidity and facilitating continuous programme implementation to assist countries in achieving the goals of the International Conference on Population and Development and the Millennium Development Goals.**
