**COMMITTEE OF EXPERTS ON THE TRANSPORT OF
DANGEROUS GOODS AND ON THE GLOBALLY
HARMONIZED SYSTEM OF CLASSIFICATION
AND LABELLING OF CHEMICALS**

Sub-Committee of Experts on the
Transport of Dangerous Goods

Thirty-third session
Geneva, 30 June-9 July (a.m) 2008
Item 4 of the provisional agenda

LISTING, CLASSIFICATION AND PACKING

New entry for Chrysotile, in Class 9

Transmitted by the International Dangerous Goods and Containers Association (IDGCA)*

Introduction

1. At present Chrysotile is classified under the UN No. 2590 – White asbestos (chrysotile, actinolite, anthophyllite, tremolite).
2. Current classification for chrysotile to be in the same group as amphibole asbestos does not reflect scientific reality and therefore chrysotile should not be classified together with most dangerous amphibole types of asbestos.
3. The IDGCA proposition is based on the following argumentation:
 - (a) There is a scientific consensus that chrysotile is the least dangerous type of asbestos in comparison with amphibole types of asbestos and pose low risk for occupational groups and general population at low level and short-term exposure;

* In accordance with the programme of work of the Sub-Committee for 2007-2008 approved by the Committee at its third session (refer to ST/SG/AC.10/C.3/60 para. 100 and ST/SG/AC.10/34, para. 14)

4. Supportive information including data sheet is provided in informal document INF.6.

5. It is proposed to withdraw chrysotile from UN No. 2590 and to assigned an individual UN No (see data sheet in the annex).

- | UN No. | Name and description | Class or | Subsidiary risk | UN Packing group | Special provisions | Limited and excepted quantities | Packagings and IBCs | | Portable tanks and bulk containers | |
|--------|---------------------------------------|----------|-----------------|------------------|--------------------|---------------------------------|----------------------|----------------------------|------------------------------------|--------------------|
| | | | | | | | Packing Instructions | Special packing provisions | Instructions | Special provisions |
| (1) | (2) | (3) | (4) | (5) | (6) | (7) | (8) | (9) | (10) | (11) |
| 3xyz | CHRYSTILE
or
CHRYSTILE
FIBRE | 9 | | III | 168 | NO | P002
IBC 08 | PPXX
B3,B4 | | |

- shrink or stretch wrapped on pallets transported as overpacks; or
- placed in flexible IBCs or closed rigid overpacks; or
- transported in closed cargo transport units.

- CHRYSOTILE 9 3xyz
or
CHRYSOTILE FIBRE

- In the INDEX, delete “Chrysotile, see 9 2590” and add the following entries

“CHRYSTILE	9	3xyz”
“CHRYSTILE FIBRE	9	3xyz”
