Recalling also that in the Political Declaration adopted by the General Assembly at its twentieth special session, the Assembly called upon all States to report biennially to the Commission on their efforts to meet the goals and targets for the years 2003 and 2008,²

Recognizing that the international drug control treaties and the outcome of the twentieth special session of the General Assembly, especially the Political Declaration, the Declaration on the Guiding Principles of Drug Demand Reduction³ and the measures to enhance international cooperation to counter the world drug problem,⁴ together constitute a comprehensive framework for drug control activities by States and relevant international organizations, and stressing the need for consistency in efforts to implement those activities,

* On behalf of the States Members of the United Nations that are members of the European Union.

¹ General Assembly resolution S-20/2, annex.

² General Assembly resolution S-20/2, annex, para. 20.

³ General Assembly resolution S-20/3, annex.

⁴ General Assembly resolutions S-20/4 A to E.

Recalling its resolution 42/11, in which it requested the Executive Director of the United Nations Office on Drugs and Crime to prepare a single biennial report, which should also cover the difficulties encountered in meeting the objectives and targets agreed upon at the twentieth special session of the General Assembly; and decided to submit a report to the Assembly in the years 2003 and 2008 on the progress achieved in meeting the goals and targets set out in the Political Declaration,

Recalling also its resolution 49/1, in which it called upon the United Nations Office on Drugs and Crime to engage with national and regional experts from all geographical regions, as well as experts from relevant international organizations in the field of drug control, on the collection and use of complementary drug-related data and expertise to support the global assessment by Member States of the implementation of the declarations and measures adopted by the General Assembly at its twentieth special session,

Recalling further its resolution 49/2, in which it encouraged non-governmental organizations to reflect on their own achievements in addressing the drug problem and to report on their progress to their respective national government bodies, in the context of reporting on the goals and targets set by the General Assembly at its twentieth special session,

Taking note of the fifth report of the Executive Director on the world drug problem,⁵ the final assessment report submitted pursuant to its resolution 42/11, drawing together all the information gathered through all of the biennial reports questionnaires for each of the reporting periods,

Taking note also of the report of the Executive Director on the collection and use of complementary drug-related data and expertise to support the global assessment by Member States of the implementation of the declarations and measures adopted by the General Assembly at its twentieth special session, submitted pursuant to its resolution 49/1,⁶

Noting the thematic debate at its fifty-first session on the progress achieved in meeting the goals and targets set for the years 2003 and 2008 in the Political Declaration adopted by the General Assembly at its twentieth special session,

Recalling its resolution 50/12, in which it agreed that, at its fifty-first session, in 2008, it would initiate the preparatory process for a high-level segment, open to all States Members of the United Nations, to be held during its fifty-second session, in 2009,

Stressing that the preparatory process should be a period of reflection, taking into account the international drug control treaties and measures that have led to positive outcomes and aspects that require greater effort and that during the preparatory process an objective, scientific, balanced and transparent global evaluation should be conducted of the implementation of the declarations and measures adopted by the General Assembly at its twentieth special session,
