**ENGLISH ONLY** 

## Annual status report of the greenhouse gas inventory of Slovakia

- 1. This status report was prepared by the expert review team in accordance with decision 22/CMP.1 as part of the initial check of the greenhouse gas inventory submitted. It reflects the content of the inventory of 2008 as submitted by the Party.
- 2. In this report, the following abbreviations are used:

CRF: common reporting format

LULUCF: land use, land-use change and

forestry

KP-LULUCF CRF: tables for reporting activities under Article 3, paragraphs 3

and 4, of the Kyoto Protocol NIR: national inventory report

SBDT: sectoral background data tables

Notation keys
C: confidential

IE: included elsewhereNA: not applicableNE: not estimatedNO: not occurring

Greenhouse gases
CO<sub>2</sub>: carbon dioxide
CH<sub>4</sub>: methane
N<sub>2</sub>O: nitrous oxide

HFCs: hydrofluorocarbons PFCs: perfluorocarbons SF<sub>6</sub>: sulphur hexafluoride NOx: nitrogen oxides CO: carbon monoxide

NMVOCs: non-methane volatile organic

compounds

SO<sub>2</sub>: sulphur dioxide

National inventory report	Description	reporting reference energy ba Slovakia	guidelines approach lance" and stated, in i	decision and comp d "Assessr	18/Carisonent e to t	CP.8). n with of cor	However sectoral a npleteness	r, some of approach s" are not	the recomi , and releva provided.	mended an	revised UNF nnexes such ation on the ncluded in c	as "CO <sub>2</sub> national		
ı.	Language of NIR	English												
Common reporting format	Missing source category larger than 7 per cent for Annex A sources	In the 2007 GHG inventory submission "Iron and steel – other fuels (1.A.2.a)" was identified as a source category contributing 7 per cent or more to total national GHG emissions. In the 2008 GHG inventory this source category is reported as not occurring ("NO") for CO <sub>2</sub> , CH <sub>4</sub> and N <sub>2</sub> O. In its response to the draft status report, Slovakia stated:  The explanation is given in the NIR 2008, chapter: 3.1.1 - Energy Industry (page 33). The reallocation of the category of other fuels in the Energy sector (sectoral approach) was provided according to the recommendations of the ERT during in-country review (19-24 March 2007). The category of other fuels in the Iron and steel industry (1.A.2.a) included other gaseous secondary fuels from production and technology, such as furnace gas, coke oven gas and so on. The reallocation of the fuels does not change the total of the source category and impacts only the sum of gaseous fuel sub source for the time series.												

<sup>&</sup>lt;sup>a</sup> CRF refers to the common reporting format tables included in document FCCC/SBSTA/2006/9.

b Additional information can be any information submitted by a Party in conjunction with the national inventory report (NIR) or CRF tables.

<sup>&</sup>lt;sup>c</sup> Parties to the Kyoto Protocol are required to report anthropogenic greenhouse gas emissions by sources and removals by sinks from land use, land-use change and forestry activities under Article 3, paragraph 3, and, if any, elected activities under Article 3, paragraph 4, using the agreed common reporting format tables (decision 6/CMP.3). The reporting of KP-LULUCF CRF tables is voluntary until the 2010 submission.

<sup>&</sup>lt;sup>d</sup> Parties to the Kyoto Protocol are required to include in their annual greenhouse gas inventories information on anthropogenic greenhouse gas emissions by sources and removals by sinks from land use, land-use change and forestry activities under Article 3, paragraph 3, and, if any, elected activities under Article 3, paragraph 4, in accordance with paragraphs 5–9 in the annex to decision 15/CMP.1. The reporting of this information is voluntary until the 2010 submission.

e A Party can choose 1990 or 1995 as its base year for the fluorinated gases in accordance with Article 3, paragraph 8, of the Kyoto Protocol.

## PART I Provision of information for the latest reported inventory year in the CRF: 2006

PART II
Provision of CRF tables for years reported (continued)

b This column indicates that reporting gaps (blank cells) have been identified in a given table of the CRF, owing to limited use, or lack of, notation keys (NO, NE, NA, IE, C).

<sup>&</sup>lt;sup>c</sup> Parties to the Kyoto Protocol are required to report anthropogenic greenhouse gas emissions by sources and removals by sinks from land use, land-use change and forestry activities under Article 3, paragraph 3, and, if any, elected activities under Article 3, paragraph 4, using the agreed common reporting format tables (decision 6/CMP.3). The reporting of KP-LULUCF CRF tables is voluntary until the 2010 submission.
