Operative paragraphs 3 and 5: measures concerning the entry and transit of persons designated in annexes I and II to resolution 1803 (2008)

The competent Hungarian authorities have been informed of the provisions of Security Council resolution 1803 (2008) and have taken the necessary measures to implement them. In the Republic of Hungary **Act 32 of 1997 on the Border Guards and border guarding, and Act 39 of 2001 on the entry and residence of aliens**, continue to provide the legal basis for the implementation of the relevant provisions of Security Council resolutions concerning restrictive measures against Iran.

Operative paragraph 7: freezing of financial assets and economic resources and steps to prevent funds from being made available to the persons and entities listed in annexes I and III of resolution 1803 (2008)

Freezing of funds and economic resources of persons and entities designated by the Security Council Committee and the prohibition of making funds or economic resources available to such persons or entities fall within the exclusive competence of the European Community. These measures continue to be implemented in Hungary on the basis of Council Regulation (EC) No. 423/2007 as amended. In the Republic of Hungary **Act 5 of 2006 on Public Company Information and Court Registration Proceedings and Voluntary Dissolution**, continues to provide the legal basis for the implementation by the competent authorities of the relevant provisions of Security Council resolutions concerning restrictive measures against Iran.

Operative paragraph 8: embargo on items, materials, goods, equipment and technology that could contribute to nuclear and weapons delivery system programmes

With the implementation of Security Council resolution 1737 (2006), the European Union had already prohibited the export of goods which are now listed in operative paragraph 8 of Security Council resolution 1803 (2008). The export control list of dual-use items with regard to Iran is incorporated in EU Council Regulation (EC) No. 423/2007 as amended by Commission Regulation (EC) No. 441/2007.

The competent authorities taking part in the implementation of Security Council resolutions, the Hungarian Trade Licensing Office, the National Office for Research and Technology, the Hungarian Energy Office, the National Transport Authority and the Hungarian Investment and Trade Development Agency have been duly informed of Security Council resolution 1803 (2008) concerning restrictive measures against Iran and are applying the relevant provisions thereof in their

proceedings. The list of persons and entities listed in Security Council resolution 1803 (2008) is taken into consideration during the process of licensing of applications for export authorization.

Operative paragraph 9: vigilance in entering into new commitments for public provided financial support for trade with Iran, and **operative paragraph 10:** vigilance over the activities of financial institutions in the national territory with all banks domiciled in Iran, in particular Bank Melli and Bank Saderat

These institutions meet the requirements of the relevant EU regulations and the provisions of the Security Council resolution.

The relevant authorities responsible for implementation of export and transit controls, namely the Border Guard, the Police, the Office of Immigration and Nationality and the Customs and Finance Guard, have been instructed to increase the control of cargo with the destination of Iran in order to prevent the transfer of items prohibited by the resolution. The increased control includes the thorough inspection of transport documentation, checking of the vehicles and crafts, and itemized inspection of their cargo if deemed necessary.
