SUBSIDIARY BODY FOR SCIENTIFIC AND TECHNOLOGICAL ADVICE

Twenty-ninth session

Poznan, 1–10 December 2008

Agenda item 8 (b)

Methodological issues under the Kyoto Protocol

Carbon dioxide capture and storage in geological formations

as clean development mechanism project activities

**Carbon dioxide capture and storage in geological formations
as clean development mechanism project activities**

Draft conclusions proposed by the Chair

1. The Subsidiary Body for Scientific and Technological Advice (SBSTA) took note of: (1) the synthesis of views on issues relevant to the consideration of carbon dioxide capture and storage in geological formations as clean development mechanism project activities;¹ (2) the views of Parties and accredited non-governmental organizations on, and including but not limited to, technological, methodological, legal, policy, financial and additional issues;² and (3) the synthesis report based on these new submissions.³
2. The SBSTA considered the conclusions and the draft decision proposed by the Chair. However, it did not agree to adopt these conclusions and therefore could not conclude its consideration of this issue.
