- On 7 June 2006, Mahmoud Kassem Rafea of Lebanon, a veteran of the Lebanese Internal Security Forces, was arrested in South Lebanon. Mr. Rafea confessed to spying for Israel, including direct involvement in multiple crimes of assassination. These crimes include the assassination of Mahmoud Mohamed Al-Majzoub, his brother, Nidal Mohamed Al-Majzoub, Ali Hassan Dib, Jihad Ahmad Jibreel and Ali Houssein Saleh. Previously, the arrestee had identified and located various geographic coordinates of sensitive Lebanese positions and locations for the interest of Israel. He had also entered Israel illegally. The arrestee possessed a variety of sophisticated communication and electronic equipment and photographic devices.

The above-mentioned spying activities constitute, as explained in your latest report on the implementation of Security Council resolution 1559 (2004) (S/2009/218), a violation of Lebanon's sovereignty.

These Israeli actions are yet another reminder of Israel's hostility towards Lebanon. They are aimed at destabilizing Lebanon and threatening its security. Furthermore, they threaten peace and stability throughout the region and add to existing tensions at a time when serious efforts are being exerted to achieve a comprehensive, just and durable peace.

Through its spying networks, Israel seeks to create separate terrorist cells that operate independently inside Lebanon. These cells plan and carry out hostile

activities within Lebanon, including the monitoring and targeting of Lebanese people and infrastructure and the relay of sensitive information.

The Israeli actions are flagrant and blatant violations of the sovereignty of Lebanon and of Security Council resolution 1701 (2006), including the line of withdrawal, in defiance of the calls of your good self and those of the Security Council.

The Lebanese Army has protested to the United Nations Interim Force in Lebanon (UNIFIL) the Israeli spying activities in Lebanon and requested the repatriation of the above mentioned Lebanese individuals who illegally crossed the Blue Line and the technical fence towards Israel with the assistance of the Israeli army.

The Lebanese Army has also sent a letter to UNIFIL emphasizing that the Israeli manoeuvre, declared to start on 31 May 2009, should not violate resolution 1701 (2006). The letter also asked UNIFIL to ensure that the Israeli army will not undertake during the manoeuvre any action of an aggressive or provocative nature against Lebanon or threaten or violate Lebanon's sovereignty and territorial integrity, including its airspace.

The Lebanese Government wishes to reiterate its firm position condemning any violation of resolution 1701 (2006). The Lebanese authorities are actively cooperating with UNIFIL in ensuring peace and security in South Lebanon.

I wish to emphasize the gravity of Israel's actions, which add to the ongoing Israeli violations of Security Council resolution 1701 (2006). These violations include, among other things, daily overflights and incursions of Lebanese sovereignty and the occupation of the northern part of Al-Ghajar village, the Shab'a Farms and the Kafarshuba Hills.

In addition, the delayed submission by Israel of the strike locations of the unexploded ordnance, including the cluster bombs that it dropped and that landed indiscriminately in civilian areas, has caused since the cessation of hostilities the death and injury of about 340 people, 34 of whom were children.

I kindly request that the present letter be circulated as a document of the General Assembly under agenda item 15 and of the Security Council.
