I would like to state that my delegation has strong reservations in general on the recommendations that this Committee has just adopted. We feel that these recommendations are far from reaching the objectives for which the exercise of restructuring has begun and we feel that it contributes very little in the establishment of the New International Economic Order. Furthermore, Mr. Chairman, my delegation regrets the conditions in which the work of the Committee has been conducted as far as the pressure put on delegations - all sorts of pressure, time and other - and we do not feel that these were the best conditions in which to conduct our work. Among the very rare positive notes was your participation, the contribution that you personally have given to the work of this Committee and the way you have conducted the negotiations, official or informal, and we are extremely grateful to you for what you have done in the conclusion of the work that we are about to finish.
