1380 (XIV). Prevention of the wider dissemination of nuclear weapons

The General Assembly,

Recognizing that the danger now exists that an increase in the number of States possessing nuclear weapons may occur, aggravating international tension and the difficulty of maintaining world peace, and thus rendering more difficult the attainment of general disarmament agreement,

Convinced therefore that consideration of this danger is appropriate within the framework of deliberations on disarmament,

Noting the resolution of the United Nations Disarmament Commission of 10 September 1959,¹

Desiring to bring to the attention of the ten-nation disarmament committee its conviction that consideration should be given to this problem,

1. *Suggests* that the ten-nation disarmament committee, in the course of its deliberations, should consider appropriate means whereby this danger may be averted, including the feasibility of an international agreement, subject to inspection and control, whereby the Powers producing nuclear weapons would refrain from handing over the control of such weapons to any nation not possessing them and whereby the Powers not possessing such weapons would refrain from manufacturing them;

2. *Invites* the committee to include the results of its deliberations on these matters in its report to the Disarmament Commission.

*841st plenary meeting,
20 November 1959.*

1402 (XIV). Suspension of nuclear and thermo-nuclear tests

1. *Expresses its appreciation* to the States concerned for their efforts to reach an agreement relating to the prohibition of nuclear weapons tests and including an appropriate international control system;

2. *Expresses the hope* that these States will intensify their efforts to reach such an agreement at an early date;

3. *Urges* the States concerned in these negotiations to continue their present voluntary discontinuance of the testing of nuclear weapons;

4. *Requests* the States concerned to report to the General Assembly the results of their negotiations.
