B. Decisions brought to the attention of the Council

2. The following decisions adopted by the Commission are brought to the attention of the Council:

41/101

Programme review: national quality assurance frameworks*

The Statistical Commission:

(a) Welcomed the high-quality programme review contained in the report of Statistics Canada on national quality assurance frameworks¹ and expressed its appreciation to Statistics Canada for the work that it had carried out as programme reviewer;

(b) Thanked Eurostat and the International Monetary Fund for their contributions to the report and expressed gratitude to regional agencies and countries that had provided valuable comments on the draft version;

(c) Emphasized the importance of the topic and fully supported the development of a quality assurance framework template that would focus on national statistical systems, using existing frameworks to the extent possible, and that would be sufficiently flexible to take national circumstances into consideration;

(d) Recognized that such a template is only a first step in the process of developing a full quality management programme;

(e) Supported the establishment of an expert group on quality assurance, with due consideration to be given to proper regional representation, and welcomed the offers made by countries and international agencies to serve in the group;

(f) Recognized the importance of engaging users, especially in the regional consultation processes that are proposed;

(g) Requested that the United Nations Statistics Division and other international agencies develop tools and provide guidance and training, especially to developing countries that wish to introduce or strengthen their quality management procedures; in this context, the Commission asked the Division to upgrade its quality assurance website to include links to relevant quality assurance tools and guidelines already developed by countries and international agencies.

* For the discussion, see chap. II, sect. A.

¹ See E/CN.3/2010/2.

41/102 Agricultural statistics*

The Statistical Commission:

(a) Welcomed the high-quality report of the Friends of the Chair on Agricultural Statistics² presenting the Global Strategy to Improve Agricultural and Rural Statistics;

(b) Expressed its appreciation to Brazil, the Food and Agriculture Organization of the United Nations (FAO), the World Bank and all members of the Friends of the Chair group for their excellent work and the wide consultation process involving all key stakeholders at the national, regional and international levels;

(c) Endorsed the technical content and strategic directions of the Global Strategy as presented in the report;

(d) Urged FAO and the Friends of the Chair on Agricultural Statistics to expedite the development of the implementation plan aimed at strengthening the national agricultural statistical system, with the steps necessary to develop the master sample frame, the integrated survey framework and the data management system;

(e) With regard to the implementation plan, recommended that a comprehensive technical assistance programme, an articulated training programme and a well-targeted research agenda, as well as clear indications on funds management and governance arrangements at the global, regional and national levels, be included;

(f) Recommended also that particular attention be paid to the following:

(i) Urgent development of the core data and more detailed specification of the data items;

(ii) Integration of agricultural and rural statistics into the national statistical system;

(iii) Coordination between national statistical offices and ministries of agriculture through effective governance mechanisms;

(iv) Integration of agricultural statistics with other statistical domains, including macroeconomic statistics and national accounts;

(v) Consideration, in developing the technical assistance programme of the implementation plan, of the grouping of countries according to the level of their statistical development;

(vi) Development of methodological guidelines for specific situations, such as small-scale agriculture, agriculture under difficult conditions, and nomadic populations;

(g) Recognized that the implementation of the Global Strategy and the application of new survey technologies and modern data-collection instruments will

* For the discussion, see chap. II, sect. B.

² See E/CN.3/2010/3.

require the mobilization of significant resources, and welcomed the financial and technical support provided by countries, the donor communities and technical cooperation agencies;

(h) Requested the Friends of the Chair group to report back to the forty-second session of the Commission on the progress made in the development of the implementation plan.

41/103

International merchandise trade statistics*

The Statistical Commission:

(a) Expressed great appreciation for the efforts undertaken by the United Nations Statistics Division in the organization of the efficient revision process, including the conduct of the worldwide consultation, and commended the Expert Group on International Merchandise Trade Statistics, the Task Force on International Merchandise Trade Statistics, and countries for their contributions;

(b) Adopted “International merchandise trade statistics: concepts and definitions 2010” (IMTS2010) and endorsed the implementation programme as set out in paragraphs 25 to 31 of the report of the Secretary-General on international merchandise trade statistics,³ including the preparation of the revised *International Merchandise Trade Statistics Compilers Manual* and continued technical assistance activities;

(c) Requested the Expert Group and the Task Force to continue their work, focus on the implementation of IMTS2010 and give due consideration to national circumstances, the harmonization of national and regional compilation practices and the conduct of related comparison studies;

(d) Requested that greater attention be given to the strengthening of institutional arrangements in countries to ensure that proper national coordination mechanisms exist for the compilation of high-quality international merchandise trade statistics; also requested that cooperation with compilers of statistics on international trade in services, the balance of payments and national accounts be ensured;

(e) Recognized the importance of the United Nations Commodity Trade Statistics Database as the global database and information platform on international merchandise trade, and requested the United Nations Statistics Division to enhance its features and metadata;

(f) Advised that, in the future research agenda, due consideration be given to emerging trade policy needs and globalization issues; and, in this context, advised that linkage with business statistics and measuring merchandise trade in terms of added value be further explored.

* For the discussion, see chap. II, sect. C.

³ E/CN.3/2010/5.

41/104 Statistics of international trade in services*

The Statistical Commission:

(a) Expressed appreciation for the intensive work carried by the members of the Task Force on Statistics of International Trade in Services in revising the *Manual on Statistics of International Trade in Services*;

(b) Adopted the *Manual on Statistics of International Trade in Services 2010* (MSITS2010);

(c) Endorsed the implementation programme and urged the Task Force to take note of the following:

(i) The importance of the compilation guidance;

(ii) The significance of trade in services in globalization and links to other frameworks;

(iii) The emphasis on linking the *Manual* to the revised *Balance of Payments Manual*, the revised *System of National Accounts* and the linkage to commodity trade;

(d) Urged the Task Force to give particular importance to the following areas:

(i) Foreign Affiliates Statistics, in particular outward Foreign Affiliates Statistics;

(ii) Tourism statistics and the measurement of the contributions of tourism to national and regional economies;

(iii) Valuation and pricing;

(iv) Research and development;

(e) Urged the Task Force to set a time frame for the implementation plan so that member countries could plan their implementation processes accordingly;

(f) Urged that the national implementation programme be carried out as a coordinated effort of national statistical offices, central banks and other relevant Government agencies;

(g) Encouraged all relevant international agencies and the United Nations regional commissions, especially members of the Task Force, to contribute to the implementation of MSITS2010, and recognized the efforts of the International Monetary Fund in capacity-building with regard to balance-of-payments statistics;

(h) Recognized that training is particularly important in trade in services statistics because of its methodological complexity.

* For the discussion, see chap. II, sect. D.

41/105 International Comparison Programme*

The Statistical Commission:

(a) Welcomed the report of the World Bank on the status of the preparations for the 2011 round of the International Comparison Programme and the established institutional and partnership arrangements for its implementation at the regional level, as well as its overall timetable;⁴

(b) Expressed its appreciation for the work done by the World Bank, the regional coordinating agencies, the Global Office and the Executive Board under the effective leadership of its Chair;

(c) Expressed its appreciation for the willingness of the World Bank to host the overall coordination of the Programme and to commit human and financial resources to its implementation at various levels;

(d) Approved the objectives of the 2011 round of the Programme as set out in the report of the World Bank, with specific emphasis on the innovations and methodological improvements envisioned;

(e) Took note of the concerns expressed by some member States about the uses of purchasing power parities for poverty analysis and requested the Executive Board to address those concerns;

(f) Noted that the successful implementation of the Programme hinges significantly on regional consultation and the role of regional coordinating agencies, and therefore urged the latter to actively engage their member countries to participate in the Programme and take the necessary preparatory steps;

(g) Recognized the importance of the transparency of the Programme's processes, welcomed the commitment of the Global Office to ensuring that the relevant knowledge is widely and publicly disseminated, and urged the Executive Board and the Global Office to take the relevant measures;

(h) Recognized that the Programme is a major worldwide undertaking that could be successfully used for the enhancement of the statistical capacity of countries;

(i) Approved the expansion of the Programme and urged the Global Office and the regional coordinating agencies to speed up the resource mobilization efforts so that a maximum number of countries could participate in the new round;

(j) Urged the Global Office to enhance statistical capacity-building mechanisms, with specific emphasis on countries participating in the Programme for the first time;

(k) Took note of the concerns of countries, especially those in the Caribbean region, regarding their non-participation in the previous round of the Programme and urged the Economic Commission for Latin America and the Caribbean to take note of those concerns and address them so as to ensure that as many Caribbean countries as possible are involved in the new round;

* For the discussion, see chap. II, sect. E.

⁴ See E/CN.3/2010/7.

(l) Reiterated that the Programme is a global project requiring the concerted efforts of regional, bilateral and national institutions that participate in various ways, including through technical assistance, and urged them to provide support to countries with lower statistical capacity. In this context, the Commission welcomed the offer of support from regional and subregional organizations in the implementation of the Programme;

(m) Recognized the usefulness of the results of the 2005 round and recommended that the relevant lessons learned in developing methodologies and establishing various statistical procedures be leveraged in the context of implementing the 2011 round.

41/106

National accounts*

The Statistical Commission:

(a) Expressed its sincere appreciation to the Intersecretariat Working Group on National Accounts for its high-quality work in steering the development of the *System of National Accounts, 2008* (2008 SNA) to a successful conclusion;

(b) Welcomed the finalization of the English version of the 2008 SNA and its availability on the United Nations Statistics Division website;

(c) Expressed its appreciation to the contributing national and international organizations for their efforts in the translation of the 2008 SNA into the official United Nations languages as well as Japanese, Korean and Portuguese, and stressed the importance of expediting the translation and publication of the 2008 SNA in order to facilitate its implementation;

(d) Requested the Working Group to provide detailed guidance on the consistent implementation of the 2008 SNA for the three identified stages of implementation, taking into account the different levels of statistical development of countries and the implementation of other statistical standards, such as the *Balance of Payments and International Investment Position Manual*, the *International Merchandise Trade Statistics Compilers Manual*, the *Manual on Statistics of International Trade in Services* and the International Standard Industrial Classification of All Economic Activities, Version 4, the Central Product Classification, Version 2, and international recommendations on basic source statistics such as industrial statistics and distributive trade statistics;

(e) Supported the Working Group in requesting countries to formulate appropriate strategies and programmes in building statistical and institutional capacity to implement the 2008 SNA and to improve the scope, detail and quality of national accounts and supporting economic statistics;

(f) Expressed full support and appreciation to the Working Group for the continuous engagement of the regional commissions and other regional agencies in the implementation of the 2008 SNA and welcomed the initiatives of the regional groups to lead the early formulation of regional strategies and programmes for such implementation;

* For the discussion, see chap. II, sect. F.

(g) Stressed the need for an outreach programme to the highest level of government and other types of users about the benefits of the implementation of the 2008 SNA, and requested the Working Group to provide specific guidance on the advocacy of such implementation;

(h) Welcomed, in the light of the economic and financial crisis, the coordinated initiatives of the United Nations Statistics Division and Eurostat with Member States on the development of a data template of high-frequency and composite business cycle indicators and the initiatives of the Inter-Agency Group on Economic and Financial Statistics (the Bank for International Settlements, the European Central Bank, Eurostat, the International Monetary Fund (Chair), the Organization for Economic Cooperation and Development, the World Bank and the United Nations), while taking into account the implementation of the 2008 SNA and existing dissemination frameworks such as the Special Data Dissemination Standard;

(i) Requested the Working Group, in coordination with the initiatives noted in paragraph (h) above, to assess whether those initiatives could be integrated into the implementation programme of the 2008 SNA and to report back to the next session of the Commission on its assessment;

(j) Expressed support for the proposed mechanisms for coordinating training and research on national accounts as described in the report of the Working Group to the Commission⁵ and the background document for the report;

(k) Supported the initiatives to use common existing tools for the compilation of national accounts and called for the strengthening of technical capacity in this area;

(l) Stressed the importance of the sustained training of national accountants and called on the regional and subregional training organizations to work with the Working Group to coordinate and scale up training efforts, to support a knowledge base on training material on national accounts and supporting statistics, and to seek the early harmonization of training material based on agreed best practices;

(m) Requested the Working Group to reassess the research agenda of the 2008 SNA, taking into account recent emerging issues (inter alia, the Stiglitz report and the communication of the European Commission entitled “GDP and beyond: measuring progress in a changing world”), and to provide at the next session of the Commission a list of actions and themes for future research work;

(n) Supported the active involvement of the Advisory Expert Group on National Accounts to assist the Working Group in developing the elements of the implementation programme of the 2008 SNA and in taking forward issues on the research agenda of the 2008 SNA and newly emerging research issues;

(o) Suggested that attention be paid to the following issues:

(i) Availability of basic and sectoral statistics;

(ii) Adjustments based on national circumstances;

(p) Also suggested that the reasons for the slowness of the process and the factors that hampered the implementation of the 1993 SNA be studied and that

⁵ See E/CN.3/2010/8.

appropriate recommendations be made, possibly through the formation of a Friends of the Chair group.

41/107

Environment statistics*

The Statistical Commission:

(a) Recognized the importance of environment statistics and congratulated the Expert Group on its excellent work and report;

(b) Acknowledged that the 1984 *Framework for the Development of Environment Statistics* has been a useful framework in many countries for the development of environment statistics;

(c) Endorsed the programme of work for the revision of the *Framework* and the development of a core set of environment statistics;

(d) Cautioned that the current efforts related to the revision of the System of Environmental-Economic Accounting should not be diluted;

(e) Emphasized, with regard to the guiding principles for the revision, the need to:

(i) Engage all stakeholders, including the scientific community, in the process;

(ii) Ensure complementarity with the System;

(iii) Use caution when considering the ecosystem approach or other policy frameworks as the conceptual foundation for the revised *Framework*;

(iv) Provide supporting methodological guidance and best practices within a reasonable time following the revision of the *Framework*;

(f) Recommended, with regard to the proposed contents of the revised *Framework*; that higher visibility be given to the need for institutional coordination and cooperation, and work that has been done at the regional level;

(g) Asked the United Nations Statistics Division to develop a more realistic timetable, in consultation with countries and other stakeholders;

(h) Noted the importance of greater involvement by the Intersecretariat Working Group on Environment Statistics in the development of the *Framework*;

(i) Welcomed the interest and the willingness of countries and agencies to contribute to this work and participate in the planned expert group;

(j) Welcomed the proposal by the United Nations Statistics Division to develop a website that would serve as a knowledge base for country practices on environment statistics.

* For the discussion, see chap. II, sect. G.

41/108

Environmental accounting*

The Statistical Commission:

(a) Welcomed the report of the Committee of Experts on Environmental-Economic Accounting,⁶ expressed its appreciation for the progress of the work carried out by the Committee and thanked the Chair of the Committee for the leadership demonstrated;

(b) Expressed its appreciation for the methods of work of the Committee of Experts, in particular with regard to the broad consultation undertaken with regard to the mandate, governance and programme of work of the Committee;

(c) Agreed with the mandate and governance of the Committee of Experts;

(d) Noted with appreciation the highest priority being given to the timely revision of the System of Environmental-Economic Accounting in the Committee's work programme, and urged the Committee to prioritize work for the completion of volume 1;

(e) Expressed its appreciation for the progress of the work of the London Group on Environmental Accounting in resolving expediently the majority of the issues on the issue list for volume 1 of the revised System; and thanked the Group and its Chair for that achievement;

(f) Expressed appreciation to Member States and international and supranational organizations for their financial and in kind contributions to the revision of the System;

(g) Urged the Committee of Experts to closely consult with the various relevant entities and groups, including the secretariat of the United Nations Framework Convention on Climate Change, in the course of its work;

(h) Welcomed the role played by the Committee of Experts in coordinating its programme of work with various city groups, technical expert groups and intergovernmental organizations working in environmental-economic accounting and supporting statistics, in order to avoid duplication;

(i) Adopted part I of the International Recommendations for Water Statistics, endorsed part II as supplementary guidance and encouraged the implementation of the Recommendations in countries;

(j) Requested that the International Recommendations for Water Statistics be translated into the official languages of the United Nations as quickly as possible.

41/109

World Statistics Day**

The Statistical Commission:

* For the discussion, see chap. II, sect. H.

** For the discussion, see chap. II, sect. I.

⁶ See E/CN.3/2010/11.

- (a) Warmly welcomed the report of the Secretary-General on World Statistics Day;⁷
- (b) Endorsed 20 October 2010 as the date for the first World Statistics Day;
- (c) Endorsed the general theme of “Celebrating the many achievements of official statistics” and the core values of service, integrity and professionalism, while recognizing that each country may develop its own national theme, taking into account national priorities and circumstances;
- (d) Requested the Secretary-General to communicate with all heads of Government, conveying a message regarding the importance of official statistics, emphasizing the need for national Governments to provide sufficient support to the national statistical systems and requesting Member States to observe World Statistics Day;
- (e) Urged all Member States to observe World Statistics Day and to organize related activities not only in cooperation with all institutes of the national statistical systems, but also with researchers, academia, media and other users of statistics;
- (f) Requested the United Nations Statistics Division to prepare a repository and resource kit on World Statistics Day celebrations and activities and to make it available on a designated website;
- (g) Took note with appreciation of the initiatives that have been planned in observance of World Statistics Day at the regional and international levels;
- (h) Requested the United Nations Statistics Division to report back to the Commission at its forty-second session on the experiences related to World Statistics Day 2010 in order to discuss the periodicity of the event.

41/110

Global geographic information management*

The Statistical Commission:

- (a) Expressed appreciation to the National Statistical and Geographical Institute of Brazil for having prepared a report on global geographic information management⁸ and for having brought that important topic to the attention of the Commission;
- (b) Recognized the importance of the integration of geographic and statistical information and the opportunities provided in that context by the swift development of information technology, noting that national statistical offices are playing an increasing role in such integration, especially in the area of census management;
- (c) Called upon all national statistical offices to actively participate, in partnership with relevant national authorities, in the further development of national geographic information capacity in the context of spatial data infrastructures, taking

* For discussion, see chap. II, sect. J.

⁷ E/CN.3/2010/12.

⁸ E/CN.3/2010/13.

full advantage of information technology and focusing special attention on the area of improving statistical and geographic metadata compatibility;

(d) Requested the Secretary-General to prepare a report outlining a global vision for geographic information management to be submitted to the Economic and Social Council, reviewing the existing mechanisms and exploring the possibility of creating a global forum;

(e) Requested the Statistics Division to convene a meeting of an international expert group, consisting of statisticians and geographical information specialists, to address global geographic information management issues;

(f) Requested the Secretariat to report back to the Commission on the work of the expert group and the preparations for a possible global forum.

41/111 Inventory on Global Statistical Standards*

The Statistical Commission:

(a) Warmly welcomed the offer of the National Institute of Statistics and Geography of Mexico to provide the inventory of global statistical standards to the international community, in order to transform it into a global database to be managed and updated globally;

(b) Welcomed the proposal of the Committee for the Coordination of Statistical Activities to create appropriate mechanisms for the further development and maintenance of the inventory of global statistical standards and, in this regard, requested the Committee to propose a proper classification of those standards;

(c) Agreed with the proposal that the inventory database be posted on the website of the United Nations Statistics Division for broad public access and use by countries and other users for harmonization and as a reference tool for measuring the degree of compliance with international standards;

(d) Urged the Committee for the Coordination of Statistical Activities to take the steps necessary for the translation of the inventory into other United Nations official languages with a view to its easy use;

(e) Requested the Committee for the Coordination of Statistical Activities to submit a progress report to the Commission at its forty-second session.

41/112 Development indicators**

The Statistical Commission:

(a) Welcomed the report of the Secretary-General on indicators for monitoring the Millennium Development Goals⁹ and expressed full appreciation for the work done by the Inter-Agency and Expert Group on Millennium Development

* For the discussion, see chap. II, sect. K.

** For the discussion, see chap. II, sect. L.

⁹ E/CN.3/2010/15.

Goals Indicators and the United Nations Statistics Division in improving the transparency of methodologies for estimates and the coordination of national monitoring, addressing discrepancies between national and international data and using new technologies such as Statistical Data and Metadata Exchange for Millennium Development Goals indicators;

(b) Endorsed the initiatives to improve the coordination of data production and monitoring at the country level and stressed the need to avoid the duplication of activities in this area;

(c) Recognized the increased use of country data in the monitoring of the Millennium Development Goals and supported further action to increase the use of country data, since there is still much room for improvement, especially with respect to health indicators;

(d) Supported the organization of future workshops on Millennium Development Goals monitoring in regions not yet covered, such as Latin America and the Caribbean;

(e) Called on the Inter-Agency and Expert Group and the United Nations Statistics Division to conduct more training initiatives on Millennium Development Goals monitoring and subnational monitoring and to collaborate closely with the United Nations regional commissions and other regional institutions to strengthen countries' statistical capacity and address data discrepancies;

(f) Fully endorsed the work done to resolve discrepancies between national and international sources, recognizing that countries should ultimately have full ownership of monitoring data;

(g) Requested the United Nations Statistics Division to establish an inventory of studies on discrepancies between national and international data, and to make such an inventory easily accessible on the website of the Division;

(h) Welcomed the use of Statistical Data and Metadata Exchange for Millennium Development Goals indicators as an important tool for improving coordination and reporting on the Goals;

(i) Welcomed the updated version of the handbook on Millennium Development Goals indicators as an instrument for improving countries' statistical capacity and requested that it be available in all United Nations official languages;

(j) Took note of the recommendation that the importance of non-communicable diseases be considered and encouraged countries to produce, in collaboration with the World Health Organization, indicators to monitor such diseases;

(k) Expressed appreciation for the work done by the Inter-Agency and Expert Group and the United Nations Statistics Division to establish a consultation process between countries and international agencies, and expressed concern that there were now incidences in which full consultation was lacking, such as in the case of the expansion of the Human Development Index, which could undermine progress made in this area over the past five years;

(l) Recognized the importance of the Human Development Index to countries and the extensive consultation that the Commission had undertaken with the Human Development Report Office in the past;

(m) Expressed regret that there had been a lack of consultation with the Statistical Commission on the revision of the current Human Development Index;

(n) Requested the Human Development Report Office to take note of the transparent procedures of the Statistical Commission in developing new statistical methodology on indices that have an impact on countries;

(o) Requested the Bureau of the Commission, together with experts from the regions, to undertake immediate consultation with the Human Development Report Office on the methodologies and data used in the proposed revision of the Human Development Index and to take appropriate decisions based on the consultation;

(p) In view of the lack of consultation and the lack of transparency, the Commission will, at its forty-second session, assess the methodological soundness of the proposed Human Development Index, the appropriateness of the data used and the conclusions drawn therefrom, if this is recommended by the Bureau.

(q) Requested the Bureau of the Commission and the Human Development Report Office to report back to the forty-second session of the Statistical Commission on this consultation and the resulting recommendations.
