Sixty-fifth session

Agenda item 92

Developments in the field of information and telecommunications in the context of international security

Report of the First Committee

Rapporteur: Mr. Enrique **Ochoa** (Mexico)

I. Introduction

1. The item entitled “Developments in the field of information and telecommunications in the context of international security” was included in the provisional agenda of the sixty-fifth session of the General Assembly in accordance with Assembly resolution 64/25 of 2 December 2009.

2. At its 2nd plenary meeting, on 17 September 2010, the General Assembly, on the recommendation of the General Committee, decided to include the item in its agenda and to allocate it to the First Committee.

3. At its 2nd and 10th meetings, on 4 and 14 October 2010, the First Committee decided to hold a general debate on all disarmament and international security items allocated to it, namely, items 88 to 104 and 162. The general debate on those items was held at the 2nd to 8th and 10th meetings, from 4 to 8 and on 11, 12 and 14 October 2010 (see A/C.1/65/PV.2-8 and 10). The Committee also held 10 meetings, from 13 to 15, from 18 to 22 and on 25 October, for an exchange of views with the High Representative for Disarmament Affairs and other high-level officials, as well as panel discussions with independent experts and follow-up to resolutions and decisions adopted at previous sessions (see A/C.1/65/PV.9-18). Thematic discussions on the items were held, and draft resolutions were introduced and considered, at the 9th to 18th meetings, from 13 to 15, from 18 to 22 and on 25 October 2010 (see A/C.1/65/PV.9-18). Action on all draft resolutions was taken at the 19th to 23rd meetings, from 26 to 29 October (see A/C.1/65/PV.19-23).

4. For its consideration of the item, the Committee had before it the following documents:

(a) Report of the Secretary-General on developments in the field of information and telecommunications in the context of international security (A/65/154);

(b) Note by the Secretary-General transmitting the report of the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of International Security (A/65/201).

II. Consideration of draft resolution A/C.1/65/L.37

5. At the 15th meeting, on 20 October 2010, the representative of the Russian Federation, on behalf of Armenia, Azerbaijan, Belarus, Brazil, China, Costa Rica, Cuba, the Democratic People's Republic of Korea, the Democratic Republic of the Congo, Ethiopia, Germany, Guatemala, Indonesia, Kazakhstan, Mali, Myanmar, Nicaragua, the Russian Federation, Serbia, Sierra Leone, Slovenia, the Syrian Arab Republic, Tajikistan, Turkmenistan, Uganda, Ukraine, the United States of America and Viet Nam, introduced a draft resolution entitled "Developments in the field of information and telecommunications in the context of international security" (A/C.1/65/L.37). Subsequently, Australia, Canada, Cyprus, India, Japan, Kyrgyzstan, Turkey and Uzbekistan joined in sponsoring the draft resolution.

6. At the 21st meeting, on 28 October 2010, the Secretary of the Committee made a statement on behalf of the Secretary-General concerning the financial implications of draft resolution A/C.1/65/L.37.

7. At the same meeting, the Committee adopted draft resolution A/C.1/65/L.37 without a vote (see para. 8).

III. Recommendation of the First Committee

8. The First Committee recommends to the General Assembly the adoption of the following draft resolution:

Developments in the field of information and telecommunications in the context of international security

The General Assembly,

Recalling its resolutions 53/70 of 4 December 1998, 54/49 of 1 December 1999, 55/28 of 20 November 2000, 56/19 of 29 November 2001, 57/53 of 22 November 2002, 58/32 of 8 December 2003, 59/61 of 3 December 2004, 60/45 of 8 December 2005, 61/54 of 6 December 2006, 62/17 of 5 December 2007, 63/37 of 2 December 2008 and 64/25 of 2 December 2009,

Recalling also its resolutions on the role of science and technology in the context of international security, in which, inter alia, it recognized that scientific and technological developments could have both civilian and military applications and that progress in science and technology for civilian applications needed to be maintained and encouraged,

Noting that considerable progress has been achieved in developing and applying the latest information technologies and means of telecommunication,

Affirming that it sees in this process the broadest positive opportunities for the further development of civilization, the expansion of opportunities for cooperation for the common good of all States, the enhancement of the creative potential of humankind and additional improvements in the circulation of information in the global community,

Recalling, in this connection, the approaches and principles outlined at the Information Society and Development Conference, held in Midrand, South Africa, from 13 to 15 May 1996,

Bearing in mind the results of the Ministerial Conference on Terrorism, held in Paris on 30 July 1996, and the recommendations that it made,¹

Bearing in mind also the results of the World Summit on the Information Society, held in Geneva from 10 to 12 December 2003 (first phase) and in Tunis from 16 to 18 November 2005 (second phase),²

Noting that the dissemination and use of information technologies and means affect the interests of the entire international community and that optimum effectiveness is enhanced by broad international cooperation,

Expressing concern that these technologies and means can potentially be used for purposes that are inconsistent with the objectives of maintaining international stability and security and may adversely affect the integrity of the infrastructure of States to the detriment of their security in both civil and military fields,

¹ See A/51/261, annex.

² See A/C.2/59/3, annex, and A/60/687.

Considering that it is necessary to prevent the use of information resources or technologies for criminal or terrorist purposes,

Noting the contribution of those Member States that have submitted their assessments on issues of information security to the Secretary-General pursuant to paragraphs 1 to 3 of resolutions 53/70, 54/49, 55/28, 56/19, 57/53, 58/32, 59/61, 60/45, 61/54, 62/17, 63/37 and 64/25,

Taking note of the reports of the Secretary-General containing those assessments,³

Welcoming the initiative taken by the Secretariat and the United Nations Institute for Disarmament Research in convening international meetings of experts in Geneva in August 1999 and April 2008 on developments in the field of information and telecommunications in the context of international security, as well as the results of those meetings,

Considering that the assessments of the Member States contained in the reports of the Secretary-General and the international meetings of experts have contributed to a better understanding of the substance of issues of international information security and related notions,

Bearing in mind that the Secretary-General, in fulfilment of resolution 60/45, established in 2009, on the basis of equitable geographical distribution, a group of governmental experts, which, in accordance with its mandate, considered existing and potential threats in the sphere of information security and possible cooperative measures to address them and conducted a study on relevant international concepts aimed at strengthening the security of global information and telecommunications systems,

Welcoming the effective work of the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of International Security and the relevant outcome report transmitted by the Secretary-General,⁴

Taking note of the assessments and recommendations contained in the report of the Group of Governmental Experts,

1. *Calls upon* Member States to promote further at multilateral levels the consideration of existing and potential threats in the field of information security, as well as possible strategies to address the threats emerging in this field, consistent with the need to preserve the free flow of information;

2. *Considers* that the purpose of such strategies could be served through further examination of relevant international concepts aimed at strengthening the security of global information and telecommunications systems;

3. *Invites* all Member States, taking into account the assessments and recommendations contained in the report of the Group of Governmental Experts on Developments in the Field of Information and Telecommunications in the Context of

³ A/54/213, A/55/140 and Corr.1 and Add.1, A/56/164 and Add.1, A/57/166 and Add.1, A/58/373, A/59/116 and Add.1, A/60/95 and Add.1, A/61/161 and Add.1, A/62/98 and Add.1, A/64/129 and Add.1 and A/65/154.

⁴ See A/65/201.

International Security,⁴ to continue to inform the Secretary-General of their views and assessments on the following questions:

- (a) General appreciation of the issues of information security;
- (b) Efforts taken at the national level to strengthen information security and promote international cooperation in this field;
- (c) The content of the concepts mentioned in paragraph 2 above;
- (d) Possible measures that could be taken by the international community to strengthen information security at the global level;

4. *Requests* the Secretary-General, with the assistance of a group of governmental experts, to be established in 2012 on the basis of equitable geographical distribution, taking into account the assessments and recommendations contained in the above-mentioned report, to continue to study existing and potential threats in the sphere of information security and possible cooperative measures to address them, as well as the concepts referred to in paragraph 2 above, and to submit a report on the results of this study to the Assembly at its sixty-eighth session;

5. *Decides* to include in the provisional agenda of its sixty-sixth session the item entitled “Developments in the field of information and telecommunications in the context of international security”.
