I. Introduction

- 1. The budget for the maintenance of the United Nations Peacekeeping Force in Cyprus (UNFICYP) for the period from 1 July 2009 to 30 June 2010, set out in the report of the Secretary-General of 26 January 2009 (A/63/693), amounted to \$55,996,200 gross (\$53,665,100 net), exclusive of budgeted voluntary contributions in kind in the amount of \$1,484,300. It provided for 860 military contingent personnel, 69 United Nations police officers, 41 international staff and 116 national staff. The Advisory Committee on Administrative and Budgetary Questions, in paragraph 42 of its related report (A/63/746/Add.9), recommended that the General Assembly appropriate the amount of \$54,686,100 gross for the maintenance of the force for 2009/10.
- 2. The General Assembly, by its resolution 63/290, appropriated an amount of \$54,412,700 gross (\$52,141,000 net) for the maintenance of the Force for 2009/10. The appropriated amount included voluntary contributions from the Government of Cyprus in the amount of \$18,074,373, equivalent to one third of the net appropriation, and \$6.5 million from the Government of Greece. The amount of \$32,220,527 gross (\$29,948,827 net) was assessed on Member States.

II. Mandate performance

A. Overall

- 3. The mandate of UNFICYP was established by the Security Council in its resolution 186 (1964) and extended by the Council in subsequent resolutions. The mandate for the reporting period was provided by the Council in its resolutions 1873 (2009), 1898 (2009) and 1930 (2010).
- 4. The Force is mandated to help the Security Council achieve an overall objective, namely, to ensure peace and security in Cyprus and the return to normal conditions.
- 5. Within this overall objective, UNFICYP has, during the reporting period, contributed to a number of accomplishments by delivering related key outputs, shown in the frameworks below, which are grouped by political and civil affairs, military, United Nations police and support components.
- 6. The present report assesses actual performance against the planned results-based-budgeting frameworks set out in the 2009/10 budget. In particular, the report compares the actual indicators of achievement, that is, the extent to which actual progress has been made during the period against the expected accomplishments, with the planned indicators of achievement, and the actually completed outputs with the planned outputs.

B. Budget implementation

7. In fulfilling its mandate, UNFICYP continued to apply an integrated approach in carrying out its tasks, which was based on close cooperation between the civil affairs, military and police components of the Force. Efforts were focused on maintaining the stability of the buffer zone, in particular on managing civilian

activities, which continued to intensify. To that end, coordination arrangements were implemented with the relevant authorities to address unauthorized construction activities in the buffer zone.

- 8. In addition to fulfilling its peacekeeping mandate, UNFICYP provided substantive, administrative and logistical support to the political process. The Special Representative of the Secretary-General and Chief of Mission of UNFICYP, as the Deputy Special Adviser to the Secretary-General on Cyprus, coordinated the provision of assistance by the Force to the Secretary-General's good offices mission. The Chief of Mission chaired meetings between the two Cypriot leaders and their representatives in the absence of the Special Adviser from the island. Staff of UNFICYP continued to act as facilitators of meetings at the level of working groups and technical committees to discuss substantive and day-to-day issues affecting both communities.
- 9. As in the previous period, UNFICYP utilized regularly scheduled commercial flights for the rotation of military contingents, which had proven to be more cost-effective than charter flights.
- 10. Stricter measures were applied and implemented in order to further reduce the number of vehicular traffic accidents involving UNFICYP personnel through the conduct and implementation of road safety programmes, safe driving competitions and driving assessments.

C. Mission support initiatives

11. During the reporting period, UNFICYP implemented various service improvements in the areas of asset management, facilities and infrastructure, ground transportation, communications and information technology. The target percentage of total required inventory value of assets awaiting write-off or disposal as at 30 June 2010 was achieved, and assets not located during physical verification did not exceed 0.5 per cent. In the area of facilities and infrastructure, maintenance and repair works required for all camps and observation posts were completed, including the scheduled preventive maintenance of generators, air conditioners and kitchen equipment. In addition, the number of traffic accidents involving UNFICYP personnel averaged 5.7 accidents per month, of which an average of only 4 per month were determined to be attributable to UNFICYP personnel, which was slightly lower than the average number in the 2008/09 period. Furthermore, the server virtualization project was completed, which led to the reduction in the total number of servers from 17 to 16 while the availability of network services was increased.

D. Regional mission cooperation

12. UNFICYP continued its cooperation with the United Nations entities in the region, including the United Nations Interim Force in Lebanon (UNIFIL), the United Nations Disengagement Observer Force (UNDOF) and the United Nations Truce Supervision Organization (UNTSO). The Force also continued to exchange technical expertise in the fields of information technology and communications, and to share the communications hub at Camp Ziouani with UNDOF, UNIFIL and UNTSO. In addition, the Regional Conduct and Discipline Team and Regional

Oversight Office, which are based in UNIFIL, provided their full support to UNFICYP.

13. UNFICYP continued its close cooperation with the United Nations Development Programme (UNDP) and the European Union in the framework of demining and other activities, including bicommunal and humanitarian activities, civil society group events and joint infrastructure projects on the island. In addition, UNFICYP continued to provide support to the Committee on Missing Persons.

E. Results-based-budgeting frameworks

Component 1: political and civil affairs

14. Pursuant to its mandate, UNFICYP continued to facilitate the activities of the Force to assist in the resolution of issues in various fields between the two communities, promote increased dialogue and cooperation between them through bicommunal activities and support the opening of crossing points and other confidence-building measures, such as demining and military deconfrontation. The Force continued to contribute to the normalization of living conditions in the buffer zone, take effective measures against unauthorized use of the buffer zone and provide humanitarian assistance to members of both communities, as and when In addition, UNFICYP assisted the Deputy Special Adviser of the Secretary-General in supporting the full-fledged negotiations between the Greek Cypriot and Turkish Cypriot leaders. The Force also provided substantive assistance to the Secretary-General's good offices mission led by the Special Adviser of the Secretary-General on Cyprus, including through the facilitation of the meetings of the bicommunal technical committees and working groups. In addition, the public information component of UNFICYP continued to assist the Secretary-General's good offices mission through the production of press releases on behalf of the technical committees, the organization of media events in support of the work of the good offices mission, maintenance of the website of the good offices mission and the production of transcripts of press encounters with the Special Adviser.

Component 2: military

15. In accordance with the mandate of UNFICYP, the military component focused its activities on maintaining stability on the ground and contributing to the efforts of UNFICYP to create conditions conducive to the ongoing political process. The military component, in conjunction with the other components of UNFICYP, continued to focus on the maintenance of the ceasefire and the integrity of the United Nations buffer zone through the implementation of the mobile patrolling concept and the support of confidence-building measures aimed at the reduction in tension between the opposing forces and the equitable application of the rules governing access to and use of the buffer zone. In addition, the military component supported demining activities and, wherever feasible, other United Nations agencies operating in Cyprus involved in confidence-building activities between the two communities.

Component 3: United Nations police

16. In line with the mandate of UNFICYP, the police component focused its activities on contributing to the Force's efforts to promote trust between the two communities, in particular within the framework on the civilian use of the buffer zone. In support of this objective, the police component continued to develop policing strategies and strengthen its support to the other components of UNFICYP by enhancing its patrolling capabilities based on contemporary policing methodologies. The component continued to build on its existing relationships with police authorities from both sides, game wardens from the Republic of Cyprus, environmental offices of United Nations entities in Cyprus and non-governmental organizations from both sides to develop anti-crime strategies and, where necessary, facilitate the investigation of crimes committed in the buffer zone. United Nations police continued to explore ways to promote cooperation between police authorities from both sides regarding the criminal activities that affect the two communities.

Expected accomplishment 3.1: enhanced law enforcement in the United Nations buffer zone

Planned indicators of achievement	Actual indicators of achievement
Reduction in the number of incidents related to violations of law and order in the buffer zone and in proximity to the crossing points (2007/08: 235; 2008/09: 90; 2009/10: 80)	226 incidents in 2009/10, compared with 436 incidents in the 2008/09 period, owing to increased activity in the buffer zone and improved patrol coordination and detection by United Nations police

Cumulative increase in the number of people crossing from both sides without incident of violations (2006/07: 13 million; 2007/08: 15.8 million; 2008/09: 20.7 million; 2009/10:

19.5 million people (excluding figures from Pergamos and Ayios Nikolaos crossing points)

21 million)

Planned outputs	Completed (number or yes/no)	Remarks
5,840 United Nations police patrol days (2 officers at 8 police stations, 365 days a year)	10,341	United Nations police patrol days, including 1,793 patrol days to monitor crossing points (on average, 2 officers x 1.77 patrols per day x 8 police stations x 365 days)
		The higher output resulted from an increased incidence of illegal activities (dumping, hunting, theft) in the buffer zone
3,900 United Nations police days of humanitarian assistance to Greek Cypriots and Maronites in the north, Turkish Cypriots in the south and both communities in the buffer zone (15 police officers x 5 days per week x 52 weeks)	3,900	United Nations police days

96 person-days of technical assistance on the facilitation and chairing of the meetings of the technical committee on crime/criminal matters (one senior officer x 2 per week x 48 weeks)	42	Person-days The lower output reflects actual requirements for technical assistance

Component 4: support

17. During the reporting period, the support component of UNFICYP provided effective and efficient logistical, administrative and security services to an average of 853 military contingent personnel, 69 United Nations police officers and an average civilian staffing establishment of 38 international staff and 110 national staff. The range of support comprised of all support services, including personnel administration, financial services, health care, the upgrading of troop accommodation facilities, information technology and communications, air and surface transportation, travel and rotation of troops and United Nations police, supply and resupply operations and the provision of security services Force-wide.

Expected accomplishment 4.1: efficient and effective logistical, administrative and security support to the mission

Planned indicators of achievement	Actual indica	ators of achievement		
Inventory value of assets awaiting write- off or disposal as at 30 June 2010 does not exceed 2.5 per cent of total inventory value of assets		Achieved; inventory value of assets awaiting write-off or disposal was 1.48 per cent of total inventory value of assets as at 30 June 2010		
Total value of assets not located during physical verification does not exceed 10 per cent of the total inventory value of assets		Achieved; total value of assets not located was 0.49 per cent of total inventory value of assets as at 30 June 2010		
Reduction in the number of traffic accidents involving UNFICYP vehicles (2007/08: 6 per month; 2008/09: 6 per month; 2009/10: 5 per month)		Average of 6 traffic accidents per month, which is identical to the average in 2008/09		
Reduction by 2 per cent of the value of stock holdings for stationery, sanitation supplies and miscellaneous electrical equipment (2008/09: \$51,000; 2009/10: \$49,980)	supplies,	The previous arrangement of acquiring sanitation and stationery supplies, as and when required, through just-in-time contracts was replaced by bulk acquisitions through systems contracts		
Reduction in the number of servers through the implementation of virtualization technology (2007/08: 22; 2008/09: 17; 2009/10: 16)	Achieved; the number of servers was reduced from 17 in 2008/09 to 16 in 2009/10			
Planned outputs	Completed (number or yes/no)	Remarks		
Service improvements				
Non-contentious local property survey board write-off cases reviewed by the Board within two weeks of receipt and processed within ten days	Yes	Non-contentious write-off cases reviewed within an average of 11 days of receipt and processed within 8 days		
Galileo asset management system kept current through the timely updating by self-accounting units as regards the location of assets	Yes	Galileo asset management system updated on a continual basis		
New leased-line connection to the United Nations Logistics Base (UNLB) in Brindisi will provide a secure, high-bandwidth and reliable route to UNLB and United Nations Headquarters for all information technology services hosted in those locations	Yes	The 10-megabits-per-second leased-line connection to UNLB was fully operational and reliable		

Implementation of an ongoing road safety programme and driver testing for United Nations personnel	Yes	Through 2 biannual vehicle safety checks on all vehicles; induction training on road safety and the conduct of a strict driving assessment for all new arrivals; driving skills competitions and off-road training at the sector level; and conduct of island-wide speed and vehicle checks
Military, police and civilian personnel		
Emplacement, rotation and repatriation of 860 contingent troops and 69 United Nations police officers	853 69	Troops (average strength) United Nations police officers (average strength)

Facilities and infrastructure		
Maintenance, repair and servicing of office and accommodation facilities for 929 military and police personnel in accordance with the United Nations standard scale of accommodation	Yes	Through the processing of a total of 2,597 requests
Maintenance of 11 level-1 observation posts, 9 level-2 observation posts and	Yes	For 11 level-1 observation posts and 9 level-2 observation posts
demolition and clearance of 13 observation posts along the buffer zone		The clearance of 13 observation posts along the buffer zone did not take place owing to the possibility of a change in the mandate of the Force and the sensitivity of clearing observation posts during the talks
Maintenance and repair of up to 78 km of patrol tracks	94	Kilometres of patrol tracks
Operation and maintenance of 86 generators	88	Generators

Maintenance of 24 helipads, including the refurbishment of 3 helipads for day/night-time operations in accordance with International Civil Aviation Organization standards	23	Helipads, comprising 21 that are fully operational and 2 that are used for emergency daytime operations; 1 helipad was temporarily closed
Ground transportation		
Maintenance and operation of 345 vehicles, including 9 armoured vehicles (103 United Nations-owned, 39 contingent-owned and 203 rented vehicles)	342	Vehicles, comprising 101 United Nations-owned, 39 contingent-owned and 202 rented vehicles
Air transportation		
Operation and maintenance of 3 helicopters (including 1 provided at no cost as reserve to replace either of the 2 helicopters during maintenance and other periods of downtime)	3	Helicopters (including 1 helicopter provided by a contingent at no extra cost as a replacement for one of the other two helicopters during maintenance)
Supply of 240,000 litres of aviation fuel for air operations	244,593	Litres of aviation fuel
Communications		
Support and maintenance of	3	Satellite Earth stations
communications network consisting of 3 satellite Earth stations, 14 private	13	PABX telephone exchange systems
automatic branch exchange (PABX) telephone systems, 29 repeaters, 335	21	Ultra-high frequency repeaters
mobile radios, 315 handheld radios, 11	364	Mobile radios
wideband digital microwave links and 15 narrowband digital microwave links	310	Handheld radios
	24	Wideband digital microwave links
	8	The higher number resulted from operational requirements that necessitated the upgrade of seven narrowband digital microwave links to wideband links and the establishment of 6 additional wideband links
		Narrowband digital microwave links
		The lower number resulted from the upgrade of 7 narrowband digital microwave links to wideband links, owing to operational requirements

Information technology

Support and maintenance of information	1	LAN
technology network consisting of one local area network (LAN) at UNFICYP headquarters and 6 wide area networks (WANs), 372 desktop computers, 45	4	WANs
	377	Desktop computers
laptop computers, 119 printers (including	45	Laptop computers
61 network printers) and 16 servers	119	Printers (including 61 network printers)
	16	Servers
Support and maintenance of all mission-critical software applications	Yes	
Medical		
Operation, maintenance and management of 6 level-I medical facilities (1 contingent-owned hospital, in two locations and 4 United Nations-owned medical facilities)	6	Level-I medical facilities
Operation and maintenance of voluntary confidential HIV-counselling and testing facilities for all mission personnel	No	The non-completion of the output resulted from the lack of trained counsellors within the Force

B. Summary information on redeployments across groups

(Thousands of United States dollars)

		Appropriation		
Group	Original distribution	Redeployment	Revised distribution	
Military and police personnel	23 843.5	(1 313.0)	22 530.5	
II. Civilian personnel	14 442.2	1 175.0	15 617.2	
III. Operational costs	16 127.0	138.0	16 265.0	
Total	54 412.7	_	54 412.7	
Percentage of redeployment to total appropriat	ion		2.0	

18. The redeployment of funds was attributable primarily to additional requirements for civilian personnel resulting from the lower actual vacancy rate of 3 per cent for international staff, compared with the budgeted vacancy rate of 5 per cent, and the impact of the revision of national salary scales effective 1 September 2009 and fluctuations in the exchange rate between the euro and the United States dollar on national staff costs. Increased requirements for operational costs were attributable primarily to the recording of losses on exchange. Reduced requirements under military and police personnel resulted from lower actual costs for the rotation of military contingent personnel and United Nations police officers.

C. Monthly expenditure pattern

19. Higher expenditures from July to September 2009 and in January 2010 were attributable to obligations raised for reimbursements to troop-contributing Governments for troop costs, contingent-owned equipment and self-sustainment.

D. Other income and adjustments

(Thousands of United States dollars)

Category	Amount
Interest income	321.8
Other/miscellaneous income	108.9
Prior-period adjustments	(18.9)
Cancellation of prior-period obligations	962.5
Total	1 374.3

E. Expenditure for contingent-owned equipment: major equipment and self-sustainment

(Thousands of United States dollars)

Category			Expenditure

A. Applicable to mission area	_	_	_
B. Applicable to home country

F. Value of non-budgeted contributions

(Thousands of United States dollars)

Category	Actual value
Status-of-forces agreement ^a	221.6
Voluntary contributions in kind (non-budgeted)	_
Total	221.6

^a Inclusive of market value, as estimated by UNFICYP, of the cost of United Nations observation posts and office accommodation facilities provided by the Government of Cyprus to the Force for military contingents and United Nations police.

IV. Analysis of variances¹

	Variance	
Military contingents	\$1 304.4	6.2%

20. The unutilized balance was attributable primarily to: (a) lower actual costs of commercial and charter flights for the rotation of contingent personnel; and (b) reduced requirements for rations, owing to stricter controls in the distribution system and a discount from the vendor in accordance with the terms of the contract. The variance was offset in part by additional requirements for recreational leave allowances, owing to the increase in the duration of leave from 7 days to 15 days for every six-month period of service, pursuant to General Assembly resolution 63/285. The variance was also offset in part by additional requirements for mission subsistence allowances, owing to fluctuations in the exchange rate between the euro and the United States dollar (average rate of €0.722 per United States dollar against the budgeted rate of €0.773 per United States dollar).

	Variance	Variance	
International staff	(\$127.5)	(1.9%)	

21. The additional requirements resulted primarily from higher actual staff costs compared with the average salaries and related costs derived from the 2007/08 period and from the lower actual vacancy rate of 2.6 per cent, compared with the budgeted vacancy factor of 5 per cent.

	Variance	
National staff	 (\$840.9)	(11.0%)

22. The additional requirements were attributable primarily to the revision of the salary scales for national staff with effect from 1 September 2009 and to fluctuations in the exchange rate between the euro and the United States dollar.

	Variance	
General temporary assistance	\$74.9 39.0%	

23. The unspent balance resulted primarily from reduced requirements for individual contractors as temporary replacements for staff members on maternity or extended sick leave.

		Variance	
Official travel		\$268.1	52.9%

24. The unspent balance was attributable primarily to the cancellation of some conferences and the reprioritization of resources to meet more critical operational requirements, which resulted in the deferment or cancellation of some planned training and non-training travel.

¹ Resource variance amounts are expressed in thousands of United States dollars. Analysis is provided for variances of at least plus or minus 5 per cent or \$100,000.

Facilities and infrastructure \$368.5 4.8%

25. The unspent balance was attributable mainly to: (a) the reprioritization of resources to meet more critical operational requirements, which resulted in the acquisition of fewer generators and accommodation equipment and reduced requirements for alteration and renovation services, owing to the deferment of some projects; and (b) reduced requirements for maintenance supplies for roadworks, the maintenance of patrol tracks, the upgrade of Force shelters and other minor renovations at UNFICYP premises. The variance was offset in part by increased requirements for utilities resulting from higher consumption, fluctuations in the exchange rate between the euro and the United States dollar and additional requirements for maintenance services resulting from higher costs of services based on the renewal of contracts.

	Variance	
Air transportation	\$119.4	7.7%

26. The unspent balance was attributable primarily to the lower number of flight hours (1,184 actual flight hours compared with 1,320 planned flight hours). The variance was offset in part by additional requirements for petrol, oil and lubricants, owing to the higher cost of fuel (\$0.641 per litre compared with the budgeted rate of \$0.489 per litre) and fluctuations in the exchange rate between the euro and the United States dollar.

	Variance	
Communications	\$191.7	19.6%

27. The unutilized balance resulted mainly from reduced requirements for transponder charges and other commercial communications.

	Variance
Medical	\$87.6 21.8%

28. The unspent balance was attributable mainly to reduced requirements for medical supplies.

	Variance	
Special equipment	\$9.1	94.8%

29. The unspent balance was attributable primarily to the non-implementation of the planned acquisition of observation equipment, owing to the reprioritization of resources for more critical operational requirements.

	Variance	
Other supplies, services and equipment	(\$366.8)	(61.1%)

30. The additional requirements were attributable primarily to the recording of losses on exchange, resulting from fluctuations in the exchange rate between the United States dollar and other currencies.

V. Actions to be taken by the General Assembly

- 31. The actions to be taken by the General Assembly in connection with the financing of UNFICYP are:
- (a) To decide on the treatment of the unencumbered balance of \$1,114,000 with respect to the period from 1 July 2009 to 30 June 2010;
- (b) To decide on the treatment of other income for the period ended 30 June 2010 amounting to \$1,374,300 from interest income (\$321,800), other/miscellaneous income (\$108,900) and cancellation of prior-period obligations (\$962,500), offset by prior-period adjustments (\$18,900).
