UNITED NATIONS RELIEF AND WORKS AGENCY FOR PALESTINE REFUGEES IN THE NEAR EAST

Accounts for the financial year ended 30 June 1953 and report of the Board of Auditors

LETTER OF TRANSMITTAL

13 October 1954

Sir,

An examination has been made of the accounts of the United Nations Relief and Works Agency for Palestine Refugees in the Near East for the financial year ended 30 June 1954.

The financial statements presented for audit by the Director of the Agency have been examined and certified.

On behalf of the Board of Auditors of the United Nations, I have the honour to transmit for presentation to the General Assembly the financial statements and audit report thereon.

Respectfully,

(Signed) Watson Sellar On behalf of the Board of Auditors

The Secretary-General of the United Nations, New York

NOTE BY THE SECRETARY-GENERAL

1. The financial statements of the United Nations Relief and Works Agency for Palestine Refugees in the Near East for the financial year ended 30 June 1954, together with the report of the Board of Auditors thereon, are presented herewith pursuant to the provisions of resolution 302 (IV) adopted by the General Assembly on 8 December 1949. In paragraph 21 of that resolution, the General Assembly:

"Requests the Director to submit to the General Assembly of the United Nations an annual report on the work of the United Nations Relief and Works Agency for Palestine Refugees in the Near East, including an audit of funds..."

2. The financial statements and the report of the Board of Auditors have been submitted to the Advisory Committee on Administrative and Budgetary Questions for consideration and report to the General Assembly. A report on financial operations is included in the annual report of the Director to the General Assembly in document A/2717.¹

¹ See Official Records of the General Assembly, Ninth Session, Supplement No. 17.

FINANCIAL STATEMENTS

Notes to the statements for the financial year ended 30 June 1954

STATEMENT OF ASSETS AND LIABILITIES

Note 1. Cash funds of the Agency, other than US dollars, have been reflected in US dollars at official rates of exchange where exchange restrictions exist, otherwise at free market rates prevailing on 30 June 1954. Other assets and all liabilities based on non-US dollar currencies have been reflected in US dollars at fixed rates employed by the Agency throughout the year. These rates are the same as official currency exchange rates where such exchange rates exist; the remainder are rates chosen by the Agency as approximating the average free market rates for related currencies for the period under review.

Note 2. Cash in banks includes fixed (time) deposits of \$3,000,000 with the Chase National Bank of the City of New York subject to a first lien in favour of that bank in security for an open letter of credit of the same amount opened by the bank in favour of the United Nations Children's Fund as a source of additional funds for UNICEF if required by that organization in its activities as procurement agent for UNRWA. To date, no funds have been drawn by UNICEF against this letter of credit. Cash in banks also includes \$3,754 (representing 1,305 Egyptian pounds) constituting 50 per cent of a joint account with the District Administration of Gaza which is subject to withdrawal only upon the joint agreement of UNRWA and the District Administration.

Note 3. Supply inventories are valued at cost or estimated cost; equipment inventories are valued at cost or at cost less depreciation as appropriate.

Note 4. The major equipment inventory appearing on the statement of assets and liabilities comprises: (a) equipment of various types purchased but not yet issued for use; and (b) equipment purchased for projects, the cost of which is applicable to several projects over a period of more than one fiscal year.

Note 5. The following assets of the Agency are not reflected in the statement of assets and liabilities. The disbursements for these assets and any subsequent recoveries have been treated as expenditure and miscellaneous operating income (or as credits to expenditure in certain cases of loan recoveries and of the Ghor Nimrin tent factory) respectively in the current financial statements or in the statements of prior periods:

- (a) Loans to refugees totalling \$306.193, of which approximately \$158,163 is believed to be uncollectable;
- (b) Capital stock of the Jordan Development Bank, Ltd., at a cost of \$700,000;
- (c) Net investment in Ghor Nimrin tent factory, \$160,376;
- (d) Major equipment in use, currently valued at \$564.200 (cost less depreciation);
- (c) Structures and buildings (principally refugee shelters and distribution centres) currently valued at \$1,342,132 (cost less depreciation).

Note 6. In addition to the liabilities appearing in the statement of assets and liabilities the Agency had contingent liabilities (consisting primarily of commitments on purchase orders issued for goods and services not yet received) at 30 June 1954 of \$2,248,177, including \$1,414,958 entered into by procurement agents (principally UNICEF). In addition, the Agency was contingently liable as a guarantor of \$9.800 of loans made by banks to refugees.

Note 7. Deferred income consists of contributions in cash received during the fiscal year under review but applicable to pledges for the 1954-1955 fiscal year.

Note 8. Details of the adjustments to the working capital fund applicable to the previous fiscal year are as follows:

	\$	\$
Inventories overstated (net) at 30 June 1953. Loss on old claim recovered during current		170,199
fiscal year		55
1		170,254
Less:		
Liabilities overstated (net) at 30 June 1953.	11,312	
Over-payments in previous years recovered		
during current fiscal year	736	
Understatement of cash assets at 30 June 1953	942	12,990
		157,264

STATEMENT OF INCOME AND EXPENDITURE

Note 9. The statement of income and expenditure reflects only income to UNRWA, as distinguished from contributions made direct to the refugees and detailed in statements III and IV. To be income to UNRWA, a contribution must be subject to direct and complete control by UNRWA and must, in addition, be of a type which UNRWA can use in its programme. All other contributions are classified as "Contributions direct to the refugees", whether or not handled by UNRWA.

Note 10. Contributions (and pledges) in cash to UNRWA from countries where exchange restrictions are in force have been reflected in US dollars at official rates of exchange prevailing at the time of receipt. Other cash contributions have been reflected in US dollars at rates fixed by UNRWA approximating average free market rates for such currencies.

Note 11. Contributions (and pledges) in kind to UNRWA have been shown at the values indicated by the contributors, if known, otherwise at values considered by the Agency as appropriate.

Note 12. The net adjustment (loss) on exchange resulted from losses incurred in converting non-dollar currencies to local (mission area) currencies and from the Agency practice of reflecting contributions and expenditures in Lebanese and Syrian pounds in US dollars at fixed rates approximating the average free market rates for these currencies.

- Note 13. The statement of income and expenditure (and the supporting schedules of budget and expenditure) reflects certain changes in expenditure classification from the fiscal year 1952-1953 as follows:
- (a) Primary and secondary education costs have been transferred from relief to rehabilitation.
- (b) All costs of transport within the UNRWA area have been classified under a separate heading and charged entirely to the relief programme, where previously some attempt had been made to allocate a portion of such costs by function with the balance remaining under "Common services—supply and transport".
- (c) Supplementary feeding costs, previously charged partly to "Health care" and partly to "Social welfare", have been consolidated with milk distribution under a new relief function entitled "Milk and supplementary
- (d) Registration and investigation costs, previously classified under "Common services', have been consolidated with "Basic subsistence" and charged entirely to relief.
- (e) Port and related costs, previously charged entirely to "Basic subsistence", have been charged to "Warehousing and handling".
- (f) Certain minor field office administrative costs, previously classified as "Common services" have been charged to "Relief administration".
- (g) "Common services" costs, previously allocated 60 per cent to relief and 40 per cent to rehabilitation. have been allocated 50 per cent to each programme in view of the changes noted above, which leave under this heading only general administration and procurement costs.

These changes in classification have largely been necessitated by organizational or administrative changes and have been instituted to improve the classification system as a reflection of the Agency's activities. Concomitant changes have necessarily, of course, been made in the detailed budget in order to permit accurate comparison of budgeted with actual expenditure.

Note 14. The relief programme budget and expenditure figures appearing in the financial statements and supporting schedules are based upon the Agency's gross requirements on an accrual basis (modified to the extent that buildings and structures and major equipment put into use have been charged to expenditure in the year of acquisition—see note 5 above). However, the Agency's relief "budget" of \$24,800,000 approved by the United Nations General Assembly in its resolution 720 (VIII) represented only the amount of new cash requested by the Agency to finance its operations in 1953-1954, and hence did not include estimated expenditures expected to arise from reductions in inventory or other working capital assets or from contributions in kind. The following table (top of next column) is, therefore, necessary to compare and reconcile the accrual budget and expenditure figures shown on the schedules to the financial statements with the new cash figures approved by the General Assembly.

Note 15. No budget as such was considered by the General Assembly for the rehabilitation programme, since the fiscal year 1953-1954 represented only a continuation under the \$200-million programme approved by the General Assembly in its resolution 513 (VI). Consequently, the budget figures for rehabilitation shown in the schedules to the financial statements are only that portion of the \$200-million over-all programme

New cash requested	¢.
Budgeted expenditure (accrual basis)	\$ 27,253,213
Less: (a) Expected reduction in working capital (1) Decrease in inventories	899,058 1,068,962 486,320

Expenditure per statements	\$ 23,857,147 498,850
Less:	24,355,997
Contributions in kind received	475,249
New cash actually required	23,880,748

^a Estimated-exact allocation of inventories between relief and rehabilitation not possible.

specifically budgeted by the Agency for 1953-1954 for activities actually carried out.

Note 16. Losses on assets of the types mentioned in note 5 above have not been included in the statements of income and expenditure because the assets themselves have already been charged to expenditure, largely in prior periods. Such losses totalled \$1,240 approximately. Similarly, losses incurred on certain minor quantities of supplies donated in kind to UNRWA, but not included in UNRWA's statement of income as they are types not utilizable by UNRWA in its own programme (see note 9 above), have also been excluded from the statements of expenditure. Losses of this category totalled \$1,620 approximately.

M?morandum statements

Note 17. In addition to the activities of UNRWA, certain contributions were made to the Palestine refugee programme by Governments, voluntary agencies, UNICEF and others in the form of direct aid to the refugees (including minor quantities of supplies contributed to UNRWA but not utilizable by UNRWA in its own programme and consequently generally passed on to the refugees through voluntary agencies). These contributions have not been recognized in the financial statements of UNRWA. For informational purposes, however, they have been shown in memorandum form in statements III and IV and are recapitulated in the following summary designed to reflect the total of all known contributions to the Palestine refugee programme during the period under review:

Contributions to UNRWA (statement II)

	\$	\$
In cash In kind	22,669,598 475,249	23,144,847
Contributions direct to the refugees: By Governments (statement III) By others (statement IV)	799,408 2,242,128	3,041,536
Total contributions to Palestine refugee programme		26,186,383

Note 18. All contributions direct to the refugees are listed only to the extent reported by the contributors and (except for clothing) are shown at the contributors' valuations. Clothing has been valued at the rates used by the customs authorities of Lebanon.

REPORT OF THE BOARD OF AUDITORS

1. The annual financial period of the United Nations Relief and Works Agency for Palestine Refugees in the Near East ends on 30 June; consequently this report is with respect to transactions of the twelve months ended 30 June 1954.

INCOME AND EXPENDITURES

- 2. Cash contributions received during the year amounted to \$22,669,598, while contributions in kind have been given a value of \$475,249 for financial statements' purposes. These totals do not include contributions by Governments and others made directly to refugees—statements III and IV to the financial statements give particulars with respect to such contributions. Miscellaneous income of the Agency totalled \$518,892, the two major sources being \$283,470 resulting from sales of empty containers and interest earnings of \$166,021. The total income recorded in the financial statements is \$23,663,739 from which a deduction of \$104,816 is made for exchange adjustments. The net recorded revenue of the year ended 30 June 1954, therefore, was \$23,558,923.
- 3. Expenditures amounted to \$29,192,012, of which \$23.857,147 is related to the relief programme and \$5,334,865 to that for rehabilitation. The total of expenditures exceeding income by approximately \$5,633,000, this amount was met out of balances carried forward from the previous year.
- 4. Relief programme. In June 1953, there were 871,748 recorded refugees. As of June 1954, the number was 887,058, a comparison by locations being:

	Lebanon	Sy ria	Jordan	Gaza	Total
June 1953	,	85,473	475,620	208,560	871,748
June 1954		86,191	486,631	212,600	887,058

The care, shelter, etc. of these persons necessitated expenditures amounting to \$23,857,147, a summary analysis being:

you being.	\$	\$
Basic subsistence supplies and registration		14,276,966
Milk and supplementary feeding		1,204,577
Shelter and camp maintenance		1,201,354
Health care		1,117,695
Social welfare		346,315
Transport within area, warehouse and		
handling charges		1,599,241
Administration:		
Area staff	3,128,304	
International staff	272,282	
Office costs	30,131	3,430,717
Common service costs		680,282
	TOTAL	23,857,147

5. In the previous year, relief programme expenditures of \$23,400,729 included \$828,644 for education expenditures. In the financial statements now reported upon the \$2.514.502 disbursed in 1953-1954 for education is listed as expenditure incurred for purposes of the rehabilitation programme. A change has also been made in the allocating of common services costs—a phrase used to describe costs incurred for the common benefit

of both programmes. In the year ended 30 June 1953, costs of registration and of supply and transport were included in the \$3,274,141 of common services costs. In the year now reported on, expenditures incurred in registration of refugees and most of the supply and transport costs were allocated to the relief programme; thus, 1954 common services costs are limited to those incurred in general administration and procurement. The total was \$1,360,563 and was allocated, in equal portions, to each programme.

6. Rehabilitation programme. Expenditures totalled \$5,334,865, an analysis being:

	Þ
Education	2,514,502
Research, experimentation and planning	
Training	398,696
Agriculture and land development	363,360
Direct loans and grants	125,767
Other	162,382
Administration	427,247
Common services costs	680,281

- 7. As of 30 June last, the Agency was extending assistance in the educating of 154,735 children, with 94,589 in UNRWA-UNESCO schools and the others in public or private schools. The \$2,514,502 expended under the heading "Education" includes all Agency expenditure on primary and secondary education and also payments to teachers.
- 8. Training expenditures of \$398,696 represent the cost of approximately forty vocational training projects and outlays in connexion with about 150 refugee students enrolled at universities in Beirut and in Egypt.
- 9. The major charges included in the item "Research, experimentation and planning" were those with respect to the possibilities of (a) an irrigation and hydro-electric project in the Jordan Valley; and () a project for the reclamation of 50,000 feddans of land in Sinai by utilization of waters of the Nile.

ASSETS AND LIABILITIES

- 10. Assets. The resources of the Agency approximated \$41,600,000 as of 30 June 1954, with inventories of supplies representing about \$5,000,000. For the purposes of the assets and liabilities statement, cash held in currencies other than dollars was valued at official rates of exchange, with the exception of Lebanese and Syrian pounds which were valued at the market rates prevailing on 30 June 1954. Food and medical supplies, tents. etc. at the financial year-end had recorded worth of \$3.415,563 and represented the major part of the \$4,971,541 "Inventories" item. In turn, flour holdings of \$1,379,149 constituted the major item of food warehoused.
- 11. Not all assets of the Agency are recorded as assets in the financial statement. For example, the \$700,000 investment in the Jordan Development Bank is not included. Moreover, the value placed on inventories may not be regarded as other than approximate. Basic relief supplies, which represent the greater part of the inventories, were, as a rule, valued at latest contract prices.

A different basis was used in valuing medical supplies. With respect to other categories, money values, being balances appearing in financial ledgers, were used, but tests made indicate that, with one exception, these were not in agreement with values calculated from quantities on stock sheets compiled by each warehouse and summarized for comparison with the ledgers. As a rule, ledger balances were not adjusted where disagreement in total did not exceed 3 per cent. Because of the nature of its activities and warehousing in numerous places, supply accounting has always presented a special problem to the Agency. Information provided during the audit was to the effect that a further review of the system is under consideration.

- 12. The Agency had accounts receivable totalling \$494,469. Of this total, \$149,919 consisted of claims on the Lebanese Government for refunds of taxes. \$78,173 is being claimed from the Syrian Government for like reasons. The other major item is \$185,905, being a claim outstanding for several years against a supplier of blankets. A judgment favourable to the Agency has been delivered by a French court, but the appeal has yet to be heard.
- Liabilities. These totalled \$2,043,822 as of 30 June 1954, with \$698,974 representing accounts payable, mainly current accounts with respect to supplies, etc. The major "Liabilities" item is the \$1,325,000 reserve for liquidation—the sum currently regarded as necessary to settle all contracts with staff and wind up the affairs of the Agency if and when the purposes for which it was created cease to be applicable. As at the previous yearend the amount was \$625,000. The increase is mainly attributable to the provision of \$665,000 towards the estimated costs of a scheme, introduced during the year, under which local staff get extended notice of termination of appointments. For each completed six months' service, staff are to receive half a month's notice and are to be released from duty not later than two weeks after the beginning of the period of notice. Salary for the whole period of notice will be paid. The Agency advises that it estimated the liability at 30 June 1954 to be \$1,000,000 on the assumption of an average of three years' service and an average annual salary payroll of \$4,000,000. Therefore, the \$665.000 provided in the "Liabilities" statement is \$335,000 less than the estimated requirement. The under-provision is justified by the Agency on the ground that the establishment of a contributory provident fund—now under consideration -will alter the need. Under it, staff members will contribute a percentage of salary each month and, on termination, this will be returned together with the contribution of the Agency. Consequently, the Agency's view is that provision for extended notice benefits will diminish as the Agency's contribution to the provident fund progressively offsets the amount of salary which an employee is to receive in the period of notice. However, no provident fund had been established by 30 June last so the audit view necessarily is that the appropriate action as of 30 June 1954 would have been to record the liability as \$1 million rather than \$665,000, and make adjustments after the fund is in operation.

PROCUREMENT OF SUPPLIES

14. The Agency has entered into an agreement with the United Nations Children's Fund whereby the latter negotiates procurements of supplies outside the Middle East as the agent of UNRWA. All payments to suppliers by UNICEF are made out of funds advanced by

the Agency. For its services, UNICEF is to receive three-quarters of 1 per cent of the value of purchases, but not less than at the rate of \$100,000 per annum. The scheme came into operation in the fall of 1953, and between October of that year and 30 June 1954 contracts thus negotiated totalled \$7,392,000; consequently, UNICEF was paid \$75,000 for its services in the nine months' period. Out of this, UNICEF paid salaries and other expenses associated with procurement activities. The Agency has a senior procurement officer attached to UNICEF for liaison purposes. As the Agency's procurement staff in the Middle East was not otherwise reduced, the benefits to be derived from the agreement, from the viewpoint of monetary savings, will be the economies that may be effected by extended use of world markets in negotiating for supplies. The agreement is terminable on notice by either party. It is understood that the Agency and UNICEF plan to review the arrangement in the near future.

THE AUDIT

- The financial year of UNRWA ending 30 June. a special problem is to complete and report on the audit in time to meet the convenience of the General Assembly session annually commencing on the third Tuesday of September. The accounts are maintained at Beirut, a city far distant from the offices of the several members of the Board of Auditors; moreover, it was indicated to the Board last spring that the accounts might not be closed and financial statements ready until a date later than in 1953. For these reasons and also to keep the cost of audit as low as practicable, the Board of Auditors again exercised the discretion given by article 12.5 of the United Nations Financial Regulations, and arranged with the Comptroller and Auditor General, Great Britain (a member of the Panel of Auditors), that examinations of accounts at Beirut and elsewhere in the Near East be made by his staff stationed in the area. Relying on the provisions of article 12.3 of the Financial Regulations, the Board of Auditors sought, and received, the concurrence of the Advisory Committee on Administrative and Budgetary Questions to its delegating to the Canadian member of the Board the responsibility for certifying the accounts and reporting thereon. Again, the reason was to save time and expense. These are the reasons why this report bears one signature only. The action taken is not to be regarded as establishing a practice, because it was dictated by special circumstances existing in 1954.
- 16. The Comptroller and Auditor General, Great Britain, advises that he obtained all the information and explanations required in the course of examinations made of the books of account and other records of UNRWA for the year ended 30 June 1954. The examinations were made by means of tests of books of account and other records maintained at the Agency's headquarters in Beirut and at the field offices in Lebanon, Syria, Jordan and Gaza. The Cairo office of the Agency was not visited, but a report of the internal audit branch of the Agency revealed that the accounts were generally satisfactory. In addition, stores accounting at a number of warehouses and the cost accounts of the Agency's tent factory were examined.
- 17. The Director of the United Nations Relief and Works Agency for Palestine Refugees in the Near East submitted the following statements for audit certificate:
- T. Statement of assets and liabilities as of 30 June 1954.
- II. Statement of income and expenditure for the financial year ended 30 June 1954.

A footnote states:

"The notes to the financial statements are an integral part of these statements and should be read in conjunction therewith."

Audit directions of the General Assembly do not require that the external auditors review and certify financial reports of either the Secretary-General or any other person—the audit certificate is to be with respect to the accounts as summarized in financial statements. With this reservation and subject to the observations already made in this report, I certify that the statement of assets and liabilities and the statement of income and expenditure presented for audit certificate by the Director of the United Nations Relief and Works Agency for Palestine Refugees in the Near East and related to the financial year ended 30 June 1954 have been examined in accordance with the provisions of the Financial Regulations. All information and explanations required were provided, and I certify, as a result of the audit, that in

my opinion the statements are in accord with the books of the Agency and correct.

- 18. In accordance with established practice, a memorandum is being addressed to the Advisory Committee on Administrative and Budgetary Questions with respect to some subordinate matters noted in the course of the audit.
- 19. On behalf of the Board of Auditors, appreciation is expressed for the co-operation and assistance extended by the Comptroller and Auditor General, Great Britain, and his staff. It is also a pleasure to record again that the audit task was facilitated by the co-operation of the Director and officers of UNRWA.

Watson SELLAR, Canada, On behalf of the Board of Auditors

13 October 1954.
