20. At the 11th meeting, on 11 October, the representative of Argentina, on behalf of the States Members of the United Nations that are members of the Group of 77 and China, introduced a draft resolution entitled “Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly” (A/C.3/66/L.11), which read:

*“The General Assembly,*

*“Recalling the World Summit for Social Development, held at Copenhagen from 6 to 12 March 1995, and the twenty-fourth special session of the General Assembly entitled ‘World Summit for Social Development and beyond: achieving social development for all in a globalizing world’, held at Geneva from 26 June to 1 July 2000,*

*“Reaffirming that the Copenhagen Declaration on Social Development and the Programme of Action and the further initiatives for social development adopted by the General Assembly at its twenty-fourth special session, as well as a continued global dialogue on social development issues, constitute the basic framework for the promotion of social development for all at the national and international levels,*

*“Recalling the United Nations Millennium Declaration and the development goals contained therein, as well as the commitments made at major United Nations summits, conferences and special sessions, including the commitments made at the 2005 World Summit and at the High-level Plenary Meeting of the General Assembly on the Millennium Development Goals,*

*“Recalling also its resolution 57/270 B of 23 June 2003 on the integrated and coordinated implementation of and follow-up to the outcomes of the major United Nations conferences and summits in the economic and social fields,*

*“Recalling further its resolution 60/209 of 22 December 2005 on the implementation of the first United Nations Decade for the Eradication of Poverty (1997-2006),*

*“Recalling its resolution 63/303 of 9 July 2009 on the Outcome of the Conference on the World Financial and Economic Crisis and Its Impact on Development,*

*“Reaffirming Economic and Social Council resolution 2008/18 of 24 July 2008 on promoting full employment and decent work for all and Council resolution 2010/12 of 22 July 2010 on promoting social integration, and welcoming the decision of the Commission for Social Development to have ‘Poverty eradication’ as the priority theme for the 2011-2012 review and policy cycle,*

*“Noting with appreciation the ministerial declaration adopted at the high-level segment of the substantive session of 2006 of the Economic and Social Council, entitled ‘Creating an environment at the national and international levels conducive to generating full and productive employment and decent work for all, and its impact on sustainable development’,*

*“Noting* that the decent work agenda of the International Labour Organization, with its four strategic objectives, has an important role to play, as reaffirmed in the International Labour Organization Declaration on Social Justice for a Fair Globalization and in the Global Jobs Pact, in achieving the objective of full and productive employment and decent work for all, including its objective of social protection,

*“Emphasizing* the need to enhance the role of the Commission for Social Development in the follow-up to and review of the World Summit for Social Development and the outcome of the twenty-fourth special session of the General Assembly,

*“Recognizing* that a people-centred approach must be at the centre of economic and social development,

*“Expressing deep concern* that attainment of the social development objectives is being hindered by the ongoing global financial and economic crisis, as well as challenges brought about by the food and energy crises,

*“Recognizing* the complex character of the current global food crisis and ongoing food insecurity as a combination of several major factors, both structural and conjunctural, which is also negatively affected by, inter alia, environmental degradation, drought and desertification, global climate change, natural disasters and the lack of the necessary technology, and recognizing also that a strong commitment from national Governments and the international community as a whole is required to confront the major threats to food security and to ensure that policies in the area of agriculture, in particular agricultural subsidies, do not distort trade and worsen the food crisis,

*“Deeply concerned* that extreme poverty persists in all countries of the world, regardless of their economic, social and cultural situation, and that its extent and its manifestations, such as hunger, trafficking in human beings, disease, lack of adequate shelter, illiteracy and hopelessness, are particularly severe in developing countries, while acknowledging the significant progress made in several parts of the world in combating extreme poverty,

*“Recognizing* the importance of support by the international community for national capacity-building efforts in the area of social development,

*“Affirming* its strong support for fair globalization and the need to translate growth into eradication of poverty and commitment to strategies and policies that aim to promote full, freely chosen and productive employment and decent work for all and that these should constitute a fundamental component of relevant national and international policies as well as national development strategies, including poverty reduction strategies, and reaffirming that employment creation and decent work should be incorporated into macroeconomic policies, taking fully into account the impact and social dimension of globalization, the benefits and costs of which are often unevenly shared and distributed,

*“Recognizing* the need to ensure market access for developing countries, including for agricultural products,

*“Recognizing also* that social inclusion is a means for achieving social integration and is crucial for fostering stable, safe, harmonious, peaceful and

just societies and for improving social cohesion so as to create an environment for development and progress,

“1. *Takes note* of the report of the Secretary-General;

“2. *Welcomes* the reaffirmation by Governments of their will and commitment to continue implementing the Copenhagen Declaration on Social Development and the Programme of Action, in particular to eradicate poverty, promote full and productive employment and foster social integration to achieve stable, safe and just societies for all;

“3. *Recognizes* that the implementation of the Copenhagen commitments and the attainment of the internationally agreed development goals, including the Millennium Development Goals, are mutually reinforcing and that the Copenhagen commitments are crucial to a coherent people-centred approach to development;

“4. *Reaffirms* that the Commission for Social Development continues to have the primary responsibility for the follow-up to and review of the World Summit for Social Development and the outcome of the twenty-fourth special session of the General Assembly and that it serves as the main United Nations forum for an intensified global dialogue on social development issues, and calls upon Member States, the relevant specialized agencies, funds and programmes of the United Nations system and civil society to enhance their support for its work;

“5. *Expresses deep concern* that the world financial and economic crisis, the world food and energy crises, continuing food insecurity and climate change, as well as the lack of results so far in the multilateral trade negotiations and a loss of confidence in the international economic system, have negative implications for social development, in particular for the achievement of poverty eradication, full and productive employment and decent work for all and social integration;

“6. *Stresses* the importance of the policy space of national Governments, in particular in the areas of social expenditure and social protection programmes, and calls upon international financial institutions and donors to support developing countries in achieving their social development, in line with their national priorities and strategies by, among other things, providing debt relief;

“7. *Recognizes* that poverty eradication, full and productive employment and decent work for all and social integration are interrelated and mutually reinforcing, and that an enabling environment therefore needs to be created so that all three objectives can be pursued simultaneously;

“8. *Also recognizes* that the broad concept of social development affirmed by the World Summit for Social Development and the twenty-fourth special session of the General Assembly has been weakened in national and international policymaking and that, while poverty eradication is a central part of development policy and discourse, further attention should be given to the other commitments agreed to at the Summit, in particular those concerning employment and social integration, which have also suffered from a general disconnect between economic and social policymaking;

“9. *Acknowledges* that the first United Nations Decade for the Eradication of Poverty (1997-2006), launched after the World Summit for Social Development, has provided the long-term vision for sustained and concerted efforts at the national and international levels to eradicate poverty;

“10. *Recognizes* that the implementation of the commitments made by Governments during the first Decade has fallen short of expectations, and welcomes the proclamation of the Second United Nations Decade for the Eradication of Poverty (2008-2017) by the General Assembly in its resolution 62/205 of 19 December 2007 in order to support, in an efficient and coordinated manner, the internationally agreed development goals related to poverty eradication, including the Millennium Development Goals;

“11. *Emphasizes* that the major United Nations conferences and summits, including the Millennium Summit, the 2005 World Summit, the High-level Plenary Meeting of the General Assembly on the Millennium Development Goals and the International Conference on Financing for Development, in its Monterrey Consensus, have reinforced the priority and urgency of poverty eradication within the United Nations development agenda;

“12. *Also emphasizes* that poverty eradication policies should attack poverty by addressing its root and structural causes and manifestations, and that equity and the reduction of inequalities need to be incorporated in those policies;

“13. *Stresses* that an enabling environment is a critical precondition for achieving equity and social development and that, while economic growth is essential, entrenched inequality and marginalization are an obstacle to the broad-based and sustained growth required for sustainable, inclusive and people-centred development, and recognizes the need to balance and ensure complementarity between measures to achieve growth and measures to achieve economic and social equity in order for there to be an impact on overall poverty levels;

*The General Assembly,*

*Recalling* the World Summit for Social Development, held at Copenhagen from 6 to 12 March 1995, and the twenty-fourth special session of the General Assembly entitled “World Summit for Social Development and beyond: achieving social development for all in a globalizing world”, held at Geneva from 26 June to 1 July 2000,

*Reaffirming* that the Copenhagen Declaration on Social Development and the Programme of Action<sup>1</sup> and the further initiatives for social development adopted by the General Assembly at its twenty-fourth special session,<sup>2</sup> as well as a continued global dialogue on social development issues, constitute the basic framework for the promotion of social development for all at the national and international levels,

*Recalling* the United Nations Millennium Declaration<sup>3</sup> and the development goals contained therein, as well as the commitments made at major United Nations summits, conferences and special sessions, including the commitments made at the 2005 World Summit<sup>4</sup> and at the High-level Plenary Meeting of the General Assembly on the Millennium Development Goals,<sup>5</sup>

*Recalling also* its resolution 57/270 B of 23 June 2003 on the integrated and coordinated implementation of and follow-up to the outcomes of the major United Nations conferences and summits in the economic and social fields,

*Recalling further* its resolution 60/209 of 22 December 2005 on the implementation of the first United Nations Decade for the Eradication of Poverty (1997-2006),

*Recalling* its resolution 63/303 of 9 July 2009 on the Outcome of the Conference on the World Financial and Economic Crisis and Its Impact on Development,

*Reaffirming* Economic and Social Council resolution 2008/18 of 24 July 2008 on promoting full employment and decent work for all and Council resolution 2010/12 of 22 July 2010 on promoting social integration, and welcoming the decision of the Commission for Social Development to have “Poverty eradication” as the priority theme for the 2011-2012 review and policy cycle,

*Noting with appreciation* the ministerial declaration adopted at the high-level segment of the substantive session of 2006 of the Economic and Social Council, entitled “Creating an environment at the national and international levels conducive

to generating full and productive employment and decent work for all, and its impact on sustainable development”,<sup>6</sup>

*Noting* that the decent work agenda of the International Labour Organization, with its four strategic objectives, has an important role to play in achieving the objective of full and productive employment and decent work for all, including its objective of social protection, as reaffirmed in the International Labour Organization Declaration on Social Justice for a Fair Globalization,<sup>7</sup> in which the particular role of the Organization in promoting fair globalization and its responsibility to assist its members in their efforts were acknowledged, as well as in the Global Jobs Pact,

*Emphasizing* the need to enhance the role of the Commission for Social Development in the follow-up to and review of the World Summit for Social Development and the outcome of the twenty-fourth special session of the General Assembly,

*Recognizing* that the three core themes of social development, namely, poverty eradication, full and productive employment and decent work for all and social integration are interrelated and mutually reinforcing, and that an enabling environment therefore needs to be created so that all three objectives can be pursued simultaneously,

*Recognizing also* that a people-centred approach must be at the centre of economic and social development,

*Expressing deep concern* that attainment of the social development objectives is being hindered by the ongoing adverse impact of the world financial and economic crisis, volatile energy and food prices and the challenges posed by climate change,

*Recognizing* the complex character of the current global food crisis and ongoing food insecurity, including food price volatility, as a combination of several major factors, both structural and conjunctural, which is also negatively affected by, inter alia, environmental degradation, drought and desertification, global climate change, natural disasters and the lack of the necessary technology, and recognizing also that a strong commitment from national governments and the international community as a whole is required to confront the major threats to food security and to ensure that policies in the area of agriculture, do not distort trade and worsen the food crisis,

*Deeply concerned* that extreme poverty persists in all countries of the world, regardless of their economic, social and cultural situation, and that its extent and its manifestations, such as hunger, trafficking in human beings, disease, lack of adequate shelter, and illiteracy, are particularly severe in developing countries, while acknowledging the significant progress made in several parts of the world in combating extreme poverty,

*Recognizing* the importance of the international community in supporting national capacity-building efforts in the area of social development, while recognizing the primary responsibility of national governments in this regard,

*Affirming* its strong support for fair globalization and the need to translate growth into eradication of poverty and commitment to strategies and policies that aim to promote full, freely chosen and productive employment and decent work for all and that these should constitute a fundamental component of relevant national and international policies as well as national development strategies, including poverty reduction strategies, and reaffirming that employment creation and decent work should be incorporated into macroeconomic policies, taking fully into account the impact and social dimension of globalization, the benefits and costs of which are often unevenly shared and distributed,

*Recognizing* the need to enhance access to the benefits of trade for developing countries, including agricultural trade, in order to foster social development,

*Recognizing also* that social inclusion is a means for achieving social integration and is crucial for fostering stable, safe, harmonious, peaceful and just societies and for improving social cohesion so as to create an environment for development and progress,

1. *Takes note* of the report of the Secretary-General;<sup>8</sup>
2. *Welcomes* the reaffirmation by Governments of their will and commitment to continue implementing the Copenhagen Declaration on Social Development and the Programme of Action,<sup>1</sup> in particular to eradicate poverty, promote full and productive employment and foster social integration to achieve stable, safe and just societies for all;

4. *Reaffirms* that the Commission for Social Development continues to have the primary responsibility for the follow-up to and review of the World Summit for Social Development and the outcome of the twenty-fourth special session of the General Assembly and that it serves as the main United Nations forum for an intensified global dialogue on social development issues, and calls upon Member States, the relevant specialized agencies, funds and programmes of the United Nations system and civil society to enhance their support for its work;
5. *Expresses deep concern* that the ongoing adverse impact of the world financial and economic crisis, volatile energy and food prices and food insecurity and the challenges posed by climate change, as well as the lack of results so far in the multilateral trade negotiations, have negative implications for social development;
6. *Stresses* the importance of the policy space of national governments, in particular in the areas of social expenditure and social protection programmes, and calls upon international financial institutions and donors to support developing countries in achieving their social development, in line with their national priorities and strategies by, among other things, providing debt relief;
7. *Recognizes* that the broad concept of social development affirmed by the World Summit for Social Development and the twenty-fourth special session of the

General Assembly has not been fully implemented in national and international policymaking and, although poverty eradication is a central part of development policy and discourse, further attention should be given to the other commitments agreed to at the Summit, in particular those concerning employment and social integration, which have also suffered from a general disconnect between economic and social policymaking;

8. *Acknowledges* that the first United Nations Decade for the Eradication of Poverty (1997-2006), launched after the World Summit for Social Development, has provided the long-term vision for sustained and concerted efforts at the national and international levels to eradicate poverty;

9. *Recognizes* that the implementation of the commitments made by Governments during the first Decade has fallen short of expectations, and welcomes the proclamation of the Second United Nations Decade for the Eradication of Poverty (2008-2017) by the General Assembly in its resolution 62/205 of 19 December 2007 in order to support, in an efficient and coordinated manner, the internationally agreed development goals related to poverty eradication, including the Millennium Development Goals;

10. *Emphasizes* that the major United Nations conferences and summits, including the Millennium Summit, the 2005 World Summit, the High-level Plenary Meeting of the General Assembly on the Millennium Development Goals and the International Conference on Financing for Development, in its Monterrey Consensus,<sup>9</sup> have reinforced the priority and urgency of poverty eradication within the United Nations development agenda;

11. *Also emphasizes* that poverty eradication policies should attack poverty by addressing its root and structural causes and manifestations, and that equity and the reduction of inequalities need to be incorporated in those policies;

12. *Reaffirms* that each country has the primary responsibility for its own economic and social development and that the role of national policies and development strategies cannot be overemphasized, and underlines the importance of adopting effective measures, including new financial mechanisms, as appropriate, to support the efforts of developing countries to achieve sustained economic growth, sustainable development, poverty eradication and the strengthening of their democratic systems;

13. *Stresses* that an enabling environment is a critical precondition for achieving equity and social development and that, while economic growth is essential, entrenched inequality and marginalization are an obstacle to the broad-based and sustained growth required for sustainable, inclusive and people-centred development, and recognizes the need to balance and ensure complementarity between measures to achieve growth and measures to achieve economic and social equity in order for there to be an impact on overall poverty levels;

14. *Also stresses* that stability in global financial systems and corporate social responsibility and accountability, as well as national economic policies that

19. *Also reaffirms* that there is an urgent need to create an environment at the national and international levels that is conducive to the attainment of full and productive employment and decent work for all as a foundation for sustainable development and that an environment that supports investment, growth and entrepreneurship is essential to the creation of new job opportunities, and also reaffirms that opportunities for men and women to obtain productive work in conditions of freedom, equity, security and human dignity are essential to ensuring the eradication of hunger and poverty, the improvement of economic and social well-being for all, the achievement of sustained economic growth and sustainable development of all nations and a fully inclusive and equitable globalization;

20. *Stresses* the importance of removing obstacles to the realization of the right of peoples to self-determination, in particular of peoples living under colonial or other forms of alien domination or foreign occupation, which adversely affect their social and economic development, including their exclusion from labour markets;

25. *Encourages* States to design and implement policies and strategies for poverty eradication, full employment and decent work for all, including the creation of full and productive employment that is appropriately and adequately remunerated, as well as policies and strategies for social integration that promote gender equality and the empowerment of women and address the specific needs of social groups such as young people, persons with disabilities, older persons, migrants and indigenous peoples, taking into account the concerns of these groups in the planning, implementation and evaluation of development programmes and policies;

29. *Stresses* that the benefits of economic growth should be distributed more equitably and that, in order to close the gap of inequality and avoid any further deepening of inequality, comprehensive social policies and programmes, including appropriate social transfer and job creation programmes and social protection systems, are needed;

30. *Recognizes* the importance of providing social protection schemes for the formal and informal economy as instruments to achieve equity, inclusion and stability and cohesion of societies, and emphasizes the importance of supporting national efforts aimed at bringing informal workers into the formal economy;
