NOTE BY THE SECRETARY-GENERAL

1. On 19 December 1967, at its 1642nd plenary meeting, the General Assembly adopted resolution 2363 (XXII) in which it established the level of the United Nations budget appropriations for the financial year 1968 at \$140,430,950 and approved an estimate of income other than income from staff assessment in the amount of \$9,014,300. Estimated income from staff assessment was approved in the amount of \$14,620,700.

2. The nature and purposes of the budget are set forth in two basic documents, the initial budget estimates submitted by the Secretary-General for the financial year 1968¹ and the related report of the Advisory Committee on Administrative and Budgetary Questions.² Subsequently, the Secretary-General submitted a series of revised estimates affecting the initial estimates, including those resulting from decisions taken by the Economic and Social Council at its forty-second and forty-third sessions, as well as from decisions taken by the General Assembly in the course of its twenty-second session. In each case these estimates were the subject of a recommendation by the Advisory Committee. The discussion of the total budget estimates in the Fifth Committee and its recommendations thereon are reflected in its related report to the General Assembly.³

3. There follows a schedule indicating in detail the appropriations under each budget section. The three main General Assembly resolutions pertaining to the budget for the financial year 1968 are annexed to the present report.⁴

¹ *Official Records of the General Assembly, Twenty-second Session, Supplement No. 5 (A/6705 and Corr.1).*
