INTRODUCTORY NOTE

This bibliography has been prepared by the Dag Hammarskjold Library in order to satisfy the increased need for information relating to the New World Information and Communication Order. The bibliography is selective, but efforts have been taken to make it more comprehensive and useful by including not only materials available in the Library but also items from other sources. The bibliography is arranged in two parts, each of which contains entries under broad subject areas. Entries are alphabetically arranged, with selective annotations provided.

The first part lists references to books and articles in periodicals, some of which are available in more than one language edition.

The second part contains references to reports, studies, resolutions and other selected documents of organizations of the United Nations system, principally the United Nations and the United Nations Educational, Scientific and Cultural Organization. United Nations documents, though listed in English only, are available in other official languages of the Organization. Most of the specialized agency documents are also available in languages other than English.

This bibliography incorporates and updates material included in an unpublished bibliography prepared by the Library in June 1981, the second portion of which was published under the symbol RBS/BIBL/SER.A/2.

INTRODUCTION

La présente bibliographie a été établie par la Bibliothèque Dag Hammarskjöld pour répondre à la demande croissante de renseignements sur le Nouvel ordre mondial de l'information et de la communication. Cette bibliographie n'est pas exhaustive, mais on s'est efforcé de la compléter et de l'améliorer en ajoutant au matériel dont dispose la Bibliothèque des éléments provenant d'autres sources. La bibliographie se compose de deux parties, subdivisées chacune en rubriques consacrées à des questions générales. Les rubriques sont classées par ordre alphabétique et parfois annotées.

La première partie signale les ouvrages et articles parus dans des périodiques, dont certains existent en plusieurs langues.

La seconde partie indique des rapports, études, résolutions et autres documents émanant d'organismes des Nations Unies, principalement l'ONU et l'Organisation des Nations Unies pour l'éducation, la science et la culture. Les documents des Nations Unies, quoique cités en anglais seulement, sont disponibles dans les autres langues officielles de l'Organisation. La plupart des documents des institutions spécialisées existent aussi dans d'autres langues que l'anglais.

Cette bibliographie reprend et met à jour une bibliographie inédite établie par la Bibliothèque en juin 1981, dont la deuxième partie a été publiée sous la cote RBS/BIBL/SER.A/2.
