The crime Israeli aggression on Sudan

The value of the protection of civilians against the military targeting one of noble human values advocated by all civilized norms and guaranteed in all international and regional and local legal mechanisms and secured as well as in all tasks and functions of international and regional institutions.

On 10/23/2012 while the world celebrates the anniversary of the enforcement of the UN Charter, which calls for maintaining international peace and security. The population of Khartoum state was panicked at the twelfth midnight twenty-with a loud barrage of Yarmouk Factory where it fell a number of victims and wounded due to Israel's attack on the factory the Yarmouk industrial complex which located south of Khartoum, using eight military fighter jets, which led to the destruction of part of the complex and the residential area located next to the compound, sparking a state of terror among citizens, especially women and children, who scattered in the surrounding area in a scene they never had before. Although Israel has not publicly acknowledged committing the incident, but some Israeli newspapers and websites pointed to involvement.

Encroachment of the Israeli entity on Sudanese territory and targeting of civilians began in 2009, which the Red Sea state saw in its coast three Israeli military raids targeting civilians beside a military operation around Port Sudan. Israel entity's adopted the aggression.

These actions confirm systematic criminal behavior of the Israeli entity, which would support its operations in the occupied territories in Palestine.

The Maarij Foundation for Peace and Development strongly condemns what Israel used to do such attacks and believes that dropping Israel from punishment is paid to continue to conduct aggressive attacks which has no justification, and undoubtedly that the crime of aggression is a crime punishable by all international laws, norms and conventions and as stated in the definition of aggression fully applicable to the behavior of Israel (regardless of a declaration of war or not, the following acts are considered acts of aggression:
