Annex 5 - Statistical Table - New York Headquarters - Nationality by Grade	151

GENERAL REMARKS

In accordance with the request of Committee Five in 1947, information is presented on the composition of the Secretariat on 31 August 1947. (The list of Geneva staff was taken on 15 August 1949).

For each Department at Headquarters and in the field the names of staff members with their functional title, nationality and grade are listed by bureau, division, and section or major service unit. The salary range of each grade in both gross and net amounts is shown in the tables on pages 139-142.

Staff members with indeterminate appointments are identified by an asterisk immediately preceding their names. Staff members holding short-term appointments are identified by a double asterisk, and manual workers by the letter "M" after the grade. The names of persons filling temporary assistance posts and temporary replacement posts for staff assigned to commissions have been included. The number of these temporary posts in each Department is shown in the statistical table on pages 143-144. Posts which were vacant on 31 August 1949 are shown within each organizational unit.

A vertical line to the right of the grade indicates for easy reference posts in grades 1-7 and manual categories normally restricted to local recruitment.

The statistical tables on pages 145-152 show by nationality the numbers of staff in posts subject to international recruitment. They do not, therefore, include staff in grades 1-7 who are subject to local recruitment, staff in posts with special language requirements, and a limited number of consultants who are paid at special salary rates.

SECRETARY-GENERAL

Trygve Lie

EXECUTIVE OFFICE OF THE SECRETARY-GENERAL

Provides personal assistance to the Secretary-General; assists him in his relations with governments; co-ordinates formulation of policy and maintains liaison with departments in connection with its implementation; advises on official communications matters and co-ordinates policy on overseas missions.
