NOTE

The resolutions and decisions of the Economic and Social Council are identified as follows:

Resolutions

Until 1977 (up to and including the resumed sixty-third session), the resolutions of the Economic and Social Council were numbered consecutively and were identified by an arabic numeral followed by an indication of the session in parentheses (for example: resolution 1733 (LIV), resolution 1915 (ORG-75), resolution 2046 (S-III), adopted at the fifty-fourth session, the organizational session for 1975 and the third special session, respectively). When several resolutions were adopted under the same number, each of them was identified by a capital letter (for example: resolution 1926 B (LVIII), resolutions 1954 A to D (LIX)). The last resolution so numbered is resolution 2130 (LXIII), of 14 December 1977.

Since 1978, as part of the new system adopted for symbols of Council documents, the resolutions have been numbered on a yearly basis and identified by two arabic numerals separated by an oblique stroke, the first numeral indicating the year, the second the number of the resolution in the annual series (for example: resolution 1990/47).

Decisions

Until 1973 (up to and including the resumed fifty-fifth session), the decisions of the Council were not numbered. From 1974 to 1977 (up to and including the resumed sixty-third session), the decisions were numbered consecutively and were identified by an arabic numeral followed by an indication of the session in parentheses (for example: decision 64 (ORG-75), decision 78 (LVIII), adopted at the organizational session for 1975 and the fifty-eighth session, respectively). The last decision so numbered is decision 293 (LXIII), of 2 December 1977.

5. *Highlights* the urgent need for the incorporation of the recommendations contained in the outcome documents of the World Summit in the revised guidelines for United Nations country teams on preparing the common country assessments and United Nations Development Assistance Frameworks, including the addition of an information and communications technology for development component;

6. *Notes with satisfaction* the holding in Geneva, from 14 to 18 May 2012, of the World Summit on the Information Society Forum 2012, organized by the International Telecommunication Union, the United Nations Educational, Scientific and Cultural Organization, the United Nations Conference on Trade and Development and the United Nations Development Programme, as a multi-stakeholder platform for the coordination of implementation of the outcomes of the World Summit and to facilitate the implementation of the World Summit action lines;

7. *Calls upon* all States, in building the information society, to take steps to avoid and to refrain from taking any unilateral measure not in accordance with international law and the Charter of the United Nations that impedes the full achievement of economic and social development by the population of the affected countries and that hinders their well-being;

8. *Welcomes* the progress highlighted in the report of the Secretary-General,¹⁵ in particular the fact that the rapid growth in mobile telephony since 2005 has meant that more than half of the world's inhabitants will have access to information and communications technologies within their reach, in line with one of the World Summit targets, the value of this progress being enhanced by the advent of new services and applications, including m-health, mobile transactions, e-government, e-business and development services, which offer great potential for the development of the information society;

9. *Notes with great concern* that many developing countries lack affordable access to information and communications technologies and that, for the majority of the poor, the promise of science and technology, including information and communications technologies, remains unfulfilled, and emphasizes the need to effectively harness technology, including information and communications technologies, to bridge the digital divide;

10. *Recognizes* that information and communications technologies present new opportunities and challenges and that there is a pressing need to address the major impediments that developing countries face in accessing the new technologies, such as sufficient resources, infrastructure, education, capacity, investment and connectivity, as well as issues related to technology ownership, standards and flows, and in this regard calls upon all stakeholders to provide adequate resources, enhanced capacity-building and transfer of technology to developing countries, particularly the least developed countries;

11. *Also recognizes* the rapid growth in broadband access networks, especially in developed countries, and notes with concern that there is a growing digital divide in the availability, affordability, quality of access and use of broadband between high-income countries and other regions, with least developed countries and Africa as a continent lagging behind the rest of the world;

Resolutions

12. *Further recognizes* that the transition to a mobile-led communications environment is leading to significant changes in operators' business models and that it requires significant rethinking of the ways in which individuals and communities make use of networks and devices, of government strategies and of ways in which communications networks can be used to achieve development objectives;

13. *Recognizes* that, even with all the developments and the improvement observed in some respects, in numerous developing countries information and communications technologies and their applications are still not affordable to the majority of people, particularly those living in rural areas;

14. *Also recognizes* that the number of Internet users is growing and that in some instances the digital divide is also changing in character, from one based on whether access is available to one based on the quality of access, information and skills that users can obtain and the value they can derive from it, and recognizes in this regard that there is a need to prioritize the use of information and communications technologies through innovative approaches, including multi-stakeholder approaches, within national and regional development strategies;

15. *Welcomes* the outcomes of the Broadband Leadership Summit, hosted by the Broadband Commission for Digital Development in Geneva on 24 and 25 October 2011 as a unique event that united key decision makers and helped to foster relationships and policies to boost the roll-out and deployment of broadband;

16. *Notes* that, while a solid foundation for capacity-building in information and communications technology has been laid in many areas with regard to building the information society, there is still a need for continuing efforts to address the ongoing challenges, especially for developing countries and the least developed countries, and draws attention to the positive impact of broadened capacity development that involves institutions, organizations and entities dealing with information and communications technologies and Internet governance issues;

17. *Recognizes* the need to focus on capacity development policies and sustainable support to further enhance the impact of activities and initiatives at the national and local levels aimed at providing advice, services and support with a view to building an inclusive, people-centred and development-oriented information society;

18. *Notes* that topics that were not central at the first and second phases of the World Summit in 2003 and 2005 continue to emerge, such as the potential of information and communications technologies to combat climate change, social networking, virtualization and cloud computing, the protection of online privacy and the empowerment and protection, especially against cyberexploitation and abuse, of vulnerable groups of society, in particular children and young people;

19. *Reiterates* the importance of information and communications technology indicators as a monitoring and evaluation tool for measuring the digital divide among countries and within societies and in informing decision makers when formulating policies and strategies for social, cultural and economic development, and emphasizes that the standardization and harmonization of reliable and regularly updated indicators capturing the performance, efficiency, affordability and quality of goods and services is essential for implementing information and communications technology policies;

Internet governance

20. *Reaffirms* paragraph 20 of its resolution 2011/16 and General Assembly resolution 66/184;

21. *Also reaffirms* paragraphs 34 to 37 and 67 to 72 of the Tunis Agenda for the Information Society;¹⁷

The road ahead

27. *Urges* United Nations entities still not actively cooperating in the implementation of and follow-up to the outcomes of the World Summit through the United Nations system to take the necessary steps and commit to a people-centred, inclusive and development-oriented information society, and to catalyse the attainment of the internationally agreed development goals, including those contained in the United Nations Millennium Declaration;¹⁹

28. *Calls upon* all stakeholders to keep the goal of bridging the digital divide, in its different forms, an area of priority concern, put into effect sound strategies that contribute to the development of e-government and continue to focus on pro-poor information and communications technology policies and applications, including access to broadband at the grass-roots level, with a view to narrowing the digital divide among and within countries;

29. *Urges* all stakeholders to prioritize the development of innovative approaches that will stimulate the provision of universal access to affordable broadband infrastructure for developing countries and the use of relevant broadband services in order to ensure the development of an inclusive, development-oriented and people-centred information society, and to minimize the digital divide;

Social Development and beyond: achieving social development for all in a globalizing world”, held in Geneva from 26 June to 1 July 2000,²³

Reaffirming the United Nations Millennium Declaration of 8 September 2000²⁴ and the 2005 World Summit Outcome,²⁵ and recalling the high-level plenary meeting of the General Assembly on the Millennium Development Goals and its outcome document,²⁶ the United Nations Declaration on the New Partnership for Africa’s Development of 16 September 2002²⁷ and Assembly resolution 57/7 of 4 November 2002 on the final review and appraisal of the United Nations New Agenda for the Development of Africa in the 1990s and support for the New Partnership for Africa’s Development,

Recognizing the commitments made with regard to meeting the special needs of Africa at the 2005 World Summit²⁵ and reaffirmed in the political declaration on Africa’s development needs adopted at the high-level meeting held at United Nations Headquarters on 22 September 2008,²⁸

Noting the conclusions of the African Union Extraordinary Summit on Employment and Poverty Alleviation in Africa, held in Ouagadougou on 8 and 9 September 2004, including relevant decisions of African Union summits related to the New Partnership for Africa’s Development,

Expressing deep concern that attainment of the social development objectives may be hindered by the ongoing adverse impacts of the world financial and economic crisis, volatile energy and food prices and challenges posed by climate change,

Recognizing that capacity-building, knowledge-sharing and best practices are essential for the successful implementation of the New Partnership, and recognizing also the need for continued support from the international community, partners of the New Partnership and United Nations agencies to continue to work towards sustained, inclusive and equitable economic growth and development on the African continent, and for greater synergy and effective coordination between the New Partnership and the international initiatives related to Africa, such as the Tokyo International Conference on African Development, co-organized by the African Union, the United Nations, the United Nations Development Programme, the World Bank and the Government of Japan,

Bearing in mind that African countries have primary responsibility for their own economic and social development, that the role of national policies and development strategies cannot be overemphasized and that the development efforts of such countries need to be supported by an enabling international economic environment, and in this regard recalling the support given by the International Conference on Financing for Development to the New Partnership,³⁰

3. *Also welcomes* the good progress that has been made in implementing the African Peer Review Mechanism, as reflected in particular by the number of countries that have signed up to participate in the Mechanism, the completion of the peer review process in some countries, the progress in implementing the recommendations of those reviews in those countries and the completion of the annual progress reports and self-assessment processes, the hosting of country support missions and the launching of national preparatory processes for the peer review in others, and urges African States that have not yet done so to join the Mechanism as a matter of priority and to strengthen the peer review process so as to ensure its efficient performance;

7. *Also emphasizes* that progress in the implementation of the New Partnership depends also on a favourable national and international environment for Africa’s growth and development, including measures to promote a policy environment conducive to private sector development and entrepreneurship;

8. *Further emphasizes* that democracy, respect for all human rights and fundamental freedoms, including the right to development, transparent and accountable governance and administration in all sectors of society and effective participation by civil society, including non-governmental and community-based organizations, and the private sector are among the indispensable foundations for the realization of social and people-centred sustainable development;

9. *Emphasizes* that the increasingly unacceptable high levels of poverty and social exclusion faced by most African countries require a comprehensive approach to the development and implementation of social and economic policies, inter alia, to reduce poverty, to promote economic activity, growth and sustainable development in order to ensure employment creation and decent work for all, to promote education, health and social protection and to enhance social inclusion, political stability, democracy and good governance at all levels and the promotion and protection of human rights and fundamental freedoms;

7. *Expresses deep concern* that the ongoing adverse impact of the world financial and economic crisis, volatile food and energy prices and food insecurity and the challenges posed by climate change, as well as the lack of results so far in the multilateral trade negotiations, have negative implications for social development;

8. *Emphasizes* that poverty eradication policies should tackle poverty by addressing its root and structural causes and manifestations, and that equity and the reduction of inequalities need to be incorporated into those policies;

9. *Stresses* that poverty eradication policies should, inter alia, ensure, for people living in poverty, access to education, health, social protection, water and sanitation and other public and social services, as well as to productive resources, including credit, land, training, technology, knowledge and information, and ensure that citizens and local communities participate in decision-making on social development policies and programmes in this regard;

10. *Recognizes* the need to formulate social development policies in an integral, articulated and participative manner, recognizing poverty as a multidimensional phenomenon, calls for interlinked public policies on this matter, underlines the need for public policies to be included in a comprehensive development and well-being strategy, and invites Governments to consider developing complementary measures that better reflect the multidimensionality of poverty;

13. *Reaffirms* the commitment to gender equality and the empowerment of women, as well as to the mainstreaming of a gender perspective into all development efforts, recognizing that these are critical for achieving sustainable development and for efforts to combat hunger, poverty and disease and to strengthen policies and programmes that improve, ensure and broaden the full participation of women in all spheres of political, economic, social and cultural life, as equal partners, and to improve their access to all resources needed for the full exercise of all their human rights and fundamental freedoms by removing persistent barriers, including ensuring equal access to full and productive employment and decent work, as well as strengthening their economic independence;

14. *Also reaffirms* the commitment to promote opportunities for full, freely chosen and productive employment, including for the disadvantaged, as well as decent work for all, with full respect for fundamental principles and rights at work under conditions of equity, equality, security and dignity, and further reaffirms that macroeconomic policies should, inter alia, support employment creation, taking fully into account the social and environmental impact and dimensions of globalization, and that these concepts are key elements of sustainable development for all countries and are therefore a priority objective of international cooperation;

15. *Further reaffirms* that there is an urgent need to create an environment at the national and international levels that is conducive to the attainment of full and productive employment and decent work for all as a foundation for sustainable development and that an environment that supports investment, growth and entrepreneurship is essential to the creation of new job opportunities, and also reaffirms that opportunities for men and women to obtain productive work in conditions of freedom, equity, security and human dignity are essential to ensuring the eradication of hunger and poverty, the improvement of economic and social well-being for all, the achievement of sustained economic growth and sustainable development of all nations and a fully inclusive and equitable globalization;

16. *Notes with concern* the continuing high levels of unemployment and underemployment, particularly among young people, recognizes that decent work remains one of the best routes out of poverty, and in this regard invites donor countries, multilateral organizations and other development partners to continue to support Member

18. *Also reaffirms* the critical role of both formal and non-formal education in the achievement of poverty eradication and other development goals as envisaged in the United Nations Millennium Declaration,³⁵ and in this context recalls the Dakar Framework for Action, adopted at the World Education Forum in 2000;⁴²

20. *Notes with grave concern* the vicious cycle whereby non-communicable diseases and their risk factors worsen poverty, while poverty contributes to rising rates of non-communicable diseases, posing a threat to public health and economic and social development, and in this regard stresses the importance of the prevention and control of non-communicable diseases, including through multisectoral actions, and encourages the continued inclusion of non-communicable diseases in development cooperation agendas and initiatives;

21. *Stresses* that the benefits of economic growth should be distributed more equitably, and in that regard calls upon States to promote more equitable participation in and access to economic growth gains through, inter alia, policies that ensure inclusive labour markets and by implementing socially responsive macroeconomic policies in which employment has a key role and social inclusion strategies that promote social integration, including through social protection floors, including for those who are in vulnerable or marginalized situations;

2012/11. Mainstreaming disability in the development agenda

The Economic and Social Council,

Recalling the outcomes of the World Summit for Social Development, held in Copenhagen from 6 to 12 March 1995,⁴⁴ and of the twenty-fourth special session of the General Assembly, entitled “World Summit for Social Development and beyond: achieving social development for all in a globalizing world”, held in Geneva from 26 June to 1 July 2000,⁴⁵

Recalling also the World Programme of Action concerning Disabled Persons,⁴⁶ the Standard Rules on the Equalization of Opportunities for Persons with Disabilities⁴⁷ and the Convention on the Rights of Persons with Disabilities,⁴⁸ in which persons with disabilities are recognized as both development agents and beneficiaries in all aspects of development,

Recalling further its previous resolutions concerning persons with disabilities and further promotion of equalization of opportunities and mainstreaming of disability in the development agenda and the relevant resolutions adopted by the General Assembly,

Welcoming the fact that, since the opening for signature on 30 March 2007 of the Convention and the Optional Protocol thereto,⁴⁹ 152 States and 1 regional integration organization have signed and 117 States have ratified or acceded to and 1 regional integration organization has formally confirmed the Convention and 90 States have signed and 71 States have ratified or acceded to the Optional Protocol, and encouraging all States that have not yet done so to consider signing and ratifying the Convention and the Optional Protocol,

Noting that the Convention provides comprehensive coverage of the civil, political, economic, social and cultural rights of persons with disabilities,

Noting also that persons with disabilities, who face a greater risk of living in absolute poverty, make up an estimated 15 per cent of the world’s population,⁵⁰ of whom 80 per cent live in developing countries,⁵¹ and

⁴⁸ United Nations, *Treaty Series*, vol. 2515, No. 44910.

⁴⁹ *Ibid.*, vol. 2518, No. 44910.

⁵⁰ According to the *World Report on Disability*, published in 2011 by the World Health Organization and the World Bank, an estimated 15 per cent of the world’s population lives with a disability.

⁵¹ In General Assembly resolution 65/186, it is stated that persons with disabilities make up an estimated 10 per cent of the world’s population, of whom 80 per cent live in developing countries. The figure of 80 per cent, which originated from the United Nations Development Programme, was quoted in a discussion paper entitled “Disability and poverty: a survey of World Bank poverty assessments and implications” (Jeanine Braithwaite and Daniel Mont, SP discussion paper No. 0805, World Bank, February 2008).

Resolutions

recognizing the importance of international cooperation in supporting national efforts to mainstream disability in the development agenda, in particular for developing countries,

Convinced that addressing the profound social, cultural and economic disadvantage and exclusion experienced by many persons with disabilities, promoting the use of universal design, as appropriate, as well as the progressive removal of barriers to the full and effective participation of persons with disabilities in all aspects of development, and promoting their equal enjoyment of civil, political, economic, social and cultural rights will further the equalization of opportunities and contribute to the realization of a “society for all” in the twenty-first century,

Noting that, while progress has already been made by Governments, the international community and the United Nations system in mainstreaming disability as an integral part of the global development agenda, major challenges remain,

Emphasizing the importance of the collection and compilation of national data and information regarding the situation of persons with disabilities, following existing guidelines on disability statistics, that are disaggregated by gender and age, which could be used by Governments to enable their development policy planning, monitoring, evaluation and implementation to be disability-sensitive, in particular in the achievement of the Millennium Development Goals for persons with disabilities, while reiterating the request to the United Nations system to facilitate technical assistance within existing resources, including the provision of assistance, in particular to developing countries, for capacity-building and for the collection and compilation of national and regional data and statistics on disabilities,

Underlining the importance of mobilizing resources at all levels for the successful implementation of the Standard Rules, the World Programme of Action and the Convention, and recognizing the importance of international cooperation and its promotion in support of national efforts, in particular in developing countries,

Emphasizing that in the Salvador Declaration on Comprehensive Strategies for Global Challenges: Crime Prevention and Criminal Justice Systems and Their Development in a Changing World,⁵⁷ Member States recognized that an effective, fair and humane criminal justice system was based on the commitment to uphold the protection of human rights in the administration of justice and the prevention and control of crime and acknowledged the value and impact of the United Nations standards and norms in designing and implementing national crime prevention and criminal justice policies, laws, procedures and programmes,

Recalling its resolution 65/230 of 21 December 2010, entitled “Twelfth United Nations Congress on Crime Prevention and Criminal Justice”, in which it requested the Commission on Crime Prevention and Criminal Justice to establish an open-ended intergovernmental expert group to exchange information on best practices, as well as national legislation and existing international law, and on the revision of existing United Nations standard minimum rules for the treatment of prisoners so that they reflected recent advances in correctional science and best practices, with a view to making recommendations to the Commission on possible next steps, and requested the expert group to report to the Commission on progress in its work,

Aware that the penitentiary system is one of the key components of the criminal justice system and that the Standard Minimum Rules for the Treatment of Prisoners⁵⁸ have been of value and influence in the development of correctional laws, policies and practices,

Convinced also that specific efforts should be made to use alternative measures, in accordance with the United Nations Standard Minimum Rules for Non-custodial Measures (the Tokyo Rules),⁵⁹

2012/16. Promoting efforts to eliminate violence against migrants, migrant workers and their families

The Economic and Social Council

Recommends to the General Assembly the adoption of the following draft resolution:

The General Assembly,

Recalling its resolution 66/172 of 19 December 2011, entitled “Protection of migrants”,

Recognizing that violence against migrants, migrant workers and their families poses a serious challenge to Member States and requires multilateral cooperation among all countries for its eradication,

Recognizing also that the challenges include violence perpetrated by organized criminal groups, including violence motivated by racism,

Deeply concerned about acts of intolerance, discrimination and violence and credible threats of violence against migrants, migrant workers and their families,

Recognizing that impediments to accessing employment, vocational training, housing, schooling, health services and social services, as well as other services that, in accordance with national legislation, are intended for use by the public, contribute to the vulnerability of migrants,

Noting that the factors that drive people to seek to cross international borders are many and varied and that, while the majority may be motivated by economic factors, in some cases migrants may include vulnerable groups,

Resolutions

Aware that, as criminals take advantage of migratory flows and attempt to circumvent border controls, migrants become more vulnerable to, inter alia, kidnapping, extortion, forced labour, sexual exploitation, physical assault, debt servitude and abandonment,

Concerned about the large numbers of migrants, especially women and children, who attempt to cross international borders without appropriate travel documents, which renders them highly vulnerable, and recognizing the obligation of Member States to treat migrants humanely, with full protection of their rights, regardless of their immigration status,

Bearing in mind the need for a focused and consistent criminal justice approach to crimes committed against migrants, in particular women and children, as a group that is especially vulnerable to crime and abuse,

Emphasizing the importance of the safety and well-being of all civilians, and calling for the cessation of all acts of violence, including all acts of terror, provocation, incitement and destruction, and all firing of rockets,

Expressing deep concern that thousands of Palestinians, including many children and women, continue to be held in Israeli prisons or detention centres under harsh conditions, including unhygienic conditions, solitary confinement, excessive use of administrative detention, lack of proper medical care and denial of family visits and of due process, that impair their well-being, and expressing deep concern also about any ill-treatment and harassment of Palestinian prisoners and all reports of torture, while taking note of the recent agreement reached on conditions of detention in Israeli prisons and calling for its full and immediate implementation,

Recognizing the efforts being undertaken by the Palestinian Authority, with international support, to rebuild, reform and strengthen its damaged institutions and promote good governance, emphasizing the need to preserve the Palestinian national institutions and infrastructure, commending in that regard the implementation of the 2009 plan of the Palestinian Authority, entitled “Palestine: Ending the Occupation, Establishing the State”, for building the institutions of an independent Palestinian State within a 24-month period and the significant achievements that have been brought about, as confirmed by international institutions, including the United Nations, the International Monetary Fund and the World Bank in their reports to the meeting of the Ad Hoc Liaison Committee for the Coordination of the International Assistance to Palestinians held on 13 April 2011, and acknowledging the development plan of the Palestinian Authority for the period 2011–2013,

Acknowledging the work of the United Nations Human Settlements Programme (UN-Habitat) towards attaining the goal of sustainable urban development and the implementation of the Habitat Agenda,

Recalling the outcome document of the United Nations Conference on Sustainable Development, held in Rio de Janeiro, Brazil, from 20 to 22 June 2012, entitled “The future we want”,¹⁴⁵

1. *Takes note* of the report of the Secretary-General on the coordinated implementation of the Habitat Agenda;¹⁴⁶

2. *Also takes note* of paragraph 2 of General Assembly resolution 66/207 of 22 December 2011, in which the Assembly decided to convene in 2016 a third United Nations conference on housing and sustainable urban development (Habitat III);

3. *Notes* the ongoing review of the governance structure of the United Nations Human Settlements Programme (UN-Habitat), which aims to improve its transparency, accountability, efficiency and effectiveness;

4. *Recognizes* the progress made in meeting and even surpassing Millennium Development Goal 7, target 11, in terms of improving the lives of slum dwellers, but expresses concern that there has not been enough progress to counter the growth of slums in the developing world, that urban sprawl adds to the urban divide pushing social segregation in cities and suburbs, and that the overall reduction in the world’s urban divide requires greater effort, since the absolute number of slum dwellers actually increased by over 50 million in ten years, and in this regard stresses the need for Governments and development partners to redouble efforts to support plans and strategies at all levels to improve the lives of the urban poor across the developing world;

5. *Encourages* Governments to continue to support the work and existing cooperation of UN-Habitat, within its mandate and in line with its medium-term strategic and institutional plan for the period 2008–2013, on issues related to cities and climate change, including its complementary role in matters related to climate change within the United Nations system, in particular in addressing the vulnerability of cities to climate change, with a focus on vulnerable urban populations, slum dwellers, the urban poor and at-risk populations;

6. *Also encourages* Governments, according to their circumstances and capacities, to promote sustainability criteria in planning, construction and management for access to clean water and safe drinking water, adequate sanitation, urban and rural services, sustainable waste management, sustainable transport and disaster risk reduction;

7. *Encourages* governments at all levels and all relevant stakeholders, including the private sector, to promote the participation and access of people, in particular the poor, to policies, programmes and projects related to basic services, including housing, in order to address the needs of rural and urban populations;

8. *Welcomes* the contributions of initiatives at all levels to mobilize investment for slum upgrading, shelter and basic services beyond current targets, and invites the international community to support such efforts;

9. *Emphasizes* that, for Habitat III and its preparatory process, full advantage should be taken of planned meetings by aligning with the twenty-fourth and twenty-fifth sessions of the Governing Council of UN-Habitat and with the seventh session of the World Urban Forum, and encourages the regular regional ministerial conferences on housing and urban development and other relevant expert group meetings to support the activities of the preparatory process, taking into account that the conference and the preparatory process should be carried out in the most inclusive, efficient, effective and improved manner;

11. *Recommends* that the General Assembly adopt in a timely manner a resolution on the modalities for Habitat III, and in this regard encourages the United Nations system, in particular the regional and functional commissions and other relevant subsidiary bodies of the Economic and Social Council, to actively support the preparatory process of the conference, as appropriate;

12. *Encourages* UN-Habitat to continue to work on the strategic plan for 2014–2019 in consultation with the Committee of Permanent Representatives, in an open and transparent manner, setting realistic and achievable goals for the period that it covers;

15. *Requests* the Secretary-General to continue to adequately support UN-Habitat in accordance with the mandate of the General Assembly;

16. *Invites* Governments to further promote sustainable cities and the role of local authorities in their national development policies and programmes and to consider the environmentally sustainable, socially inclusive and economically productive roles of cities in the post-2015 United Nations development agenda;
