Twentieth session
Kingston, Jamaica
14-25 July 2014

Laws, regulations and administrative measures adopted by sponsoring States and other members of the International Seabed Authority with respect to the activities in the Area

Report of the Secretary-General

1. It is recalled that, on 1 February 2011, the Seabed Disputes Chamber of the International Tribunal for the Law of the Sea delivered its advisory opinion on the responsibilities and obligations of States sponsoring persons and entities with respect to activities in the Area. The Chamber affirmed that the Convention requires the sponsoring State to adopt, within its legal system, laws and regulations and to take administrative measures that have two distinct functions, namely, to ensure compliance by the contractor with its obligations and to exempt the sponsoring State from liability. The existence of such laws and regulations and administrative measures is not a condition for concluding a contract with the Authority; it is, however, a necessary requirement for compliance with the obligation of due diligence of the sponsoring State and for seeking its exemption from liability. The Chamber further indicated that the national measures, once adopted, may not be appropriate in perpetuity. Such measures should be kept under review so as to ensure that they meet current standards and that the contractor meets its obligations effectively without detriment to the common heritage of mankind.

2. At the seventeenth session of the International Seabed Authority, in 2011, the Council of the Authority adopted a decision in which it requested the Secretary-General to prepare a report on the laws, regulations and administrative measures adopted by sponsoring States and other members of the Authority with respect to the activities in the Area, and invited sponsoring States and other members of the Authority, as appropriate, to provide information on, or texts of, relevant national laws, regulations and administrative measures to the secretariat (see [ISBA/17/C/20](#)).

3. At the eighteenth session of the Authority, in 2012, in response to that request, the Secretary-General presented to the Council a report on the laws, regulations and administrative measures adopted by sponsoring States and other members of the Authority with respect to the activities in the Area ([ISBA/18/C/8](#) and Add.1). After consideration of the report, the Council requested the Secretary-General to update,

on an annual basis, the study of the laws, regulations and administrative measures adopted by sponsoring States and other members of the Authority with respect to activities in the Area, and to invite, for that purpose, sponsoring States and other members of the Authority to provide texts of relevant national laws, regulations and administrative measures to the secretariat (see [ISBA/18/C/21](#)).

4. At the nineteenth session of the Authority, in 2013, the Secretary-General presented to the Council an updated report on the matter ([ISBA/19/C/12](#)), which was considered by the Council. Several delegations expressed their appreciation to the secretariat for setting up an online database on national legislation. One delegation emphasized that the national legislation should be in conformity with the regulations. It was noted that, in July 2013, Fiji had promulgated the International Seabed Mineral Management Decree 2013, which is a law to govern Fiji's engagement in seabed mineral activities in the Area beyond national jurisdiction and for related matters.

5. Since the nineteenth session, Belgium has promulgated two laws, in July and August 2013, concerning prospecting, exploration for and exploitation of the commodities in the Area and subsoil beyond the limits of national jurisdiction.

6. On 10 March 2014, the secretariat circulated a note verbale further inviting sponsoring States and other members of the Authority to submit to the secretariat texts of their relevant national laws, regulations and administrative measures or related information. However, as at the end of May 2014, no further text or information had been received.

7. As of 30 May 2014, the following States had provided information on or texts of relevant national legislation: Belgium, China, the Cook Islands, the Czech Republic, Fiji, France, Germany, Guyana, Japan, Mexico, Nauru, the Netherlands, New Zealand, Oman, the Republic of Korea, Tonga, the United Kingdom of Great British and Northern Ireland, the United States of America and Zambia. A submission had also been received from the South Pacific Commission on behalf of the Pacific Islands region. Such information on or texts of national laws, regulations and administrative measures submitted by the above-mentioned States or members of the Authority are available on the Authority's website (www.isa.org.jm/en/mcode/NatLeg).

8. The secretariat will continue to keep the online database updated as new information is received. The secretariat is also undertaking a comparative study of the existing national legislation, with a view to analysing common elements that may be contained in such legislation, while keeping in mind the advisory opinion of the Chamber.

9. The Council is invited to take note of the present report.
