#### Nuclear capability of South Africa

The General Assembly,

Having considered the report of the Secretary General on South Africa's nuclear capability, 5/

Recalling its resolutions 34/76 B of 11 December 1979, 35/146 A of 12 December 1980, 36/86 A of 9 December 1981, 37/74 B of 9 December 1982, 38/181 B of 20 December 1983, 39/61 B of 12 December 1984, 40/89 B of 12 December 1985, 41/55 B of 3 December 1986, 42/34 B of 30 November 1987 and 43/71 B of 7 December 1988,

Bearing in mind the Declaration on the Denuclearization of Africa 1/ adopted by the Assembly of Heads of State and Government of the Organization of African Unity at its first ordinary session, held at Cairo from 17 to 21 July 1964.

5/ A/44/655.

Recalling that, in paragraph 12 of the Final Document of the Tenth Special Session of the General Assembly, 6/ it noted that the massive accumulation of armaments and the acquisition of armaments technology by racist régimes, as well as their possible acquisition of nuclear weapons, present a challenging and increasingly dangerous obstacle to a world community faced with the urgent need to disarm,

Recalling also that, in its resolution 33/63 of 14 December 1978, it vigorously condemned any overt or covert attempt by South Africa to introduce nuclear weapons into the continent of Africa and demanded that South Africa refrain forthwith from conducting any nuclear explosion in the continent or elsewhere,

Bearing in mind the provisions of resolution CM/Res.1101(XLVI)/Rev.1 2/ on the denuclearization of Africa adopted by the Council of Ministers of the Organization of African Unity at its forty-sixth ordinary session, held at Addis Ababa from 20 to 25 July 1987,

Noting with regret the non-implementation by <u>apartheid</u> South Africa of resolution GC(XXX)/RES/468 <u>7</u>/ adopted on 3 October 1986 by the General Conference of the International Atomic Energy Agency during its thirtieth regular session,

Having taken note of the report of the United Nations Institute for Disarmament Research entitled "South Africa's nuclear capability", 3/ undertaken in co-operation with the Department for Disarmament Affairs of the Secretariat and in consultation with the Organization of African Unity,

Expressing regret that, despite the threat that South Africa's nuclear capability constitutes to international peace and security and, in particular, to the realization of the objective of the Declaration on the Denuclearization of Africa, the Disarmament Commission, although it considered the question during its substantive session in 1989, failed once again to reach a consensus on this important item on its agenda,

Alarmed that South Africa's nuclear facilities, particularly those that remain unsafeguarded, enable it to develop and acquire the capability of producing fissionable material for nuclear weapons,

Further alarmed that by its own public admission at Vienna on 13 August 1988 the <u>apartheid</u> South African régime has now acquired nuclear weapons capability

 $\underline{6}$  / Resolution S-10/2.

7/ See International Atomic Energy Agency, Resolutions and Other Decisions of the General Conference, Thirtieth Regular Session, 29 September-3 October 1986.

<u>Deeply concerned</u> about recent reports of <u>apartheid</u> South Africa's active military collaboration with Israel in the production of nuclear-tipped medium-range missiles with completed testing facilities and the consequences for the peace and security of African States,

<u>Gravely concerned</u> that South Africa, in flagrant violation of international law and the relevant provisions of the Charter of the United Nations, has continued its acts of aggression and subversion against the peoples of the independent States of southern Africa,

<u>Deeply indignant</u> at the persistent policy of hostility by the racist régime of South Africa as demonstrated by its constant encroachment into the territory of neighbouring States, which constitutes an act of aggression against the sovereignty and territorial integrity of those countries,

Expressing its grave disappointment that, despite appeals by the international community, certain Western States and Israel have continued to collaborate with the racist régime of South Africa in the military and nuclear fields and that some of these States have, by a ready recourse to the use of veto, consistently frustrated every effort in the Security Council to deal decisively with the question of South Africa,

<u>Recalling</u> its decision taken at the tenth special session that the Security Council should take appropriate effective steps to prevent the frustration of the implementation of the decision of the Organization of African Unity for the denuclearization of Africa,  $\underline{8}/$ 

<u>Stressing</u> the need to preserve peace and security in Africa by ensuring that the continent is a nuclear-weapon-free zone,

1. <u>Takes note</u> of the report of the Secretary-General on South Africa's nuclear capability;

2. <u>Condemns</u> the massive buildup of South Africa's military machine, in particular its frenzied acquisition of nuclear-weapon capability for repressive and aggressive purposes and as an instrument of blackmail;

3. Further condemns all forms of nuclear collaboration by any State, corporation, institution or individual with the racist régime of South Africa, in particular the decision by some Member States to grant licences to several corporations in their territories to provide equipment and technical and maintenance services for nuclear installations in South Africa;

4. <u>Reaffirms</u> that the acquisition of nuclear-weapon capability by the racist régime constitutes a very grave danger to international peace and security and, in particular, jeopardizes the security of African States and increases the danger of the proliferation of nuclear weapons;

 $\beta$ / See resolution S-10/2, para. 63 (c).

5. Expresses its full support for the African States faced with the danger of South Africa's capability;

6. <u>Commends</u> the actions taken by those Governments which have taken measures to restrict co-operation with South Africa in nuclear and other fields;

7. <u>Demands</u> that South Africa and all other foreign interests put an immediate end to the exploration for and exploitation of uranium resources in Namibia;

8. <u>Calls upon</u> all States, corporations, institutions and individuals to terminate forthwith all forms of military and nuclear collaboration with the racist régime;

9. <u>Requests</u> the Disarmament Commission to consider once again as a matter of priority during its substantive session in 1990 South Africa's nuclear capability, taking into account, <u>inter alia</u>, the findings of the report of the United Nations Institute for Disarmament Research on South Africa's nuclear capability;

10. <u>Requests</u> the Secretary-General to provide all necessary assistance that the Organization of African Unity may seek regarding the modalities and elements for the preparation and implementation of the relevant convention or treaty on the denuclearization of Africa;

11. <u>Commends</u> the adoption by the Security Council of resolutions 558 (1984) of 13 December 1984 and 591 (1986) of 28 November 1986 on the question of South Africa, with a view to blocking the existing loopholes in the arms embargo so as to render it more effective and prohibiting, in particular, all forms of co-operation and collaboration with the racist régime of South Africa in the nuclear field;

12. Demands once again that South Africa submit forthwith all its nuclear installations and facilities to inspection by the International Atomic Energy Agency;

13. Requests the Secretary-General to follow very closely South Africa's evolution in the nuclear field and to report thereon to the Ceneral Assembly at its forty-fifth session;

14. <u>Further requests</u> the Secretary-General to report to the General Assembly at its forty-fifth session on the military assistance that <u>apartheid</u> South Africa is receiving from Israel and any other sources in advanced missile technology as well as the supporting technical facilities.
