5. Please provide information on the resources specifically allocated and spent for the implementation of the Optional Protocol.
6. Please provide updated information on the steps taken by the State party to prevent the offences covered by the Optional Protocol and to address their root causes, in particular poverty, lack of access to education and domestic violence.

9. Please provide information on the measures to develop holistic and victim-centred methods to identify children, such as unaccompanied children entering the State party, who are, or who are at risk of becoming, victims of child trafficking, sale, prostitution and pornography.
10. In the light of the information provided that “the rights of a victim belong completely to his or her legal representative”, please explain further how the rights of the child to receive information, to be heard and to have his or her best interests taken as a primary consideration are ensured in all stages of the criminal justice process.
11. Please indicate the measures taken to ensure that child victims of offences under the Optional Protocol are treated as victims in need of recovery and reintegration, and not criminalized as offenders, as well as to avoid the stigmatization and social marginalization of such children. In particular, please clarify whether there are any circumstances under which a child involved in prostitution or any other offence under the Optional Protocol could be treated as an offender.
