## Overall orientation

- 12.1 The main objective of the programme implemented by the United Nations Conference on Trade and Development (UNCTAD) and the International Trade Centre (ITC) is to assist developing countries, especially the least developed countries, and countries with economies in transition, in integrating beneficially into the global economy in support of inclusive and sustainable growth and development. Through its work to promote development-centred globalization, UNCTAD will help to implement the global development agenda and will assist developing countries in meeting their development goals, including poverty eradication, improving the well-being of citizens and addressing the opportunities and challenges created by globalization. In particular, UNCTAD will further enhance its efforts to support the development of Africa across its areas of expertise.
- 12.2 In order to attain the foregoing objectives, UNCTAD, within its mandate, will:
- Conduct research and analysis on long-standing and emerging trade and development issues;
  - Build consensus around efforts to promote policies and strategies conducive to inclusive and sustainable development;
  - Support countries in implementing development strategies aimed at integrating into the global trading system and economy and achieving sustainable growth and development.
- 12.3 ITC will seek to improve the international competitiveness of small and medium-sized enterprises in developing countries, especially least developed countries, and countries with economies in

transition. In order to achieve that goal, ITC will focus on the delivery of trade-related technical assistance activities linked to trade intelligence and export development issues.

- 12.4 In the context of deepening interdependence among all countries, UNCTAD will maintain its unique orientation and commitment to development through these three pillars, while remaining responsive and accountable to all member States. The Conference will also continue efforts to enhance its efficiency, effectiveness, transparency and accountability, including through results-based management.
- 12.5 The programme is guided by the quadrennial sessions of the Conference, the Trade and Development Board and its subsidiary bodies, and the Commission on Science and Technology for Development, including the decisions adopted at the twelfth and thirteenth sessions of the Conference and those to be adopted at the fourteenth session, to be held in 2016. UNCTAD remains the focal point in the United Nations for the integrated treatment of trade and development and interrelated issues in the areas of finance, technology, investment and sustainable development. The Conference is responsible for subprogrammes 1 to 5, while ITC is responsible for subprogramme 6.
- 12.6 As many development challenges are closely interconnected, UNCTAD contributes to effective responses to these challenges through the integrated treatment of trade, finance, investment, technology and sustainable development and the promotion of such an approach for the post-2015 development agenda. Because sustainable and inclusive outcomes in an interdependent world involve collective responses at the multilateral level, UNCTAD is one of the appropriate bodies of the United Nations system for building consensus around more development-centred globalization, which would lead to faster and more stable growth, economic diversification, sustainable debt management, job creation, poverty reduction, and sustainable and inclusive development.
- 12.7 ITC will address the operational aspects of trade promotion and export development. Its strategic vision is one of fostering inclusive and sustainable growth and development through trade and international business development. Within this context, the strategic challenges of ITC are to strengthen the integration of the business sector into the global economy, improve the performance of trade support institutions for the benefit of enterprises and improve the international competitiveness of enterprises.
- 12.8 UNCTAD will pursue its subprogrammes in support of the main objective of the programme. Subprogramme 1 examines development strategies in a globalizing world economy and related issues. Subprogrammes 2 and 4 contribute to the building of productive capacity and international competitiveness. Subprogramme 3 and the trade logistics component of subprogramme 4 contribute to the maximization of gains resulting from globalization for development in international trade and trade negotiations. Subprogramme 5 covers the development strategies of economies in Africa, least developed countries and countries in special situations, including small island developing States, landlocked developing countries and other structurally weak, vulnerable and small economies. Sectoral concerns of those countries will also be addressed by other subprogrammes in coordination and cooperation with subprogramme 5.
- 12.9 Throughout its programme of work, UNCTAD will make efforts to mainstream cross-cutting issues related to gender equality and the empowerment of women, the promotion of sustainable development, and full and productive employment. It will also strengthen its cross-divisional coordination, in particular with respect to training and capacity-building programmes. UNCTAD and ITC will increase their use of evaluation surveys to seek feedback from relevant stakeholders from across all subprogrammes in order to measure improved capacity of stakeholders to address trade and development issues as a result of UNCTAD and/or ITC assistance.

- 12.10 UNCTAD will contribute to the implementation of the outcomes of relevant global conferences and to the achievement of internationally agreed development goals within the framework of a post-2015 development agenda once it has been approved by the General Assembly, especially those related to global partnerships for development, financing for development, domestic resource mobilization, investment, debt, trade, commodities, systemic issues and global economic decision-making, economic cooperation among developing countries, sustainable development, and science and technology for development.
- 12.11 UNCTAD will also contribute to the implementation of the Monterrey Consensus of the International Conference on Financing for Development; the Doha Declaration on Financing for Development and its follow-up; the Programme of Action for the Least Developed Countries for the Decade 2011-2020; the outcomes and the Plan of Implementation of the World Summit on Sustainable Development; the outcomes and the Declaration of Principles and the Plan of Action of the World Summit on the Information Society; the Almaty Programme of Action: Addressing the Special Needs of Landlocked Developing Countries within a New Global Framework for Transit Transport Cooperation for Landlocked and Transit Developing Countries; and the outcomes of the midterm review of the Almaty Programme of Action in 2008 and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States. UNCTAD will also assist in furthering the implementation of the internationally agreed goals set out in the Doha Ministerial Declaration of the Fourth Ministerial Conference of the World Trade Organization (WTO). In addition, UNCTAD will contribute to the implementation of the outcome of the United Nations Conference on Sustainable Development, entitled “The future we want” (General Assembly resolution 66/288, annex).
- 12.12 As a lead agency of the United Nations System Chief Executives Board for Coordination (CEB) inter-agency thematic cluster on trade and productive capacity, UNCTAD will contribute to the implementation of the Aid for Trade initiative; enhance the role of trade and development and interrelated issues in United Nations development assistance plans, such as United Nations development assistance frameworks and national development strategies; undertake joint operations at the country level; and enhance related inter-agency cooperation in system-wide initiatives.

### **Overview of resources**

- 12.13 The overall resources proposed for the biennium 2016-2017 for this section amount to \$146,714,900 before recosting, reflecting a net decrease of \$1,200,400 (or 0.8 per cent) compared with the appropriation for 2014-2015. Resource changes result from four factors, namely: (a) technical adjustments relating to the removal of non-recurrent requirements; (b) new mandates and inter-component changes; (c) resource changes in line with General Assembly resolution 69/264 (further reductions); and (d) resource changes in line with General Assembly resolution 69/264 on efficiencies. The proposed reductions will not have an impact on full and effective mandate implementation.
- 12.14 Resource changes in line with General Assembly resolution 69/264 reflect proposals to freeze recruitment against established posts and, to some extent, reductions in non-post resources that are anticipated in 2016-2017.
- 12.15 The proposed reductions will be influenced by the future impact of the deployment of Umoja (Foundation and Extension 1) by the end of 2015. As it is too early to determine the specific future impact of Umoja, the proposed reductions, while firm in financial terms, are flexible in operational terms. The flexibility means that the specific composition of the post freeze and the resulting reorganization of functions and roles will be determined only during 2016-2017, when the impact of Umoja becomes clearer.

12.16 The distribution of resources is reflected in tables 12.3 to 12.5.

### Technical adjustments

- 12.17 Resource changes reflect the removal of non-recurrent requirements of \$105,400, relating to one-time general temporary assistance provided to ensure limited funding continuity and with respect to the abolishment and downward reclassification of posts during the biennium 2014-2015 in line with General Assembly resolution 67/248.

### New mandates and inter-component changes

- 12.18 Redeployment of general temporary assistance and overtime resources from the programme support component to the subprogrammes where they are utilized is proposed, to enhance accountability of the division directors and streamlining of operational management, as well as to provide adequate staff capacity during peak workload periods. The strengthening of information technology applications services under subprogramme 1 is also proposed, to complete the migration of web, document management, collaboration and other SharePoint applications of the substantive subprogrammes, to be funded through the redeployment of resources from the programme support component.

### Resource changes in line with General Assembly resolution 69/264 (further reductions)

- 12.19 Resource changes of \$597,200 are proposed in line with General Assembly resolution 69/264 under posts (decrease of \$454,900) and non-post resources (decrease of \$142,300).
- 12.20 The decrease of \$454,900 under posts reflects proposals to freeze recruitment against established posts in subprogramme 1 (\$267,100) and subprogramme 2 (\$187,800). The proposed decrease of \$142,300 under non-post resources relates mainly to travel of staff and takes into account the anticipated impact of the approved standards of accommodation for air travel and further efficiencies that the Department plans to bring about in 2016-2017.

### Resource changes in line with General Assembly resolution 69/264 (efficiencies)

- 12.21 Resource changes of \$497,800 are proposed in line with General Assembly resolution 69/264 under posts (\$529,800) and offset in part by non-post resources (\$32,000). The decrease under posts reflects proposals to freeze recruitment against established posts in the programme support component (\$529,800), offset in part by increased requirements under general temporary assistance to provide adequate staff capacity during peak workload periods.

### Other assessed and extrabudgetary resources

- 12.22 During the biennium 2016-2017, the projected extrabudgetary resources, amounting to \$73,833,900, or 33.7 per cent of the total resources, will finance various technical cooperation activities, such as technical advisory services, training, workshops, seminars and field projects. The projected decrease of \$1,705,100, or 2.3 per cent, compared with the biennium 2014-2015, reflects the nature of UNCTAD extrabudgetary resources, which are devoted almost exclusively to country-specific technical cooperation activities and are demand driven, cyclical and subject to funding uncertainty.

### Other information

- 12.23 In line with General Assembly resolution 64/259, entitled "Towards an accountability system in the United Nations Secretariat", and resolutions 67/253 and 68/264, UNCTAD has put in place mechanisms for the enhancement of overall institutional performance, results-based management and accountability. In the area of implementation of oversight body recommendations, dedicated

attention has resulted in a consistent implementation rate of over 80 per cent in recent years and a considerable reduction in the number of outstanding recommendations of the Office of Internal Oversight Services from more than 30 in 2010 to a total of 5 at the end of 2014.

- 12.24 The Secretary-General of UNCTAD has also introduced mechanisms for the enhancement of accountability of staff at the Director level through internal management and monitoring tools based on the senior manager's compact with the Secretary-General of the United Nations. With regard to results-based management, efforts have been made to enhance the capacity of programme managers to manage for and measure results, most notably through UNCTAD-tailored training provided in cooperation with the United Nations System Staff College in 2014. In 2015, efforts are under way to put in place a coordination mechanism to mainstream results-based management into the regular conduct of activities, under the guidance of the Secretary-General of UNCTAD and his senior management team.
- 12.25 Pursuant to General Assembly resolution 58/269, resources identified for the conduct of monitoring and evaluation in the biennium 2016-2017 amount to \$1,734,500, including \$1,568,300 under the regular budget and \$166,200 in extrabudgetary resources. The exact scale of evaluation activities will be determined during the course of the biennium on the basis of the implementation of evaluation plans developed for all substantive subprogrammes. Staff time devoted to self-assessment and self-evaluation under all subprogrammes is estimated to be 105.5 work-months, including 100.5 work-months financed from the regular budget and 5 work-months from extrabudgetary resources.
- 12.26 In addition to the mandatory self-assessment activities related to regular programme performance reporting in the context of results-based budgeting, the UNCTAD secretariat coordinates external evaluations of its programmes and projects and conducts internal evaluations at the request of the management. These evaluations and the recommendations emerging therefrom have raised awareness among programme managers to better focus on the results achieved from their programmes and have contributed to a culture of continuous improvement.
- 12.27 Continuous assessment of the UNCTAD monitoring and evaluation capacity reveals that further improvements are needed in respect of strengthening self-assessment capacities and frameworks within each subprogramme, strengthening of capacities for impact assessments, and better dissemination of evaluation products in synergy with efforts to improve the results orientation of its work. In that regard, since 2014 UNCTAD has been implementing a set of measures that includes training on self-evaluation methodologies, developing guidance and self-assessment tools for programme managers, and improvement of each division's system for monitoring, evaluating and reporting on performance.
- 12.28 UNCTAD business continuity plans are carefully coordinated within the United Nations Secretariat, in particular with the United Nations Office at Geneva and the International Computing Centre, which manages various services for UNCTAD. The main elements of business continuity and crisis management, such as continuity of operations, telecommuting, remote access to data and uninterrupted communications ability, were put in place in previous bienniums.
- 12.29 UNCTAD cooperates with a variety of partners across the United Nations system and other related international organizations to achieve a number of important synergies and to help to implement the outcomes of major United Nations conferences and summits. Through its active participation in CEB and its subordinate committees, UNCTAD actively contributes to system-wide efforts to make the United Nations development system "fit for purpose" for the post-2015 development agenda. Notably, UNCTAD leads the United Nations Inter-Agency Cluster on Trade and Productive Capacity in delivering operational activities "as one" at the country level in collaboration with the United Nations Industrial Development Organization, the United Nations

Development Programme (UNDP), ITC, the Food and Agriculture Organization of the United Nations, WTO, the United Nations Environment Programme, the International Labour Organization, the United Nations Commission on International Trade Law, the United Nations Office for Project Services and the five regional commissions. UNCTAD recently concluded a memorandum of understanding with ITC to define a cooperative and coordinated approach to trade facilitation-related work.

- 12.30 The issue of publications as part of the programme of work has been reviewed in the context of each subprogramme. It is anticipated that recurrent and non-recurrent publications will be issued as summarized in table 12.6 and as distributed in the output information for each subprogramme.

## A. Policymaking organs

### *Resource requirements (before recosting): \$546,600*

- 12.31 The provision relates to standing intergovernmental organs and expert bodies, special sessions of the General Assembly and intergovernmental processes, the servicing of which is the responsibility of UNCTAD.

### **Fourteenth session of the United Nations Conference on Trade and Development**

- 12.32 In accordance with paragraph 2 of its resolution 1995 (XIX), adopted in 1964, the General Assembly determines the dates and location of the sessions of UNCTAD, taking into account the recommendations of the Conference or the Trade and Development Board. Pursuant to Assembly decision 68/541, the fourteenth session of the Conference will be held in Lima in 2016.

### **Trade and Development Board**

- 12.33 The Trade and Development Board was established by the General Assembly in its resolution 1995 (XIX) as a permanent organ of the Conference to carry out the functions of the Conference when it is not in session. The Board reports to the Conference and also to the General Assembly, meets annually in regular sessions and may meet in executive sessions three times annually and in special sessions, as required. It is assisted by the Working Party on the Strategic Framework and the Programme Budget in its oversight of the programme of work, including technical cooperation.

### **Subsidiary bodies of the Trade and Development Board**

- 12.34 Two intergovernmental commissions perform integrated policy work in their respective areas of competence as subsidiary bodies of the Trade and Development Board (see [TD/442](#), paras. 201-206). The commissions hold annual sessions.
- 12.35 The Trade and Development Commission addresses the mandate of dealing with issues related to the beneficial integration of developing countries and economies in transition into the international trading system, so as to promote their development, issues related to commodity dependence, as

well as transport and trade logistics. It has a standing subsidiary expert body, namely the Intergovernmental Group of Experts on Competition Law and Policy.

- 12.36 The Investment, Enterprise and Development Commission has the mandate of dealing with issues related to investment, technology and related financial issues, as well as enterprise and information and communications technology (ICT) issues. The Commission is assisted by 16 expert advisers, serving in their individual capacity and selected from both developed and developing countries. The Commission has a standing subsidiary expert body, namely, the Intergovernmental Working Group of Experts on International Standards of Accounting and Reporting.
- 12.37 Subsequent to the twelfth session of the Conference, it was decided that expert meetings would continue to be held under the auspices of the commissions in order to benefit from a higher level of technical expertise (see TD/442, para. 207). The total number of such meetings, including the sessions of the two standing expert bodies of the commissions, would not exceed 10 annually. Technical matters discussed at the meetings are reported to the parent commission.

### Commission on Science and Technology for Development

- 12.38 Established by General Assembly resolution 46/235, the intergovernmental Commission on Science and Technology for Development provides overall direction to the related programme of work. Pursuant to Economic and Social Council resolutions 2002/37 and 2006/46, the Commission, composed of 43 members, meets on an annual basis and reports to the Council. In accordance with Council resolution 1993/75, the Commission receives specialized and technical advice from ad hoc panels and workshops that meet between sessions of the Commission to examine specific issues on science and technology for development. The UNCTAD secretariat provides substantive support to the Commission.
- 12.39 The distribution of resources for policymaking organs is reflected in tables 12.7 and 12.8.

- 12.40 Resources in the amount of \$546,600, reflecting a net decrease of \$2,500, comprise the following: (a) \$107,100 for preparatory work and for servicing preparatory meetings of the sessions of the Conference reflecting: (i) \$37,700 for other staff costs; (ii) \$50,200 for travel of staff to various forums/preparatory meetings as part of the preparatory processes relating to the Conference; and (iii) \$19,200 for general operating expenses; (b) \$88,000 for the travel of up to 16 experts serving in their individual capacity to participate in the annual sessions of the Investment, Enterprise and Development Commission, in accordance with General Assembly resolution 49/130; and (c) \$351,500 for the travel of 43 representatives participating in the work of the Commission on Science and Technology for Development and of the experts taking part in intersessional ad hoc panels of experts.
- 12.41 The net decrease is due mainly to the proposed reduction under travel of staff as reflected in paragraph 12.20 of the present report.

## B. Executive direction and management

### *Resource requirements (before recosting): \$10,947,300*

- 12.42 The Secretary-General of UNCTAD provides overall direction on substantive and managerial matters and ensures the effective servicing of the intergovernmental machinery of UNCTAD, in particular the quadrennial sessions of the Conference and the sessions of the Trade and Development Board. The Deputy Secretary-General deputizes for the Secretary-General and oversees the operations of the secretariat regarding the strategic, programmatic and managerial aspects, including promoting strategic integration and policy coherence and collaborative work with relevant entities, and the implementation of the UNCTAD communication strategy to enhance the visibility, use and impact of the work of UNCTAD.
- 12.43 The Office of the Secretary-General assists the Secretary-General and the Deputy Secretary-General in discharging their above-mentioned responsibilities.
- 12.44 To enhance the accountability and effectiveness of the work of UNCTAD, including through results-based management, the Office of the Secretary-General evaluates and reports on programme performance. This includes conducting an annual self-assessment of all its subprogrammes and undertaking independent evaluations of its projects and programmes of work. The outcomes of these exercises are considered by the General Assembly and the Trade and Development Board, and/or UNCTAD stakeholders, according to established practice.

Table 12.9 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

12.55 Resources in the amount of \$22,982,800, reflecting a net decrease of \$125,400, provide for: (a) partial financing of 57 posts (1 D-2, 4 D-1, 9 P-5, 6 P-4, 9 P-3, 3 P-2, 4 General Service (Principal level) and 21 General Service (Other level)), amounting to \$19,789,700; and (b) non-post requirements for consultants, expert groups, travel of staff, other contractual services and ICT services, amounting to \$3,193,100, to carry out the UNCTAD programme of work under this subprogramme.

12.56 The net decrease is due mainly to the freezing of recruitment against an established post (\$267,100) and the proposed reduction under travel of staff as reflected in paragraph 12.20 of the

present report and the removal of non-recurrent general temporary assistance related to the abolishment and downward reclassification of posts during the biennium 2014-2015 as indicated in paragraph 12.17. The decrease is offset in part by the increase in the cost of ICT services to complete the migration of web, document management, collaboration and other SharePoint applications of the substantive subprogrammes, as well as the inward redeployment of general temporary assistance and overtime from the programme support component to provide adequate staff capacity during peak workload periods.

- 12.57 During the biennium 2016-2017, projected extrabudgetary resources of \$13,862,600 will provide, inter alia, for the following technical cooperation activities: (a) preparation of booklets, pamphlets and publications, and provision of group training and fellowships to support the implementation of the projects in participating countries, with the aim of enhancing the teaching and research capacity of Virtual Institute members; (b) advisory services at the request of Governments to strengthen the technical capacity of developing countries and countries with economies in transition to record, monitor and analyse their external and domestic debt, including institutional, legal and administrative issues; (c) advisory services and group training in DMFAS; and (d) coordination and enhancement of an active technical cooperation programme to build the capacity required for the Palestinian State.

## Subprogramme 2 Investment and enterprise

**Resource requirements (before recosting): \$27,577,000**

- 12.58 Substantive responsibility for this subprogramme is vested within the Division on Investment and Enterprise. The subprogramme will be implemented in accordance with the strategy detailed under subprogramme 2 of programme 10 of the biennial programme plan for the period 2016-2017.

12.62 Resources in the amount of \$27,577,000, reflecting a net decrease of \$173,100, provide for: (a) partial financing of 77 posts (1 D-2, 3 D-1, 10 P-5, 14 P-4, 19 P-3, 8 P-2, 1 General Service (Principal level) and 21 General Service (Other level)), amounting to \$26,680,400; and (b) non-post requirements for consultants, expert groups, travel of staff and other contractual services, amounting to \$896,600, to carry out the UNCTAD programme of work under the subprogramme.

12.63 The net decrease is due mainly to the freezing of recruitment against an established post (\$187,800) and the proposed reduction under travel of staff, as reflected in paragraph 12.20 of the present report. The decrease is offset in part by the inward redeployment of general temporary assistance and overtime from the programme support component to provide adequate staff capacity during peak workload periods.

12.64 During the biennium 2016-2017, projected extrabudgetary resources of \$7,600,000 will be used, inter alia, for the following technical cooperation activities: (a) research and policy analysis on FDI trends and issues for the publications and technical materials of the subprogramme, such as the *World Investment Report* and investment guides; (b) advisory services and training courses to, inter alia, support investment policies, treaties and facilitation to strengthen the capacity of Governments of least developed countries and countries with economies in transition to enhance FDI, and utilizing it to support national development goals and to assist in the area of corporate transparency and accounting, FDI statistics, international investment agreements and the transfer of and access to technology and intellectual property; (c) field projects on capacity-building programmes to promote the development of small and medium-sized enterprises, Empretec; and (d) to improve corporate social responsibility and governance.

12.69 Resources in the amount of \$24,555,600, reflecting a net decrease of \$76,100, provide for: (a) 67 posts (1 D-2, 4 D-1, 10 P-5, 13 P-4, 14 P-3, 4 P-2 and 21 General Service (Other level)), amounting to \$23,953,300; and (b) non-post requirements for general temporary assistance, consultants, expert groups, travel of staff and other contractual services, amounting to \$602,300, to carry out the UNCTAD programme of work under this component of the subprogramme.

12.70 The net decrease is due mainly to the removal of non-recurrent general temporary assistance related to the abolishment of posts during the biennium 2014-2015 and the proposed reduction under travel of staff as indicated in paragraphs 12.17 and 12.20, respectively, of the present report. The decrease is offset in part by the inward redeployment of general temporary assistance and

overtime from the programme support component to provide adequate staff capacity during peak workload periods.

- 12.71 During the biennium 2016-2017, projected extrabudgetary resources of \$3,040,000 will provide, inter alia, for the following technical cooperation activities: (a) strengthening the regulatory, institutional and human resources capacity of developing countries and countries with economies in transition: (i) to design and implement trade policies and participate effectively and coherently in bilateral, regional (including South-South) and multilateral trade negotiations; (ii) to prepare and implement national and regional (including South-South) competition laws and frameworks, and supporting enhanced international cooperation in this field in combating anti-competitive practices; and (iii) to formulate and implement mutually supportive trade, environment and sustainable development objectives and to integrate sustainable development objectives in development strategies at all levels; and (b) further improving and disseminating trade analysis and analytical tools, databases and software that contribute to effective trade and trade-related decision-making.

### Subprogramme 3 Component 2: commodities

*Resource requirements (before recosting): \$6,039,100*

- 12.72 Substantive responsibility for component 2 of this subprogramme is vested within the Special Unit on Commodities. The subprogramme will be implemented in accordance with the strategy detailed under subprogramme 3, component 2, of programme 10 of the biennial programme plan for the period 2016-2017.

Table 12.18 **Objectives for the biennium, expected accomplishments, indicators of achievement and performance measures**

12.90 Resources in the amount of \$10,078,400, reflecting a net decrease of \$21,400, provide for: (a) 25 posts (1 D-2, 2 D-1, 4 P-5, 8 P-4, 2 P-3, 1 P-2 and 7 General Service (Other level)), amounting to \$9,525,400; and (b) non-post requirements for general temporary assistance, consultants, experts, travel of staff, amounting to \$553,000, to carry out the UNCTAD programme of work under this subprogramme.

12.91 The net decrease is due mainly to the proposed reduction under travel of staff as reflected in paragraph 12.20 of the present report.

12.92 During the biennium 2016-2017, projected extrabudgetary resources of \$1,700,000 will be used, inter alia, for the following technical cooperation activities: (a) developing and delivering training

material and training workshops to contribute towards building national capacities for the ownership of national development strategies for least developed countries, landlocked developing countries, transit developing countries, small island developing States and structurally weak, vulnerable and small economies; (b) seminars and workshops in selected least developed countries for the implementation of the activities in the Enhanced Integrated Framework and Aid for Trade; and (c) supporting the strengthening of transit transport cooperation between landlocked and transit countries.

## **D. Programme support**

***Resource requirements (before recosting): \$26,185,500***

- 12.93 Programme support services are provided to the policymaking organs, executive direction and management and substantive subprogrammes to assist them in delivering their programmed outputs. The services are organized around three entities, namely the Resources Management Service, the Intergovernmental Support Service and the Technical Cooperation Service.
- 12.94 The Resources Management Service provides considered advice to senior management and support services in the areas of human resources, programme planning, budget and finance, and the administration of technical cooperation activities for both regular budget and extrabudgetary resources. It also ensures adequate information technology support and services in the areas of infrastructure support, systems development, knowledge-sharing, documents management, web management and service support in conformity with United Nations and industry standards.
- 12.95 The Intergovernmental Support Service is responsible for the preparation, management and servicing of the quadrennial sessions of UNCTAD, the sessions of the Trade and Development Board and its subsidiary machinery (commissions, expert meetings, Working Party on the Strategic Framework and the Programme Budget) and the United Nations conferences organized under the auspices of UNCTAD. The Service provides liaison support and services to regional groups and is responsible for monitoring institutional follow-up to the decisions of the intergovernmental machinery, preparation of the calendar of meetings, editing and report writing, protocol support and preparation of host country agreements.
- 12.96 The Technical Cooperation Service provides the secretariat with policy guidance and promotes a coordinated approach to technical cooperation, including the review of project proposals, fundraising and liaison with beneficiaries, donors and other organizations involved in trade-related technical assistance.

### **Outputs**

- 12.97 During the biennium 2016-2017, the following outputs will be delivered:
- (a) Servicing of intergovernmental and expert bodies (regular budget):

<b>Total</b>	<b>37 804.0</b>	<b>38 617.3</b>	<b>75</b>	<b>74</b>

- 12.99 Resources in the amount of \$26,185,500, reflecting a net decrease of \$828,600, provide for: (a) partial financing of 61 posts (2 D-1, 6 P-5, 4 P-4, 9 P-3, 2 P-2, 4 General Service (Principal level) and 34 General Service (Other level)), amounting to \$18,893,900; and (b) non-post requirements for general temporary assistance, consultants, travel of staff, contractual services and information technology support, general operating expenses and acquisition/replacement of office automation equipment amounting to \$7,291,600.
- 12.100 The net decrease results mainly from the freezing of recruitment against established posts (\$529,800) in line with General Assembly resolution 69/264 and the proposed reduction under travel of staff, as reflected in paragraphs 12.20 and 12.21 of the present report. In addition, outward redeployment of general temporary assistance and overtime resources directly to subprogrammes where they are utilized, to enhance accountability of the division directors and to provide adequate staff capacity during peak workload periods, is proposed, as is the redeployment of resources to the programme of work under subprogramme 1 for the strengthening of information technology applications services. The decrease is offset in part by the increase in contractual services for information technology support, which will add value through improved stability, reliability and performance and enhance business continuity of UNCTAD systems.
- 12.101 During the biennium 2016-2017, projected extrabudgetary resources of \$12,431,800 will provide for support services to extrabudgetary activities carried out under the programme of work, as well as the servicing of the fourteenth session of UNCTAD, to be held in Lima in 2016.
