**UNITED NATIONS DOCUMENTS INDEX**

Eleven issues per year plus Cumulative Subject Index (2 vols.) and Cumulative Checklist

Annual subscription: \$U.S. 17.50

Price per issue: \$U.S. 1.50

(or equivalent in other currencies)

Price of annual cumulations, if bought separately, varies

# General Introduction

## SCOPE

1. This *Cumulative Index*, prepared by the Index Section of the Dag Hammarskjöld Library, United Nations, New York, replaces and supersedes - together with the *Cumulative Checklist*, published in a separate companion volume - the monthly issues of the *United Nations Documents Index*.

## ARRANGEMENT

2. The *Cumulative Index* consists of two parts issued separately. Part 1 is a consolidation of the twelve monthly subject indexes. Part 2 contains the following sections:

- (a) A consolidated list by symbol of all documents and publications issued by the United Nations, including the International Court of Justice, received by the Library during the year, with an indication of the languages in which they were issued;
- (b) A consolidated list of mimeographed documents republished in the printed *Official Records* and in other publications;
- (c) A list of sales publications;
- (d) A list of new document series symbols;
- (e) A list of libraries and United Nations Information Centres receiving United Nations material.

Where considered necessary, additional explanatory notes introduce the sections.

## MONTHLY ISSUES

3. Each monthly issue of the *United Nations Documents Index* includes in general the documents and publications processed by the Index Section during the month. The issues of July and August are combined in one issue. Periodicals are listed annually in the *Cumulative Checklist*.

4. Each issue comprises three separate sections that can be used independently. The first section is a checklist of United Nations documents and publications, arranged by symbol and fully described bibliographically. The second section comprises: (a) a list by symbol only of all United Nations documents received by the Library during the preceding month, with indication of the languages in which they were issued, and notes concerning their availability for distribution. It should be noted that this list includes

language editions of all documents and publications as they are received and is not necessarily limited to those processed and entered in the Checklist; (b) a list of mimeographed documents republished in the printed *Official Records* and in other publications; (c) a list of sales publications. The third section is a combined author-subject index to the documents described in the Checklist. It is printed on a detachable yellow fascicle and can be removed and used independently of the Checklist.

## CUMULATIVE EDITIONS

5. Beginning with vol.14 (1963) the monthly issues are superseded at the end of the year by two separate annual cumulations, the *Cumulative Checklist* and the *Cumulative Index*.

## AVAILABILITY OF DOCUMENTS AND PUBLICATIONS

6. Information concerning the documentation system of the United Nations and the availability of the documents is given each year in the January issue in the introductory note preceding the Checklist of Documents and Publications and on page 1 of the *Cumulative Checklist*. A list of libraries and Information Centres receiving United Nations material is included each year in the *Cumulative Index, Part 2*.

7. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or issued in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are *not* for general distribution, deposit or sale.

## SUBSCRIPTION

8. The *United Nations Documents Index* is published monthly at an annual subscription rate of U.S.\$17.50 (or equivalent in other currencies), post-free, and including the two annual cumulations. Single copies are available at U.S.\$1.50. The annual cumulations are also available separately as sales publications. Subscriptions may be placed with the sales agents of United Nations publications. Orders and inquiries from countries without a sales agent may be addressed to the Sales Section, United Nations, New York, N.Y. 10017, or to the Sales Section, United Nations Office, Geneva, Switzerland.

# CUMULATIVE SUBJECT INDEX

## *Introductory Note*

### GENERAL

1. This index contains subject as well as author and title headings. It is arranged alphabetically, word by word. Hyphenated words are counted as one word.

### ENTRIES

2. Subject and author headings are given in capital letters. Titles are underscored. In cross-references the entry is given in small letters, and the established form of the entry, following the word "See", is given in capital letters, e.g., Afforestation: See FORESTS AND FORESTRY.

(a) When a corporate entry relates to a body which is not exclusively a United Nations body, the indication of the parent organization to which it belongs is given in parentheses at the end of the entry, e.g., CONCILIATION AND GOOD OFFICES COMMISSION (UNESCO); INTER-GOVERNMENTAL COMMITTEE ON THE WORLD FOOD PROGRAMME (UN/FAO). The same procedure is followed in the case of conferences, meetings, seminars, workshops etc., convened by United Nations regional economic commissions, e.g., SEMINAR ON SOCIAL WORK TRAINING IN AFRICA (ECA), Lusaka 1963.

(b) When an entry is used both as author and as subject heading, the author heading is identified by the words: "documents by".

(c) Entries relating to bodies that issue documents carry in parentheses at the end of the entry the symbol assigned to their series, e.g., ECONOMIC COMMISSION FOR AFRICA (E/CN.14/-).

(d) Form sub-headings are used, under main headings as well as under sub-headings, to group documents in systematic order according to their nature and importance when it is warranted by the relevance of the entry or the amount of the information entered. The form sub-headings in use are: Reports, Resolutions, (Other) documents, Draft resolutions, Financial implications, Meeting records.

### ABBREVIATIONS

3. Abbreviations of names of agencies, etc., are listed in a separate group at the beginning of each letter; they do not appear in their proper alphabetical place in the index.

### REFERENCES

4. References are generally made to document symbols or sales numbers, or both, as appropriate. Whenever a text is contained in the *Official Records* it is so indicated. The full bibliographical description of the title entry of any document referred to can be found in the *Cumulative Checklist*. In the few cases where a document or a publication does not bear a document symbol or a sales number, reference is made to the page in the *Cumulative Checklist* where the publication is described.

5. The word "text" in parentheses is used to denote the actual text of the document (such as a convention or constitutional instrument) to which the subject-heading relates, as distinct from mere references to that document as a subject in other documentation.

6. An asterisk (\*) is used to indicate documents issued as drafts or preliminary texts subject to revision, or in provisional (mimeographed) editions subject to later publication in the printed *Official Records* or as printed sales publications. These preliminary or provisional documents are *not* for general distribution, deposit or sale.

### USE OF THE INDEX

7. The subject indexes, both monthly and annual, may be used as direct reference guides to documents in collections organized by document symbols and sales numbers.

### LANGUAGES OF ISSUE OF DOCUMENTS

8. Information concerning the languages in which the documents have been published can be found in the List of Documents and Publications Issued, *Cumulative Index - Part 2*.

### REPUBLICATION OF DOCUMENTS

9. Information concerning the republication of mimeographed documents in the Annex fascicles of the *Official Records* can be found in the List of Documents Republished, *Cumulative Index - Part 2*.
