AD HOC COMMITTEE ON PROPOSED ECONOMIC COMMISSION
FOR LATIN AMERICA

CORRIGENDUM

Please add the following paragraph at the bottom of page four of document E/AC.21/11:

"I believe that the Latin American countries, like other countries in the world, are no longer willing to surrender the exploitation of their most important raw materials to foreign concerns, which are often participants in world cartels. Very logically, they desire that the raw materials, and the industries which should be based on them, should be exploited principally for the benefit of the countries themselves, thus constituting a factor in their economic advancement.

With these words, Mr. Chairman, I believe that I have explained the supposed contradiction which was brought to our attention by the Honourable Delegate of the United States."
