

ECONOMIC AND EMPLOYMENT COMMISSION

THIRD SESSION

CORRIGENDUM TO THE SUMMARY RECORD OF THE FIFTY-SECOND MEETING

Held at Lake Success, New York
on Tuesday, 27 April 1948, at 11:30 a.m.

On page 12 delete the part of the first paragraph commencing at line 12 by "Mr. Morozov did not attach....." and ending with "...export price.", and read as follows:

"The question of internal prices was not under consideration, as that was a matter for each individual country to determine for itself. It was a question of the international aspects of the problem, the factors affecting economic relations among various countries; and from that point of view necessarily the level of export prices had to be taken into account. A country buying goods in other countries was concerned not with the general question of export price levels but with the question of the prices at which it could actually buy the goods."
