Noting the full integration of the New Partnership for Africa's Development⁹ into the structures and processes of the African Union,

Noting with appreciation the Programme for Infrastructure Development in Africa adopted by the African Union, which calls for the creation of an enabling environment for adequate investments and the adoption of the sector reforms needed to produce the expected results aimed at promoting economic and social development and reducing poverty in the continent through the implementation of integrated regional infrastructure networks,

Welcoming the ministerial statements on the themes “Unleashing Africa's potential as a pole of global growth”, “Industrialization for an emerging Africa”, and “Industrialization for inclusive and transformative development in Africa”, adopted by the African Union Conference of Ministers of Economy and Finance and the Economic Commission for Africa Conference of African Ministers of Finance, Planning and Economic Development at their fifth, sixth and seventh joint meetings, held in Addis Ababa on 26 and 27 March 2012, in Abidjan, Côte d'Ivoire, on 25 and 26 March 2013, and in Abuja on 29 and 30 March 2014, respectively, and the consensus statement on the theme “Governing and harnessing natural resources for Africa's development” adopted at the eighth African Development Forum, held in Addis Ababa from 23 to 25 October 2012,

Remaining concerned that, while Africa continues to make steady progress towards attainment of the targets of the Millennium Development Goals, this progress is, however, not enough for all countries to attain all of the Goals by 2015, and in this regard emphasizing that concerted efforts and continued support are required to fulfil the commitments to address the special needs of Africa,

Noting with concern the continued prevalence of child, early and forced marriage, and welcoming in this regard the Africa-wide campaign to end child marriage in Africa launched at the Conference of Ministers of Social Development, held in Addis Ababa from 26 to 30 May 2014,

⁹ A/57/304, annex.

Expressing concern that attainment of the social development objectives may be hindered by the ongoing adverse impacts of the world financial and economic crisis, volatile energy and food prices and challenges posed by climate change,

Recognizing that, while global growth is returning, there is a need to further strengthen the recovery, which is still uneven, stressing the urgent need for full recovery and sustained and accelerated growth, which translates into new employment opportunities, secure incomes and improved livelihoods, and reaffirming the need to continue to support the special needs of Africa and to take action to mitigate the multidimensional impacts of the crisis on the continent,

Stressing that addressing Africa's special development needs should be given due attention in the elaboration of the post-2015 development agenda,

Expressing grave concern at the recent outbreak of the Ebola virus disease in West Africa and its unprecedented nature and scope,

Expressing deep concern about the potential reversal of the gains made in recent years by the three countries most affected by the Ebola outbreak, in the areas of peacebuilding, political stability and the reconstruction of socioeconomic infrastructure,

Noting that Africa is abundantly endowed with natural resources, including many industrial minerals and agricultural resources that are exported mainly in primary form, and that the exploitation of the natural resources sector in Africa has for many years attracted foreign direct investment in capital-intensive enclave sectors that has the potential, when paired with appropriate policies, including employment-intensive policies, to spur structural transformation, create employment, contribute to poverty eradication and reduce inequality,

Emphasizing that the African Union and the regional economic communities have a critical role to play in the implementation of the New Partnership, and in this regard encouraging African countries, with the assistance of their development partners, to increase and coordinate effectively their support for enhancing the capacities of these institutions and to promote regional cooperation and social and economic integration in Africa,

Recognizing the regional coordination mechanism of United Nations agencies and organizations working in Africa in support of the African Union and its New Partnership for Africa's Development Programme of Action, as well as the Planning and Coordinating Agency of the New Partnership as a technical body of the African Union, which aims to ensure coordination and coherence in the delivery of support for greater effectiveness and impact through increased joint programming and joint implementation of activities,

Noting the decision of the General Assembly to strengthen the Office of the Special Adviser on Africa,¹⁰ enabling it to effectively fulfil its mandate, including by monitoring and reporting on progress related to meeting the special needs of Africa,

Recognizing that capacity-building, knowledge-sharing and best practices are essential for the successful implementation of the New Partnership, and recognizing also the need for continued support from the international community, partners of the New Partnership and United Nations agencies to continue to work towards sustained, inclusive and equitable economic growth and development on the African

continent, and for greater synergy and effective coordination between the New Partnership and the international initiatives related to Africa, and emphasizing the importance of the close collaboration of the African Union Commission and the United Nations as the co-organizers of the Tokyo International Conference on African Development,

Recognizing also that investments in people, especially their social protection, health and education, are essential to enhancing agricultural productivity and performance, and thereby key to growth and poverty reduction, through increasing decent job creation and employability opportunities, especially for women and youth, improving food security and nutrition and building resilience,

Recognizing further that the lack of access to drinking water and proper sanitation contributes to slow progress in reducing Africa's disease burden, particularly among the poorest populations, in both rural and urban areas, and conscious of the impact of the lack of sanitation on people's health, poverty reduction efforts, economic and social development and the environment, in particular water resources,

Noting with appreciation that the Heavily Indebted Poor Countries Initiative, the Multilateral Debt Relief Initiative and bilateral donors have provided substantial debt relief to 35 countries that have reached the completion point under the Heavily Indebted Poor Countries Initiative, which has considerably reduced their debt vulnerability and enabled them to increase their investments in social services,

Bearing in mind that African countries have primary responsibility for their own economic and social development, that the role of national policies and development strategies cannot be overemphasized and that the development efforts of such countries need to be supported by an enabling international economic environment, and in this regard recalling the support given by the International Conference on Financing for Development to the New Partnership,¹¹

9. *Welcomes* the efforts made by African countries and regional and subregional organizations, including the African Union, to mainstream a gender perspective and the empowerment of women and girls in the implementation of the New Partnership, including the implementation of the Protocol to the African Charter on Human and Peoples' Rights on the Rights of Women in Africa;

10. *Also welcomes* the decision taken by the Assembly of Heads of State and Government of the African Union at its twenty-third ordinary session, held in Malabo on 26 and 27 June 2014, to proclaim 2015 the Year of Women's Empowerment and Development towards Africa's Agenda 2063;

15. *Encourages* Member States to intensify global partnerships for development as a means to achieve and sustain the targets of the Millennium Development Goals on water and sanitation;

16. *Also encourages* Member States to expand international cooperation and capacity-building support to developing countries, particularly African countries, in water- and sanitation-related activities and programmes, including water harvesting, desalination, water efficiency, wastewater treatment, recycling and reuse technologies;

17. *Emphasizes* that progress in the implementation of the New Partnership depends also on a favourable national and international environment for Africa's growth and development, including measures to promote a policy environment conducive to private sector development and entrepreneurship and to the achievement of the Millennium Development Goals;

22. *Emphasizes* that economic development, including employment-intensive resource-based industrial development, infrastructural development and structural transformation, in particular in the rural economy, based on pragmatic and targeted policies to enhance productive capacities in Africa that are consistent with national development priorities and international commitments, can generate employment and income for all African men and women, including the poor, and therefore be an engine for poverty eradication and for achieving the internationally agreed development goals, including the Millennium Development Goals;

23. *Underlines* the fact that the fulfilment of all official development assistance commitments is crucial, including the commitments by many developed countries to achieve the target of allocating 0.7 per cent of their gross national product for official development assistance to developing countries by 2015 and the target of allocating between 0.15 and 0.20 per cent of their gross national product for official development assistance to the least developed countries, and urges developed countries that have not yet done so to fulfil their commitments for official development assistance to developing countries;

28. *Encourages* African countries to intensify their efforts to strengthen national statistical capacity in order to produce reliable and timely statistics and indicators for the monitoring of national development policies and strategies and the implementation of commitments and the achievement of all development goals at the national, regional and international levels, and in this regard urges donor countries and organizations and the international and regional statistical communities to support African countries in strengthening statistical capacity in support of development;

33. *Also recognizes* that the implementation of the commitments made by Governments during the First United Nations Decade for the Eradication of Poverty (1997–2006) has fallen short of expectations, and welcomes the proclamation of the Second Decade (2008–2017) by the General Assembly in its resolution 62/205 of 19 December 2007 in order to support, in an efficient and coordinated manner, the internationally agreed development goals related to poverty eradication, including the Millennium Development Goals;

¹³ Food and Agriculture Organization of the United Nations, document WSFS 2009/2.

39. *Also recognizes* that Africa's youthful population creates significant opportunities for the continent's development, and underlines in this regard the importance of African countries creating appropriate policy environments to take advantage of the continent's demographic transition while adopting an inclusive results-based approach to development planning and implementation in accordance with national priorities and legislation;

40. *Encourages* Governments, international organizations, other relevant institutions and stakeholders, as appropriate, to provide relevant skills training for youth, high-quality health-care services and dynamic labour markets to employ a growing population;
