

STATISTICAL COMMISSION

FOURTH SESSION

Corrigendum to Document E/CN.3/SR.41

Mr. LIEU (China) requests that the following corrections be made to his interventions as reported in the Summary Record of the Forty-first Meeting of the Statistical Commission:

Page 5, line 17:

Delete the words "for the reasons the latter had given." and replace them by the following text:

"for two reasons. First, the statistically under-developed countries were often unable to bear the cost of such programmes. Secondly, most services rendered by the United Nations and its specialized agencies had been provided for member countries because the latter stood in need of them, regardless of their ability to pay. That might be considered the general principle which had been governing the operations of the United Nations in rendering such services."

Page 13, lines 18 to 22: Delete Mr. Lieu's intervention in its entirety, and substitute the following version:

"Mr. LIEU (China) observed that, since national income in the public sector was generally based on cost, any large scale transfer of economic activities from the private to the public sector might result in an apparent decrease in the total income. He wondered whether some formula could not be found to obviate such possible misrepresentation."
